and carry away. They would spend the stolen money for anything that captured their

fancy. The police are inclined to the belief that the boys stole a good many things dur-

robbed of \$57, but no trace of the thief has

been discovered. The boys denied this theft

INSTRUMENTS placed on record January 15,

For the first time in the history of the world a discovery is made that restores gray hair to its natural color without dye. Mme, Yale, that most wonderful woman chemist and great scientist, is the discoverer. The Excelsior Hair Tonic is the remedy. Mme, Yale has placed it come market for the benefit of the public and guarantees it will restore the natural color back to the hair, no matter how long it has been gray. The cure is permanent in every way. It will also stop falling hair in from 24 hours to one week. It restores the hair on bald heads and creates a luxuriant growth. It is a guaranteed cure for every aliment of the hair or scalp. The whole world bows down to Mme. Yale's discovery and to her great skill as a chemist, which has never been equaled by man or woman. The Excelsior Hair Tonic holds complete sway over the human hair. There are no allments which the hair is her to that it cannot cure, lieware of imitations. See that WARRANTY DEEDS.

It is a question now how the city is going to pay its debts, as at the present time the running expenses amount to \$41,000 per annum, and the income derived from the 18 mill levy only amounts to about \$30,000. Some of the heavy taxpayers think that the league made a mistake in not endorsing the nayor's proposition, and they attribute the

lefeat of the suggestion to a few stubborn old fessils who do not have the welfare of the Magic City at heart.

It will take a smart financier to figure out how the city is going to werry along Lntil next August, when the annual appropriation bill will be passed. No more funds can be raised until that time.

The arrest of Joseph Reeves and Edward Rust, two boys 11 years of age, discloses to the police for the first time a gang of young thickness that time.

Following is the condition of the different unds on January 1, after the December bils had been paid: General fund, balance, \$32.38; police fund, \$2,941.79; fire and water fund, \$293.62; salary, \$1,302.99; public light, \$1,400.44; engineer fund, \$655.02; street repair fund, \$87.75;

The loss was soon discovered shortage of two months' may for the guardians of the peace. It costs the city \$500 boys going out of the building. He at once a month to maintain its fire department.

Not a fireman can be paid until August, neither can feed bills be settled. The chief has asked for 400 feet of new hose, but the council can do nothing, as they have no money in the fire fund to may for anything, Street repairing costs on an average of \$200 a month, and there is only \$87 remaining in the fund. Public lights cost \$140 per month, and there is money enough to keep the lights burning for the next four months. In addition to all this, the city owes the American Water Works company \$10.60, judgments of nearly \$15,000, to say nothing of \$10.420 interest on bonds issued in 1888.

It is supposed that Deaver had outside help.

Arthur Morris, a youthful criminal and tramp, claiming to hall from Chicago, his former home, was arrested Monday night for robbing a Union Pacific freight car. Morris related part of his history to a reporter last night. He claimed to have left home in Chicago four years ago, when he was but 10 years old. During the four years of his tramp life he claims to have traveled all over the southern and western states, and is apparently familiar with all the large cities in those parts. He arrived in this city about two weeks ago, and was sent to the police station as a vagrant by one of the officers, who found him at a salcen. At that time he said was on his way to his home in Chicago, and tried to work the authorities for transportation. He was discharged at that time, and had not have heard of walls. last evening, near Swift's packing house, and robbed of \$9. From Avery he walked into South Omaha and a policeman there arrested him because he could not give a satisfactory explanation as to how he had secured the property in his possession. While in the jail at South Omaha the police were notified that the car had been broken open and Morris was turned over to the authorities in this city, and upon being questioned he confessed to having

The fire started in the northeast corner of the building, and before water could be turned on it was a total loss. The firemen's attention was directed towards saying the loss cars and the blackwarth steer. ing the box cars and the blacksmith shop, and they soon had the fire under control. Two of the box cars were almost totally destroyed, with the exception of the trucks, and three others were badly scorched. The black-smith shop was damaged to the extent of \$150. The loss on the old planing mill, owned by John T. Cathere, was estimated at \$900. This includes an old box printing press which was stored in the building.
