#### LAWYERS IN SESSION. Members of the Omaha Bar Association

Hold the Annual Meeting. The Omaha Bar association held its regular annual meeting yesterday afternoon in roon

1 at the county building W. D. McHugh called the association to order at 2 o'clock. James B. Sheean was chosen secretary. About sixty members were in attendance.

The election of officers for the ensuing year resulted in the following choice: President, Henry D. Estabrook; secretary, James B. Sheean; executive council, H. J.

Davis, J. L. Kennedy, W. D. McHugh, W. B. Beckett and T. J. Mahoney.

A committee was appointed to correspond with the attorneys throughout the state of Nebraska to organize a State Bar association. The committee thus selected was composed of W. F. Gurley, J. H. McIntosh and M. L. Larned.

The treasurer was instructed to collect

all delinquent dues. The treasurer reported \$172.95 in the cash box of the organization. The executive committee was instructed to The executive committee was instructed to prepare a program for meetings every two weeks, at which papers will be submitted and lectures delivered. Messrs, McHugh, Woolworth, Beckett and McIntosh will be among the speakers at the first meeting. There was considerable discussion over some proposed legislative enactments pertaining to amendment of section 586 of the Nebraska code, with reference to the printing of abstracts. It came up on the motion of Mr. Mahoney, who wanted the present law repealed. The subject was laid on the table indefinitely.

Mr. Simeral made a motion that a resolu-

Mr. Simeral made a motion that a resolution be formulated and sent to the Douglas county delegation in the legislature and the chairman of the judiciary committee, to the effect that the original jurisdiction of defunct banks be taken out of the hands of the supreme court. One of them recently said: "For several years past I have made from two to four trips each month between Chicago and New York and am almost always accompanied by from one to three or four others. I believe (as I am informed by your conductors) that I have made more trips between Chicago and New York than any one other man during the past few years. I have always traveled over your road in preference to any other, because by careful comparison with others I have found not only that the road itself is far superior, but the table and the service are in every respect the best of any road I have ever traveled on. ensational Evidence Given by the Matron at the Inquest in Cleveland. CLEVELAND, Feb. 2.-Testimony of

startling nature was given today at the coroner's investigation of the Deaconess Home holacaust, in which four persons lost their lives yesterday. The police have taken charge of the burned building and a search is being made for the three men who are suposed to know something about the origin of he fire.

Miss Anna Summers, acting matron of the home, testified that an explosion took place preceding the fire and the entire house was wrapped in flames and smoke almost in-stantly. She said three men had been loiterng around the house for several days. When the fire broke out she rushed to the front door and found these same men were in the yard. They paid no attention to her frantic appeals for assistance in getting out the pa-tients. The explosion was evidently in the

basement in or near the furnace, as the regis-ters were blown from their places. The police are very reticent, but it is evident they are working on the theory that the fire had an incendiary origin. It was shown at the investigation that the burned building was without fire escapes of any kind, in direct violation of the state law.

William Allmeyer, one of the patients who was burned to death, it was stated, was strapped to his bed when the fire broke out. strapped to his bed when the hre broke out, being under treatment for a broken hip. publication upon the subject at this time

There was a rumor in railroad circles yesterday that the Rock Island intended to extend the run of its fast mail train from Des Moines to Council Bluffs, and possibly Omaha, but inquiry at the local office of the Rock Island failed to confirm the rumor. Should the train be extended to Council Bluffs it would be necessary to shorten its card time, as the present schedule would bring it in two hours later than the time made by either the Northwestern or Burling-ton. It is thought that the Rock Island will not be a candidate for the government contract, and, in consequence, will not extend its service to either the Bluffs or Omaha. However, it was admitted at local headquar-ters that nothing was known of the extension, although such a scheme might be even now decided upon. It was a matter resting with the operating department entirely, and the local office would hardly be consulted.

LIFE AMONG THE TOILERS,

Organizing the State in the Interest of Union Labor.

The newly elected officers of the Nebraska State Federation of Labor are starting out with a vigorous policy toward thoroughly or- 1895," which is to result in the birth of a ganizing the state, and if the expectations of new political party. The call is signed by the officers are filled there will be several J. L. H. Knight, W. G. Eastman, P. Sell, new unions organized in the small towns and D. D. Murvin, Patrick Murvin, P. G. Slingsby, John Collier, meeting, which takes place the third Satur- gr., John Collier, Jr., David Collier, William day of July next.

The choice for president, George F. Daggart of the Carpenters union of Lincoln, is c. A. Walton, James Bellinger, A. R. Sperry, regarded as a splendid selection by the organized workers of Omaha, and they are exceptions of Committee and the committee of the carpet of Committee pecting considerable good work from him

sonally visit all the small towns in the state, or as many as he can reach, and there call together the workers and explain the benefits to be derived from labor organizing. The plan will be to organize mixed unions and assemblies in places where there are not enough workers at one trade to organize a trades union. In this way President Dag-gart proposes to get together the carpenters, blacksmiths, shoemakers, printers, day laborers, clerks and other wage earners, and form local mixed unions. The enthusiastic supporters of this scheme say that this class of workman have too long been neglected, and argue that when a strike is on in a large city the workers from the small towns are the ones who usually rush in to take the

place of strikers, where if they were organ-ized with the workers of the large cities they would understand the strike trouble and would not take the places of union men. They do not claim to be organized for a strike but claim that the best way to prevent strikes is for labor of all classes to be thoroughly organized.

officers of the State Federation are now at work collecting in all back dues, which will be used to push organization in the small towns and cities of the state.

Preparing for the Campaign. District assembly No. 126, Knights of Labor, is making preparations to take part in the next national campaign with considerable force and influence. The jurisdic tion of this district assembly has lately been enlarged, taking in several more local assemblies and furnishing a splendid field for furthering their organization. The plan now is to begin at once to prepare for the national campaign of 1896. Among the several local number of quite intelligent knights, have shown some ability as public speakers, and it is now proposed that a class of about a dozen or more of the best public speakers be started to further study national ques-tions and prepare themselves to take the stump in the next national campaign.

It is proposed that this class shall meet regularly every two weeks for practice, and at each meeting two or three of the mem-bers of the class will deliver carefully prepared addresses upon some national topic There is also under consideration by the officers a plan looking toward establishing a class of speakers to enlighten the public upon municipal questions, as taught by the Knights of Labor. It is said by the supporters of these plans that such action by the district assembly will place it in the front rank during campaign times, as the trained speakers on political economy will to meet and vanquish the enemy on the stump.

Will Talk Gold Bonds. Knights of Labor assembly No. 5,141 will hold a meeting in their hall on South Fourteenth street tomorrow evening and discuss the president's message. The members of this assembly are emphatic in their denunciation of the president's plan to issue \$500,000,000 gold bonds, and this meeting will be held in order to crystalize the sentiments into a protest to be sent to congress. showing their reasons for opposing President Cleveland's plan. Pester, Scott Cooper, and Thomas Todd, and reads: We, the undersigned electors of Mrytle precinct, custer county, Nebraska, believe that the makeup of the four parties now in the field is such as to make it impossible for the masses to get together in either party or get the needed reforms advocated by the several parties; as a result the people are continually shifting from one party to another, with no good results obtained. Those whose interests are identical are in different parties, and all are becoming discontented with existing conditions.

We confidently believe that in order to unite the peoply reorganization is absolutely necessary.

unite the people reorganization is absolutely necessary.

We therefore recommend that a new party be formed favoring reconstruction.

That the main objects of said party be to unite all the reform elements into one party and to have a platform favoring the sovereignty of the people and a strict compliance at all times with the popular will.

We suggest that said party be called the union party, and that the following planks be made the foundation or platform on which to build said party viz:

1. That the people should reserve the right to initiate any law and obtain such law by poplar vote. They should in like manner reserve the right to veto or amend any law by the same process.

2. In order to secure the safe keeping of money and its proper circulation banks should be established throughout the United States, owned and operated by the general States, owned and operated by the genera government.

3. The president and vice president of the United States and the United States sentors should be elected directly by the peo-

ple.

4. We favor the establishment of a complete system of civil service in the United States and in the several states, to enter which shall be entirely laudable and desirable, and due preparation for which will be made precisely as die preparation is now made in any profession or calling in life.

We hereby ask all who favor the uniting of the reform forces to meet in conference in mass convention at Broken Bow on Tuesday, February 5, at 11 o'clock a. m.

Commercial Club Reception. Commissioner Utt of the Commercial club has issued invitations for a reception at the club next Thursday evening. The rooms will be open from 7 o'clock to 11:30. This will be the first of a series of social gatherings of the members with ladies and friends. The object is to promote better acquaintance, cement friendship, and identify our citizens closer with the club, as an organization for the general welfare of Omaha. The occasion will be enlivened by music and other pleasing features. Light refreshments will be furnished.

Mistake in Names. Some days ago The Bee contained an item o the effect that John Kowalewski had a fight with some party at Sheeley station over church matters. The facts are that John Kowalski, a saloon keeper at Twentysixth and Walnut strets, was the man who medicine and secondly that La Grippe had the fight. Instead of this being a trouble over church matters it was over an old bar members being at peace. John Kowalewski has nothing to do with the Polish church af-fairs at this time, A. Inda having been elected president in his stead, and he will scon go out in other places to help reform the church. Entries for St. Louis Races.

### On Egyptian Lines

A little more than chair and less than

couch You should see it to fully appreciate its graceful lines which everywhere perpetuate Hogarth's famous curve. The seat is usually deep, giving to the design an Oriental

The chair is, in fact, strongly suggestive of the old Egyptian chairs on the bas-reliefs in the Museum at Gezeereh, except that here the height of the back is reduced and added to the depth of the seat. Otherwise the outlines are alike.

The chair is as luxurious as it is artistic. It is sure to attract attention in any drawing room by its unique character. It fairly bristles with style.

The covering is a satin damask.

DO NOT "PRESCRIBE IT"

It has been quite the "fad" of late for some unknown patent medicine to en-deavor to establish confidence in its self vaunted virtue, by proclaiming that if had the "endorsement" of eminent physicians who had performed miraculous cures by its use, and we wish to say at the out start that La Grippe Cough Cure, has never been (to our knowledge) prescribed by a physician for the reason, 1st. that M.
