Statute of Limitations Does Not Run Against Capital National Dividends.

AIRING SOME MORE OF MOSHER'S DEALS

Holdrege Hangs on to the Proceeds of s Land Sale to Protect Himself-South Omaha Packers Given a Rebate.

LINCOLN, April 5 .- (Special Telegram.)-Legal proceedings concerning the exploded Capital National bank are lively just at present. Word has been received from Danver by Attorney A. E. Harvey that Judge Hallet has passed upon a point of possible interest court against George Ballentine, formerly of this city, but now of Denver, for dividends received since the bank first started. Attorneys for Ballentine demucred, claiming that the statue of limitation ran aganist the recovery of the money, while Harvey argued that the dividends paid were really paid out of the capital stock of the bank. The court overruled the demurrer and required defendant to answer. In effect this holds that the statue of limitation does not run against an action to recover these dividends. In the federal court here actions are pending for some \$290,000 in dividends.

In the Lancaster district court Judge Hall

has heard and taken under advisement a case involving some more of Mosher's peculiar transactions in his career as a financier. In 1885 Mosher, together with G. W. Holdrege, T. J. Potter, R. C. Phillips, G. W. Ballentine, D. E. Thompson, R. C. Outealt and J. T. Baum, purchased a tract of 16,120 acres in Keith, now Perkins, county, forming a syndi-cate, in which Mosher took a one-tenth interest. This interest he afterward transferred to the Western Manufacturing company, which in turn transferred it to the Lincoln Savings bank, which made H. E. Lewis its trustee. Lewis claims that several of the parties have disposed of their holdings and that Holdrege was finally made trustee to sell and close out the holdings. This he has done, but he would not give plaintiff any information as to how much was in his hands for distribution, nor would be recognize plaintiff's claim to Mosher's interests. The testimony disclosed that Holdrege has in his possession about \$4,590 of Mosher's shares, but he insists that this be offset by the amount he laid in Mosher's bank—which is about the same amount he test to the same amount he test to the same amount he test to the same amount he same amount h about the same sum-when it went under.

HAYDEN ALSO CLAIMS THE MONEY. Receiver Hayden also lays claim to the money, Mosher's interest not having been transferred until six months after the bank closed. M. D. Welch, the manager of the Western Manufacturing company, was on the stand the greater part of the day, and some very interesting testimony was adduced from him. Among other things, he said that Mosher had transferred to him \$27,000 worth of Lincoln Gas company stock which was to recoup the company for losses sustained in rebates granted to the South Omaha packers. The Western Manufacturing company runs quite an extensive cooper age works at the penitentiary, and they furnish all the barrels that are used by the packers. Mosher was the leading spirit in the company, among the stockholders of which are Welch and H. J. Walsh. The packers came to Mosher and told him that they were paying too much for their barrels. and that if they were not given some re-bate they would build works of their own at South Omaha. In order to prevent this Mosher gave them rebates, but the other members of the company kicked on it, and to appease them this transfer of stock was made. What became of the stock was not stated, as the court sustained the objection to the question as immaterial, irrelevant and not proper cross examination. The temporary injunction asked for by Magdalena L. Meier, owner of the Lindell hotel saloon, restraining Chief Cooper from interfering with her business and closing the saloon by order of the excise board, has been denied by Judge Holmes.
