PIRATE TREASURE.

Blackbeard and the Uncovered Treasure. BY HOWARD PYLE. (Copyright, 1894.)

There were two pirates, each of whom are very famous in this country-Captain William Kidd, of whose adventures and the treasure buried upon Gardiner's island it has already been told.

Perhaps Captain Kidd is the more famous of the two, nevertheless nearly everyone knows of Blackbeard and there is hardly a strip of sandy beach between New Jersey and Florida that is not reputed to hold some hidden in its bosom the buried treasure that he left behind him, and which has never yet been recovered.

This is the history of piracy as there such a terrible, strange, dramatic figure as that of Captain Edward Teach, or Blackbeard. Listen how the old historian of the pirates tells the story.

He was a native of Bristol, England, and his name was Edward Teach. He was a very bold and daring man, and he was very successful in his career.

He was a very bold and daring man, and he was very successful in his career. He was a very bold and daring man, and he was very successful in his career.

WHITHER ARE WE DRIFTING?

The American farmer has long held a place greatly above that of the peasant of Europe in his income and style of living.

But even forty years ago, in Blackbeard's opinion, too many to share what had been gained by their practice. Accordingly he marooned nineteen of them on a little sandy island, about a league from the main land.
