Illinois Democratic Convention Will Speak in No Doubtful Tones.

MOVEMENT IS ONE OF GREAT STRENGTH

Hon. John Mayo Palmer Makes au Announcement, Based on Caroful Personal Investigation that Creates a Sensation in Chicago.

CHICAGO, April 27 .- The most sensational political development for many a day in Chicago, if not in the entire west, was made public this afternoon. The coming democratic state convention in Illinois will beyond all doubt declare for free silver without international agreement of any kind and the movement is of such strength that other western and southern states will be prevented with great difficulty, if at all, from

following the lead of Illinois. As a party the democracy of Illinois is docmed to disorganization. The authority for these statements is Hon.

John Mayo Palmer, corporation counsel of Chicago and one of the best known democrats in the state. He is not a free silver man. On the contrary, he has a reputation gold. In the next campaign the rehabilita-with the more pronounced silver element as tion of silver will be the main and controla decided "gold bug." Mr. Palmer is the son of United States Senator Palmer who has been leading the money fight for the national administration in Illinois. The statements were made in an interview this afternoon and the news has caused widespread comment and speculation. Mr. Palmer returned to Chicago today from the state capital. He said: "The sentiment in favor of the free and unlimited coinage of silver at the ratio of 16 to 1 without international divide conference

ence or agreement seems to have complete possession of the democracy of Illinois outside of Cook county. I conferred with men of all shades of opinion upon this subject, with republicans as well as democrats. I talked with republicans benes the lookerson see more of the game than the players. I met old friends with whom I could talk confidentially and got the impression that while there is a

very strong and respectable sentiment throughout the state in opposition to this currency theory, yet the opponents of 16 to 1 are without organization, apparently without ambition to succeed and are singularly silent, while the silver men are vigorous, active

and aggressive. seems to me utterly impossible that the opponents of 16 to 1 silver, should they take part in the June convention, could make any serious impression. The convention will unquestionably declare in favor of der the contest law, and holds that the poll 16 to 1 without conference with any nation. oppose that view, although there are some differences of opinion among us, will as a rule, take no part in the convention, al-though in some counties delegations will be sent composed of leading men representing both views wholly irespective of the senti-ment in the particular locality. "There has been a great deal of unnec-

essary P will be to disorganize the democratic party in this state, if such a thing is possible. The ultimate effect, should the currency question be the prominent one of 1896, will be the reorganization of both parties on new lines. Those who like myself may be called con-

servative, have a faint hope that we may be able to induce the June convention to de-clare that it is inexpedient to draw party lines upon the silver question by a state convention, but I confess I have no very great confidence that we will be able to secure this. Unless the refusal secure this. Unites the democrats who agree the democrats who agree with me to take part in the convention shall lead the party elsewhere to believe that demo-cratic sentiment is not thoroughly repre-

sented by the convention this declaration Is your ha will have a very strong and powerful in-

Speaker Crisp's Ideas of the Democratic Fight in the Next Campaign. KANSAS CITY, April 27 .- A special to the Times from Atlanta, Ga., says: Speaker ATTORNEYS ARE AGREED ON THIS POINT Crisp, who is at his home in Americus, in an interview with a correspondent today, declared for the free coinage of silver, and gave it as his opinion that the democrats should nominate a western man for the presidency. In the course of the interview, which is quite lengthy, Mr. Crisp says among other things: "There should never

have been any doubt as to my position on any question. I made a speech for free sil-ver ten years ago, before anybody but politicians had considered it. I stand to what I then said. The disposition of the tariff clears the way for the settlement of the silver questic "That question," said Mr. Crisp, emphat-

ically, "is now fully before us. "Will it be the one issue before the people next year?

"It will," said he, "and in such a way that it must be settled directly, not by subterfuge or evasion, but openly, so that the people may understand it. It will not down. The majority of the American people in both

political parties are in favor of the restora-tion of the free coinage of silver. The people ling issue upon which the democracy will appeal to the peceple. The platform to be adopted in 1896 should declare for the free coinage of silver, directly and with a set of principles responding to the demands of the common people. We should select some good man from the west, some man with a military record, identified with the dominant sentiment that now controls the party. The only fear I have is not that the people are not in favor of free silver, but that the free

vide into factions. "I am," concluded Mr. Crisp, "in favor of the free coinage of silver, as I have always been, and the democratic voters will declare for it next year. The talk of Mr. Cleveland for a third term, under any conditions, has no basis. The people will not make that break in the record. His views on the finan-cial question are not shared by the people."

REPORT FAVORS SEATING TURNEY

Five Republicans on the Committee Wil File a Minority Report.

natorial investigating committee presented their report to the legislature today. The re-

port finds that illegal votes were cast for Turney and for Evans. The report then detalls the course adopted by the committee untax law, upon violations of which the chief stress is laid, is a mandatory law, binding of the payal rations which emenade from the upon all citizens. The losses and gains for each candidate in the counties and districts

investigated are given and the committee re-ports that 2,000 illegal votes were cast by both parties. After assigning them to the candidate to whom the committee reports essary personal irritation and controversy over this subject which is very much to be deplored. There will be a good deal of talk about 'reading men out of the party.' The immediate effect of the expected declaration they were cast, the committee report that after making proper deductions from the sign the report, and five republicans will file a minority report Monday. The joint con-vention of the legislature will meet Tuesday to consider the report and adopt or reject it

Bonds Must Be Paid Back. Argument of the Attorney General in th Hearing of the Case Bears Out the Conclusion This is the View of the Government.

Income Tax Paid on Rents and Municipal

WASHINGTON, April 27 .- Since the decision of the supreme court in the income tax case there have been frequent expressions of and invested personal property under former income tax laws.

It will be remembered that Attorney General Olney in his brief petition for a rehearing ruggested that congress could not well escape making provisions for the re-

funding of these amounts if the decision was Estimate of the Crops for the Year and the to stand. Associate Justice White's dissenting opinion, the text of which was made public today, also touched upon this point. which covered every conceivable source of income, rentals from real estate, and everything else, vast sums were collected from the people of the United States. The decision here rendered announces that these sums enormous amount of money. Thus, from the change of view by this court, it happens that an act of congress, passed for the purpose of raising revenue, in strict conformity with the practice of the government from the

silver people, who are in the majority, may earliest time and in accordance with the oftepeated decision of this court, furnishes the occasion for creating a claim against the government for hundreds of millions of dollars; I say creating a claim, be-cause if the government be in good con-science bound to refund that which had been taken from the citizen in violation of the onstitution, although the technical right may have disappeared by a lapse of time or be cause the decisions of this court have misled he citizen to his grievous injury, the equity indures and will present itself to the conclence of the government. This conscience

how necessary it is that the court NASHVILLE, Tenn., April 27 .- The guber- should not overthrow its past decisions." SALORS' RATIONS ARE ALL RIGHT.

> Navy Department Officials Deny the Stories from the Pacific Coast.

WASHINGTON, April 27 .- The officials of the Navy department are nettled by the freof the naval rations which emanate from the Pacific coast ports. They have no hesitation in ascribing them to the bumboat men and the keepers of shops patronized by sailors who have been deprived of handsome "pick-ings" from the sallors by the enforcement of the order limiting the number of rations h a mess that may be commuted or turned into cash by the sailors and spent ashore.

The naval ration is fixed by act of con-gress and it is not within the power of any man, even of the secretary of the navy, change it, either by increase or diminution. The officers state that it is the most liberal of any furnished to the sailors of the nava powers, and that a vast majority of the peo ple of America are not as well supplied with good wholesome food as are our salitors. The ration as fixed by law includes the following

staples, all, it is said, in sufficient quantity for any person: Bread, flour, pork, beef, preserved meat, beans, peas, rice, dried fruits, butter, tomatoes, coffee, tea, coroa, sugar, pickles, molasses, vinegar, fresh meat and vegetables. When within reach of a market the law

is construed as to permit a wide range of choice foods under these general heads. For instance the sailor may have fresh soft bread or biscuit under the head of flour, he may who has charge of the division of grasses of

mess table, and for dessert he can fall back on dried apples, peaches, raisins, currants, prunes, figs and dates. But the sallor who probably be completed this summer. still has an ungratified appetite may indulge it, for in every mess of twenty-four persons

six rations may be commuted each day, in-cluding \$1.80, which may be applied to the purchase of luxuries. No distinction in persons is made in the issue of the naval rations, and the admiral commanding the fleet receives the same ration, no more nor less, that the youngest apprentice aboard ship receives, and can receive only the same com-

mutation for each ration. The food supplied the shipping market must be carefully inspected when brought aboard the ship, and to insure good quality and good cookery the captain tastes a sampl opinion of the attorneys as to the liability of the government for the sums paid on rents and he has simply to "go to the mast" have a complaint entertained, and if he persists a board of three officers must be ap-pointed to inquire into it and see that the

law is complied with. RUSSIA'S PRODUCTION OF GRAIN

Amount Available for Export.

WASHINGTON, April 27 .- The State department has received a report from Consul are today behind the free silver movements, and they will push it on to success and have silver re-established to its old quality with which covered every conceivable source of 1924.95 token grain for the crop year of 1894-95, taken from an article published in the Messenger of Finance. The figures are given in Russian measurements, a pood amounting to 36.112 pounds, and desseatine, 2.6997 acres. The grain harvested is as follows: Wheat, 424,278,000 poods; rye, 1,105,382,000

poods: oats, 558,646,000 poods, and barley, 228,384,000 poods. Deducting the amount re-quired for the home consumption there remains for export wheat, 221,078,000 poods; rye, 97,452,000 pods. The Messenger thinks there are good pros-

child, '55. "Resolved, That the free and unlimited coinage of American silver at the ratio of 16 to 1 would be beneficial to the American resolt." pects for Russian grain by reason of feeble competition from transoceanic countries, and 16 to 1 would be beneficial to the American people."

Miss Marle Kennedy, '96 Oration-"The Evolution of Society".... Millard Miss Sarah Johnson, '95; Miss Carrie Fair-child, '95. The district attorney has promised to close the case for the people on Tuesday, to which day the hearing has been adjourned. So far as is known, outside police circles at least, all the testimony yet to be given is that of the autopsy physician, and some cumulative matter as to Durrant's whereabouts on Friday night. Even if the authorities have

more evidence against their prisoner they will very likely hold it back until the fight. A fight to have the case dismissed in the

police court seems probable. Durrant's at torneys will not say at this time what they propose doing. The prosecution feels that it has already produced sufficient testimony to insure the prisoner being held for trial Against this testimony Durrant has not urged anything in court, and his own state ment made outside of court is rather against him, as several parts of it have been dis-

proved, among others that he had not seen the girl for three weeks. Early in the trial an attempt was made by the defendant's counsel to cast sus-

edics.

picion upon Rev. George Gibson, pastor of Emanuel church. Durrant's attorneys have so far failed in developing any tangible evi-dence connecting the minister with the trag-Elmer A. Wolfe, a witness o the prosecution, who corroborated previous testimony concerning Durrant's tardiness and

Della Fox Boquets won't cure dyspepsia, disheveled appearance at the Christian En-deavor meeting of Good Friday evening, was

morning. George R. King, the organist, testified that he had no key to the side door of the church, although Durrant had, but both had keys to the library. King said he had done considerable work about the church, but had used tools belonging to Pastor Gibson.

Dr. J. L. Barret, who performed the autopsy, was then called, the prosecuting attorney suggesting that the large number of

tween the respective hats and overcoats of stature had led to Durrant's mistaken identi

adies present abouid withdraw. Chief of Police Crowley says that in the Lamont case the police will present an even stronger chain of circumstantial evi-dence against Durrant than in the present case. He says the case is perfect, and it Durrant is innocent his position is unfortunate.

Theodore Durrant was taken from his cell in the city prison today and formally charged with the murder of Blanche Immont. He has been very surly for the past two days and made no affort to conceal his irritation this morning. "How much more are you going to charge me with?" he growled to Detective Seymour, who swore to the complaint.

The prison officials are confident that Durrant's visitors bring him drugs which enable him to sleep twelve hours a day. To the use of these oplates his increasing irritability is ascribed. He is fast becoming what is known as an unreasonable and troublesome prisoner. Chief Crowley has ordered that no notice shall be taken of anything the prisoner says, minor prison officials having complained of Durrant's rudeness. Durrant is treated with the greatest consideration. He occupies the most comfortable cell in the prison, has access to an adjoining bath room, is permitted to receive visitors at all hours, and is not thrown in contact with the other prisoners. The preliminary examination in the Wil-

liams case will probably be concluded on Tuesday and the inquest in the Lamont case commenced on the following day. Friends of Durrant still affect to believe to bis incompose one promision to solve the

in his innocence, even promising to solve the mystery of the murder, and insisting that the murders were the work of a middle-aged man, resident of the district known as the mission, who has since disappeared.

The plan of District Attorney Barnes to try Durrant for the Lamont murder first is generally commended. Considered alone. the Williams case is deemed weak for the prosecution, and with another case to be tried a jury verdict of guilty would be doubtful. The

prosecution fears the moral effect of an ac-quittal of the case. The evidence in the Lamont crime is considered much more con-clusive. It is probable that the grand jury will be asked to indict Durrant for the Lamont murder. This would render unneces-sary a preliminary police court investigation.
