#### QUESTION OF JURISDICTION.

Sheriff Miller has a case on his hands which raises a singular point of jurisdiction. Today he received a new boarder in the person of Myndon George, who was sentenced for assault on a half-witted girl from the Home for the Friendless, about one year ago. before the supreme court. A day or two since it was discovered that the case had never been carried up. Sheriff Miller imme-diately sent out to Union college and landed the young man once more in the cell room. At this juncture it is not known what will be done with the prisoner, one year having gone by since he was sentenced.

the three pro forma university bills. The senate has accomplished practically nothing in the thirty days it has been in session. It has passed ten or tweive bills, none of them of a superimportant nature. Among

the bills passed by the senate, in addition to those signed by the governor, are the ones fixing iron clad regulations for the sale of oleomaragrine, providing for a landlord's lien and regulating the practice of dentistry most important bills passed by the sen ate is the one reducing the rate of interest on

state warrants from 7 to 5 per cent. HOW MONEY FLIES.

The house committee on claims will have its hands full at the very beginning of the second half of the session. The bills for the J. C. Allen on the eve of his departure from

the office of secretary of state are beginning to arrive. One firm in Lincoln this week sent in a bill for \$6,000 worth of stationery. Other bills for carpets, wall paper, labor, etc., will come in from now on with in-creasing rapidity, and within the next two weeks it may be predicted that the com-mittee will be entertaining claims for nearly \$20,000 worth of supplies illegally ordered by

A glance at the big bundle of requisitions already filed with the secretary of state for stationery will make the average taxpayer open his eyes in surprise. As an instanc it may be stated that every cierk of a standing committee in the house has asked for from 500 to 1,000 letter heads with his name

printed thereon, with the necessary com-plement of envelopes. Every janitor and custodian has asked for his specially printed sup ly of stationery. Standing committees have demanded everything from roll top desks and letter presses down to cut glass inkstands, while the secretary of state has refused to honor requisitions for a number of Webster's Unabridged dictionaries, Requisitions come in for mirrors, hair brushes, combs, Cashmere Bouquet soap.

towels, typewriters, roll top desks, uphol stered chairs, tall stools, lamps, wate pitchers, glasses, tollet paper, blank books and articles entirely too numerous to mention. Secretary of State Piper has refused to honor requisitions for articles and sta-tionery which would have cost the state \$2,300, and still the amount actually fur-nished has been excessive.

WORKED A CLEVER TRICK. The history of the printing contract of two years ago has been told several times,

but there is still one or two features that yet remain to be told. For instance, the firm of Pace, Williams & North entered into a contract to print the senate and house bills for \$1 dents per page. The warrants for the payment of this work were drawn by the auditor on vouchers which gave Pace, Williams & North 95 cents per page. The bills were as follows:

March 22, 1.924 pares house rolls at 95 cents March 22, 1.924 pages senate files at 95 cents April 8, 156 pages senate files at 95 cents. April 8, 156 pages house rolls at 95 cents. \$1,827.8 148.2 An examination of the contract proves that the firm aggreed to print the bills a SI cents per page, providing that additiona pages should be supplied at the rate of cents per page per 100 copies. The con-tract called for 300 copies of each bill. Al-though no order was made to that effect by though no order was made to that effect by the house and gecale, Pace, Williams & North printed 500 copies of each bill and charged the state 95" cents per page. There were a few bills of which 500 copies were neces-sary, but with a few exceptions 300 copies and even 200° copies would have been more than were needed. The manner in which this firm worked the state treasary for sev-eral hundred dollars is considered a piece

this firm worked the state treasury for sev-eral hundred dollars is considered a piece of pretty smooth work by the frateraity in Eincoln. The only wonder is why the en-terprising printers did not print 600 or 700 copies of each bill while they were running their presses. The same firm has the contract for printing the house and senate bills this session, and it need surprise no one if the bills scar up into the thousands of dollars. Two years ago this same firm col-lected \$3,505.10 for printing ordered by the house of representatives. This amount does not, of course, include the printing of the house bills. The printing at the present session will amount to at least \$5,600, at the rate at which orders have been poured ut of the offices of the constituted authori-
