12 mm 23 CHEYENNE MAY GET AN OIL REFINERY Special College

Rich Placer Discoveries on the Laramie River Near Dodge City-A New Et Dorado Causes a Great Rush in Southern Callfornia-News of the Northwest. if the fame of the Sorthwest

Kurosene cil will go up to 15 cents wholesale, according to reports from desters who claim to have an inside tip, says the Denver News. Deaters have been supplied at 6 cents a gallon for so long that the raise will be most unexpected and disagreeable. The advance is the result of a deal between the Florence Oil and Refining company and the Continental Oil company, by which the kerosene war of several years' blanding has been brought to a close and the market will be manipulated according to the laws that regulate the market in other sections of the country. The agreement is that the Continental will purchase the entire product of the Florence company, in return for which the Continental will keep eastern oils out of the western market, and the entire supply for Colorado, Wyoming, Montana, Utah, New Mexico, Nevada, Idaho and Arizona will come from the Plorence

The result of this deal will be that Floronce will experience the greatest growth and most prosperity in its history, and the oil fields of the entire west will be pros-pected as never before. About Florence the basis of the oil is paraffine and in other sections of the west all the oils have found an auphaltum basis. Oils with a paraffine basis are the only ones that produce a good

There are at present in the Florence dis trict about 100 producing wells and the out-put amounts to about 2,000 to 2,500 barrels day. This is not quite enough for the de-mands of the entire west and an immense evelopment is looked for. The present policy of the Standard, which is back of the Con-tinental, is to encourage the development of all illuminating oil fields. Adding to this the fact that the new rate contains no as-surance that there will not be a still fur-ther advance, it can be seen that oil has mil-

a new impetus with the recent advance in crude oil in the east and three new wells were opened with an addition to the production of about 200 barrels. The district in which the wells are opened at present extends about six miles south of Florence and four north. The east and west lines are marked by the mountains and the river, beyond which oil may be found, but has not been looked for. Strikes are made at a depth of from 1,500 to 2,500 feet. NEW OIL COMPANIES.

This company, says the Natrona Tribune owns an immense body of land adjoining the rapidly as possible until they have a num-

ducts, Cheyenne, Denver and Fort Worth Among the possibilities is a refinery in this city. The business will be pushed as much as possible this year, and if the outcome of the effort justifies it, the refinery will be IMMENSELY RICH PLACERS.

A private letter was received in this city by a heavy mining promoter from a pres pector at Dodge City on the Laramie river in Albany county, says the Cheyenne Tribune. The letter states that after a close assay of the placer mines belonging to the Cheyenne & Iron Mountain company, on that stream, the ground has been found to run from 75 cents to \$1.50 per yard. Each pan has shown from 200 to 225 colors of gold. Four Mile placers near Rawlins which have caused so much talk among mining men of late have run from 7 to 50 cents per yard. Operators working on this property are comditches, flumes, etc. At the Laramie placers the river runs right through the center of placer mining district.

the river near Dodge City. They are working their claims and all are contemplating putting in the latest and finest gold saving

A Chevenne company, consisting of about twenty residents of this city, are heavily interested in the placers in that locality. Much development is looked for this season.

News has just reached us that coal has een discovered within two and a half miles of the very center of the city, and that the possibility and the probability is that the people of this city will be supplied with coal at their doors for \$2.50 a ton, says the Lara-

work by any one. Two men were put to work on the prospect and they are now sinking to the vein. This discovery is owned sinking to the vent. This process of the control of the city. They have each located twenty acres of land there. The discovery was made about ten days ago, when the gentlemen were passing over the land. They noticed a badger hole surrounded with some sparkling pieces of coal. They were not slow to realize that the badger had been working in a valuable deposit, and after digging there they were fully satisfied that there was no mistake. They then proceeded

of a miner who has been engaged in coal ple of the stripping from the coal which is the genuine "black jack." The point where the work is being done is about a half or three-quarters of a mile west of old Fort

This is supposed to be the same vein of coal on which the Sunshine mine is located about eighteen miles west of the city. The pull from the location of this shaft to the city is slightly down grade, and should

EXTENSIVE ONYX BEDS. John Shaw, the veteran prespector, who is in the city from Hartville, informed a Chey-enne Sun reporter that the onyx find which he is now engaged in developing has become much more valuable and important than was

Eastern parties are now negotiating for the property, and there is every prospect of a large industry being opened up there during the coming summer, as the proposed investors are all practical men, engaged in the business in the east, and have ample capital for investment and manufacturing.
This, in connection with the fron opera-

tions, which the future must soon develop, will make Hartville and the town of Wheatland the coming cities of Laramie county and of the state

produce as they do on the surface, the new camp will take its place among the great Elderadoes of the mountains, says a about two months ago, forty miles north of Indio, on the Southern Pacific. The instant the ledge was discovered the miners who prospecting the mountain recognized that it was a bonanza, and locations were

the claim, was the nearest point where the ores could be worked, yet the McHaney brothers have already taken out over \$9,000 in gold, which they have brought to this city and sold. The mill ran out \$1,800 in two days last week, and the owners chim to have an almost unlimited supply of ore that will go \$1 a pound. The machinery for a five-stamp mill is now being built in Los Angeles, and will be set up four miles from the mine, and when enough gold has been taken out to furnish the capital, the five

McHaney came in from the new mine, and mays there are now twenty men sacking ore that will run \$100 to the sack. It is the ntention to begin a run on sixty tons of the ore as soon as it can be transported to the mill, and if half the owner's expectations are realized the mine will have proved itself

equal in richness to anything ever discovered Miners are flocking into the Pinon district ection, while a camp has sprung up at the McHaney mine, and the excitement is in-tense. The trail from the direction of Yuma s lined with outfits carrying miners from Arizona, while every train takes prospectors out from this city to the mines. The gold bricks which McHaney has brought in and sold in this city have convinced miners of the wonderful richness of the discovery, and several hundred prospectors will be in the

THE TOM BOY MINE. The Tom Boy company has now got fairly tarted and this season's operation will doubt ess attract widespread attention and characterize it as one of the greatest gold mines of the United States, says a Telluride dispatch the Denver Republican. The clean-up from a single week recently was the larges ever made from one week's run, and has a tendency toward establishing such a reputation for the min-, being 800 ounces of gold bullion. The number of tons of ore from which the bullion came, amounted to de more than half the number of ounces which shows that it carries on an average an ounce and a half per ton. The vein is from six to twelve feet wide, and filled with yellow quartz from wall to wall. The ore is eastly mined and requires but little sorting. The company owns 3,000 feet, two claims

lying on it. Wherever the vein has been prospected and it has been prospected pretty thoroughly the ore is of the same high character. The property is already extensively developed, last fall it being estimated that there was enough ore blocked out then to supply the mill ten years at 100 tons per day, and the principal part of the work done during the past winter

was along the line of development. RICH ORE AT COCHITL Judge W. C. Heacock, who returned from a trip to the Cochiti mining district, was exhibiting wonderfully rich specimens of free gold ore from the Washington mine, says an Albuquerque special to the Denver Repub-lican. An assay of the ore gave over \$3,000 to the ton, of which nearly \$2,000 is gold. Captain C. E. Bonsall of this city, receiver of the property, estimates that the ore to be taken out of the fifty-foot contract work will yield \$10,000 at least. The Washington mine was in litigation for over a year, in fact, until one of its owners, Frank Fagary, died, when his share was purchased by Sam Dun-lap of Chicago, who is here for his health. Then a compromise was effected, which resulted in the difference being amicably ad-The owners are highly elated over

qui Indians in the southern part of Schora, these men have been investing all their spare cash in arms and ammunition for many months in the mountain fastnesses of the and repeat the scenes of carriage and rapine as have several times previously been the experience of the settlers along that river The Yaquis are a race of Indians who have waged successful war against Mexico for generations, and they have proved far more serious and dangerous a menace in that country than were the Apaches in Arizona. Their depredations have always been con-fined to the Yaqui river, which they claim as their own country, and they have never carried their incursions to any other part of Sonora. The Yaqui flows into the Gulf of California, and the nearest point in the valley is nearly 400 miles from the American

the home of her sister, Mrs. D. W. Elliott.

To Suppress a Fighting Editor.

FREMONT, May 5 .- (Special.) -- Yesterday

morning W. H. Weekes of Scribner filed a complaint before Justice Dame, asking to have J. T. Camp of Scribner put under bonds to keep the peace. A warrant was issued and last evening Camp was arrested and gave bonds for his appearance on June 3. These parties have been running rival papers at Scribner. Oon Monday last Camp sold out. He then started to the News office to "do up" Weekes. Weekes wasn't in, but his printer was, and Camp got the worst of it. On Friday he came to Frement; and, learning that Weekes was in town, he hunted the town over to find him and made some pretty serious threats as to what he would do when they met. As Weekes is no match physically for Camp, and did not relish the idea of

having to go armed in order to protect himself, he concluded a peace warrant was what was needed to straighten matters out.

Concert at creighton-CREIGHTON, Neb., May 5 .- (Special.)-The Meiklejohn quartet gave a high class concert last night. The audience room of the Congregational church was not large enough to accommodate the crowd.

S. C. Blair returned Wednesday evening from a visit to Lincoln and Omaha. George A. Bagley, sr., left Menday for White Water, Wis., to spend the summer, Mrs. W. L. Turner left Wednesday morn-ing for Wilher to visit her daughter. Charles Marsh of South Omaha is visiting relatives here. A large number of young people went to

Plainview tonight to attend the "Henrictia," which will be rendered by the Plainview Comidy company.

S. W. Cheney, a highly respected resident of Creighton, is very low with heart trouble, and is not expected to live.

Saunders County Crop Outlook. ASHLAND, Neb., May 5 .- (Special Telegram.)-A steady rain, mingled with some iail, set in here at 2:30 this afternoon and ontinued till 5:40, during which time one and seventeen one-hundreths inches fell, which, owing to the loose condition of the soil, is of great value to the crops, as little or no washing has been done by the fre-quent rains in the past ten days. At present the crops are in the finest condition they have been for years. Small grain, according to best authority, is nearly three weeks thead of any year in the last fifte n. Fruit men say the fruit crop will be immense this year, barring hall and heavy frost. Farmers are very jubilant over the outlook.

A. O. U. W. Gives an Entertainment. GRAND ISLAND, Neb., May 5 .- (Special.) -The three lodges of the Ancient Order of United Workmen gave an entertainment last evening which was a complete success. The hall was packed with an attentitve audi-ence. Grand Master Tate was present, as was Grand Recorder George H. Barber, R. J. Patton, chairman of the committee on laws and suspension; J. E. Erford, chair-man of the committee on finance and relief, and F. G. Summons, editor of the Work-man. M. J. Durkin of lodge No. 1 acted as master of ceremonies. Grand Master Work-man Tate delivered a fine address and there was an excellent program of musical recitations.

Failen Woman Shoots Berself-M'COOK, Neb., May 5 .- (Special Telegram.)-At an early hour this morning "Goldle," a woman of the half world, who is living with a well known barkeeper of this city, attempted suicide by shooting herself. meeting of York's city council, which was eld at this place last evening, among the different business that was attended to was an amendment to the present laws governing the city police. The motion was that the night police for the city of York should also be janitor of the city hall and attend to the duties of that position, and lowering the wages for such an official to a more pittance. Besides this it provided that the chief of police should also fill the position of street aspector, the wages being lowered, thus disposing of two city officers, with the idea of utting down the expenses of the city. After the council adjourned last evening and the law, crowds gathered on every corner and never before in the history of the city has such bitter comment been passed upon the city council. In passing the law with regard to the night policeman the council has reduced the wages to nothing that can be called
