INTRICATE QUESTIONS BEING UNRAVELED

Only Five Matters of Importance Now Awaiting Decision-Commissioner Miller's Supplementary Regulations. May Be Ready Soon,

WASHINGTON, April 10 .- The internal revenue officials are busy unraveling some of the intricacles involved in the supreme court income tax decision. Last night they had a long conference, and a large number of questions that have arisen were disposed of, and the result is that only four or five important problems remain to be solved. The words "income" and "rent," as used in paragraph 7 of the court's conclusions, will be held to be synonymous, and, therefore, the sist him in putting down the uprising.

exemptions on account of rent will be ac. "I will do everything," he said, "to avoid exemptions on account of rent will be accepted only when it is the actual returns received by a landlord for the use of his propproperty, probably will be permitted to be deducted from incomes before making returns. Aside from the redemption of interest on state and municipal bonds, these are believed to be all, or nearly all, of the changes affected by the supreme court de-

Commissioner Miller hopes to have his sup-plemental regulations ready by tomorrow.

WILL GIVE COREA HER FREEDOM. One Term of the Peace Treaty that is Admitted by Both Sides.

WASHINGTON, April 10.—The Japanese Chinese armistice closes in ten days, so that it is anticipated by efficials and diplomats that the final terms of peace must be near at hand. It is stated, however, by a diplomat of experience with the Chinese and Coreans, that it is characteristic with them not to meet an emergency until the last day. A case is cited in which Japan gave Corea three months to acquiesce in certain condi-There was no response until the day before the three months expired, when a Corean official appeared and stated that the subject had been overlooked and more time was desired, which request, however, was not granted. It would not be surprising to officials if Li Hung Chang pursued this policy, taking the full ten days before yieldto all of Japan's demands.

The reports that the indemnity will be about 400,000,000 yens coincides with the understanding here that \$200,000,000 would be the amount of the payment. The present rate of exchange on the silver yen is 47 so that 400,000,000 silver yens would

It is believed by all hands, including Japanese and Chinese officials, that the in-dependence of Corea will be one of the terms of peace. This brings out the curious fact that the United States is the only power which has heretofore recognized Corea's in-dependence and has received a diplomatic delegation from that country. It is stated that some time ago China addressed a private letter to all foreign powers, in which it was argued that Corea was independent in con-ducting her internal affairs, but was a ducting her internal tributary of China so far as dealings with foreign powers were concerned. It has never been disclosed what answers the powers gave but from the fact that Corea has no diplo-matic legation anywhere outside the United States it is concluded that European powers acquiesced in China's suggestion and failed to accord Corea complete independence of China It is believed that the peace agreement be-tween Japan and China will so conspicuously affirm Corea's independence that the little kingdom will extend her treaty relations with the remainder of the world and establish legaions throughout Europe as well as in the

SUPERINTENDENT WHITE BLAMED. Order to Railway Mail Clerks is Not at All a Popular One.

WASHINGTON, April 10.-The Postoffice department is still in receipt of clippings and communications making threats against Superintendent White of the railway mail service because of his order calling in the passes given to railway clerks, who used them going home when they did not live on the line of road where they were employed. Although this order was signed by Mr. White, it was issued under the direction of Postmaster General Bissell. The latter was for the order. It was issued immediately after congress had adopted an amendment to the postoffice appropriation bill nullifying the effect of an order issued by Mr. Bissell, directing that railway mail service clerks should live on the line of road where they are Mr. Bissell issued the order promptly so that congress might have an opportunity to legislate upon it as it had on the first if it desired. The communica-The communications now received at the department are to the effect that Mr. White is to be called to act in the next congress. The necessity for the order has been explained by the department to be that in all emergencies where extra work was required the men living on the line of road were called in and the men living away from the road, not being available, always escaped extra duty.

CATHOLIC CLAIM TO FORT VANCOUVER United States Supreme Court Hearing Arguments in a Celebrated ' ase.

WASHINGTON, April 10 .- The United States supreme court is engaged today in hearing arguments in the case of the Corporation of Bishops of Nisqually vs John J. Gibbons, appealed from the United States is one which has been before the executive departments and courts for a great many years and involves the title to Fort Vancouver military reservation in the state of Washington. The claim of the church is based upon the establishment of a missionary station at Vancouver, with the con Hudson Bay company, in 1838, and brings into question the construction of the organic act of Oregon territory and other questions growing out of the laws of the United States and other questions touching the public lands. The government denies the validity of the claim.

Cattle Plague in Russia.

CAMPOS IS NOT FOR BLOOD,

Will Adopt a Conciliatory Policy Toward

the Rebillions Islanders. WASHINGTON, April 10.-The policy of General Martinez Campos, Spanish commander-in-chief, who is now enroute to Cuba for the decisive stroke against the revolution, is made in copies of the proceedings of the Spanish congress just received here. On the night before Campos sailed here both he and the minister of foreign affairs addressed the Cortes.

The significance of General Campos' speech lay in its conciliatory tone, showing that his purpose was to avoid bloodshed. It also brought out that while he would keep free from party entanglements in Cuba, he would strongly inclined toward the autonomists or conservative element, and would depend upon them to reaist the separation from

"I am in hope," said General Campos, "that when I arrive in Cuba the war will be over, for I have no wish for that kind of glory."

He expressed hope that the various politi-cal parties in Cuba would be inspired to as-

seeing any party whatever exercise its in-fluence against the autonomistic element." It was a coincidence that the autonomist erty. Insurance, taxes, ordinary repairs on party held a meeting in Havana ad pting resolutions of welcome to Campos and pro-nouncing against separation from the mother country. The principles of the autonomists are for home rule in Cuba, similar to the home rule of Canada and other British colonies, but not absolute separation from Spain. It is gauged from General Campos' spaceh that he will take this middle course, home rule, without entire separation from the mother country

The report that President Marti would pro nulgate the new constitution of the revolutionists today and would then come to the United States to secure recognition is received with some doubts by those in Wash-ington personally acquainted with Cuba and familiar with the state of affairs. They say no election for president has been held. Marti is well known here, having been officially connected with South American af-fairs. He is said to have a fervid eloquence heightened by personal grievances against Spain. He was arrested in Havana in his youth and he still bears scars of the leg shackles by which he was confined and sent to Spain.

TEST OF SEVERAL EXPLOSIVE SHELLS. All of Them Performed the Work Intended

of Them. WASHINGTON, April 10 .- There were several interesting tests at the naval proving grounds at Indian Head today. First came an acceptance test of a semi-armor piercing thirteen-inch shell, carrying a large explosive charge, and representing a lot of fifty such shells. This was required to pierce a seven-inch nickel steel plate and carry its bursting charge through in condition to explode on the other side. The shell tested today was of the sterling type and completely met the conditions imposed. It was made of forged steel and penetrated the plate without sensible deformation or fracture of the shell.

Next came a test of fixed ammunition for a six-inch rapid fire gun, the largest gun of this type intended for naval use. The shells were made by the Winchester Arms works and

functioned perfectly. A few days ago some tests were made of the service percussion fuse for shells of the five-inch guns when fired at two-inch steel armor plates. The fuse then carried through the plates before exploding. There were further experiments today to settle an important point that had been left unsettled, namely, the distance that the shells carried beyond the plate before exploding. A plate was supported on piles over the water. Behind this stakes were placed at intervals of six feet, and an observer was stationed to one side to note where the explosions occurred. was found that the shells, after perforating the plate, burst at distances ranging from ten to thirteen feet in the rear. This was ex-actly what was wanted, as it insures the explosion of the shells in the interior of the ship if it gets through the side.

DROUTH HAS INJURED WINTER WHEAT Timely Rains in Most States flave Selped It Out, However.

WASHINGTON, April 10 .- The April report of the statistician of the Department of Agriculture makes the average condition of winter wheat on the 1st of April 81.4, against 86.7 last year. It was 77.4 in 1893, 81.2 in 1892 and 96.9 for the year 1891.

The average of wheat for the principal states are: New York, 92; Pennsylvania, always willing to assume full responsibility 92; Kentucky, 86; Ohio, 86; Michigan, 78; Indiana, 83; Illinois, 87; Missouri, 89; Kansas, 53; Nebraska, 45; California, 94. Generally the past winter has been hard on wheat. fall of 1894 was a dry one and not favorable in many states either to germination or to the maintenance of the vitality of the The spring has also been drouthy plant. over extensive areas. Much good, however, has been produced by the rains in the latter part of March, particularly in the states of Indiana, Illinois, Missouri and Iowa. Moderate rains also fell in Nebraska and South Dakota. It is reported, however, that the soil was so dry and had suffered so long from drouth that it will require much heavier rains to produce any permanent effect. The average date of seeding for the whole country Very little damage from the Hersian fly is reported.

The condition of farm animals, together with estimated losses, will be given as usual in the forthcoming April bulletin.

to This Conclusion.

THINK THE PAPER IS ENGLISH MAKE. Peculiarities of the Forged Stamps Leads

WASHINGTON, April 10 .- A quantity of

the counterfeit stamps were sent from the court of the Washington district. The case Postoffice department to the Bureau of En-Postoffice department to the Bureau of En-graving and Printing to be examined by the and beauty that was not far, if anything, chief of the bureau. After careful study the behind th chief said that from certain peculiarities he believed the paper on which the counterfeits believed the paper on which the counterfeits more difficult of the two and in this Mr. were printed was manufactured in England Butler showed well his fine and delicate and was gummed before it was printed. It could have been made in this country, however, without violation of law, as the manufacture of paper for postage stamps is not prohibited as is that intended for greenbacks. Recently the bureau has decided to adopt paper having a certain distinguishing mark and the manufacture of paper with this mark will fall within the counterfeit laws. The ink used on the counterfeit, of the ravages of the cattle plague (rinders Mr. Johnson says, is of an ordinary character euche) in Russia is given in a report to and could have been obtained easily. The specially weak point of the present counter-

feit is in the plate and press used. The imclearly evident on close inspection without

the aid of magnifying glasses.

AGREE ON ALL BUT ONE DEMAND. Unknown in Washington.

BUTLER TESTIMONIAL CONCERT.

Although the people of Omaha are grieved when an artist like Herbert Butler is leaving the city, a testimonial concert such as was given in his honor last night was almost enough to reconcile them to the fact. The program was essentially a classical one and an admirable one, both in the numbers and n the renditions.

Mr. Butler was on the program for tw numbers, the ballade et Polonaise of Vieuxemps and the Hungarian rhapsody by Hauser. Both these selections, particularly the former, are of uncommon difficulty, and were in all probability picked out t ecause behind the playing of Franko when he was in

The ballade and Polonaise is probably th touch. The rapid running along the scale between low G and high E was exceedingly well done. The tremolos and the running double tones were excellently executed. In the rhapsody Mr. Butler played as delicately and his playing of this splendid piece was really beautiful. As an encore he rendered as acceptably a lively Mazourka by Wientawski. The plane sole rendered by Mme. Muente-fering was Chopin's Andante Splanate et Polonaise. It is a piece that requires very difficult fingering, and this was remarkably well done. The performer gave unusual expression to the notes, especially to the forte part of the piece. The plane tones were marked with a

well known to Omaha people, one for a long time, the other for only a short time. Mrs. Martin Cahn did not fail of her best in C'era una Volta un Principe, a difficult selection from Il Guarany of Gomez. To an encore she Cause of the Hitch in Peace Negotiations responded with Chaminade's "Silver Ring. The baritons who has been attracting so much attention in the musical circles of the Vita che T'arride, from the Un Balo in Maschera of Verdi, and, as an encore, Bella

Siccome un Angele, from Don Pasquale of The other soloist was Mrs. Herbert Butler.

of Formosa. The five terms are now fully tra, but this idea was completely demolished confirmed by the later developments of the last night. Two overtures were played, the conference. Three additional ones have now "Obsech" of Weber and Nicolai's "Merry been added, and those, it is believed, relate to trade matters. Which one of these eight to trade matters. Which one of these eight to trade matters.

was beautifully played by a string orchestra. The trio part of this was excellent and the dexicate tones were beautiful. Hummel's "Aflegro con Spirito" was rendered by a quinter, consisting of Mr. Cahn, piano, Mr. Butler, violin; Mr. Sanorwein, viola; Mr. Letovsky, cello, and Mr. Pierce, bass. The piece was well rendered, but the piano runs of Mr. Cahn were especially noteworthy.

The accompanists were Mmc. Hess-Fuchs WASHINGTON, April 10.—Chief Imspector and Mr. W. S. Marshall.

RIVERS OUT OF THEIR BANKS

Disastrous Facoda in Pennsylvania, New Jersey and New York.

MANY BRIDGES HAVE BEEN CARRIED AWAY

Susquehanna and Delaware Rivers Higher Than They Have Been Since in the 60's-High Waters Came Very Unexpectedly.

TROY, N. Y., April 10 .- The biggest fresher seen in the Hudson in years is now threatening this point. The water began to rise rapidly yesterday afternoon and the heavy rain which fell last night added to the flood from melting snow and ice north of here. The water is fourteen feet above low tide mark and all the docks from the state dam south are submerged. The dock of the Citizen's Steamboat line is away under water. All ferries have suspended and considerable damage has been done to property in the cellars of warehouses. A great deal of drift wood is coming down stream, but as yet none of the heavy ice supposed to be north has ap-

Susquehanna on an Old Time Tear. SUSQUEHANNA, Pa., April 10.-The Susquehanna river has reached today the highest point since 1865. Tonight half of the Susquehanna-Oakland iron bridge was washed away. Several people who were on the structure at the time had narrow escapes. Several people who were on the WILKESBARRE, Pa., April 10.-The Susquehanna river was eighteen feet above low water mark at 8 o'clock tonight. The low-lands on the west side of the river between Pittsten and Buttenwood are fleeded. Many truck farmers had to remove their live stock to higher ground in a burry. The flood was unlooked for. The farmers on the lowlands will suffer the loss of an early crop of vegetables. If the river continues to rise it is feared that much more damage will be done.

Delaware Bigher Than in Sixteen Years. EASTON, Pa., April 10.-The water in the Delaware river reached twenty-five feet above ow water mark this morning, the highest known since 1879. The electric cars were compelled to stop running, as the water is n Edison station and the machinery is useess. All industries in Odenweldertown are closed down. The people living on Front street in this city have been compelled to move to their second stories for the first time in fifteen years. Considerable damage has been done to retaining walls of the larger buildings on Front street and there is danger of some of them collapsing. Many frame outbuildings have already been carried away. Reports from up the river show that it is still rising.

Pennsylvania Road Under Water. BORDENTOWN, N. J., April 10.-There is a heavy freshet on the Delaware river at this place. The piers and docks are submerged and one and a half miles of railroad bed on the Amboy division of the Pennsyl-vania road between this place and Trenton are under water. The Delaware & Raritan canal locks are covered with water to a depth of three feet. The passenger boat Florence, which plies between Bordentown and Philadelphia, was unable to make her trip today on account of the high water. The Pennsylvania railroad has placed a number of heavy cars on their bridge over hiswick creek to keep it in position. The Bordentown Gas company's works are flooded and no gas is to be had.

Bridges in Great Danger.

LAMBERTVILLE, N. J., April 10.—Not since the freshet in 1862 has the Delaware river been so high as it was today. All the companience on the river front are flooded and the companience of the beef house at this point.

The cornice of the beef house at this point is contributing their mite to at least put the contributing their mite to at least put the Setting Military Reservations.

WASHINGTON, April 10.—(Special Telegram.)—An order was today issued from the War department transferring to the under water and nething can save it from Freidt claimed that he could throw a stream of the water and nething can save it from Freidt claimed that he could throw a stream of the stream of the water and nething can save it from Freidt claimed that he could throw a stream of the stream of the stream of the best house at this point is 115 feet above the ground, and Chief Freidt claimed that he could throw a stream of the stream of secretary of the interior for disposal a going down. Should this bridge give way, number of military reservations which are all the bridges from Easton to Trenton will probably go down. Many factories have been looded and the aggregate loss will be great. Much excitement prevails and the banks are lined with people.

Dwellings on the Water Front Flooded. BELVIDERE, N. J., April 10.-Much damage has been done by the freshet in the Delaware river here. The plant of the damaged. Dwellings Water street were so flooded that the inmates had to be taken away in boats. The large ice house of Boardman Brothers was swept away with thousands of tons of ice. Farmer; have sustained great losses along the river. The waters are receding tonight.

Afraid the Canal Locks Will Break. ELMINGTON, N. J., April 10 .- At this point the river is higher than it has been for hirty years. The residents of Stockton fear he canal locks will break above the city and ood them. The situation at Washington, N. J., is almost as alarming.

Mohawa River Very High. SCHENECTADY, N. Y., April 10 .- The re ent very heavy rains caused the water in the Mohawk river to rise last night higher than it has reached for several years. The entire valley is flooded and the losses will be very

Southern Rivers on a High. RALEIGH, N. C., April 10.-Heavy damage to bridges by floods continue. Both the Cape Fear and Roanoke rivers are already four feet above the danger line and are rising rapidly.

BLUEFIELDS, W. Va., April 10 .- An unprecedented rain storm prevailed in this section Sunday night. All traffic was suspended for two days.

REPORTS POINT TO SUCCESS. Progress of Arrangements for a Merchants'

Pest vat During State Fair Week. The Business Men's association of Omaha held as well attended meeting last night in the Commercial club rooms. The meeting was called for the purpose of hearing the reports of the committees which had been appointed to solicit subscriptions to defray the expense

of attractions for each evening during the week of the state fair. Most of the committees reported that they had met with much encouragement among the business men and that the subscriptions had been quite liberal. The general impression prevailed that should the people who have not already been seen respond with the same liberality that others have already done Omaha would put up an attraction for fair week that would bring people from all parts of the western country. From the encouragement already received is safe to say that the visitors to Omaha

during fair week will be treated to a partial fermers of Omaha. Owing to a disagree ment, however, a resolution recommending it is settled that many of the floats used at this to be done failed to carry and the whole the last Mardi Gras festival in New Orleans will be brought to this city and be used in connection with many of the features of the 'Veiled Prophet" of St. Louis and "Priests of Pallas" of Kansas City. The attraction as it is mapped out will be made the greatest that the western country has ever beheld provided the donations are sufficient to meet the requirements. To raise sufficient money 25,000 aluminum souvenir medals will be struck off and sold at a price to be fixed of county pensioners for the past winter. later and the employes of all business houses Jenkins and Stenberg signed the report. A in the city will be asked to purchase at least | minority report submitted by Sutton called The Omaha Business Men's association will

act independent of the directors of the state fair association and will provide all of the attractions not directly connected with the state fair. An executive committee, consisting of nine members, was elected last night. This committee will take full charge of the proposed attractions and appoint three men to visit New Orleans and make arrangements for the purchase of the floats and costumes used in that city last February., The soliciting committees will be out hustling today and tomorrow and make their report at a meeting of the executive comnittee to be held in the Commercial club

coms on Friday evening. Many names were suggested for the festival and one will be chosen at the next regular meeting. The names of those composing the ex-cutive committee are Dudley Smith, R. S. Wilcox, C. C. Belden, W. L. Dickie, L. M. Rheem, C. C. Chase, E. E. Bryson, T. A. Frye and H. J. Penfold. Mr. Wilcox will as chairman of the committee, Mr. Dickie secretary, and Mr. Penfold treas-

AFFAIRS AT SOUTH OMAHA.

Test of Fire Pumps at Hammond's-Committees on Garden Spot Work Named. Yesterday afternoon the new fire pumps and hydrants at the Hammond Packing company were tested. Quite a delegation from Omaha came down to witness the test. Among the visitors were Police Commissioner Hartman, Chief Redell of the Omaha ire department, Chief Smith of the South Omaha fire department, and Messrs. Howard, Webster, Butler, Dallas, Robinson, Newman and Andreen. General Manager Foster and Superintendent Hamilton of Swift's were also

Resolved, That the sum of \$1.00 be and present. Chief Freidt of the Hammond fire department managed the test and worked his men in admirable manner. After an inspection of the new pumping engines the visitors were invited around to the north end of the beef house, where the attempt to throw water on to the roof, 115 fest high, was to be made. At a signal from Man-anger Noyes a fire alarm was turned in, and in less than half a minute one stream was playing on the building. At the end of sixty seconds four streams were in service, and

of water on to the roof, but he could not do king at full capacity, and with the ordinary pressure from the water works company's The spray went on to the roof, but not a solld stream. The test was not the success that the Hammond people expected it to be, and another test may be made in a short to the view of the other members. "That

possible. Plowing on the land already do-nated will commence in a day or two. Truant Beatrice Lad Goes Home.

Ray Brandt, the 16-year-old son of W. G Brandt of Beatrice, rode into town yesterday afternoon on a gray pony and tried to sell it for \$15. While trying to make the sale Ray's father appeared and wanted the boy to return home. It seems that Ray had been in the habit of riding the pony to school, but he decided to run away from home and struck out for this city, where he expected to sell his pony for enough to take him to the seacoast. The father induced the lad to home, and both left on an evening train for Beatrice.

NO SEED FROM THE COUNTY

Commissioners Divided on the Proposition of Aiding the Garden Spot Scheme.

YESTERDAY'S MEETING WITHOUT RESUL

Almost as Many Opinions as There Are Members of the Board-Sutton Speaks for South Omaha-Position of the Finance Committee.

The board of county commissioners held meeting yesterday afternoon and almost succeeded in voting 500 bushels of seed potatoes for the use of the agricultural association for distribution among the prospective farmers of Omaha. Owing to a disagreethis to be done failed to carry and the whole did before the special meeting to consider the question was called. Mr. Livesey was called to the chair and

the committee on charities offered a report, recommending the purchase of 500 bushels. of potatoes with the proviso that persons receiving such potatoes be taken from the list for the giving of 100 bushels to South Omaha. These two resolutions, together with an amendment offered by Williams to the committee's report, calling for the free distribution of the seed irrespective of the fact whether the would-be farmer had ever received county aid or not, proved insur-mountable obstacles and the board at once developed as divergent views on the question as it had members.
Sutton said South Omaha had 16,000

people and asking for only 100-bushels of seed was like demanding very small potatoes South Omaha's prayer ought to be listened to with attention.

URGED CONSERVATIVE ACTION. Stenberg stated that the Associated Charities and the new agricultural association having the matter of seed distribution in hand, were willing to help South Omaha as well as every other locality, but South Omaha bad been too modest and had asked nothing as yet. He was fearful lest the board would be going further than it could justify its course if any but county pensioners were assisted. At the most, what the board would do, would only be granting partial relief.

Williams was in favor of placing the whole question of distribution with the associafamily with the handling of a peck of potatoes

Jenkins arose to defend the majority re port and opposed further delay by referring the question back to the committee, as had been opposed. Mr. Jenkins bad prepared a small dynamite bomb on the mooted question

board. It was this:

Resolved, That the sum of \$1.000 be and the same is hereby set aside toward defraying the expenses of a Fourth of July celebration and the comptroller is hereby instructed to draw a warrant in favor of the financial committee having said celebration in charge for said amount. Signed E. P. Davis, introduced by H. Jacobsen and passed June 28, 1892, by the city council.

city to shame. On a vote to recommit, the motion carrie and a new report will be submitted Saturday Whether the committee will bring in a reort in accordance with the wish of the majority of the commissioners is doubtful,

committee report embodied our judgment, said Mr. Stenberg afterward, "and we can-LEFT WITHOUT HOPE. Messrs. Laughland and McGinn were present, representing the prospective city farmers, but left before the meeting was over

They could get little assurance, apparently of having their expectations gratified Regarding the sheriff and his request that he be allowed additional help in taking charge of the jail, the report of the committee or court house and jall, recommending change, carried. The committee submitted showing to the effect that in 1886 and committee to cut up the land into one-fourth 1887 the average number of prisoners under

Good Friday at St. John's Church. On Good Friday a passion service will be held in St. John's church, Twenty-sixth and Franklin streets, lasting from the hour of Franklin streets, lasting from the hour of all the associate mission congregations, and is a public service to which all comers will be welcomed. It has been customary to have this salemn service in commemoration of the period during which the Baylor hung on the cross. Good Friday is the only day in the whole year when there is no celebration of the holy communion.

At 7:39 p. m. there will be a choral evensong service in this church. The choir will come in with cassocks on, but no cottas, while vestments being banished on Good Friday.

Friday.

COAL FROM THE LUNGS.

Several Tons of It Breathed Out in a Life Time.

We breathe oxygin in, and coal out. Experiments show that eight ounces troy of solid carbon are given off by a pair of human lungs every 24 hours. That would be 6% tons in a life of 75 years. What would that amount of carbon be worth in the form of diamond? A diamond is pure car-

The price of diamonds concerns very few people, but the condition of the lungs is a matter of supreme importance in this season of changing weathers. Unless the lungs be strong theny cannot expel the the car-bon. A cold attacking them directly weak-

bon. A cold attacking them directly weakens them.

Any depression, though it seems to effect only one organ, must be overcome by bracing the whole body. For this purpose the doctors prescribe stimulants.

Duffy's Pure Malt Whiskey is highly prized by the medical profession, because it rouses the latent energy of the body, creates a keen appetite and is invigorating and nerve soothing. If the use of it were followed by an injurious reaction, the doctors would not commend it. The fact it that Duffy's Pure Malt Whiskey stimulates the organs to do their work property so that all ground gained is held.

Hence, it is a standard medicine; a household remedy of proven value. It is especially useful in the spring to fight those obstinate colds that so often develop into pneumonia and bronchitis.
