A Loss of \$80,000,000!!! have often been violently opposed on the ground that they take workingmen's bread

out of their mouths. Although experience has shown the fallacy of that theory, the feeling, or fear, was natural. But it is not so much the lack of work as the inability to work that causes poverty and suffering. In England and Wales every workingman averages ten days of sickness every year, with a total loss of wages for all of about \$50,000,000 per year. In this country the loss is much greater. In all countries the prevailing disease is digestion and dyspepsia, and its consequences—such as rheumatism and other ailments resulting from impure blood; a result of dyspensia.

No thorough, rapid and trustworthy cure for this universal and obstinate malady existed until the Mount Lebanon (N. Y.) Community of Shakers placed upon the market their now famous remedy called the Shaker Digestive Cordial. It is prepared from roots and herbs cultivated solely by them. Nothing more certain, safe and palatable can be imagined. It expels the impurities from the body by means of the bowels, kidneys and skin, and imparts vigor and tone to the stomach—upon whose proper action all our strength, activity and indurance depends. For many years the Shakers have given earnest attention to this subject and their final success is thank fully admitted by the multitude who have been cured by the Cordial after all other means have failed. Their high reputation for skill as herbolists, for honesty and religious sincerity guarantees whatever they recommend.

Mayor Bemis, ex-officio chairman of the Board of Fire and Police Commissioners, said of them. Under the circumstances, however, we shall do so no longer and the county will find that we have the law on our side. It is that he had heard the name of no man sug-gested as successor to Chief Seavey. Commissioner Hartman said: "This is the the duty of the county to care for all stek people who are unable to care for themselves, whether they are found in Omaha or outside, if they are in Douglas county. City Attorney Connell was asked to give an opinion as to the legal status of the case and unhesitatingly replied that the health ducted across the burning sands to the oasis and unnestratingly replied that the health commissioner was right. Three years ago he had attended a meeting at which were pres-ent County Attorney Mahoney and County Physician King, representing the county, and be had for the asking. Those in attendance Health Commissioner Somers and himself for the city. At that meeting the law was exhaustively considered and it was unanimously conceded that the care of these cases was the exclusive duty of the county. There could be no question as to the construction of the law and the county was absolutely bound to its duty. It made no difference whether the case was found in Omaha, South Omaha or Elkhorn precinct, the county commissioners must assume charge of it and provide for the necessary care and medical treat-
