## COMMERCIAL AND FINANCIAL

After an Early Dip Wheat Advanced Sharply Yesterday.

NEW YORK SENT HEAVY BUYING ORDERS

Shorts Became Very Much Alarmed by the

fall, with a prediction of more rain and of more general character in the winter wheat belt today and tomorrow. A number of the local speculators were waiting for rain as an assurance that wheat would certainly be a sale for ic per bu, on its appearance, and the contingent of the crowd were free sellers at the opening from %c below the closing price of the preceding session. The demand at the concession surprised the sell-ers, and in a few minutes the latter were

demand at the concession surprised the seliers, and in a few minutes the latter were
clamoring to get their wheat at ½c per bumore money than they had sold at. There
were numerous buying orders at the opening from New York, and those were posted
from the United Kingdom showing the foreign markets all higher. Liverpool bids to
New York exporters were advances from
yesterday of ½c per bu., and advices from
there were that the movement of wheat
from La Plata was practically over for the
season. The latter being very important if
true, and it came from a highly responsible
source, had doubtless much to do
with the strength which succeeded
the early weakness here. About
two hours from the opening New
York crowded the wires with dispatches
stating that there was a good inquiry there
from exporters, and followed that up by
advising vales of about 20 boat boads, 20 of
them for Liverpool. July wheat, which sold
at the opening as low as 80% c and had risen
gradually to 61%c, sprung to 62%c on the
export business reported from the seaboard.
The downward movement for the day was
anything but buillish. The total receipts at
the primary wostern markets were 280,000
but, compared with 198,000 but on the corresponding day of the year before. The Atlantic scaboard exports amounted to only
2,000 but, of what and 27,000 bbis. of flour.
The number of boat loads taken in New
York was swelled indefinitely by the rumor
here before the close, and it became known
that some portion of the New York sales
were filled here. Norton & Wright worked
9,000 bu, here for direct export to Liverpool,
and one or two other cargoes in
addition to that were reported to
have been disposed of, but could
not be traced to a confirmation. The
shorts became very much alarmed by the
reported cash sales and ran July wheat
were also conductive to the comfort of
the shorts, but with the great improvement
in the demand for wheat which so quickly
sprang up the shorts began to feel less
comfortable, and like their neighbors in the
wheat pit, they were

today and but \$,000 are estimated as the run
for tomorrow. Opening bids were at yesterday's closing prices, and the first trades
were at the lowest values of the day. After
an advance of 12½c July pork closed with
a Let gain of 5c. Lard in the end was unchanged.
Estimates for tomorrow: Wheat, 60 cars;
corn, 26 cars; oats, 230 cars; hogs, 8,000 head.
The leading futures ranged as follows:

Steady Rise Noted in Speculatiive Markets and in the Industries. NEW YORK, April 26,-R. G. Dun & Co.'s

Neither the rising speculative markets nor the steady gain in industries has ceased, and it is wholesome that there are fewer signs of heal-

Neither the rising speculative markets nor the steady gain in industries has ceased, and it is wholesome that there are fewer signs of hesitation in the productive industries than in speculative prices. Wage strikes grow more numerous and cause some trouble and retail demand lags behind wholesale, and jobbing purchases behind production in some branches, but through many conflicting reports the fact shines out that the industries are gaining, not with a rush and a whirl, but more safety.

It is less clear that railroads are increasing their carnings or that overproduction of cotton will be cured by the advance of 15 in price, or that cornering short sellers of wheat fill up the market for the large surplus. But revival of activity in all these directions, if possibly excessive in some, helps confidence to take the throne so long held by distrust.

Cotton mills are getting more money for goods and have quite generally advanced wages. Consumption of northern spinners at the maximum would be in eight months 1.250,000 bales, but they have netually taken 1.950,000 bales, and have a profit on 600,000 bales controlled of over \$1,000,000. The consumption is large and advances seem to be warranted. Iron production, stimulated because, ore, coke and oil were to be dearer, is retarded by shrinking demand for products, for on the whole new business is said to be smaller than in February or March. The structural demand for pludings throughout the country was never larger, the frenzy in oil has started a large demand for plue and sheets at a slight advance. Rails are stagmant, though a shade better at Chicago, Wire for fencing, nails and wire rods is so dull as to be scarcely quoted, and bar, though lifted a shade, meets no increased domand. Bessemer plg is lower and salard of southern pig in morthern marke's have been alarge and improving, but uncertainty in men's year goods continues and is somewhat increased by more numerous strikes. Conton fianness are for to 75c lower, and an auction sale is to be held, and some irregul

BRADSTREET'S REVIEW OF TRADE

Continued Strength of Staples the Feature of the Week. NEW YORK, April 26.—Bradstreet's tomorrow will say: The feature of the week is the continued strength of prices of staples after the striking advances of the preceding weeks. There is a firmer undertone in nearly all lines of trade, but at a number of points gains in industrial are more marked than in commercial lines. The flurry in petroleum is succeeded by a very duit market. Woolen dress goods mills have secured a number of orders for fall delivery, which accounts for the moderate activity in the market for wool. Cotton goods are firm on the advance in cotton and higher wages paid eastern mill operatives.

About the weekly average of exports of wheat including flour, from both coasts of the United States since January 1 is reported this week. 2,451,000 bushels. This is a decrease from the preceding week of 700,000 bushels in the fourth week of April one year ago the total export was 2,457,000 bushels, in 1821 it was 2,507,000 bushels, and in 1822 3,220,000 bushels. In the like week of 1891 the corresponding total was 2,300,000 bushels.

At the west, with favorable weather, although is a firmer undertone in nearly all lines of trade.

bushels.

At the west, with favorable weather, although the collections are slow, the tone of business remains unchanged, except at Cincianati, where there has been a better demand, and St. Louis, where the request is quite active in dry goods, millinery and for cattle and hogs.

10.81N-Steady; strained, common to good,
11.6681.525. and a fraction in the grangers, the exceptions being Reading, 166% per cent, and the Cordages selling off 5,67% per cent. The depressions in the stocks were soon communicated to the rest of selling off 5,4% per cent. The depressions in the stocies were soon communicated to the rest of the list. New Jersey Central reacted 15, per cent. National Lead 1 per cent, and the general list 154% per cent. Some of the specialties were exceptions, Canadian Pacific and Rubber gaining 115 per cent and Baltimore & Ohio and Delaware & Hudson 15 per cent, the lister, however, guickly losing the improvement. Toward nose the shorts began to cover and the upward movement was resumed and was continued in force during the afternoon with occasional reactions.

As a rule, the fluctuations in the active list were narrow, the features of the speculative list were narrow, the features of the speculative list were narrow. The features of the speculative list setting Marshattan, Leather preferred and Tobacco and other of the speculatives in lesser degree. Reading was also bought heavily and soid up to 1614c, with a reaction to 15%, and a final rully of 5 per cent. The market was decidedly strong at the close, and in the main 24,473% per cent higher. The laster, Leather preferred, and Chicago & Aiton, Ohio Southern and Consolidated Gas 12 per cent, Tobacco 15% per cent, Manhattan 114 per cent, Eugar 1 per cent, Manhattan 114 per cent, Sugar 1 per cent, Reading 5 per cent, New Jersey Ceneral, Pittaburg & Western preferred and United States Rubber, The losses above a fraction were in Orogon Navigation and the Brunswick company, which declined 1 per cent. The bond market was active and generally higher throughout the day. The Southern Pacific Issues were animated and higher and figured for 1509,000, a total of 12,656,000, A block of 1500,000 St. Paul's fours, series A. brought 20, The more important gains are Richmond & Danville, equipment 5s. 5 per cent. Kings County Elevated first Southwestern extension, 25 per cent; Cellar Falls & Minnesota firsts broice to 110, against 128 on Monday. Other noteworthy declines were: Dallas & Waco 5s. 15 per cent. The weakly settlement was sutisfactorily con-

cent; Union Pacific, Lincoln and Colorado firsts, a per cent.

The Evening Post's London cablegram says: The weekly settlement was satisfactorily concluded. The payment for mines was enormous and money suddenly became scarce and loans were made by the Bank of England. Most of the 1600,000 in gold exported today to the Care is in connection with the laste of the city of Johannesburg loan, and is a special operation. Gold is still brought by the Rothschilds in the open market. The markets were good. Americans opened strong with good buying. Denvers, Chesapenko and Canada Pacifics especially were bought, also Southern railways, with have risen to 14% during the just four days. One hundred thousand of these shares are said to have been marketed here and on the continent. There was a general feeling of weakness in Americans later on, but the market closed buillish. South Americans further improved. Consois were easier on the Nicaraguan news. The following were the closing quotations

Continued Light Receipts Having a Slight Reviving Influence on Prices.

TRADE ACTIVE AND 10 CENTS HIGHER

Considerable Advance Over the Opening Prices for the Week-Speculators Supplies About Exhrusted - Hogs Scarce, Strong and Higher.

FRIDAY, April 26. There were in the yards today 879 cattle, 2.953 hogs and 1,978 sheep, as against 522 cattle, 2,929 hogs and no sheep yesterday and 842 cattle, 3,085 hogs and 5,319 sheep on Friday of last week.

For the week thus far there have been received 4,200 cattle, 15,150 hogs and 7,404 sheep, as against 7,624 cattle, 16,719 hogs and 6.095 sheep for the same period last week. CATTLE—The fresh receipts of cattle numbered thirty-four loads, as against seventeen loads yesterday. Of the cattle here, however, there were eight loads which were only halted for feed and were not offered for sale, so that the available supply of cattle on the market was not much larger than yesterday. The extremely light receipts of the past few days are apparently having some effect upon the market. There was a much better feeling prevailing in the market and the buyers apparently wanted the cattle. The trade opened fairly active at an advance of about 10c over yesterday and the offerings were all taken at an early be hour. Today's market could salely be quoted 15c to 25c higher than the prices ruling at the opening of the week. One small bunch of 1.284-lb, beeves sold at \$5.15, and 1.014-lb. with some 1,092-lb, cattle at \$4 and 1,014-lb.

cattle at \$1.75.
There were only about three loads of cows and helfers on safe this morning and prices on this class of cattle experienced about the same advance as those on beef steers. The emand was good and everything sold early

demand was good and everything sold early in the day.

There were only a few stockers and feeders in the yards, while there was some little outside inquiry. The improvement in the beef market has given operators a little more courage and has caused the market to pick up.

Supplies in the hands of speculators had been exhausted and as every one wanted a few cattle the market took an upward turn and can be quoted 25c higher than Monday on the most desirable grades. Quite a number of feeders sold at \$1,50 to \$3.75. Representative sales:

HOGS—There were thirty-mine loads of hogs counted in the varids today, as against thirty-seven loads yesterday. The quality of the hogs was good today, but the weights were not very heavy. The market opened strong to 5c higher and the trade was active at the advance. The buyers all wanted a few hogs and they were not very long in effecting a clearance. The built of the hogs sold at \$4.6564.70, with a few heavy of the hogs sold at \$4.65674.70, with a few heavy loads at \$4.75. Representative sales:

CHICAGO LIVE STOCK.

Market for Cattle Opened Stronger, but Closed Weak with No Advance. CHICAGO, April 26.—Only about 3,500 head of attle were received here today and prices were tronger, with a good demand from dressed beef stronger, with a good demand from dressed beef concerns. Armour was not buying, however, and later on the general demand subsided, leaving prices about where they stood at the close yesterday. Supplies of cattle at the four principal cattle markets this week have fallen much below last week, and are only about one-half as large as a year ago. Native steers sold at from \$1.50 to \$4.50. cows at from \$1.50 to \$4.51, and stockers and feeders at from \$2.50 to \$4.50.

About 29.500 head of hogs were offered for sale today, including those left over from yesterday. There was a good demand from city packers and eastern shippers, and trade was active at an advance of 5c to 10c per 100 lbs., most of the supply being taken early in the day. Today's sales were largely at from \$4.90 to \$5 for heavy, and \$4.50 to \$4.50 for light workers, the former selling at an extreme range of from \$4.00 to \$5.50.

The greater part of the 7,000 sheep received today found ready buyers, the demand being better for good lots, and for such prices were about 19c higher. Local dressed meat firms were only fair buyers, and for such prices were about 19c higher. Local dressed meat firms were only fair buyers, and for such prices were about 19c higher. Local dressed meat firms were only fair buyers, and for such prices were about 19c higher Local dressed meat firms were only fair buyers, and for such prices were about 19c higher Local dressed meat firms were only fair buyers, and for such prices were about 19c higher local dressed meat firms were only fair buyers, and for such prices were about 19c higher local dressed meat firms were only fair buyers, and for such prices were about 19c higher local dressed meat firms were only fair buyers, and for such prices were about 19c higher local dressed meat firms were only fair buyers, and for such prices were about 19c higher local dressed meat firms were only fair buyers, and for such prices were about 19c higher local dressed meat firms were only fair buyers, and for such prices were about 19c higher lo oncerns. Armour was not buying, however, and

FRUITS.

The California crop reports indicate a rather discouraging outlook for deciduous fruits. Apricots are generally reported in poor condition. Early peaches are reported in poor condition. Early peaches are reported in deutiful condition in some localities. In the Sacramento valley frosts have done considerable damage. Yutsa county reports apricots injured by frost and will be a poor crop. Cherries, prunes and pears slightly above the average. Tehema county, appricots, pears and cherries not up to the average: peaches and almonds larger than last year. Nevada county, frost did some damage to peaches and plums. Shasta county, peach and prune trees heavily laden with fruit. Placer county, apricots and cherry plums not promising. Calusa county, fruit of all kinds promises a good yield. Solano county, apricots not promising. Sacramento county, apricots will be small crop and lartiest pears are not blooming satisfactorily. San Joaquin county, apricots poor and almonds are dropping to some extent. Freeno county, frost did some damage to fruit. Madera county, large fruit crop expected. Tulare county, citrus fruit trees putting on a healthy growth; apricots are a very poor crop; rain badly needed. Kern county, frost did some damage to orchards. Santa Barbara county, apricots are a fulure. Orange county, apricots are a fulure. Orange county, rains, crop in consequence will be very light, Riverside county, indications are for a good fruit crop except apricots. Some availey reports fruit prospects fair to middling; apricots are a good size. The coast counties report all kinds of fruit setting well, but in most districts rain is needed. Quotations:

Children Cry for Pitcher's Castoria. Children Cry for Pitcher's Castoria. Children Cry for Pitcher's Castoria.

Very often Nature needs only a little help to get over an obstruction. When a boom of logs is floating down a river, all goes well until one single log strikes something and sticks. Then there's a "jam"—and trouble. It is just so in the progress of food through the digestive organs. Everything goes well till something sticks. Then the process of digestion stops. That's indigestion. That's what makes you feel lumps in your stomach in the morning. Unless the impediment is removed, poisonous putrid matter begins to accumulate. There's a "jam"—constipation, and trouble. Sick headache, biliousness, sleeplessness, vertigo, heartburn, loss of appetite—these are some of the symptoms. Just a little help at the appearance of the first one would end the trouble. Nature is a hard worker, but she needs assistance if too much be put upon her.

Dr. Pierce's Pleasant Pellets offer the best and simplest method for furnishing this assistance. They are prompt and very effective in their action, but they are not strong nor severe. They cause no violent wrench of the system. They go right to the "log" that is fast and loosen it. Nature does the rest. By and by, with a little care in dieting, Nature will do it all. That's one great advantage of the "Pleasant Pellets" over the many strongly cathartic pills—you do not become a slave to their use. They really cure the trouble they are meant to cure. Even the worst kind of chronic constipation disappears with their use.

Some designing dealers do not permit their customers to have Dr. Pierce's Pellets because inferior pills afford greater profits. Such dealers are short sighted. They overlook the fact that next time you will go where you are supplied with what you

Your name and address on a postal card will bring a sample package (4 to 7 doses) of the "Pellets." A trial is all that is necessary. Address: World's Dispensary Medical Association, 663 Main Street, Buffalo, N.Y.

A LARGE number of testimonial letters and photographs of those cured have been printed in a Treatise on Constipation, Dyspepsia and kindred maladies, making a book of 136 pages, which will be sent free, if you will send your address, also this coupon and six cents for postage, to World's Dispensary Medical Association, Buffalo, N. V. Or Dr. Pierce's Common Sense Medical Adviser, a book of over 1,000 pages and 300 illustrations, bound in strong manilla covers, containing all the foregoing and several hundred pages more of useful information, will be mailed, post-paid, FREE TO YOU, on receipt of this coupon and 25 cents in one-cent stamps, to pay for packing, postage, etc. It is a complete Family Doctor Book. FOREIGNERS HEAVY PURCHASERS

London Buying One of the Features of the Stock Market,

NEW YORK, April 26.—Chradateset's tomorrow will say regarding the stock market: A considerable portion of the street has been waiting for a reaction in the upward course of prices. There has been none of any serious character and the market seems to be broadening under an accession of public interest in speculation and of foreign purchasing orders. The latter fact, indeed, was the important event of the wesk. The London public, it seems, is still occupied with the bull speculation in Kaffir mines, the fortnightly account in them just completed having been one of the largest since the movement began, At the bull speculation in Kaffir mines, the fortnightly account in them just completed having been one of the largest since the movement began, At the bull speculation in Kaffir mines, the fortnightly account in them just completed having been one of the largest since the movement began, At the bull speculation in Kaffir mines, the fortnightly account in them just completed having been one of the largest since the movement began, At the bull speculation in Kaffir mines, the fortnightly account in them just completed having been one of the largest since the movement began, At the bull speculation in Kaffir mines the fortnightly account in them just completed having been one of the largest since the movement began at the close bid. NEW YORK, April 26-A decided advance ha-been made in rye flour at this point during the week, prices working higher each day until today's limits on fancy patents were placed at today's limits on fancy patents were placed at \$4 per bbl., an advance for the week of about 40 to 90 points. The enchanced values are wholly due to the scarcity of supplies, not only here, but theroughout the country. Only 17,000 bu. of rye are held in New York, and this, it is said, is owned by a distiller, Chicago is a little better off, having 60,900 bu. against 75,000 bu. last week, but the entire available supply of rye in the country is only 167,000 bu. against 213,000 bu. last week and 371,000 bu. last year. Thus it is happens that holders of flour, fearing inability to replace their stocks, hesitate to sell, and prices move steadily upward, even though the demand is only fair. The range on fancy patents today was from \$3.55 to \$4, against \$1.29 to \$3.40 last. Saturday. One of the most prominent rye flour dealers in the exchange said that owing to the fact that the new crop was four months off yet he would not be surprised to see prices still higher and possibly equal the booms of two years ago, when rye flour sold at \$6.15 and Pilisbury's best at \$5.85 in the New York market.

Liverpool Markets.

Liverpool Markets.
