HOUSE HAS SIXTY-SIX EMPLOYES. Lower Branch of the Legislature Keeps Its

Pay Roll Under the Senate's. LINCOLN, Neb., Jan. 14 .- (Special.)-

Several members of the house have today indulged themselves in a oulet chuckle over the reference made to the extravagant brand of "rigid economy" that has already been placed on tap in the senate. A closer investiplaced on tap in the senate. A closer investi-gation of the already distended proportions it is considered quite doubtful if this bill ever ticular cause for self-congratulation upon the part of the members of the lower branch of Smith today introduced the first and the legislature. A comparison of facts may enlighten the taxpayers as to the actual dimensions of the unwarranted burden that has been accumulated by a quarter of a century's growth of extravagance.

Two years ago the senate employes, in-cluding "officers," cost the taxpayers of Nethe extremely modest sum of \$15,913,81. There are only thirty-three senand the upper house transacts about one-third as much business as does the lower. And yet the officers and employes mense volume of business, cost the state lify freights, to state volume of business, cost the state lify freights, to rates, etc.," and \$16,624.02, or \$278.79 less than for the sen-tion of the state like expenses thereof. The house pay roll was inflated, like senate's. The lower lawmaking branch indulged in the luxury of custolians, jan-luors, doorkeepers, etc., etc., and the raid on the treasury was just as enthusiastic as ever in the history of the state, notwithstanding the fact that the populists and mocrats, who exact a royalty on all patents for economy, were in full control.

Two years ago the house paid \$228 for the luxury of a "janitor of cuspidores." A custodian of the water closet was hardly so expensive, but this official cost the state \$913 A day watchman only cost \$264, while a night watchman only involved an expense of but \$279. A janitor and six assistant janitors employed to sweep out the representative hall, and there was the usual army of clerks, copyholders, bill clerks, file measengers, pages, etc.

Harrison sent up a memorial from his county, pray-ing the house to grant immediate relief to the destitute. This was the irony of fate, at for Harrison's voice has been first, last and all the time for indefinite delay of all kinds for felief measures. Brady supplemented this with a memorial from Buffalo county, ask-with stitution concerning opening and canvassing the returns for governor, now in progress in the house. Speech making consumed the lay. The committee on rules today reported unanimously a rule for the close of debate and the time for indefinite delay of all kinds of relief measures. NO GREAT EXCITEMENT IN THE CHAMBER 10 14

Several Proposals of the Opposition Voted Down but the One Favored by the Cabinet Shared the Same S Fate.

PARIS, Jan. 14 .- The cabinet resigned to day, having been defeated in the Chamber of Deputies on the question of giving priority to an order of the day. Last evening M. Brym Barthou, minister of public works, resigned his office for the reason that the council of state has decided against him in the matter of guaranteeing the interest of the southern railway lines. It became gen-

erally known that M. Alexander Milne, the well known socialist deputy and editor-inchief of the Petite Republique Francaise, would interpellate the government in regard to M. Barthou's resignation and that the government would reply thereto. . Consequently a large crowd gathered in the Chamber to listen to the proceedings. It was known that the position of the cabinet was not as sure as it might have been and the enemies as it might have been and the enemies of the government had hopes that the debate

of today would result in its overthrow. These topes were realized. The question which led to the overthrow of the ministry is a wide one. It is really a question as to whether the Chamber of and whether the Chamber is able to set

aside the constitution at will. In 1882 the government made a contract with the Or-leans and Madrid railways, under the terms of which, in return for certain facilities for the transportation of war material, the govthe restored the interest on the bonds of the railways. The government held that the guarantee expired in 1914, but the di-

Barthou ordered the directors to endorse their bonds to be send that directors to endorse their bonds to the effect that the guarantee expired in 1914. The directors refused to do so, and the case was taken to the council of state, which in such matters is the final court of appeal. The council on Wednesday decided that the guarantee was perpetual. This decision, which a majority in the Chamber of Deputies today claimed the right to reverse, was a complete negation of the contention of the deputy cabinet and M. Barthou's action on the railways' guarantees, conse-quently the latter yesterday resigned and the proceedings in the Chamber today led to the resignation of the other members of the

BROOKLYN MOTOR CAR TIE-UP

morning all the trolley cars in Brooklyn were tied up, the employes refusing to take out the cars. Over 5,000 men quit work. This includes motormen, conductors, electricians, switchmen and others employed at the various power houses. All but one of the surface roads, and that a comparatively minor concern, are affected. It is claimed that the strike will extend to the lines of the Brooklyn Elevated Railroad company. The con-tract between the Kings County Elevated Railway company and its employes is such that it is believed that there can be no strike

on that line. District assembly 75, Knights of Labor, which has control of the trolley employes in Brooklyn, has had various conferences during the past week, and after the Saturday meeting their executive committee visited President Lewis of the Brooklyn Heights road. They discussed the question for three and a half hours in President Lewis' office and finally Mr. Lewis re-fused to grant their demands. The outcome of this was that the committee held a meeting which ended at 2 o'clock this morning, at which it was decided to the up all the roads in the city of Brooklyn with the ex-ception of the Smith and Jay street line. SENATE OVERRUN BY SOLICITORS.

Deliberations Interrupted by People Who Want Places or to Sell Books.

LINCOLN, Jan. 14 .- (Special.)-When the senate reconvened this afternoon after the Sunday recess it was welcomed with open arms by a largely increased crowd of applicants for clerkships. There were nearly 100 applicants for positions in the senate chamber and in the lobbies. A large number of these applicants were ladies, but the number of men was larger than for many days past. Every republican senator was surrounded by a bevy of fair, pleading ladics, all anxious for a place on the pay roll. The entire afternoon session was not a little disturbed by the applicants, the agents of rival newspapers soliciting subscriptions, several book agents, who unblushingly pur-sued their vocation while the senate was in session, several agents for an unrivated theatrical entertainment, a job lot of lobbyists, and a half hundred curious auditors.

A letter from a London firm of \$6,00,00. A letter from a London firm of solicitors says that not a quarter of the fine cent transactions have yet come to light. It is stated that receipts by "icree at ns London office were limited only by his ability to issue bonds, mortgages and other papers, often exceeding \$100,060 a week. It is alleged in London that he received no less than \$500,000 during his last week there. It is owing to his gigantic transac-tions that his victims expect to receive an offer of compromise after the mait is shall have cooled down. To make these losses known would impair the credit of the losers and also make them an object of ridicule; therefore they prefer to bear their losses in silence. Forged bonds, mortgages and tax deeds to the amount of \$1.454,000 are now in possession of the agents of the creditors of Plerce, but the estate will not sell for enough to pay the attorneys' frea. The claims which are accompanied by the sport-ous security are as follows: American Mortgage Trust company. London \$2.0,000; Bedford (England) investors, \$200,000; Bel-fast, \$150,000; Glasgow, Scotland, and Hud-dersfield, England, \$100,000; J. S. Fagan, Brooklyn, \$75,000; W. S. Johnson, London, \$50,000; real estate frauds at Ynakton, \$25,000

Eleven ther orders of the day were submitted Priority was given by a vote of 293 to 231 o one calling upon the government to vigorously defend the rights of the state as fected by the decision of the council of state.

Dupuy declared if this order of the day should be adopted the government would resign.

A vote was finally taken on the latte notion, with the result that it was defeated, the vote standing 246 in favor to 264 against. After several speeches and declarations had been made the chamber voted on a pro-

posal to grant priority to a motion made by Prof. Trelat, republican, which, of all the orders of the day, was the only one accepted by the government. This order of the day declared that the government adhered to the doctrine of the separation of powers and the noninterference of the chamber with the judicial functions of the council of state. Priority was refused to this motion by a vote of 263 to 341.
