WHAT SHALL THE CITY GET OUT OF IT

Question of Return from the Franchise Raised, Fending the Settlement of Which the Company's Proposition Remains Undlsposed Of,

The city council met yesterday morning in Mayor Cleaver's private office to discuss some of the matters referred to the committee of the whole at the last meeting. W. H. Ware was there in the interests of the Wizard Telephone company, to urge the granting of a tranchise for the building of a new line of telephone to compete with the Nebraska Telephone company. The main objection in the minds of the aldermen was that the ordinance which the company asked to have passed did not bind the company to do any favors for the city in return for the favor of a franchise. Mr. Ware said the company would bind itself to have its work completed by a specified time, if that was what was wanted. There seemed to be a good deal of uncertainty as to just what the city fathers did want, and the matter was finally postpened until a meeting to be held next Saturday afternoon. In the meantime City Clerk Phillips is to correspond with the larger cities of the state with a view to finding what demands are made upon similar companies there. The result of his investiga-

company. S. B. Snyder is trying to have the council order the car barns of the Omaha & Council Bluffs Railway and Bridge company on Avenue A and Twenty-eight street removed. It seems the company owned every lot in the entire block excepting three when it built its barns, and expected some time to buy those three, one of which is now owned by Soyder. The entire block was vacant, and the barns were built directly across the alley. which had no existence, excepting in the plat filed in the recorder's office. Now Snyder refused an offer of \$350 for his lot, insisting on having \$500. The company has offered make an alleyway along side Snyder's lot out this offer was also refused. The council referred the matter to the city attorney. who will make a report at the meeting

Saturday. The petition of Weighmaster Thomas Johnson to have the right of all persons excepting himself to charge fees for weighing taken away was discussed. City Attorney Hazleton stated that the city ordered the scales at the junction of Main and Pearl streets removed five or six years ago, but the marshal was enjoined by the stock company that then operated them. The injunction was afterward dissolved, and C. C. Honn, the manager, agreed to remove the scales at any time upon a notice of thirty days. This notice was never given. Mr. Hazelton did not know whether the agreement was made of record or not, and he was instructed to look it up and ascertain. Johnson said he made between \$50 and \$60 a month out of the city scales, and would be able to make \$50 or \$100 a month out of the Main street scales. and he would donate 20 per cent of his earn-ings to the city if his request should be granted. Councilman Brewick, who had been instructed to find out what the prospects were for the purchase of the scales by the city, reported that the partles owning them

had refused to part with them at any cost.

The committee decided to report favorably upon the ordinance to bring to grade Third street, from Story street to Ninth avenue. No action was taken with reference to the removal of the North Main street bridge.

Mr. J. L. Shoemaker arrived in the city yesterday enroute to his home in Wilsonville, Kan., and paid a brief visit to his brother here, Mr. A. C. Shoemaker. He brought with him and left for a few days an old heirloom that is surrounded with a good deal more than ordinary interest. It is an old pot hook, the kind that used to suspend the kettle in the wide fireplaces of our grandmother's days. But this one is a pon-derous and elaborate affair and has done service through six generations. It was made by James Johnson, a progenitor of the Shoe-maker family who lived in Ireland in the opened by Judge Smith yesterday morning. 1675 at a peat fire when he was not engaged against King James at the battle of the Boyne. The venerable relic has been handed down from one generation to another until the present time. It was brought to America twenty-five years before the revolutionary war and has held the family pot in colonial cabins in branches of the family who lived to Victoria. in Virginia, Pennsylvania and Kentucky. It came into the possession of Mr. Shoemaker by will in 1876. It is an elaborately ornamented piece of metal, capable of an exten-sion of five feet. Few blacksmiths in Council Bluffs or Omaha could do the work any better today with their coal forges and modern tools. The old implement will be on exhibition at The Bee office today.

The rumor is to the effect that an Oakland official has communicated to Chief of Police Crowley of this city a statement to the effect that an Oakland physician told him that a fellow practitioner in San Fran-cisco had informed him that some time ago he had been called upon to attend the 15-year-old daughter of a resident of San Francisco. The girl had been assaulted and she alleges that her assailant was Durrant; that he had lured her to the belfry of Emanuel church and had there accomplished his purpose. ## The Door of Life. The fear of pain and the dangers of childbirth fill many a woman's breast with dismay. In the olden days of leeches

and witchcraft, it was considered sacrilegious to lessen the pains of labor. Latterly, anæsthetics have been used at the time of parturition, and now people are beginning to find out that pain and danger can be almost wholly avoided,

Proper preparation during gestation will make both, as rare as they used to be common. There is no reason why childbirth should be fraught with

danger and distress. It is a perfectly natural function, and should be performed in a natural way without undue suffering. Nature never intended that women should be tortured when doing the one thing which makes them wholly womanly. The perversion of nature's laws has brought this suffering about, and a return to right living will stop it.

Nine out of ten women are troubled more or less by weakness and diseases peculiar to their sex. It is so because they do not take proper care of themselves-because they neglect little ills and little precautions. A woman in perfectly hearty health goes through her time of trial with comparative ease. The thing to do then, is to make all pregnant women healthy-to strengthen them generally and locally. The medicine and tonic to do it with is Dr. Pierce's Favorite Prescription.

It is a powerful invigorant and nervine. It soothes and strengthens the nerves and acts directly on the feminine organism in a way which fits it for the proper and regular performance of all its functions at all times.

Taken during gestation it robs childbirth of its dangers to both mother and child, by preparing the system for delivery thereby shortening labor, lessening pain and abbreviating the period of confinement,

How Catarrh, Broschitts and Asthma Affect the System-A Widely Known Iowa Man Gives this Experience with the Mail Treat-

Everybody in Red Cak knows M. S. Evans, proprietor of the Delmontco restaurant. Mr. Evans was formally a railroad man, and what he says today will deeply interest hundreds of people in western Iowa, where he has been a familiar figure for years, Mr. Evans says:

M. S. EVANS, Red Oak, Ia.

M. S. EVANS, Red Oak, Ia.

"In my case the bronchial and asthmatic troubles began with catarrh of the throat, which spread downward through the lungs, placing the air passages in a chronic state of inflammatory contraction, causing a sense of heat and sorness throughout the chest, making it difficult or painful to breathe. I had spells of comparative rest, from the screness and distress, but even then I did not breathe with natural fullness or comfort. After a short walk or a little exertion the air passages would seem to close tight and threaten me with death from suffocation.

"Eevery winter I became worse, and my trouble had been working on me for seven or eight years. The bronchial cough was wearing in the extreme, and with the throat and head catarrh helping to pull me down I was losing in health right along. I got down so that I could not eat a good meal without shortness of breath, coughing and wheezing.

"My case was manifestly incurable by any ordinary means, but a course of treatment with Dr. Shepard, through the mails, the symptoms I have described. Anyone who chooses is at liberty to address me on the subject at any time."

subject at any time.

Mrs. Sarah J. Tuttle, 4022 North 33rd street.

'It is a good many years since I began to feel out of health, and my symptoms have been so many that it is hard to give them all. My stomach was the first to suffer from constitutional catarrh. I had a horrible dyspepsia that kept me in a constant distress and prevented the proper digestion of food. After a time a kidney affection appeared, which seemed to be the cause of my blood and system filling up with poisons. I suffered much with heart disturbance and nervous weakness, wakefulness and general prostration. In fact, my whole system seemed to be going to pieces. BY THE COPELAND AND SHEPARD PERFECTED SYSTEM OF MAIL TREAT-MENT YOU MAY BE CURED AT HOME, WRITE FOR INFORMATION.

DRS. COPELAND & SHEPARD,

"I was in the same boat with many others, having chronic troubles, who need competent medical help, but can't afford to pay big fees and drug bills. I went to Drs. Copeland and Shepard, who treated me with such success that my health is practically restored. My digestion is excellent, the healthful action of the kidneys is restored, and I feel that I am permanently relieved of my serious condition. ## When Buying Fruit Trees, Buy the best. RAILWAY TIME CARD

A minute lost can never be recovered, and it's a calamity to lose several years, which so many Iowa and Nebraska people have done when they have bought foreign grown, unacclimated fruit trees. MENERAY BROTHERS,

THE CRESCENT NURSERY. THE CRESCENT NURSERY.

Were born on the lands where their nursery stock is grown, and years of patient, infeligent experiment have taught them the best varieties for this climate. Consequently their home grown stock is as hardy as the forest trees. They have a very large stock for the spring delivery and every tree is warranted true to name.
