TORTURING ECZEMA BEEF INQUIRY COMPLETED

Editor Iowa Plain Dealer Cured of Insufferable Itching and Pain by the Cuticura Remedies.

No Less Than Five Physicians Consuited. Their Combined Wisdom Followed Without Benefit.

I am sixty-six years old. In Acqust, 1829, was boulied with the peculiar skin disease to which people of my age are subject, known among bedient men as ecrema. Its first appearance was near the ankles. It rapidly extended over the lower extremities until my legs were nearly ene raw sore; from legs the trouble extended across the hips, shoulders and the entire length of the arms, the legs and arms greatly swollen with an itching, burning pain, without cessation. Although the heat medical advicentiamable was employed, no less than five physicians of the place oeing consulted and the prescriptions being the result of their combined wisdom, the disease, though apparently checked, would recur in a few days as bad as ever, during its progress my weight fell away about twenty-five pounds. As an experiment I began the use of Curretha, following the simple and plain instructions given with the REMEDIES, and in four weeks found myself well, with skin soft and natural in color, the itching and pain entirely relieved.

W. R. MEAD,

Editor lows Plain Lealer, Cresco, Ia. I am sixty-six years old. In August, 1829, was

CUTICURA WORKS WONDERS

CUTTOURA REMEDIES speeding cure every humor and disease of the skin, scalp, and blood, with loss of hair, whether itching, burning, scalp, pinnely, and blotchy, whether simple, scrofulous, hereultary, or contagious, when physicians fail.

I was operated on two years ago for an abscess, which left a running sore, which five doctors said could only be helped by another operation. I almost gave up in despair. \$3.50 worth of the CUTICUTA REMEDIES cured me, and I am now well and strong. Miss. ANNIE SULEN. well and strong. Mrs. ANNIE ACTION. 2101 Lawrence St., Denver, Col.

ASKS THE PACKERS FOR INFORMATION

Submitted to Chief Salmon as a Contribution to the Agricultural Department's Investigation-Remediat Legislation Suggested.

WASHINGTON, April 26 .- Dr. Salmon, chief of the animal industry division of the Agricultural department under whose directions the investigation of the alleged beef combine is being made, said today that the report of Dr. Melvin on freight rates charged for transportation of beef had been received. It covers the whole ground of he alleged discrimination of rates against small concerns. Dr. Salmon, however, refused to make public its contents at this time. It will be held until all the reports Promotions in the Army Caused by the are in, when the conclusions will be care-

fully drawn. alleged combine Dr. Salmon said that a few men with \$109,000,000 capital who controlled the stock, refrigerator cars and packing houses and who obtained low freight rates would have abundant opportunity to make the buying price of cattle or the selling price of dressed beef. If the supply of catthe was 270,000 short he asked why the market was daily reported dull. Dr. Sal-mon said if the investigation showed that a combine existed and was evying tribute the people should know it.

"Will the matter be laid before the De-partment of Justice?" was asked. "I don't know the secretary's purpose," replied Dr. Salmon. "I do not know how far the law goes, but if the facts are ascertained a remedy can be provided at the next session of congress or of the state legisla-

Dr. Salmon said that the effects of the recent order of Secretary Morton admitting Moxican cattle under rigorous inspection had not become fully apparent. One lot of 1,500 and one of 6,000 had been admitted. Perhaps 20,000 in all had been admitted, but it was impossible as yet to estimate how many would come in during the season. Many of the Mexican cattle admitted were grazing on the Texas pastures before being sent to market.

UNITED STATES SHOULD AID JAPAN Our Trade Relations There Far Greater

Than Those of France. WASHINGTON, April 26 .- Minister Kurino of Japan today gave the Associated press a very significant interview on the eastern question. He said that in his opinion the ommercial interests of the United States in the east, particularly in Japan, are so much more extensive and important than those of Germany or France that it would be eminently desirable in the event of a Franco-nently desirable in the event of a Franco-German alliance with Russia to prevent the consummation of the peace treaty for the consummation of the peace treaty for the consummation of the peace treaty for the Cartain Charles A. Vernon, Nineteenth init to be clearly understood, however, that fantry, is detailed to attend the encampment this was his personal conviction. He had not, of Michigan National Guards at Island Lake. him to the State department that the United States should be enlisted in its support. His aterests in the east.

"The commercial interests of the United States in Japan are very much greater than those of Germany and France. Practically their interests are little or nothing, while those of the United States are very extensive. The British trade comes first and after hers comes the trade of the United States. It would be eminently proper, therefore, if the United States, in consideration of her superior commercial interests, should offdemonstration on the part of France and Germany, if any such move is actually made. I am not officially informed that it has been made, nor am I apprehensive of the move, should it be made. But in the event its being realized, then there is little doubt in my opinion that the commercial in-terests of the United States would make it expedient to take part in the issue. This, of course, would not mean that the United States was to engage in a fight. Its co-op-

eration would undoubtedly be effective with-out any radical step." Mr. Kurino was asked what the result could be if China's procrastination or for

the peace agreement.
"Then," he replied, "the war will be renewed on May 8 with far more vigor and
newed on than before. The present etermination than before. The present armistice, granted with the understanding that a peace was desired and would be af-fected. If, however, that result is not secured, there will be a most aggressive ad-vance in China."

WORK OF WEIGHING THE MAILS

Method of Determining the Amounts to Be Paid to the Bailroads. WASHINGTON, April 26.-The work veighing the mails in order to settle upon the amounts to be paid to railway companies for the transportation is nearing its close, so far as applies to Illinois, Wisconsin, Iowa, Minnesota and Missouri. The weighing began on April 1 and will terminate on the 30th. For the purpose of weighing these the whole country is divided into four districts, corresponding nearly to the east, south, middle and western sections of the country. The mails of but one section are weighed each year, and the results obtained are used as a basis for computation for four years, until the turn of the section comes around again. The weighing is done either in the spring or in the fall, as the winter mails are unduly heavy and in summer unduly light. When

the work is finished contracts are made.

The government pays \$42.75 per annum for carrying 200 pounds of mail daily per mile of route. For 500 pounds, \$64.12 is paid; for 1.000 pounds \$85.50, and so on.

Land grant railroads receive 20 per cent less than these rates. An unusual amount of work is being done or is in contemplation in connection with the matter of weighing and adjustment, through the rapidly extending use of trolley and other street car lines for carrying the mails. This method of transportation is now more or less utilized in fifty different cities. The rule of the department is to make special agreements with the lines, to hold good for a few

down the mails are to be weighed and ar ranged for on the same basis as the railroads. So far but one of these lines has been weighed in, that from the Brooklyn postoffice to Coney island. The three Covington routes, all extending from the Cincinnati postoffice across the river into Covington, will be weighed in May, and all the remainder in the country

Contract with Costa Rica Renewed. WASHINGTON, April 26.-Under date of April 15 United States Minister Baker reorts to the State department that W. P. Tisdel, general agent of the Pacific Mail Steamship company, has recently renewed the contract with the government of Costa Rica, the last of the five Central American states. The contract took effect on March 14 and will expire April 8, 1898. The term is two years shorter than that of the contracts with the other republics. The company is to receive a subsidy of \$12,000, Costa

going north and south. "First wealth is health." Dr. Price's Baking Powder insures health by wholesome food.

augment General Campos' forces.

Visitors to Cuba Not Favorably Impressed with the Extent of the Rebellion. NEW YORK, April 26,-The steam yacht

Oneida with E. C. Benedict, her owner, and De Forest Manice and James Ross aboard, has returned from a month's cruise in southern waters. The craft, made famous by the pilgrimage of President Cleveland. left here March 27.

After several exciting experiences the Oneida reached Havana, and there the excursionists left the yacht for a turn around the city. They were at once arrested and conducted to the lockup. They spent half an hour there, for, being unable to speak Spanish they could not make necessary explanations. Through the intervention a Turk, however, they finally secured their liberty. While in Cuba the three were little impressed with the scrength of the According to Mr. Benedict the urgents. alleged insurrection is simply a negro rising. The upper class of Spaniards, says, deplore the outbreak and are doing what they can to have it come to an end. On Sunday last the Oneida hoisted anchor and turned to the northward, homeward bound. Twenty miles southeast of Hatteras a pillar of smoke was sighted from the WASHINGTON, April 26.—It is stated here that the continuance of the Debs case has no course, the Oneida bore it down. As they significance. The attorney general wired the drew nearer it was found that the smoke district attorney at Chicago to continue the came from the barkentine William H. Dietz asse until the July term of court. It is expected that by that time Judge Grosscup, who, is ill, will have sufficiently recovered his health to hear the case. Judge Grosscup heard the previous case and granted the in-Dietz on board. The skipper of the bark-entine said that she sprang a leak during a gale and had been abandoned.

Dr. Price's Baking Powder was adjudged highest honors at World's and gold medal at Midwinter fair.

WAS AFRAID TO GIVE EVIDENCE John McCabe Committed Suicide to Avoid

the Witness (hair. NEW YORK, April 26.-A local paper says John McCabe, former assistant chief of the fire department, killed himself because of the worry incident to the senatoria investigation of charges of bribery. Mr McCabe was to have been a witness-pos

s. D. Huddleson against Edward Wild, G. W. Wilson et al, Neligh district, motion for rehearing denied and decision awarding land to Huddleson stands; William B. Beck against heirs of M. Steinhaus, McCook district, decision reversed and entry of Steinhaus with the first of the state senate into the charges of corruption in connection with the fire department legislation. He was to have been put in the state senate into the charges of corruption in connection with the fire department legislation. He was to have been put in the state senate into the charges of corruption in connection with the fire department legislation. He was to have been put in the witness chair by Editor Quigg and questioned as to his knowledge concerning the alleged raising of a fund for corrupt use at Albany.

Elihu Root, who is the attorney in this investigation before the senators, has been legal advisor of McCabe. When Henry D. Purvoy, as fire commissioner, forced McCabe out of the department Mr. Root was the attorney who fought for the fireman until the supreme court restored him. That was in 1881. He became well acquainted with Captain LaGrange, and it is now claimed that Mr. McCabe communicated to General LaGrange certain information concerning the raising of a fund to aid in security as follows: Germanville, Jefferson county, F. P. Thompson, vice Thomas Thompson, resigned; West Lake, Hancock county, J. J. Stein, vice Henry Kendall, resigned.

Condition of Messry. Hitt and Cogswell.

WASHINGTON, April 26.—General Cogswell of Massachusetts is reported better again today. Mr. Hitt's condition is unchanged.
