under which the city was to receive \$52.10 each month for the privilege of running a saloon. Biodeil used to refuse to pay this amount and the city officials would have their fingers in his wool about as often as the month rolled around. Yesterday an in-formation was filed in Justice Vien's court charging him with keeping a saloon, and Constable Baker went to Cut-Off to inspect his goods. He found a keg of beer, two bot-tles of whisky and three jugs and three bot-tles of whisky and three scized by the officer and brought to the city. Blodell made no resistance. to with Interest.

A well attended meeting of the executive committee of the Associated Charities was held yesterday afternoon. The five members who were appointed to act as trustees of the late charity ball fund were present. A

resolution to dissolve the association at once was lost. It may be interesting to a few of the persons who worked night and day for over two weeks to make the charity ball a success to read the following report introduced by

the trustees: To the Executive Committee of the As-sociated Charities: We, the undersigned, repectfully desire to censure the present system of expenditures in the Associated Charities. A system which allows \$466 to be expended in one month (a sum ex-ceeding that which was spent during the entire winter) is manifestly injudicious. We think it was the duty of the officers to call the attention of the executive board to the lavish manner in which the association's morey was being expended during the last thirty days. We recommend that no goods be purchased without per-mission of the executive board and further recommend that the association be closed today. the trustees:

City engine works. In the financial crush of 1886 it falled, and a receiver was ap-pointed. A year later the company was reorganized and consolidated with the Boch Manufacturing company. The bondholders against the old company agreed not to foreclose on their bonds, but a short time ago the holders of about \$15,000 of judg-ments against the old company fock steps to foreclose their liens. To crowd them out the bondholders foreclosed and sold the plant. As the bondholders are also the owners of the plant their action leaves the concern in the same hands, but freezes out all the other lien holders. DES MOINES, April 26.-(Special Tele-gram.)-C. W. Rowe of Poweshick county is missing from Montezuma and is supposed is missing from Montezuma and is supposed to be about \$50,000 short in his accounts. An investigation is being made. He was mixed up in a scandal with a woman a short time ago, and was defendant in an extensive libel suit. He was a triegraph op-erator for a number of years and was sta-tion agent for the Rock Island railway at Malcolm when elected county treasurer last fall. He is a republican and is a middle-aged man.

## Iowa Free Sliver Men to Meet.

DES MOINES, April 26 .- As a result of the outcome of the democratic conference here the free silver democrats have determined to call a state convention of bimetallists to meet in this city early in June. Measures are being taken to secure the attendance upon the meeting of Senator Wol-cott of Colorado and other free silver men of national reputation to deliver addresses.

### Wandered Away While Demented.

FORT DODGE, Ia., April 25.-Mrs. Wil-liam Miller disappeared from home mysterously day before yesterday, causing much distress among her friends, who feared foul play of some sort. All day searching par-ties were out looking for her, and at night she was found wandering along the rail-road a number of miles from town. She was found to be completely out of her head and knew nothing of what had happened.

There is one true specific for diseases arising from a debilitated nervous system, and that is Paine's celery compound, so generally prescribed by physicians. It is probably the most remarkable remedy that the scientific research of this country has produced. Prof. Edward E. Phelps, M.D., LL.D., of Dartmouth college, first prescribed what is now known the world over as Paine's celery compound, a positive cure for dyspepsia, billousness, liver complaint, neuralgia, rheumatism, all nervous discases and kidney troubles. For the latter Paine's celery compound has succeeded again and again where everything else has failed. The medical journals of this country have given more space in the last few years to the many remarkable cases where the use of Paine's celery compound has made people well than to any other one subject.

## Had a Millinery Opening.

Miss Helen Sprink's millinery store on South Main street was entered by burglars some time early yesterday morning. A pane of glass was removed from a back window and the rear door was opened. Three dress patterns worth about \$50, and a lot of flow-ers, feathers, lace and other materials used in the construction of Easter bonnets were taken. The cash drawer was pricd open, but the cash had been put into a box and shoved down into an obscure corner and escaped the notice of the theives. Appearances indicated

One of the happiest combinations of this character is found in OZO-MULSION. It is composed of a permanent Emulsion of Pure Norwegian Cod Liver Oil combined with Guaiacol, and the entire preparation charged with ozone. Two of the ingredients-Cod Liver Oil and Guaiacol-have long been accepted by the medical profession as most effective agents in the treat-

wasting diseases. Their combination in Ozomulsion not only retains all their respective virtues in the treatment of the distressing ailments referred to above, but, by the peculiar chemical combination obtained, secures effects which are in a marked degree superior to the best produced by separate prescription of all of them to the same patient. The Emulsion is perfect, and the chemical combination such as to produce in Ozomulsion the grandest germ-destroying, blood-purifying and fleshproducing remedy of the age.
