Wheat Bobbed Up and Down Nervously and Made Many Breaks.

CORN WAS STALE AND UNINTERESTING

Highest Price Was Paid for May Within Few Minutes of the Opening-Market for Provisions Was Nervous

and Irregular.

CHICAGO, March 15.-Wheat bobbed up and down pervously today and frequently made breaks on realizing following the buige on bullish news and at the end of May was but 16c lower than it closed yes-terday. Most of the selling was in the nature of profit taking, the small shorts covering freely on the soft spots. Corn was dull, closing unchanged, and oats were bullish, also finishing without change. Provi-sions were excited and advanced sharp early, but broke later, closing at declines.

The opening of the wheat market was made under some excitement. There were few sellers and hosts of buyers at 575%c for May, compared with 57%c at the close of the session yesterday. The briskness of the demand alarmed a number of the smaller shorts and in five minutes the price had advanced to 58c. There being millions of wheat held by the local crowd in the pit which had a tempting profit in it at 58c, 15,000,000 bu, were put on sale, the consequence of which was a tumble to 57%c. The crop damage reports of the day before and the buying of wheat in the western cities by country millers whose mills are at points where there should be ample

and the buying of wheat in the western cities by country millers whose mills are at points where there should be ample farmers' supplies, were supplemented this morning by strong cable advices. The market acted freakishly and unsettled, with frequent and quite considerable fluctuations, 57½c and 57½c being consecutively the prices several times and the range extending to 57½c and 58c twice during the foremon. Millions of bushels were wanted on each drop to 57½c, and just as much for sale at 58c. The primary markets received in all 335,000 bu. The import clearances from the four principal Atlantic pits were again light, comprising 180,000 bu. of wheat and enough corn to bring the crop to 185,000 bu. The heavy spring wheat receipts and the small Atlantic port clearances were the only points favorable to the bears, but these were enough to keep them from giving up the ship and they made savage drives at the market every time it appeared to be on the eve of scaring out of bounds. The closing cables were firm, and this helped the bulls, but in the last few minutes of the session there was heavy realizing and May closed at 57½c.

The corn market was stale and uninteresting. The traders were indifferent as a rule, and the range of prices was light. The highest price was made for May, and that within a few minutes of the opening was 45½c to 45½c, and the lowest, which quickly followed, was 45¼c to 45%c. Fluctuations followed these of wheat.

The oats market attracted even less attention than ever. Fluctuations were rather narrow and followed corn entirely. May started at 25%c to 25½c, sold at 25½c down to 25½c, up again to 25%c and closed at 25%c to 46%c. The market for provisions was nervous and irregular. The price went up with a rush at the opening, with Armour a heavy buyer, and surging up and down at every transaction, according as it was bid for or offered. Commission men found great trouble in filling orders satisfactorily, as it was impossible to get the nominal market price, whether the order was to buy or sel

DOMINION OF CANADA.

PRICES GENERALLY RANGE HIGHER. World More Favorable to Trade. NEW YORK, March 15.—R. G. Dun & Co.'s weekly review of trade, which issues tomorrow, will say substantially: All indications of the state of business are rather more favorable. Farm products are a little higher; railroads a shade better; clearing house exchanges show a small per centage larger in comparison with two years ago than in February, and most of the industries show a somewhat better front, though their gain is not large. Money markets continue undisturbed, but the operations of the syndicate still prevent exports of gold, and withdrawals from the treasury have of late practically ceased. There is not much enthusiasm about the situation, however, because the gain is slow and business is a long way from what is considered a prosperous condition. Further, the gain is in some cases due to obviously temporary causes, and to some causes which do not make prosperity. The higher prices of cotton, which has risen to 6.06 cents, results from a belief that the acreage this year will be greatly reduced. Wheat has riseh by cent because government reports show only 50,000,000 bushels in farmers' hands March 1, though practically nobody in the trade thinks the estimate correct and the accepted estimates are about 50,000,000 bushels higher. Western receipts have again risen above and exports continue below last year's. Partial loss of the cotton and wheat crop, or a great decrease in production would hardly be an unmixed blessing to the country. Corn has risen 1 cent; following this, pork is \$1.25 per barrel, and hoss 10 cents and lard 30 cents per 109 pounds higher.

The output of pig iron March 1 was 155,77 tons, a decrease since February 1 of 5,412 tons weekly, and the increase of unsold stock was \$2,900 tons in February, or 13,225 tons weekly, and the increase of unsold stock was \$2,900 tons in February, or 13,225 tons weekly, and the increase of unsold stock was \$2,000 tons in February in March 1 was 156,879 tons, a decrease since February 1 of 5,412 tons weekly, and the increase of unsold stocks was \$2,000 tons in February to the industry, particularly in materials for agricultural implement works, and at Pittsburg the demand for structural state of business are rather more favorable. Farm products are a little higher; railroads a shade better; clearing house exchanges show

STOCKS AND BONDS.

here Was Active Trading on 'Change but Speculation Was Irregular. NEW YORK, March 15.—There was active

rading on the Stock exchange today, but the speculation was irregular, and in most cases the

not results of the day's transactions are the establishment of a lower range of values. The chief incident from a speculative point of view was the declaration of a 1 per cent dividend by the directors of the New York Control Railroad company, being a reduction of a per cent for the present of the the directors of the New York Central Railroad company, being a reduction of 14 per cent from he regular quarterly rate. The scaling of the dividend was expected, but the street was not prepared for the statement that the payment of

WHEAT EXCITED IN NEW YORK.

Transactions Up to Noon Nearly Six Million Bushels.

NEW YORK, March 15.—Wheat had another exciting time today with transactions of 5,500,000 bu. up to noon, or almost as large a trade as was done all day yesterday. There was a good deal of strength shown at he opening, due to a big demand from shorts, who have grown very timid of late, and fear from the cratic course of the Chicago market that some of the heavy shorts out there were being run in. Short houses, however, appeared to have plenty of WHEAT EXCITED IN NEW YORK. deal of strength shown at he opening, due to a big demand from shorts, who have grown very timid of late, and fear from the crratic course of the Chicago market that some of the heavy shorts out there were being run in. OMAHA LIVE STOCK MARKETS

Most of the Cattle on Sale Were Stockers and Feeders.

DEMAND WAS QUITE GOOD FOR HOGS

With So Few in the Pens Buyers Made Short Work of Cleaning Them Up and Trade Was Over

Early.

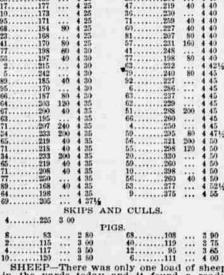

FRIDAY, March 15. The receipts today were 1,193 cattle, 2,760 hogs and 107 sheep, as against 1,618 cattle, 4,882 hogs and 157 sheep on Friday of last week. For the week this far there have been received 6,250 cattle, 14,100 hogs and 6,240 sheep, as against 7,841 cattle, 22,149 hogs and 6,769 sheep for the same period

CATTLE-There were, all told, forty fresh oads of cattle in the yards, as against thirty-nine loads yesterday. The most of the cattle here were stockers and feeders, and there were not enough killing cattle of any kind to make a test of the market. In the way of beef steers there were only three or four loads of fair to medium cattle, and nothing very good. Chicago was reporting a good, strong market, and if there had been enough to make a market prices would no doubt have been a little higher here.

The market was practically bare of good cows and heifers. There may have been a load of good killing cows, but not enough to make a market. There were a few odds and ends of rough stock and canners.

Stockers and feeders were in more liberal supply than other kinds of cattle. Good heavy feeders are in active demand, and are selling at very firm prices. One bunch of cattle that had been warmed up, and were really good enough for killers, sold at \$4.30, to a Kansas party, to be put back on feed again. Light stocks are in larger supply than good feeders, and the market on that class of cattle is not so strong. Representative sales: way of beef steers there were only three or

CHICAGO LIVE STOCK.

Small Receipts Kept Prices Firm Throughout the Entire Day.

CHICAGO, March 15.—Four thousand head was the estimated supply of cattle for today. Prices were without important change. The meagerness of the receipts rendered any softening of prices out of the question. Hardly any good shipping stock was offered, cows, buils and common to fair steers making up almost the entire supply. stock was offered, cows, bulls and common to fair steers making up almost the entire supply. There were a few loads that were good enough to bring from 36 to \$5.15, but most of the work was done at prices below \$5.25.

There were sales of hogs today at \$4.75. That is 16c above the highest price of the day before and that was about what the advance averaged, The demand was brisk, both for local and shipping accounts. There was scarcely any full loads of so poor a quality as not to bring sales at over \$4.25, and the bulk of the stuff was weighed at from \$4.40 to \$4.50 for light, at from \$4.50 to \$4.55 for medium and at from \$4.50 to \$4.55 for medium and at from \$4.50 to \$4.55 for medium and at from \$4.50 to \$4.55 for averages of over 200 lbs. Compared with last Friday's prices, these quotations show an advance of from 25c to 30c. The fact of a further decrease in the receipts helped to keep prices pointing upward, but the chief cause of the advance was the boom in provisions.

The sheep and lamb markets were active and firm, the former at from \$2.75 to \$4.75 for very common to extra and the latter at from \$4.50 to \$5.60 for poor to fancy lambs. There were few sales of sheep below \$3.75, and the greater part of the lambs sold at from \$5 to \$4.76. Good to extra sheep and lambs are higher than at the close of last week, at from 15c to 20c higher, while common grades have no more than held their own.

Receipts: Cattle, 4,000 head; caives, 300 head; hogs, 26,000 head; sheep, 7,000 head.

certain domestic wools at quotations. Medium and below fleeces have been imported to the extent that they fill the niche which would otherwise exist by the scarcity of our medium and low wools. But it may be said that the advance of last week on the other side is, nevertheless, an element of strength, inasmuch as the stock henceforth will cost more and must command a higher price here, for the rise is deemed legitimate, since there is a better feeling developed.

The local trade in foreign wools, notably in Australian, which has been a feature since December, shows little abatement, the character of many of the goods being made demanding in their finish just the qualities which Australian possesses; in other words, Australian is requisite to give the 'feel' and the finish, while our fine domestic is indispensable to give strength to the fabris, so naturally there has been within the past fortnight, in conjunction with the business in Australian, considerable doing in delaines, and a good sized total of XX wools has been sold. The sales of the week amount to 1.388,800 lbs. for the previous week amount to 1.388,800 lbs. for the previous week and a total of 2,755,500 lbs. for the previous week and a total of 2,755,500 lbs. for the corresponding week last year. The sales in for Lanuary 1, 1895, amount to 30,049,050 lbs., against 25,919,500 lbs. a year ago. The sales in New York have amounted to 1,306,000 lbs.; the sales in Philadelphia have amounted to 1,279,900 lbs.

LONDON, March 15.—At the wool action sales today 14,675 bales were offered, of which 1,000 bales were withdrawn. The latter was mostly merinos.
