UNION PACIFIC MAY GO IN

Western Trunk Lines Seem to Be on the Point of Agreeing.

CONFERENCE IN OMAHA YESTERDAY

Officials of Interested Roads Go to Denver to Parley with the Rio Grande People-What dihaleman

Caldwell Bays.

Chairman B. D. Caldwell is an optimist of the most pronounced type. When the lowering clouds indicated absolute disagreement on the part of the western trunk lines he was foremost in predicting harmony eventually, and an association as the result of fighting over the differences which separated the several lines. The wisdom of Chairman Caldwell seemingly is about to be exemplified, for the progress made yesterday justifies the assection that the Union Pacific will become a member of the Western Trunk Line Passenger committee. Although the lines, competisociation, they have secretly been "sweating blood," so to speak, lest the Union Pacific should fall to sign the association agreement, and overtures have been made and conces-sions suggested that would bring the several roads nearer together in the general plan of

was these differences which brought Chairman Caldwell to Omaha yesterday, and as a result of a long conference had with General Passenger Agent Lomax, later with President Clark and General Manager Dick-inson and the Burlington officials, Mr. Loman, Mr. Smith of the Burlington and Mr. Caldwell, chairman of the Western Trunk Line committee, left last evening for Denver, where they will hold a final conference with he Denver & Rio Grande and Rio Grande Western officials with a view to finally deding upon the details of settlement. Before leaving Mr. Caldwell, in an ex-

ended interview with the railroad reporter f The Bee, stated that for some time the Rio Grande Western representatives were orable to the lifting of the boycott against he Union Pacific on round trip business, but hey were not advised as to the position of heir connections. It was this doubt and unertainty which caused the continued misunderstanding between the various lines par-tles to the baycott. "However," said Mr. ments will be appointed for the ensuing Caldwell, "I may say that the Burlington and year. Rock Island have practically agreed to the litting of the boycott on round trip business and will yield to the Union Pacific its right to close intermediate gateways, which they have tacitly admitted is a correct principle. The Union Pacific has contended that it ould not open its intermediate gateways to be lines parties to the boycott and maintain its position, and this has practically been o become a member of the association, as his removes all the differences between the ines. The Union Pacific will maintain its

position, while the lines interested will give it representation on round trip bus-"Our trip to Denver its not so much to have an understanding as to differences, but to see what can be done toward giving the Rio Grande Western just representation in the subcommittee to be organized in the west. The Rio Grande Western is somewhat remote, and it is less interested in an assoclation than trunk lines, but we hope to bring about an understanding and finally close up the membership of the committee. The Missouri Kansas & flexas has agreed to become a member of the trunk line committee, with the understanding that the southwastern committee will be located in Standard Committee will be located in Standard Committee with the located in Standard Committee will be located in Standard Committee will be located in Standard Committee will be located in Standard Committee in it and is guaranteed safety. western committee will be located in St. Leuis, and the Missouri Pacific has author-zed me to sign its name to the agreement as soon as its competitors, which include the Union Pacific, become members of the committee. Under these circumstances I feel hopeful that the Union Pacific will sign the agreement and that off trip to Denver will finally conclude what has been a long drawn out series of interesting and instructive meetings?

PASSENGER BUSINESS POOR.

Outlook. CHICAGO, Feb. 12.-The demoralization in east bound freight rates continues and is growing steadily worse. The rate of 20 cents between Chicago and New York was cut by several of the eastern lines today and the ontracts were for small amounts of business

at that. vestern roads is at low tide now. It has not een so poor as now for many a day. There s practically no business being done, and many of the managers are feeling down-hearted over the outlook. For two years earnings have been falling away from those f the previous year and now 1895 is making weaker lines into a serious predicament.

As soon as Chairman Caldwell of the Westhis missionary work among the Colorado ines he will be asked to call a general meeting of the committee lines. If he succeeds in bringing the Colorado lines into the fold the matters with the Union Pacific and Misouri Pacific will be taken up. If the Ccirado roads remain on the outside the committee will take action looking to the preser-vation of their interests with the Colorado lines, with the Union Pacific and Missour acific as outside compatitors.

SELLING AN EXPRESS COMPANY.

Northern Pacific May Pass Under the Con-tro! of the American.

MILWAUKEE, Feb. 12 .- Receivers of the Northern Pacific railroad are neg tiating for he complete sale of the Northern Pacific Express company. Bids have been received from the American, the Adams and the United States Express companies. The bid made by the American Express company is the highest and the deal with that company may shortly be closed, with the consent of the court. Receiver Payne said no definite arrangements had been made. The amount offered by the American cann t be learned The value of the express department for col-lateral is over \$300,000. Judge Jenkins has given consent to a plan of the Northern Pareceivers to enlarge the company's facili-

ties for the handling and shipping of coal from the port of Tac ma, Wash. Receiver for a Large Steel Company. PITTSBURG, Feb. 12.—The Linden Steel ompany, a large consern of this city, has gone into the hands of a receiver. The application was made by large holders, who claimed that owing to the financial stringency the company was unable to meet its obligi-

tions as they matured, and it was feared the valuable property would be sacrificed. Henry Warner was appointed receiver. The liabilities are \$485,000, with estimated assets of \$685,000. The company was granted an extension two years ago. Ann Arbor Stockholders Meeting.

TOLEDO, Feb. 12. - At the annual meeting of the Ann Arbor Monkholders here today the matter of the absorption of the Valley road was postponed for thirty days pending decision of Judge Hicks as to which mortgage shall be foreclosed. The old board of directors was re-elected except that William E. Conners succeds A. A. Soper. The directors re-elected the old officers.

Railway Notes. Talking of salaries, President Clark sald yesterday that he received only a salary as receiver, and that his salary as president terminated when the Union Pecific passed out of the control of the company and into the hands of the court. The pay of a government director of the Union Pacific is \$10 per day, and 10 cents mileege, from which he is expected to pay

his expenses. A car and attendant is provided the director when on official inspec

tion, but the director must provision the car at his own expense. Officers of the company are disc compelled to do the same although there is a general impression abroad that the company supplies the larder with everything suitable to an officer's stomach at company expense.

FOR THE NEXT STATE FAIR.

Preliminary Decision as to Kind of Build ings and Fencing.

The executive committee of the Com mercial club, Omaha Driving Park and Fair association and the State Board of Agriculture held a meeting at the Millard hotel last night to discuss in an informal way the work of preparing for the next state fair which will open in this city on September 13.

A topographical map of the site selected for the fair grounds has been prepared and the men interested in the success of the fair are enthusiastic over the location, all of them agreeing that it is an ideal place for such an important exposition of the products of this state.

The grounds are to be landscaped as soon as possible and will be sown with the finest of blue grass. Street railway tracks are to be built out on Center street and the various railways are making preparations to put in ample sidetrack and switching facilities The preliminary work of putting up the buildings will be begun at the earliest opportunity, and as soon as the weather moderates sufficiently the committee will select the spots that are to be covered by the fair buildings, and competent architects will be em-ployed to design the finest and most modern structures. In discussing the material wit which the buildings are to be constructed was practically decided by a majority of ger committee. Although the lines, competi-tors of the Urion Pacific, have openly ridi-culed the position the "Overland" has main-tained regarding absolute equality in the asbrick, and presents a good appearance would make the buildings fire proof. It was suggested that all these buildings be painted white, making a magnificent "White City," but several of the gentlemen suggested that uniformity was too monotonous and thought that some of the buildings should be con-structed of brick to vary the colors. It is also about decided by the members of the Driving association to build a fine club house for its own use during the races, but during the fair the club house will be turned over to the officers of the Agricultural so-

piety. An administration building is to be erected, where the officers of the fair will iold their meetings and transact all their official business. It was thought that the best material to enclose the grounds would be a closely woven wire fence, which would give the grounds more the appearance of a public park than would grounds surrounded by an unsightly high board fence. Other details were dis-cussed by the members and several other similar meetings are to be held. The Board of Agriculture is meeting at the Millard to close up the business which has accumulated ince the last fair and they will meet again this morning at 9 o'clock, when it is likely that superintendents of the various depart-

City Treasurer Found to Have Made a Mistake in Saying that Two Million in City Taxes Were Delinquent-Rights of Police Board.

Contrary to recent precedents the regular neeting of the city council last night was a rather monotonous affair. The most important feature was the adoption of a recomnendation from the finance committee that onn ction with the vouchers. This action directed mainly at the Board of Park Comdistioners and the Library board, which have previously audited their own bills and simply submitted the O. K.'d vouchers to the
