OMAHA LIVE STOCK MARKET

Cattle and Hogs Increase in Numbers for the Week So Far.

DEMAND FOR FED STEERS IMPROVING

Buyers Making Things Lively While the Supply Lasts, but Prices Show No Change-Hogs Sell in About Thursday's Notches.

cattle were about all sold and weighed up some time before midday. It was, in fact, a fairly active and steady market, the downward tendency of the past few days having been checked. A train of western hay fed steers sold at \$4.65, and a few natives at \$5.25 and \$5.35.

There were about seven loads of cows and heifers in the yards today, and the market

heifers in the yards today, and the market was active at fully steady prices. There were some pretty desirable cattle among the offerings. One bunch of yearling steers and heifers sold at \$4.40, while a bunch of 207-lb, heifers brought \$4.80. The great bulk of the cows and heifers sold at \$2.50 and \$3.50.

The stocker and feeder market did not partake of the improvement in the beef market. There was very little life to the trade and dealers generally were calling the market still lower than yesterday. The fact that the week is drawing to a close faturally makes every one anxious to sell, and helps to depress the market still more. The slump in feeders is not confined to this market alone, but other markets are going through the same experience. Representamarket alone, but one through the same experience. Representa-

No Improvement in Prices in Spite of the

Small Receipts, CRICAGO, April 12 -- CATTLE-Prices were no more than steady today, although only about 4.585 head were received, making a total of about 40.000 for the week so far, or 25.000 less than were received in the corresponding time last year. Sinces and at \$4.0094.10, and medium to good FRIDAY, April 12.

The receipts today were 1.285 cattle, 3.267 hogs, 861 sheep and 29 horses, as against 1,430 cattle, 3.641 hogs and no sheep yesterday, and 1.617 cattle, 3.870 hogs and 3 sheep on Friday of last week. Receipts for the week thus far are 7,960 cattle, 19,190 hogs and 2,600 sheep, as against 7,233 cattle, 17,982 hogs and 7,683 sheep for the same five days last week.

CATTLE—Among the fifty cars of cattle pecelved there was quite a showing of western beef cattle. At the same time there were very few corn fed native beeves on saic. The market on beef cattle showed more activity than for several days. The buyers acted once more as if they wanted cattle, and they took hold and cleaned up the bulk of the offerings in a very short time. The cattle were about all sold and weighed up

SHEEP AND LAMBS—An extremely dult market was experienced this morning, and aside from moderate purchases of fat, heavy westerns at 11.5074.15 by exporters very little was done. The week's receipts have been much smaller than in recent weeks, and show a decline of more than 8.000 head, as compared with the same time last week.

RECEIPTS—Cattle, 4.500 head; calves, 200 head; hogs, 15.000 head; sheep, 6,000 head.

on the Recovery of Trade. NEW YORK, April 12.-R. G. Dun & Co. weekly review of trade, which issues tomorrow will say; Progress toward better business con tinues, but it is slow and meets many obstacles In speculative aspects and in wholesale demand for goods the week shows improvement. Money markets are undisturbed and a little more active but among the chief obstacles is the anxiety of operatives to secure better wages, even while many manufacturing works are running with out profit and others at the risk of loss. In : number of establishments better wages hav number of establishments better wages have been conceded, thus increasing the purchasing power of the people, but strikes have largely overbalanced settlements, several of importance having thrown about 12,000 workers out of employment this week. Retail trade has improved on the whole since March, as the approach of Easter brings more business, but distribution to individual consumers still lags behind purchases of jobbers and such demand for products as springs from building and other investments tooking into the future. Crop prespects will greatly affect the course of trade for some months, and the government report had little influence to discourage.

ourage. For consumers the worst feature is the rapid For consumers the worst feature is the rapid advance in meats. For the first time in a long period prices of commodities average a shade higher than a year ago, and in Great Brita n also, owing to different causes, a slight advance occurred in March. On both sides of the ocean the lowest level ever known may naturally be followed by some rise. Notion is, on both sides, more bisoyant than anytising else except meat and petroleum here, crude oil having risen to \$1.50, the highest price for over seventren years. Nothing supports the advance of be in cotton the past week except the impression that the next cop will be short, for recepts are large and about 120,000 bales more than the targest crup ever grown have already come into right this year.

year, wheat has yielded nearly 1c, although Atlantic exports for two weeks have been 2.706,632 but. flour included, against 2.59,688 bm, last year, flour included, against 2.59,688 bm, last year, with western receipts only 2.988,467 but, against 4.221,424 but last year. Receipts of corn are about half and exports about a fifth of hast year. Becreases in receipts of cattle are exaggerated, 549,468 having arrived at Chicago, against 785,548 to date last year, and the prevalent opinion is the western packers are helping nature to some extent.

is the western packers are helping nature to some extent.

The output of pig iron April 1 was 158.122 tons weekly, practically the same as March 1, with a decrease of 1.089 tons in unsold stocks during the month. Doubtless heavy stocks were taken up by manufacturers in anticipation of a strike in the coke works, but the apparent consemption is larger than at any other time for some months and only a sixth less than in March 1392. Heavener iron has advanced a little further to \$10.75 at Pittsburg, but there is no change whatever in prices of finished products during the week, and

while the demand continues good for structural forms and a little better for bars, the marked decrease in demand for winter, owing to the scant purchases of farmers for fencing, affects the outlook. It seems probable that pig fron must recede unless a larger demand for finished product is soon developed.

Sales of wood are particularly interesting amounting for the week to 6,000,200 pounds, and for five weeks previous to 25,621,550 pounds, hgainst 25,277,378 pounds in the same weeks of 1822. In heist, sales are close to the quantity required for a full consumption and the long delay in placing orders and the lateness of the season make the proportion of mills at work larger than usual. No improvement in prices appears, and domestic wool does not respend to recent advances in the foreign market. The low price encourages manufacturers to compate much more vigorously with the foreign goods of many kinds than they expected and for the miclium and cheaper grades of goods they have more than the usual demand, because purchases of consumers have for two years been comparatively small. The better grades fare not so well, foreign competition being more effective, but there is a good demand for dress goods. In contons continued strength appears, with further occasional advances of 4c and 4c in print cloths, and the aggregate is fair. Many agents are sold well ahead.

Failures for the week were 207 in the United States, against 121 last year, and twenty-seven in Canada, against fourteen last year.

BRAD TREET'S REVIEW OF TRADE. Products with Very Few Exceptions Show

an Upward Tendency. NEW YORK, April 12 - Bindstreet's tomorrow will easy: The feature in trade circles is found in the price movement, more particularly those for cattle, dressed beef and petroleum. Drouth, low prices and 'hard times' within two weeks have resulted in a shorter supply of cattle, prospectively 30 per cent less than last year. tattle are \$1.00 higher per 100 lbs. than last year Dressed beef is 25c higher than the average last year, the highest since 1883. The comparative scarcity of high grade cuttle is empinized by the fact that present quotations, when made in previous periods of scarcity, have never failed to bring a supply when one existed. Petroleum sold at \$1.57\(\frac{1}{2}\) on Thursday, \$2c higher than on January 1 and 75c higher than a year ago, which is more than three times the lowest price in 1822 and the highest quotations since 1878. Reduced production and increased consumption indicate the former has been overtaken, which, with reduced stocks, produces excitement in the market. Other advances are on leather, hides and footwear. Shippers of anthractic coal to New England points ask more f. o. b., and at the west bar and manufactured from have recorded advances in actual transactions. Lard is higher, and cotton is up 3-18c. Recent gains in prices for bessemer pig and steel billets are maintained, but the request at Pittsburg and Chicago is checked. Coffee and sugar are firm at previous prices, while the list of reactions include fractional declines only in wheat, cirn. oats and pork, the latter on lower prices on longs. scarcity of high grade cattle is emphasized by

oats and pork, the latter on love polyshogs.

Compared with February, March returns of gross earnings of 130 millronds may be construed as favorable, the increase over March, 1894, being 2 to 1 per cent. This is contrasted with a February decrease this year from last of 2.2 per cent, and of the January falling off this year from last of one-half of 1 per cent. When it is recalled that gross railway earnings in Murch, 1894, fel off 12 per cent from the total from that month for 1893, an increase last month from March, 1894, of one-fifth of 1 per cent acquires significance.

March, 1894, of one-fifth of 1 per cent acquires significance.

Exports of wheat from both coasts of the United States this week, flour included as wheat, hold up to a high average, 2.394,179 but, against 2.533,933 but in the previous week, 1.955,500 but, in the second week of April, 1894, 2.946,025 but in the corresponding week in 1893, 2.910,356 but in 1892, and 2.466,089 but in the second week of April, 1891.

The maintenance of a generally high range of clearing house totals, an improved outlook for manufactures in the staple line, the spread of a feeling of confidence that the volume of business will increase in the near future and an improved crop outlook in western and northwestern grain states are among the more significantly favorable fratures. The weather has been unfavorable throughout portions of the Canadian dominion, with the natural effect on trade, although the outlook at Montreal and Toronto is encouraging.

New York Dry Goods Market. New York Dry Goods Market.

New York April 12—Agents have advanced the prices of Amoskoug staple faincy ginghams to 5c. The advanced price of printing cloths has made kid finished cambrics firm at ½c advance. There was an assortment required and request for seasonable specialties of a destrable character, but the general market relapsed into the quiet with which the day is being observed. There was more business doing in work but takes so far have been liberal, with the purchasing trade conservative. Print cloths firm at 2 II-life, with sales of 75,000 pieces regulars and odds.

CLEVELAND. April 12.—In keeping with the sharp advance in crude oil the Cleveland refiners today marked up the price of refined oil. Ohio state test was advanced 37½c a bbl. of 50 gallons. The advance in other grades was still more marked, a full cent being added per gallon to the price of water white, Ohio state test, headlight oil and eccene. Financial Notes.

WASHINGTON, April 12.-Tariff legislaion in Belgium forms the subject of a report sent to the Department of State by Minister James S. Ewing at Brussels. It encloses a copy of a new tariff bill introduced into Parliament on March 8, but not made public until March 22. By this bill import duties are imposed on a number of articles, including a tax of 1 franc 50 centimes (about 30 cents) per 100 kilos (220 pounds) on flour, which has been duty free. Canned meats, relishes, etc., are taxed 30 francs per 100 kilos, and preserved vegetables 10 francs per 100 kilos. The duty on various sorts of steel and iron are reduced about 50 per cent on the average. Cotton goods pay either the same duty or are reduced from 30 to 8 per cent. port sent to the Department of State by

Omaha and St. Joe Engage in a Long Contest at the Fall Fark.

HOME TEAM WON BY THREE TALLIES

All Showed Lack of Practice in the Field, but Pounded the Erratic Pitching

with Great Zeal and Va-

rious Success.

There was a nice growd, embracing 500 or 600 enthusiastic faus, out at the Charles Street park yesterday afternoon to witness the Omahas and St. Joes in their first exhibition game of the season. Barring the disagreeable dust with which the fresh west wind kept the air filled, the day was ar ideal one for the sport. The game was tire some and long drawn out, both teams evinc ing a lack of practice, and in consequence playing very ragged and very poor ball. I would be invidious, however, to criticise of comment on the men's work at this early stage. Wait until they have had the benefit of a week or so's training, and then there will be plenty of time of expatiating upon the probably strong and weak points of the outfit. The score:

A CONFIDENTIAL CHAT

between two men or women generally develops the fact that one or both of them are troubled by sickness of some kind. One man is all right except his rheumatism, another has a "slight touch" of dyspepsia, another has bilious headaches and another is too nervous to sleep well.

What's to be done about it? The situation is serious. Little things have a way of getting big.

Big diseases are bad things. Sleeplessness brings irritable nerves, loss of flesh, loss of appetite. Sleepless people soon get their bodies into such a condition that disease-germs find it easy to lodge there and propagate. People die from the aggravation of an aggregation of little things. The more promptly a disease or disorder is met the more quickly it is cured, Most all sickness starts in the stomach, liver or lungs. Rheumatism, scrofula, eczema, consumption, come about because insufficient, impure or impoverished blood is present. The things we eat and breathe are

what make blood pure or impure. The diseased blood finds the weakest spot in the body and a local symptom appears. If the impurity is supplanted with good, rich, red, healthy corpuscles, the disease will have nothing to feed on. If the proper cleansing medicine is sent to the seat of the trouble, it will force out the germs and repair the damage done. Dr. Pierce's Golden Medical Discovery is a cleansing, purifying medi-

cine, a blood enricher, a nerve strengthener. It is an efficient tonic, aids digestion, creates healthy appetite and healthy flesh. It does not make people "fat." It makes them strong. It makes useful flesh-muscle. It will cure any sickness that has its source in the digestive organs, or through them in the blood. It will cure 98 per cent, of all cases of consumption if it is taken in time. Consumption is virtually scrofula of the lungs. Scrofula is a disease of the blood. The "Golden Medical Discovery" purifies the blood. What sounds at first like a preposterous statement is a very simple, logical truth when you reason it out.

The World's Dispensary Medical Association, Buffalo, N. Y., publish a 160 page book about health and how to keep it. It will be sent free on receipt of six cents in stamps to cover postage. It tells of many wonderful cures by the "Discovery."

NEW YORK CLAIMS CHAMPIONSHIP. Defeats Chicago Again at Water Polo and

Now Defies the World. NEW YORK, April 12.- Tonight at the meeting of the Chicago Amateur Athletic team with the New York Athletic club representatives for the championship of Amerca at water polo, the New Yorkers, through the excellent work of W. E. Dickey and the

interference of N. Murray, secured a goal in 1:47. The teams lined up as follows: New York. Positions. Chicago.
W. G. Douglas Right forward ... S. H. Hunt
W. E. Dickey. Left forward ... Juan Smith
P. F. Dickey. Center rush ... G. W. Thorpe
N. Murray... Quarter back W. H. Thompson
C. J. Kintner... Goal ... L. E. Rurr
E. F. Haubold... Goal ... B. S. Donnely E. F. Haubold.... GoalB. S. Donnely Precisely at 8:31 p. m. Referee Dr. J. M. Davis threw the ball into the water and blew the whistle. The twelve contestants dropped into the water with a loud splash, and W. E. Dickey grabbed the ball just behind the Chicago captain by about four inches. Dickey passed it back to Murray and they worked it cleverly to within a few inches of the goal, when Donnely caught it and sent it back to Thompson in the middle of the tank. W. E. Dickey then the middle of the tank. W. E. Dickey then got the ball and rushed like a streak through the Chicagoans, assisted by the interference of his namesake, and Murray scored the only goal of the night. Time,

The western men then passed and desperately. Thompson hit W. E. Dickey with his right hand on the nose, drawing blood. Dickey returned the compliment and Thompson's nose was soon bleeding coplously. This was the only show of bitter feeling exhibited during the game. For the remainder of the first half the Chicago men players the defensive, but kept the base on the defensive, but kept the base on the defensive goal line. Captal The western men then played carefully first half the Chicago men played on the defensive, but kept the ball near the New Yerkers goal line. Captain Kintner stood off the rushes of Burr and Donnely very cleverly until time was called. In the second half the New Yorkers, by a succession of tricky passes between Murray, Haubold, Dickey and Kintner, managed to consume the entire eight minutes. It was generally conceded that the Chicago cracks put up a very much better game than they did last night, and their defensive work and cute passing were frequently applauded. good form and picked four out of the five winners.
