polsoned spring in which they arise, generally the torpid and inflamed digestive system." Thus wiedom and experience simplify and condense, Thus the Shakers of Mount Lebanon reasoned when they sought, and finally found, a remedy for indigestion and dyspepsia. Where one person has something else, they argued, a thousand have this. To cure this alone will almost rid the world of sickness, Why should we vex ourselves with confusing definitions? A good digestion is life and health; a bid one disease and death. Hence, from the healing and stimulating mountain herbs, they extracted the principles which make the Shaker Digestive Cordial the safest and most effective of medicines for one disease, and one only-indigestion and dyspepsia. Do usuffer from any of these miserable feelings?-depression of spirits, heaviness and pain in the stomach after meals, bud taste in the mouth, wind in the bowels, irritable disposition, nervous weakness and alarm, worry and weariness, costiveness of appetite and sleep, dry skin, etc.-?" Don't induige fifty foolish fancies. You have the disordered stomach right with the one medicine which will surely do it. Shaker Digestive cordial, and these symptoms will vanish with their cause. A good effect will follow the first doses. Even chronic cases soon yield. Test the cordial at practically no cost, by nearly all druggists.

> Objects to the Canadian Pacific Differential -Latter Road Says it Will Withdraw Unless it is Allowed-Grand Trunk Back of it All.

CHICAGO, March 7 .- Trouble is again coming up before the western lines over the puestion of Canadian Pacific differentials. The Alton is the road which has forced matters this time, and if it sustains its present Three families from Missouri arrived here position for any great length of time it will certainly force the Canadian Pacific to withdraw from its agreement with the western lines. The specific trouble in this instance originated with the Grand Truck, which for several weeks has been working and lobbying in every possible direction to break up the Western Trank Line Passenger committee agreement. Its first effort in this direction was a refusal to maintain standard rates. When it went below the schedule the Canadian Pacific, which had the taxpayers of Tecumseh school district been allowed a differential from Grand Trunk rates by the western reads, promptly took advantage of its differential in meeting the rates made by the Grand Trunk. The Altin road has now announced .nat it will not allow the Canadian Pacific differentials as against the cut rates of the Crand Trunk. It asserts that the differential was only al-lowed to the Canadian Pacific by the western lines on condition that it secure the allow-ance of differential from all the eastern lines, which it has not yet lone. Chairman idea and think that a new building should be Caldwell, when it has not yet tone cought to his attention, ruled agalast the Alten, de claring the western roads had agreed to recognize the differentials, irrespective of any action for or against the diffecentials which might be taken by the eastern roads. He roduced the records of the meeting at which

he differential was allowed, and they fully sustained him in his position, showing, moreover, that the Alton had in that mosting voted to allow the differential which it now declares it cannot recognize. The western roads agreed when the Canadian Preific signed the committee agreement. The present conditions are highly pleasing Grand Trunk, which, it is broadly hinted,

desires nothing so much as the disruption of he committee agreement, which it is making every effort to accomplish. A representative of the Grand Trunk declared after the last adjournment of the general meeting of the western lines that one of the roads which had signed the agreement had said it would stand by the Grand Trank in its fight against the Canadian Pacific.
