\$10 of the \$50,000 appropriated previous to the \$200,000 distributed among the counties. The commissioners will hold a meeting at 10 o'clock tomorrow morning. J. J. Jones says the Omaha Clearing house takes the same position regarding the legality of warrants issued under the provisions of the \$200,000 appropriation as is taken by New York brokers, that is, that they do not want to purchase them until an opinion by the Nebraska supreme court has been handed down. Warrants drawn under the provisions of the \$50,000 appropriation sell for a premium.

J. J. JONES' MISTAKE IN HIS MIND IS AFFECTED.

WISNER, Neb., April 9.—(Special Telegram.)—A great deal of interest was aroused here today over the disappearance of J. J. Jones of Omaha, who was last seen at this place last Sunday night at a late hour. Jones had traded a residence, located on Farnam street, Omaha, owned by his wife, to S. S. Beebe of this place, for the latter's branch grocery merchandise business at Norfolk. Saturday and Sunday he acted strangely at Norfolk, and declared that he would kill Beebe, who, he claimed, had gotten the better end of the trade.

Sunday he came down on the midnight freight and called at the residence of Beebe, Beebe's great-grandson, and was conversed over their trade. Jones talked somewhat wildly, and importuned Beebe to trade back, saying that he was moneyless and ruined. Beebe, however, advised him to go to the hotel for the night. Jones declined the offer of money and left, saying he would get back to Norfolk.

Beebe was impressed by the man's actions, and, securing a friend, they looked for Jones at the hotel and elsewhere about town, but could obtain no clue to his whereabouts. Nothing serious was attached to his disappearance until today, when it was learned that he had not been seen in Norfolk since Sunday evening.

The theory here is that he was out of his mind on account of business troubles.

WISNER COUNTY'S EXCELLENT CROPS.

Prospects in that Part of the State Were Never Better.

FULLERTON, Neb., April 9.—(Special.)—The Bee correspondent yesterday took a drive through the country, finding the farmers enjoying the best of spirits, owing to the copious rain that has just fallen throughout this entire section of the country. It was observed that a majority of the farms have already been sown with wheat and oats and a full farm force is now engaged plowing for corn and the indications are that a larger acreage of all cereals will be planted this year in this county than ever before in its history.

Congressman Melickjohn has been of great service to the people of this and the counties of his district by the distribution of all his quiet time to the poor and needy. He has made an equitable division of the entire allotment between the counties which through their representatives have secured their share and advised Melickjohn to distribute their proportion in counties that suffered most from the drought.

Boyd County's Bright Prospects.

BUTTE, Neb., April 9.—(Special.)—Dr. A. S. Warner and family returned last week from the South. They visited Arkansas, Mississippi, Texas, Indian Territory and Louisiana, but liked Kansas best and will remain in Boyd county.

Farmers are putting in all their spare time sowing crops and preparing for big returns in the fall.

Peter Sinclair, one of Boyd county's pioneers, died suddenly Thursday. He came here from Kewaunee, Wis., in 1847, and was respected. The deceased was a member of the Ancient Order of United Workmen, and was a member of the Methodist church.

MORE INCOME TAX SUITS

Supreme Court Decisions Encourage Settlement of Other Tax Wreckage.

FURTHER LITIGATION TO BE UNDERTAKEN

Constancy of Other Points to Be Tested by Parties Interested—Saratoga Comments of the British Newspapers on the Decision.

WASHINGTON, April 9.—Since the delivery of the income tax decision, attorneys at other interests in overthrowing the tax have been taking steps to test various parts of the law in further proceedings. Attacks will be made both on those portions that were sustained by a tie vote and some fresh points not passed upon in the particular cases decided yesterday.

Attorney J. M. Wilson, who represented John C. Moore in the court of appeals in the recent case, said this morning that further proceedings would be begun immediately. "Several parts of the law will be attacked," said he, "the principal one being the redemption from taxation of incomes under \$4,000 annually. This will be attacked as unjust discrimination. I cannot say just yet who the complainants or what the titles of the cases will be, but they will be instituted very soon, probably within a few days and be pushed as rapidly as possible."

Yesterday's decision has plunged the internal revenue officials into almost inexplicable mysteries and trouble and the more the decision is studied, the greater seem to be the possibilities of a successful attack. The question has arisen for serious consideration whether the effect of the decision is not to include not only rents proper, but all profits of the real estate, including farm products, timber, coal and all mining profits within the exempt class. It is from this point that the attack will be made. The question is whether the law is to be interpreted as including the profits of the real estate, including farm products, timber, coal and all mining profits within the exempt class.

Another grave question raised by the decision is whether the road bed, roundhouse, station, etc., of railroads are real estate or personal property, and, if the latter, do they differ on this point and on several other points of importance which are involved in the litigation.

As soon as a verified copy of the opinion can be had the internal revenue officials will begin to make a study of the decision, and will begin to take steps to test various parts of the law in further proceedings.

RUSSIA IS TRYING TO GROW TEA.

Figures on the Exports of Grain from the Czar's Domain.

RUSSIA IS TRYING TO GROW TEA.

WASHINGTON, April 9.—United States Consul Karel at St. Petersburg reports to the State department that the Russian government is making strong efforts to extend the cultivation of tea in the empire. Representatives have recently been sent to the East Indies to study the methods in vogue there and bring experienced workmen to Russia.

Discussing the grain movement of Russia last week between January 1 and February 25 there were exported about 1,000,000 bushels of wheat, 6,000,000 bushels of barley, 7,000,000 bushels of oats, 2,500,000 bushels of rye, and 2,500,000 bushels of corn. The Department of Agriculture has sent circulars to all agricultural officials ordering a general consultation as to the best means of raising the prices of Russian grain.

Another grave question raised by the decision is whether the road bed, roundhouse, station, etc., of railroads are real estate or personal property, and, if the latter, do they differ on this point and on several other points of importance which are involved in the litigation.

As soon as a verified copy of the opinion can be had the internal revenue officials will begin to make a study of the decision, and will begin to take steps to test various parts of the law in further proceedings.
