WAS A VICTORY FOR ARBITRATION

No Longer Any Cause for Friction Between the Two Countries-Brazilian Minister at Washington Replies to Congratulatory Messages.

(Copyrighted, 1895, by the Associated Press.) RIO DE JANEIRO, Feb. 16.-The Diarlo Official publishes the following telegram of Dr. Jose Uriburi, president of the Argentine Republic, in reply to that of President

"The friendly manifestations of the Brazilian people toward Argentine, which your excordially returned by our people. Both nations can proudly claim before the whole world the honor of giving prentige by praccellency was pleased to transmit to me, are tice to the principle of arbitration between nations, and the Argentine people, although not blessed by a favorable decision of the eminent judge (President Cleveland) to whom was entrusted the final sentence in this queswhich has been for many years occupying attention, are sincerely happy at seeing disappear the only motive of disagreement with their former allies, relations with whom it is our constant desire to strengthen by bonds of mutual cordiality and common interest. Your excellency will please accept the expression of my sentiments of highest regard and consideration."

The committee charged with the mantfestation to Baron de Rio Branco has re-ceived the following telegram:

ceived the following telegram:
"WASHINGTON, March 11.—Serzedello
Correa: I thank you in my behalf
and that of my companions for the
honorable message sent us. I am convinced that the sentence of the illustrious American, whose conscientious labor in ex-ercising the functions of arbitrator, animated by the same sentiment of friendship for both nations, will have been also received with entire satisfaction throughout the Argentine republic, and that this happy and honorable event will cause the bonds of friendship which have united us with our allies of Caseroes and Paragnay to be still more firmly strengthened, as we so much desire. "RIO BRANCO."

PLOT OF THE MONARCHISTS. The Correiro de Campinas publishes the following article in regard to the disturbances that took place here some days ago, provoked, it is now well known, by the mon-archists and their friends, the insurgents: "I am going to give you a surprise by sending you a notice not published by the newspaper, certainly owing to reasons of

ave political convenience.
"The police of this capital discovered last week a conspiracy hatched against the gov-ernment of Dr. Prudente de Moraes. The plan was to get possession of the steamboat coming from Petropolis, on which the chief of the nation ought to come down on Monday He, being a prisoner in the hands of Belfort, would be carried aboard the Aquidaban. Immediately afterwards the movement on land was to take place, effected by two battalions and the personnel of the military school, who would then proclaim a provisional junta under Quintino Bocayuva.

"The following were to be the ministers: Finance, A. Guanabara; exterior, M. Pestana; justice, M. Alquerque; marine, J. Goncalves; war, General Costallat.

Meetings were held at Nichtheroy and all the proofs are in the hands of Amaro Caval-Energetic measures were sea and against any new plans. Should there be any disturbances of order a state ment is considered strong."

In reply to this curious document, Dr. Amaro Cavalcanti says: "It is really wonderful that a newspaper of Paulo (state), the Correiro de Campinas, referring to the plan of conspiracy, should have the bad taste to affirm that proofs were in my possession Of a certainty, the above mentioned news paper could not knock at a door less disposed to shelter it in this respect, as I am one of there was never, and there is no such plot unless it be in the brain of those who in-vented it, and perhaps with malevolent intentions, or adversaries of the republic."

PUNISHING THE REPUBLIC'S FRIENDS In regard to this, O. Seculo says: "Every one should now know that all who were friends to the republic and put themselves beside Marshal Floriano Peixoto in defense of the legal government are now held to be con-spirators and insurgents by Ministers Carijo, Andre Cavalcanti and Captain Garcez Palha All of these were and are still impeniten Schastists and monarchists. The two former have had every historic republican dismissed from the police department, and the last has sworn none but monarchists shall be placed

the navy. "Dr. Prudente de Moraes, president of the republic of the United States of Brazil, has now been three months in power. The presi-dent is a republican full of patriotic desire to unite all parties under the legal govern-ment of the republic. In the army all the young officers who served the legal govern ment so faithfully are being punished. One captain, Robert Dumesne, was court martialed because at a lunch of the battalion officers he drank to Floriano Peixoto's health, and yesterday one of the delegates of police at the central station of La Vredidio street, in view of Dr. Andre Cavalcanti, chief of police, and the other delegates, number, anatched the portrait of the ex-pres-ident from the wall, crushed it in pieces and stamped on it, saying at the time such violent language that it could not appear in

"Dr. Garcez Palha, a well known monarch-ist, is the secretary and chief adviser of the minister of marine. The consequence is that not a midshipman or officer who remained faithful to the government is retained. Al the officers who remained are being promotehere that Saldanha de Gama and Mello will be reinstated. Yesterday the professors of the National gymnasium, ex-imperial college of Pedro II, a strongly monarchical institution, by a unanimous vote (less that of Dr. Simeos) requested that Alfred Alexander be reinstated. Alfred Alexander is an English mon-archist. All the anti-republican papers are publishing the correspondence sent to monarchist sheets in the interior, claiming there was an attempt at revolt, yet not one Rio paper dares to affirm it.

"The Gazetta da Tardo, monarchist, and openly in favor of the revolution in Rio Grande, claims the government of Dr. Prudents de Moraes has agreed to leave the state government of Dr. Lulio state government Castilho to its own resources, and claims that the federal troops have been ordered to be neutral; that the Cananca and other gun-boats have retired and that ammunition furnished the state troops is of no account, etc."

NYE STOOD BY THE CONSTITUTION.

Bills Have Not Been Passed Before. INDIANAPOLIS, March 11.-Lieutenant lovernor Nye ruled today that the senate ould not pass any bills, as it was the last day of the session. Speaker Adams, of the house made an opposite ruling, allowing bills to be passed. There was an animated scene in the lieutenant governor's room at noon after the senate adjourned. Mr. Nye was signing bills when Governor Matthews came in. He was visibly excited and said he had three bills before the senate which ought to be acted upon. One was against prize fight-

"My ruling was according to the constitution," and the lieutenant governor reached for a book and read the section.

"I am willing to waive my rights under the constitution," began Governor Matthews. "Well, I am not; what is the constitution made for if it is to be disobeyed? Is it made for the whole people, or just for the governor of Indiana?"

"You made a wrong ruling two years ago."
"I say I did not," and the lieutenant governor brought his fist down on the table before him. "I ruled then that a bill under
consideration on Saturday night at adjournment was proper to be brought up Monday."
"Well, if those bills are lost I will hold you responsible for them."

Memorial services were held for Rev. Thomas Myers, Rev. J. W. Cornelius, Rev. T. W. Clemm and Rev. L. F. Morgan. Henry Dwight brought Mr. Clemm's last message to the conference, delivered personally to Mr. Mitchell. DENVER, March 11 .- A special to the News from San Antonio, N. When the stage left White Oaks it was certain that eight men had lost their lives, the only one escaping being one who was close to the mouth of the shaft when the fire broke out. Already six bodies have been recovered. Three bodies were recovered at 10:15 yesterday morning in the main way between the second and third levels. The others were found in the slope connecting the third and fourth levels. The other two bodies are believed to be in the sixth level. The list of dead given in these dispatches yesterday has not been changed. White Oaks is over sixty miles from Carthage, the nearest railroad point, and the nearest telegraph line is at this place. When the stage left there yesterday, the camp was still in such confusion and excitement that little in the way of details could be learned. The origin of the fire is still unknown. The Old Abe mine is gold property that has been worked for number of years, and is wonderfully rich. Almost from the grass roots it paid handsomely, and the company's stock cannot be bought at any price. The owners are mostly residents of Albuquerque.

> PRESBYTERY SOLD THE CHURCH. Protest of Dr. Parkhurst Against it Availed

> Nothing. NEW YORK, March 11 .- In spite of the remark of Rev. Dr. Parkhurst from the pulpit yesterday that the proposed sale of the Church of the Sea and Land by the Presbytery, after it had been promised to the Madison Square Presbyterian church for mission work, was a deliberate, cold-blooded violation of a solomn contract and an act which, if committed in Wall street, would have furnished the members of the bytery with juicy meat for homiletical exploitation, the Presbytery today voted the sale of the church. As it was introduced. words of Dr. Parkhurst given above in a way to imply censure by the Presbytery, but it was amended, with the consent of the the preamble be allowed to remain. laughter among the members, and speaker became very angry. Letters by Whotesnie. UNIONVILLE, Mo., March 11.-The excitement attending the shooting of Al Todd, the colored man, by City Marshal Clark has not abated and a deplorable state of affairs exists. One of them reads as follows: "You will please move out of town by April 1. This is fair warning. Tell Jim Bradfields to get out of town. By order of committee." The above was directed to a married man. It was sent o the single men, but gave them less time to move. Officials and citizens strongly condemn the methods of the parties writing the whitecap letters.

Over 21 and That is All. from the proper authorities.
"There are more persons in this objective mood than you may think," said she. "Esmood than you may think," said she. "Es-pecially among the unmarried women is this sentiment manifest. There was a gallant attempt made to tack house roll No. 494, the State university \$80,-000 bill, on to the general appropriation bills for consideration at the same time. The attempt failed. Crow moved to make the con-sideration of the appropriation bills a special order for tomorrow at 10 o'clock a. m. Munger moved an amendment to include the uni-versity measure and put the whole lot off until next Thursday. Ricketts showed, by the logic of past events in 1893, how much time it required to properly digest and assim-ilate appropriation measures, and urged im-mediate action. The motion of Crow pre-

Following recess the house went into committee of the whole, with Harrison in the chair, to consider bills on general file. The committee's substitute for McNitt's bill, house roll No. 162, to establish a State Board of Education and to de-fine its powers and duties, was then taken up, it having been agreed that it should follow consideration of the stock yards measures. McNitt spoke in favor of the bill, saying that the committee's substitute contained many admirable features. He claimed to have a number of letters from his constituents, one in particular from a county package of amendments were filed with the chief clerk, and as they were read the bulk of them were adopted by the slender majority of one.
