-Scarlet Fever Epidemie Abating --Killing of Poultry to Be Supervised-Condition of the Fund.

The long postponed election of inspectors was successfully accomplished at the regular meeting of the Board of Health yesterday afternoon. Contrary to the desires of one or two members, no changes were made in the makeup of the force, the laid off men being simply re-employed. The matter was introduced by Duncan, who moved that Inspectors Smith, Albright, Taylor and Vandervoort be re-employed and ordered to go to work next Monday morning. The motion prevailed, Mayor Bemis casting the only negative vote. The mayor contended that the work was being more energetically and systematically done by the police department and that economy should be studied by not electing any inspectors for at least another month or

There were four candidates for the milk inspectorship. These were P. L. Bruner, Louis Littlefield, S. L. Boyd and J. H. Helmes. Boyd was favored by Dunean and Commissioner Saville, but as the other three members voted to reinstate Bruner they swung into line and made his election unant-

They are accompanied by their pretty daughter, Miss Lena Shoup, and by Miss Grace Street, Miss Fanny Marshal and Mr. M. McPherson, the senator's business pariner. They are enroute to Idaho from Washington. The senator and his party spent some days in New York, Pittsburg and Chicago before starting

In reply he asked, "What will be the snowfall next winter?"

Respecting affairs in Idaho, the senator respecting anairs in Idaho, the senator said that it was hoped that the Nez Perces reservation would be opened soon. Pocatello is in the center of this reservation. By treaty the tribe sold the land for the town ngs base ball nine for the coming season site of Pocatello and the proceeds are held have all signed except one. The list is as follows: Boyd, Cope, Getman, Reynolds, Van Fleet, Vastine, Perry and Hopka. The lands be made by the Department of the Interior, and a surveyor from the Blackfoot agency is already on the ground. The res-idue of the reservation, after the members of the tribe have chosen their tracts in sever-alty, will be open to settlement. But in the meantime two irrigation ditches will be dug, the expenses to be borne by the trust fund, one from the Snake river, and the other from the Port Neuf. The Indians, having the choice of lands, will choose the best, and the

remainder, about 1,000,000 acres, will be open to settlement by the whites. The senator, being a member of the re-publican national committee from Idaho, was not disposed to say who would be the next candidate of the republican party for president. He was free to say, however, being a free silver man, that if the republican candidate was not a free silver man he would be defeated. If the democratic party nominsted a free silver man and the republicans did not the democrat would be elected.

ator was asked what he would do. He said that it was time enough to cross that bridge when it was reached. It is his hope and his expectation that the next candidate of the republican party for president will be a man favorable to the free coinage of silver. Senator Shoup does not believe in the formation of a free silver party. He, as a republican, wants to work inside party lines. He said he believed the next candidate of the party for president would be a free silver man. In case the republicans and demo-
