Spinney, ex-manager and secretary of the lowa Deposit and Loan company, was indicted for libel of State Auditor Mc-Carthy, and the foundation of the indictment was a certain article in the Building and Loan Record. Spinney held that while he had nothing to do with the publication of the article it was competent for him to show that said article was not libelous, if he could do so, and to that end he desired the court to order the company's books brought into court. Judge Spurier ruled against this petition. He held that the charges against Spinney were fully set forth in the indictment, and that the charge of libel was against Spinney for being concerned in the publication of said article, which McCarthy considered damaging to his character, and there is mothing in the indictment relative to the Iowa Savings and Loan company.

Rich men who are vexed by slight physical allments, or who are the victims of nervous troubles, are not slow to discover that there is danger in the water cooler. Many of them have their water boiled and chilled by refrigeration before they will drink it. Others have in their private offices jars of min-cral waters. Many bank and railroad pres-idents are particular about having the wa-ter they drink free from poisonous germs. People who would avoid the dangers which arise from water impurities at all times, should make a practice of taking a little whiskey each day. Even should germs have invaded the system this will effectually de-stroy them. It will keep the blood free from taint, and in healthy motion. Great care should be taken, however, to have only pure whiskey, and the should be remembered that is but one acknowledged pure medicinal whiskey, and that is Duf-fy's Fure Malt.
