Let the Nebraska lumbermen know that they are welcome to come again to Omaha and to come often.

Spain should be given to understand that firing upon American merchantmen is a very serious matter.

Fortune spares Omaha one affliction that is overtaking many of her neighbors.

The income tax law is paradoxical to this extent, that it will increase the incomes of the lawyers retained to contest its constitutionality.

We fear that the settlement of the war between China and Japan will finally come down to the question of the single gold standard.

The present city council is not as bad as it might have been. Its stand against any paving monopoly will commend itself to property owners.

A man who introduces a bill "by request" does not thereby commit himself to the support of the measure.

The Spanish government will doubtless promptly disavow the act of her man-of-war in interfering with an American mail steamer.

The paving contractors are knocking each other out in turn, but there won't be much paving to do this year or the next year.

Chairman Wilson is just having a taste of private life in the interval between adjournment of congress.

Governor Holcomb's first veto message has distinct traces of his training on the bench.

Good resolutions that are in high favor in the city council at the commencement of the year apparently begin to lose popularity.

The State Fish commission wants only \$15,000 to indulge in piscatorial experiments during the coming two years.

Everyone should scrutinize closely the changes made in the charter bill when it is reported to the two houses of the legislature.

The house voted the appropriation to continue the three useless secretaries of the State Board of Transportation without opposition.

CAUTION TO NEBRASKA REPUBLICANS.

In politics nothing is more dangerous than over-confidence. That lesson has been time and again taught through political disasters that might have been averted but for the common tendency of parties and party leaders to overrate their own strength.

The overwhelming republican majority in the legislature is no criterion of the relative strength of parties in this state. Careful computation of the legislative majorities shows that a change of less than 1,000 votes scattered in the various districts would have given the populists the legislature.

That Nebraska still remains a stronghold of populism may as well be conceded. The last election returns leave no room for doubt on that score.

It is passing strange, indeed, that the instructive experience of the past two years seems to have been entirely lost sight of by men who pride themselves on their political sagacity.

The elections of 1892 and 1894 afford striking illustration of party collision on national issues and discrimination voting on state and local issues.

There is, moreover, another feature of the bill which the governor's veto passes over in silence. When, on its passage in the house, Representative Robinson of Holt county said in explanation of his vote that while he was opposed to the measure on principle, yet he would vote for it because it contemplated the assumption by the state of the costs of prosecution in what promised to be some very expensive trials.

By inducing the attorney general, therefore, to take charge of a criminal prosecution and to apply for a change of venue to an adjacent county, any county could shift the expenses of a case that properly belonged to it upon the people of the entire state.

This is not all. The creation of more sinecures like the \$2,000 secretaries of the State Board of Transportation and the distribution of these tax-eaters among the four state officers that comprise the State Board of Public Lands and Buildings will be the source of more Hiltonism and boodlerism.

Germany during the fiscal year ending June 30, 1894, aggregated \$143,000,000. Undoubtedly this country could do without a large part of the merchandise imported from France and Germany much better than those countries could do without the products of the United States which constitute the bulk of our exports to those countries.

PEOPLE AND THINGS.

"The man that fights and runs away may live to fight another day," unless he is a Chinese officer.

The administration has shocked another industry. Electricity imported from Canada is declared dutiable.

The Sibley and Coxy presidential booms are running wild in the mining districts of Pennsylvania and Ohio.

St. Louis is moving for the state capital. But with the Governor's veto will lead her a passing glow of health.

The New York World quotes telephone votes in the state legislature at \$1,000 each, "unofficially" absent.

Statistics of the income tax levied in 1893 show that a multitude of rich men lived at a \$20,000 a year and swore their incomes were less than \$5,000.

When a New York woman fires five shots at a recreant lover and puts three of them into his carcase, it is an odd demonstration that the coming woman has come.

Considering the fact that a barrel of distillate was on tap in the Indiana capital building, the wonder that the legislative scrap was deferred till the last hour.

A Connecticut carpet factory gives the income tax as an excuse for cutting wages. But with the Governor's veto is only 2 per cent, the employees are taxed 8 per cent.

M. Ritt, the new governor general of the gambling principality of Monaco, was formerly treasurer general of the Department of Audit, Finance and Justice of the late French minister at Washington.

The Missouri statesman proposes a law taxing brewers from \$10 to \$75 a year, according to age. A bachelor himself, he appreciates the superior advantages of his condition and is willing to pay a reasonable tax for the "privileges" of being a boozier.

Buck Kilgore is said to be slated for a judgeship in Indian territory. The position will enable a gentleman from Texas to live in New York or New Jersey without sending the crimson to the cheeks of the bandaged goddess.

Colonel Roland G. Usher, who died at Lynn, Mass., last week, left an unbroken public office record of thirty-six years. The secret of his pull did not die with him. It can be summed up in three words: integrity, popularity, and money.

Chicago has concluded, after an exhaustive examination of foreign pedigrees, that it rises superior to New York in planting hick-nuts. An Anglophobia as a plentiful Chicago as in Gotham, only the former lacks the opportunities of the latter.

COLOMBIA IN SORE STRAITS

Reports of the Collapse of the Rebellion Said to Be Unfounded.

LEVYING FORCED TAXES ON MERCHANTS

All Able-Bodied Men Not Already in the Revolutionary Army Being Pressed Into Government Service—Gold at a Big Premium.

COLOMBIA, March 13.—The recent reports of repeated victories by the Colombian government troops over the revolutionists challenge surprise when they get back here from distant parts in printed form. These reports are misleading, because the revolution is only stamped out by reported victories.

The interests of the country are paralyzed, as the government is conspiring soldiers down to the age of 14 years, and others who are not in the army ready or in the field with the revolutionists are hiding in the mountains.

The premium of gold has risen to 12 1/2 per cent, that, with the increased cost of living, owing to the recent advances in the tariff and the low price for labor prevailing in causing great distress. Merchants are exceedingly apprehensive that their places of business will be fired for pillage.

DESTRUCTION OF THE CHINESE FLEET WAS THEIR WORK ENTIRELY.

VICTORIA, B. C., March 13.—The steamship Empress of India, with Yokohama ad-vice to March 1, has arrived. Nothing new had developed in the Japanese-Chinese war up to the time the Empress left.

CONFERENCE OF PREMIERS RESULTS IN THE DRAFT OF A MESSIAH.

VICTORIA, B. C., March 13.—Advice received by the Miowara state that a conference of premiers at Hobart, Tasmania, has resulted in the drafting of an Australasian federation enabling bill, which, by arrangement, is to be submitted first to the Parliament of New South Wales for adoption.

EX-KHEDIVE BURIED WITH GREAT POMP.

CAIRO, March 13.—The remains of Ismail Pasha, ex-khedive of Egypt, who died recently at Constantinople, arrived here from Alexandria and were conveyed to the Rifa Mosque, where they were interred with much pomp.

COMMENT ON IOWA MATTERS.

Development Democracy. In Iowa, at least, honesty is the best policy. The list of her criminals of the dishonest sort is not longer than in reason it should be, but the number of position seekers, bank robbers, bank receivers, train wreckers and all around rascals in places of trust sent by her to the penitentiary, or killed outright, is as long as the docket list at a Kansas county.

Louisville Courier-Journal: The general activity in mining circles, which has been freely commented on for months past, has manifested itself in an unexpected manner at Sioux City, Ia. Two young men have pre-empted a strip of sand bar on the Missouri river, near there, and gone actively to work. They are searching for gold, bank for an article which in that prohibition state is rarer and more highly prized.

Galveston News: Almost any candidate with a few friends can make his calling sure, but this does not make his election certain.

Philadelphia Record: When a man, you can't be a woman as an old flame of his, you can't be a woman as an old flame of his, you can't be a woman as an old flame of his.

Washington Star: "Well," said the ex-congressman, "I'm back to my native home once more."
