Very few were able to find any fault. The rest were delighted. One of them recently said: "For several years past I have made from two to four trips each month between Chicago and New York and am almost always accompanied by from one to three or four others. I believe (as I am informed by your conductors) that I have and am almost always accompanied by from one to three or four others. I believe (as I am informed by your conductors) that I have made more trips between Chicago and New York than any one other man during the past few years. I have always traveled over your road in preference to any other, because by careful comparison with others I have found not only that the road itself is far superior, but the table and the service are in every respect the best of any road I have ever traveled cn. The conductors, stewards, waiters and porters I have found to be uni-formly courteous and attentive, adding greaily to the comfort of those who are obliged to travel as much as I am." Trains leave Chicago as follows: 8:00 a. m., 10:30 a. m., 3:25 p. m., 5:30 p. m., 8:45 p. m., daily, and 11:30 p. m., daily except Sunday. B. P. Humphrey, T. P. A., 7:27 Main street, Kansas City, Mo. ### SHOVING THE QUEER.

Large Number of Bad Coins Find Their Way Into the City.

During the past ten days Omaha has been flooded with a quantity of new counterfeit silver dollars, so good that they have passed without much difficulty. A number of them come into the banks every day, and some of the tellers have been deceived by the coin to such an extent that several have been accepted. A majority of the dollars are brought by depositors, although a few have been pre-sented by strangers. This fact shows that the

#### First Anti-Toxine.

OMAHA, Neb., Jan. 28, 1895 .- Editor Omaha Bee: We have noticed of late several items in your paper in reference to Anti-toxine. We would say that in October last we received Behring's Anti-toxine from the importers in New York City, which was used in two cases at South Omaha with good results, we thereby being the first house to place this article on sale in this section. We cate that \$1,355,567.38 was collected in taxes by the city during 1894. Of this amount \$229,841.88 represents general taxes and \$525,725.50 special taxes. There is a balance in every fund except the health fund, which is overdrawn about \$1,200. As a rule how was much of the so-called imported that was spurious. We have Behring's Anti-toxine in stock of

several different strengths; also the product of the New York institute. Dr. L. M. Hil-dreth of Lyons, Neb., and other physicians whom we could name in this section have advised us that they have used the New York product with good results. Yours Very Truly,
