Directors of the Atchison Think the Reorganization Plan Is Equitable.

BEST TERMS THAT COULD BE OBTAINED

Confident the Property Will Prove Profitable When on the New Basis of Capitalization and Fixed Charges—Condition of Property Good.

NEW YORK, April 10.—The board of directors of the Atchison, Topeka & Santa Fe Railroad company met today and issued the following circular letter to the stockholders of the company: "When your directors were elected they found your company bankrupt, its property in the hands of receivers, its defaulted interest amounting to many millions of dollars, its floating debt more than $10,000,000, its repairs, renewals and improvements not up to date, and its business badly demoralized. In addition to this, reorganization committees had long been considering the problem of reorganization, and had already advanced and withdrawn one plan. By the time your directors had acquired a full knowledge of the conditions and requirements of your company the original reorganization committees, desiring perfect unity of action, had arranged for a committee, known as the Joint Executive Reorganization committee, and this committee had taken up the task of making a plan where the first committee had left it off. A plan has finally been formulated and announced. During the time through which the Joint Executive Reorganization committee has devoted itself to forming this plan your directors have given unceasing attention to it, and have left nothing undone to insure on the part of the committee a knowledge and consideration of all possible and pertinent facts and opinions relating to a proper recognition of the shareholders.

"In every feasible way the views of your directors and individual shareholders and their friends have been brought to the attention of the committee. What has been communicated to it has also been communicated, so far as was proper, to many independent parties of great financial strength whose interest in the property has been repeatedly and earnestly appealed to or solicited. No new interest seemed willing to undertake so great a task as the one presented. The Joint Executive Reorganization committee, therefore, has been the only one in the field, so far as relates to the actual promulgation of a plan. The reduction of the assessment from $100 per share in the stock, the amount fixed by the first committee, to $10, giving the preferred stock for this assessment, and the reduction of the fixed charges, so as to insure to the stock what seems to be an absolute immunity from the danger of foreclosure in the future, are provisions in line with our appeals for fair treatment to shareholders.

"Though the charges ahead of the present stock are somewhat increased, the property and its possibilities are bettered, and the net result is undoubtedly a great gain over existing conditions. In completion of the plan it was underwritten by Messrs. Baring Bros. & Co. of London and other strong foreign and American bankers, who should be able to estimate correctly the probable future of the shares. These underwriters have assumed the liability of paying the assessment and taking the stock. It is evident they would not have done this but for the belief that the stock would have its present value, or a higher one. The outlook is, therefore, that the general mortgage bondholders will deposit their bonds, the plan be effective, and an entire reorganization of the system be speedily accomplished. In view of these considerations we approve the plan, recommend that the stock be deposited, and the assessment paid and the reorganization be facilitated in every possible way. Signed by: William L. Bull, James A. Blair, Edward Berwind, B.
