PRESIDENT HUGHITT'S VISIT.

Came to See the Sick General Solicitor o the Elkhorn and Inspect Lines.

President Marvin Hughitt, General Mana ger John M. Whitman and General Solicitor Lloyd W. Bowers of the Chicago & Northwestern system, arrived in Omaha yes-terday in President Hughitt's private car "400," one of the handsomest cars on wheels. President Hughitt shortly after his arrival

called upon President Clark of the Union Pacific. Between the two has been a friendship extending over many years. The visit, according to Mr. Hughitt, was of little significance. It was simply for pay-ing his compliments to the pres-ident and managing receiver of a participate in the exercises in commemoration ident and managing receiver of a participate in the exercises in commemoration friendly system of rails. Mr. Hughitt of the birth of the farther of our country, riendly system of rails. Mr. Hughitt stated that primarily his visit to Omaha was for the purpose of calling upon General J. B. Hawley, general solicitor of the Fremont, Official. Elkhorn & Missourl Valley railway, who has

been, and is now, a very sick man. Upon the general situation, so far as ral-roads are concerned, the veteran president of the Northwestern had little to say, except of the Northwestern had little to say, except that business was considerably off on the system, which showed a decided decrease over the corresponding period of last year. "You can't make business when there isn't any," said Mr. Hughitt, "in view of the gen-

eral depression that extends over a wide section of the western country. As to any extensions at this time, they are out of the question, in view of the feeling in financial circles. I have taken advantage of the favorable weather to go over the system. Beyond this there is nothing significant in my visit to Omaha at this time."

In railroad history there is no stronger character than Marvin Hughitt, having been actively engaged in railway service since 1856. In 1872 he became general superintendent of the Chicago & Northwestern; in 1876 genera manager; in 1880 vice president, and in 1887 president of the great system of rails which covers nearly 8,000 miles.

Agreeing on Side Trips.

There is now every indication that the Union Pacific and Rio Grande Western will arrive at an agreement over the question of side trips and stopovers, it having been in-timated yesterday that a compromise had been suggested which seemed to meet with the support of both lines. However, there is yet a good deal of detail to be threshed over before the lines may unite on a general proposition. This matter has oc-cupied the attention of Union Pacific offlclais since last Saturday and the wires have been kept busy with telegrams between Gen-eral Manager Dickinson and General Manager Dodge as to the possibilities of an agree ment being reached.

ment being reached. General Passenger Agent Lomax of the Union Pacific stated yesterday that his information was that Gen-eral Manager Dodge had agreed to the local Utah agreement and that wherever the Rio Grande Western would grant side trips in Utah the Union Pacific would grant stop-overs. As to other matters, they were in the hands of Chairman Caldwell, who would new proceed to get the Lines interested intonow proceed to get the lines interested into the general agreement.

So far as the general proposition was con-cerned, said Mr. Lomax, the Union Pacific had sgreed, and it now remained for the Ris Grando Western to get into line.

DEAD IN THE RIVER.

Body of Olof Cronwall Found at the Dump.

The body of Olaf Cronwall was found in the river at the Jones street dump at daylight yesterday.

The ice had frozen around the body, which was lying face downward in eight inches of water.

From indications it would seem that th man had wandered down near the river and had stopped to lean against a row of barrels which guarded the precipice over the water. The barrels gave away and the unfortunate man rolled about thirty-five feet, striking face downward, and was suffocated in the

water. There were hardly any scratches or bruises There were hardly any scratches or bruises on his person. Coroner Maul and Chief Detective Haze are making a thorough in-vestigation into the matter. WILL GIVE NO MORE WORK.

County Commissioners Can Furnish No Further Employment for the Poor. The county commissioners have decided to furnish no more work during the remainder of this winter to the poor of the city. The work on the South Thirteenth street road, which was contemplated in the resolution

passed by the board six or seven weeks ago, will be completed by the end of the presen week. As soon as the weather permits, work will be commenced on two county roads, but

as it will be done under contract, the com missioners will have nothing to do with employing the necessary labor. The Thirteenth street work was done sim-ply for the purpose of affording a labor test, whereby the men who were not willing to work for the assistance furnished by the county might be weeded out from among the

applicants. This object was only partially attained, as a considerable number of men who did not need the work or assistance were employed. All the men who applied for work could not be given it, although as many as possible were supplied. During the past few days the demands for assistance have considerably decreased

in account of the more open weather. The commissioners anticipate that from now the number of applicants will gradually dlninish, because the weather will beco milder, and because more work will be ob-
