ADMIRABLY FITTED FOR THE POSITION

WASHINGTON, March 20 .- An intimate friend of Minister Thurston, now in Washington says that Mr. Thurston has no official information as to the request for his recall. while at the same time no doubt exists on the part of the minister that such a suggestion has been made to the Hawaiian government. has been made to the Hawaiian government. accredit another person to succeed him, and it is not likely, however, that Mr. Thurston in this case Mr. Willis, our minister to Hawill leave this country. He will continue, it wall will be obliged to take a leave of abwill leave this country. He will continue, it is stated, to look after Hawaiian interests in an unofficial manner. Mr. Thurston's friends say that as a matter of fact be has trymen in New Orleans four years ago never been treated at the State department. Notwithstanding reports that have not been accorded the courtesy usually extended to men holding similar positions.

Mr. Thurston, it is said, does not know

Mr. Hatch is said to be unusually well qualified for the position. The latest official mail has arrived here. Minister Thurston declined to state whether contained anything bearing on the request Secretary Gresham for Mr. Thurston's The minister maintains the same absolute silence on the subject that he since the report first appeared. The legation office is open to callers, however, and the usual business proceeds briskly between the minister and Mr. Hastings, the secretary of the legation. The moment the recall is mentioned, Mr. Thurston and his assistant

Since then several ships have left Honolulu, last two reaching San Francisco and Vancouver, respectively, at the same time, about a week ago. They brought the official mail, which has now arrived at the legation. It is known that it contains a long communication from Mr. Hatch, the Hawaiian min ister of foreign affairs, as Mr. Hastings recelved a brief message saying that such a communication was on its way. If the ton would be the natural and only channel of communication to the State department, remains the official representative of Hawaii until his recall is actually accom-

Before answering In fact, Guatemala has not even intimated Secretary Gresham, it is supposed the Ha-waiian government will communicate with treaty of 1882 provided for placing the monuits minister, and seek his version of the circumstances before acceding to Secretary Gresham's request, which in a measure implies a personal affront to the individual. Under these circumstances the communication from Hawaii, if it refers to the recall as is thought extremely likely, may be shor of a reply to Mr. Gresham's request. Further developments, therefore, will be watched with great interest, especially the answer with great interest, especially of Hawaii, as a declination to accede to Secretary Gresham's request doubtless would Minister Thurston being given his passports, an act equal to sever-ance of diplomatic relations.

On June 16, Secretary Fish, under direction of President Grant, directed our minister to Russia to inform the Russian government "that the conduct of Mr. Cataczacy, both of-ficially and personally, had been for some time past such as to impair his usefulness to his own government and render intercours either for business or social purposes disagreeable. Under these circumstances the in-terests of both countries would be promoted and relations displayed on a sure footing if the Russian legation here was to be changed." Senator Hale of Maine has been among the most zealous defenders of the Hawaiian republic on the floor of the senate, but he does not support Mr. Thurston in the matter of the minister's reported recall at the in-stance of Secretary Gresham on the facts so far as developed. "I have no inside or exclusive information," he said, in discussing the matter today, "but the published reports say that Mr. Thurston's recall has been asked because he made diplomatic correspondence public before submitting it to the secretary. If this is correct, he was clearly in the wrong, and could not expect that the secre-tary would do otherwise than ask for his recall. It was clearly a breach of official eti-quette, and is a practice which this country cannot afford to encourage. There might be times when such a course would lead to serious consequences, and if matters of intesnational importance are to be so treated by

HAD A RIGHT TO POST SENATORS. "I have heard it suggested," continued the mator, "that there was some prejudice on the part of the department toward Mr. Thur-ston because it was believed there that the minister has supplied senators antagonistic to the policy of this administration in Ha-walian affairs some facts used in the debate in the senate, but the fact, if it be a fact, should cut no figure. The State department could ask nothing of Mr. Thurston except courteous treatment at his hands in his of-

as in name—not like these Central American republics, including Mexico, which are nothing but military despotism."

A member of the diplomatic corps, long in e service and well versed in the procedure, said: "The books do not contain a precedent warranting such a demand for a minister's recall because he has made public for the press a condition of facts within his coun-try. In the case of Mr. Thurston, he was under no obligation to give to the State de-partment information of the sentences im-posed on those convicted of rebellion. It "The books do not contain a precedent was information as to facts which had actually occurred and not of subjects involved in diplomatic negotiations. The precedents are agreed that a minister should not communicate with the press or give opinions on purely diplomatic questions, but he is always liberty to state condition of affairs.

"If the Hawaiian government can put up with Minister Willis, I think this government might easily overlook such a trivial matter as that which was made an excuse for Minister Thurston's dismissal," said Senator Frye of Maine. "It looks to me like a very small piece of business. As I understand the matter, Mr. Thurston did not give out to the press official communications, but the information which he imparted to the newspapers

And so in Mr. Thurston's case there probably will no attempt made to connect him with objectionable newspaper publications. It is held to be sufficient that he rests under suspicion, which may or may not be wel founded. As to the outcome, there is much doubt, for it all rests with the Hawaiian government, and depends whether that gov-ernment takes the ground that its minister has been attacked because of personal reaor whether it may regard the dem for his recall as the result of the faithful examination of official charges confided to his care. Of course the minister will go in either case, but if the Hawallan governmen takes the latter view, it will simply omit sence, Just as Mr. Porter, our minister to Italy, did when Baron Fava was recalled as the result of the killing of his fellow coun in circulation it can be stated that no re-quest has been made thus far for the recal of Minister Muragua of Spain, but beyond this no statement can be made at this time.

It is not true that the responsibility of the delay in the survey of the boundary line rests upon Guatemala, because the Guat-emalan boundary commission of engineers has worked always ahead of the Mexican commission during the last eight years. It is not true that the Guatemalan government has received a large revenue for concessions to cut timber; this concession was almost in-variably made in favor of Mexican citizens, and the revenue received from this source is almost insignificant.

Appropriation Bills Provide for the Negotia2 tion of Several Treaties.

BARGAIN TO BE STRUCK WITH BELKNAPS

Negotiations for the Sale of a Portion of Their Reservation in Montana-Locations of Several Tribes to Be Changed-Other Matters.

WASHINGTON, March 20.-The Indian office, under direction and supervision of Secretary Smith, will find considerable work provided for in the last Indian appropriation bill, which will keep it quite busy during the coming season. Among other things authorized in the bill is the appointment of a commission to negotiate with the Belknap Indians for the sale to the United States of a portion of the state of Montana; also to negotiate with the Blackfeet Indians for the sale of a portion of their reservation in the northwest part of the same state. An appropriation of \$3,500 has been made for this purpose, and as the sum is so small it is quite possible that the commission will consist of employes of the Interior department. > PENSION LIST NOW AT ITS ZENITH Next Year's Appropriation Almost the Same

as This, but it Will Fall Soon. WASHINGTON, March 20 .- Commissioner of Pensions Lochren estimates that there will not be any decreased amount appropriated for pensions during the next three years. The amount appropriated for the fiscal year of 1896 in round numbers is \$140,000,000; for the present year the amount was \$150,000,-000. The reason for the absence of any perceptible decrease is that the falling off owing to deaths and other causes is about counter-balanced by first payments in pensions allowed. As cases are allowed from time time there are large first payments, some-times for arrears, and always dated from the time the application was filed. The decrease in some classes of claims are quite great, as in the pensions for the war of 1812, which creased about 50 per cent in the past year. After three years, when it is expected the majority of claims will be adjudicated and there will be few remaining first payments, Commissioner Lochren expects there will be a rapid falling off of pensions, as they have now reached the age when this is to be expected. He then expects the pension appropriation will be diminished in size very materially.

Emblem of Nationality to Be Worn by Soldlers After a European Custom. WASHINGTON, March 20.-The probabil tles are that in the near future the officer of the United States army will take on an other designation of rank in the shape of metallic eagles to be worn on the front of their bats. The question is under advisement among the head officers of the War department, and it is understood that the project is very favorably regarded by many them. Some of the army officers are urging it on the ground that in European countrie the officers wear on their hats the colors of their sovereigns. They hold that it is a plain and unmistakable evidence of nationality, as well as of rank and military service, and as the eagle is the national American emblem it can be adopted to the benefit of the ser-

WOOL PRICES SOMEWHAT STEADIER. Strength Abroad Has Not Produced Ouots bly Higher Prices, However,

BOSTON, March '20.-The American Wool and Cotton Reporter will say tomorrow of the wool trade: The reported strength of the market abroad has not been reflected in any appraciable way here. Prines, though not quotably higher, certainly are steadier and, although trade has ruled very quiet manufacturers have found it impossible to obtain concessions in value from those current a week ago. Wool is low in comparison with other staple articles, and it is lower here than anywhere else. Stocks of domestic wool here are not large, and yet there appears to be enough to meet the demand, which in itself is not urgent, manufacturers buying mostly in small lots. The demand, which in itself is not urgent, manufacturers buying mostly in small lots. The business of the past week has been of a retail character, very few good sized lots having been moved. The aggregate of transactions, in fact, is even less than that of last week. Holders of wool are in some quarters quite firm in their views and a case is cited where a manufacturer who came into the market and made some offers, none of which were accepted by the dealers, went home without securing his wool. It is beginning to be believed, even by some of those who had been looking for a further decline in values, that wool has got to a point where the bottom can be felt and that any further change in values will be upward rather than in a downward direction. The sales for the week amount to 1,255.000 pounds domestic and 560.000 pounds foreign, making a total of 1,797.000 pounds against a total of 2,997.200 for the previous week and a total of 2,997.200 for the previous week and a total of 2,997.200 pounds for the corresponding week last year.

Anniversary of His Birth Celebrated by

LONDON, March 20 .- The 91st anniversary of the birth of General Neal Dow, the great American prohibitionist, was celebrated last night in the Western church, Highgate, this city. The delegates from all the temperance societies were in attendance, Dr. Chowri Muthu, the Christian Brahmin, presiding. Mr. Roberts, M. P., and others addressed the meeting. The meeting, which was remarkable for the great enthusiasm prevailing, passed a resolution warmly congratulating General Dow on the attainment of his 91st birthday, and recording the deep appreciation of the meeting for his immeasurable services in the cause of temperance and prohibition to humanity and to God. In conclusion, the meeting sent Gen-eral Dow greetings in the wording of Numbers v., verses 24, 25 and 26, as follows:

NO REVOLUTION IN SAN SALVADOR Parties Who Think They Know Deny the Reports Sent Out.

SALVADOR, March 20 .- The reports telegraphed abroad that Minister Castellanos had been recalled to quell an expected revolution are denied in official circles. Quiet prevails over the republic and there is no movement of any moment against the government known to exist.

WASHINGTON, March 20.—Senor Luzo, the Guatemalan minister, and Senor Calvo, the Costa Rico charge d'affaires, declare that the news of a revolution in Salvador in the interest of General Ezeta is entirely false. They thought it very singular that the steamer Saturn, which was the bearer of such important accounts, did not communi cate them in the Guatemalan or Mexican ports where she touched and where they could have been wired to this country as are many other news items of importance, but should wait until her arrival at San Francisco. Lazo and Calvo say the fabrication of such a dispatch is very clear, but they are in frequent communication with the state, al-though neither of them is a representative of Salvador. They are sure that they would have received information through their correspondents or otherwise in regard to such grave events, which it is said happened the early part of February.

Campbell-Bannermann Withdraws. LONDON, March 20 .- It is announced that Campbell-Bannermann has indefinitely abandoned his candidacy for the speakership of the House of Commons. OVERLOOKED.

There are Patient Medicines and Remedies, Without Number.

Eor Every Disease and Affliction But Onc.

A prominent physician was recently asked, why it was that there are so many "blood purifiers," "nerve tonics" and remedies for every ill, except one of the most comon and annoying, viz: piles. He replied, there are two principal reasons: First, physicians and people in general have thought that the only permanent cure for piles was a surgical operation, that medicinal preparations were simply palliative. Another reason is, that piles is, in no sense of the word, an imaginary disease; the sufferer from piles is very much aware of the fact, and for this reaso the few so-called pile salves, ointments, etc. been short-lived. The patient very soon discovered their inefficiency.

He says further, "fortunately, however

there is a new remedy for piles, which judg-ing from its rapidly growing popularity, will soon take the place of all other treatments it has certainly made astonishing cures in this obstinate disease and its merit has made it famous among physicians and wherever it has been introduced. This remedy is sold by all druggists under the name of Pyramid Pile Cure. From the immediate relief which the Pyra

mid Pile Cure gives in all forms of many physicians supposed it contained opium, many physicians supposed it contained optum, cocaine or some similar substance, but upon analysis it was found to be perfectly free from anything of the kind, and that the instant relief and cure which follows its use is rather the result of its remarkable healing, southing action on the parts affected.

The Pyramid Pile Cure is the only remedy

surgical operation, which immediately relieves and permanently cures every of piles. It is sold by druggists at 50 cents and \$1 or by mail from Pyramid Co., Albion, Mich.

PUT IN PLAIN ENGLISH.

An Authority on the Weather Contributes to The General Fund of Knowledge. The most famous American authority on the weather recently said: "The fatality (after the grip) is most marked when the humidity is at its maximum and there is a sudden fall of temperature." That means in plain English that consequences of grip are most deadly when dampness is followed by sudden cold. How often such a condition of weather has prevailed this winter is shown by the official statistics of grip.

winter is shown by the official statistics of grip.

Prodent people know how to strengthen themselves after the grip. They will observe the usual precaution necessary in our fickle winter, and they will promptly correct any bodily aliment, no matter how small it is. A triting chill, a cough and fugitive aches in the back and shoulders linger long, sometimes, after an attack of grip.

fugitive aches in the back and shoulders linger long, sometimes, after an attack of grip.

They will not be followed by permanent weakness if the body is warmed and all its latent energies are roused by that best of all stimulants, Duffy's Fure Mait Whisky, Skin, lungs, stomach and bowels are quick to feel the good effects of this whisky. Those who have been stricken by the grip remember how this stimulant has turned them on the road to health.

It is the crowning merit of Duffy's Pure Mait Whisky that it puts the body in a state of defense. Glidiness and headache in the morning and tendency to take cold easily are overcome by this remedy. Strength and buoyancy supplant weakness and depression, so that the dreaded grip leaves no trace behind.

The old saw, "forewarned, forearmed," would never have lived so long if it were not a gem of wisdom. It applies with great force to the speedy recovery of grip by means of Duffy's Pure Mait Whisky.

This extraordinary Rejuvenator is the most wonderful discovery of the age. It has been endorsed by the leading scientific men of Europe and America.
