Should the Oregon Short Line & Utah Northern be turned over to a separate receiver, it is generally understood, however, that it will make a decided difference with a great many employes in the auditor's office. gram.)-The people about the capitol have been throbbing with excitement all day over developments in the Taylor case. The state their residents. officials put very little reliance upon the story and profess practical indifference to it. Wednesday night there came to the chief of police a letter from John G. Overton of Crawfordsville, Ind. Overton claimed to be an ex-county superintendent and gave a number of references, telling the officer that he might verify them by wire. He stated letter from John G. Overton of Stand Island, Neb.

March 29—Philadelphia, Pa.; Wilmington, N. C.; Cheveland, O.; St. Louis, Mo., and Cheyenne, Wyo.

April 1—Trenton, N. J.; Charlotte, N. C.; Detroit, Mich.; Springfield, Mo., and Pocatelle, Idaho. he might verify them by wire. He stated that at the time of his disappearance he him away from there and took him to the Denver, Colo. home of a mutual friend in Crawfordsville, with Taylor and his family and knew whereof he spoke, and that he was in a position to deliver him to the officials. ATTORNEY GENERAL ACTS.

The police here communicated with Attorney General Crawford, who gave little cre-dence to the story, but that immediate steps to verify it and communicated the substance of the letter to the eastern detective agency tion company wage schedule case, denying which is handling the case. The latter also the application of the employes for an inat once. Yesterday Mr. Crawford had drawn requisition papers in blank, which were signed by the governor and left with the secretary of state. Crawford left for th east on the night train, and all state officials declare he went not for the purpose of apprehending Taylor, but on other business departure was noted by friends of Taylor he:e who immediately wired various points in Indiana. Today replies were received, among them one to C. N. Overton, from his brother in Lafayette, and all declare the story a hoax and that Taylor had not been seen. It is the general opinion here that Taylor was in Crawfordsville, but that he had escaped Attorney General Crawford is by this time in Illinois, from which point he is expected to verify the story in its details, RUTH'S STORY CONTRADICTED.

The investigation committee brought to light today some evidence of considerable in terest. A day or two ago Mr. Ruth was examined and testified that he never had writ ten the letter heretofore mentioned. H also stated that he never had had transac tions with the treasurer, except two, they being two deposits at his bank at Desmet of \$5,000 each. Today Court Boyd, a traveling man dealing in blanks and stationery, who is familiar with all the county officers in the state, testified that in the summer of 1892 he was in the county treasurer's office in Vermillion and there saw a letter written by Ruth addressed to Taylor, but sent to the county treasurer presumably by mistake. Boyd could not remember the phraseology of the letter, but stated its substance was that Ruth was unwilling to the letter. that Ruth was unwilling to pay over at that time the \$40,000, and also that he would not make the apportionment of the school money, which was then overdue, until his retur from the east.
The committee has examined quite care

fully into Ruth's transactions in 1893, and promises interesting developments. Mem-bers state that Boyd's testimony is directly contradictory to that of Ruth. To day the house by unanimous vote appointed a committee with full power to begin an investigation of Ruth and his man-agement of the office.

MOTHERS and those about to become mothers, should know that Dr. Pierce's Favorite Prescription robs childbirth of its torture, terrors and dangers to both mother and

child, by aiding Nature in preparing the system for parturition. Thereby "labor" and also the period of confinement are greatly shortened. It also promotes an abundant secretion of nourishment for the child. During pregnancy, it pre-vents "morning sickness" and those distressing nervous symptoms from which so many suffer.
