THAT CEREAL OPENED VERY STRONG

Corn Begun Business tine-Eighth of a Cent Higher Than it Closed Yester lay and it Kept Advancing During the Forencon.

CHICAGO, Feb. 8.-Wheat made 1/2c gain early on the favorable foreign news, but lost it later under realizing on the unfavor-able comment upon the new bond issue, closing %c lower for May. May corn closed %c lower, May oats %c and provisions at a

Wheat opened unexpectedly strong at from Wheat opened unexpectedly strong at 1705.

Site to 50% for May, compared with 53%c, the close yesterday. The strongth was caused by the firmness of the Liverpool market, which had been looked for to give its usual sympathy to the bears here. But the Europeans are now experiencing a taste of the same temperature which has been freezing this country, and more or less damage to winter wheat may be the consedamage to whater wheat may be the consequence over there. The recent record of small receipts in this country was maintained. Exports of wheat and flour from the Atlantic seaboard, including New Orleans, were equal to 210,000 bm. St. Louis reported a revival of the country milling demand for wheat, and Kansas City reported fields bare of snow at Enterprise, Kan. The seaboard advised a good demand for wheat for export, a Baltimore message reporting twenty-five boat loads taken there and at Newport News at an early period of the day. The reported placing of \$52,40,000 bonds at \$3\frac{1}{2}\$ per exnt by the secretary of the treasury did not appear to give satisfaction in the wheat pit, as traders followed the announcement of that operation by increasing their selling. The price for May had up to that time preserved itself from getting below 51c, and it sold as high as from 54\frac{1}{2}\$c to 54\frac{1}{2}\$c, but after the news of the bond issue it dropped to 53\frac{1}{2}\$c, where it closed.

bond issue it dropped to 53½c, where it closed.

The corn market opened firm and ½c higher than it closed yesterday. It kept advancing during the formoon until about the time when the wheat traders were expressing their disappointment at the bond issue. The descent from 45½c, to which May had risen, to 45½c, at which rate some opening sales had also been made, was easy, and the value of the article about half an hour from the close was 45½c. Receipts were at most only nominal, the inspection being only 53 cars, and none of those were of contract quality. The demand from shorts disappeared during the latter part of the session and May closed at 45c.

Only a fair business was transacted in oats. Values were firmer during the entire day and closed steady with May at from 25½c to 25½c, after having sold from 25½c to that price. Fluctuations were ruled largely by corn.

to that price. Fluctuations were ruled largely by corn.
Provisions started strong and in line with the grain markets, but long before the latter gave any signs of weakness the dealers in pork, lard and ribs had turned around from the bull to the bear side. The packers were given the credit of starting the selling, which changed the tone of the market. The impression seems to be that as soon as the weather moderates the run of hogs will be heavy. May opened up 50, but closed at 2½c loss for the day. Lard, for May, closed at \$5.70, as against \$5.77\forall generally. Ribs, which closed at \$5.40 on the day before, closed at \$5.30.

Estimated receipts for tomorrow: Wheat, 3 cars; corn, 35 cars; oats, 18 cars; hogs,

Estimated receipts for tomorrow: Wheat, 3 cars; corn, 25 cars; oats, 18 cars; hogs, 14,000 head. The leading futures ranged as follows: Articles: | Open. | High. | Low. | Close.

STOCKS AND BONDS.

Effect of the Pre ident's Message Was t Depre s Securities.

NEW YORK, Feb. 8.—The effect of the pres

NEW YORK, Feb. 8.—The effect of the president's message to congress, announcing the amount and the terms of the proposed government bond issue, was to depress the stock market and to encourage the bears to make demonstrations against speculative values. The news did not reach the street until late in the afternoon, and all of the facts necessary to a full understanding of the transaction were not in the possession of the street until late in the afternoon, and all of the facts necessary to a full understanding of the transaction were not in the possession of the street at the close of business. A Washington dispatch received from d. P. Morgan, one of the bend syndicate, stared that 'The syndicote sells the secretary of the treasury 3,550,000 ounces of standard American gold at about \$11,500, per cunce, payable in the United States thirty years 4 per cent bends.'

Taking this as the basis of the terms the syndicate will receive bends to the amount of \$2,317,500. The gold, when coined by the sovernment, will be equal to \$18,500, per cunce, which will make the coin value to the Treasury department of the sum received from the syndicate \$65,112,500, which gives a premium on the bends aggregating \$2,80,000.

Although the total sales of the day in the stock market were nearly double yesterday's, the speculation was dull, especially during the morning. The defeat of the Springer bill caused a weak opening and induced moderate sales of the general list. There was no sustaining influence in the market, and, with an occasional raily, prices sagged off quietly througheat the day until the president's message was published, when the bears made a sharp attack on the market, causing a brisk downward movement, which continued in force to the close. The loss on the day ranges from \$4, to 15, per cent in Northwester and \$1, Paul & Oumana, 14, per cent in Northwester and \$1, Paul & Oumana, 14, per cent in Northwester and \$1, Paul & Oumana, 14, per cent in Northwester and \$1, Paul & Oumana, 14, per cent in Northwester and \$1, Pau lent's message to congress, announcing the

SOUTH DAKOTA SEED GRAIN.

How Destitute Farmers of that Section Will Be Provided For. SIOUX FALLS, S. D., Feb. 8 .- (Special.) Some time ago the county commissioners arranged to supply the farmers of this arranged to supply the farmers of this county with seed grain for this year. The application is made in the form of an affidavit stating that they are unable to secure seed grain for this year, and merely ask for enough to seed their land. In payment they give promissory notes secured by a mortgage on the harvest and on the land, due December 1. The applications from twenty-four townships in the county amount to about 13,000 bushels of wheat, 3,000 bushels of barley, 22,000 of oats and 300 of corn. The farmers feel that they will be abundantly able in the fall to pay for this grain and have plenty to live upon during the season and enough to plant next year. They have not in the least lost faith in South Dakota.

Export Trade is Meager and Offers Are MINNEAPOLIS, Feb. 7.—The Northwestern Miller says: The Minneapolis mills ground 105,300 bbls. of flour last week, ground 105,300

ground 105,300 bbls. of flour last week, against 106,150 the preceding week, and 115,840 in 1894. Ten mills running this week are grinding at the rate of 23,000 bbls. daily. Export shipments, 23,215 bbls., against 23,245 last week. The business done last week was surprisingly large, sales exceeding production by about 80,000 bbls. Some of the air lines were taken, such buyers evidently reasoning that prices had reached hard pan. Low freights also facilitated trade. Milwaukee mills made, 2,635 bbls. of flour, against 21,190 the previous week, and 37,800 in 1894. Export trade is meager and offers are slow. Saratoga Stake Entries.

Saratoga Stake Entries.

NEW YORK, Feb. 8.—Entries for the stakes offered by the Saratoga Racing association for the summer session of 1895 were closed February 1, but the secretary had not received a complete list until today. Several more entries are expected in the course of a few days from the California horsemen and stables, the only one received from that section being E. J. Baldwin. Up to date 1.325 nominations have been received, of which 623 are those of 3-year-olds and aged horses. Baldwin sends Arapahoe, Rey del Caredes, El Capitan, Santa Cruz, Sister Mary and Rey el Santa Anita to represent California.

Resignations liave strings to Them. CHICAGO, Feb. 8 .- William T. Baker has ecalled his resignation as president of the Board of Trade at the request of the com-mittee appointed Wednesday to urge him to retain the presidency. Director John Hill, jr., has recalled his resignation, and Z. R. Carter has signified his intention of with-

Braught in Twenty-Five Thousand a Year. DENVER, Feb. 8.-Testimony has been given before the senate investigating committee showing that by means of illegal and exorbitant bills Sheriff Burchinell's office has received about \$25,000 annually more than the sum to which it is entitled. The revelation has created a sensation in this city.

Came from Havana to Get a Divorce. FARGO, N. D., Feb. 8.—Count Gebacoa, a Spanish nebleman from Havana, is here to obtain divorce under the lenient North Dakcia law. Benora de F. dro, also of Havana, and an acquaintance of the count, is probably here for the same purpose.

against The City of Lincoln, 28 Nebraska 794.

Coombs against McDonald. Appeal from Dougias county. Reversed. Opinion by Justice Post.

It is a rule of universal application in appellate proceedings that the examination of the reviewing court, whether on appeal or writ of error, will be confined to questions determined by the trial court.

2 Where by a bill in equity relief is sought on two separate and distinct grounds and it is affirmatively shown by the record that the decree for the plaintiff rests upon one ground only, and that the court expressly reserved its decision on the other, the examination of this court on appeal will be confined to the issue determined by the district court.

3. The doctrine of the common law that monopolies are odious and therefore illegal has reference to such franchises and agreements as tend to restrict trade, and has no application to mere police regulations in the interest of the public health or morality.

4. The choice of sanitary measures is a legislative function, which has been entrusted to the various municipal bodies and which the courts will not assume to control.
