NEW POLICE COMMISSIONERS

Governor Appointed Charles H. Brown and D. Clem Deaver Yesterday.

SUCCEED HARTMAN AND COBURN FRIDAY

Republicans and Populists Will Be Equally Represented in the floard with One Democrat Holding Balance of Power -Appointment Well Received.

The appointment of Charles H. Brown and D. Clem Deaver as members of the Board of Fire and Police Commissioners of Omaha was announced by Governor Holcomb yesterflay afternoon. These men are to succeed Commissioners Coburn and Hartman, whose terms will expire Friday of this week.

When the appointments were announced on the street the general expression was that the governor had made excellent selections. A prominent republican said: "The only thing that can possibly be said against Charley Brown is that he is a rantankerous democrat. But he is one of the best men we have and I am glad to see him get it. Deaver, too, is all right, and will make an excellen official.

When the new commissioners take their seats the political complexion of the board will undergo a radical change. As at present constituted the board, including the mayor, consists of three republicans, a democrat and a populist. The succession of Mr. Brown to Commissioner Hartman's place will continue one democrat on the board, but as Mr. Coburn's successor is a populist that party will have the same representation as the republicans. This makes the politics of the board equally divided, with lone democrat holding the balance of power.

Few democrats are better known in Nebrazka than Hon. Charles H. Brown. has been an active member of the party in this state for thirty years. He is one of the fighting democrats, and has had a hand in every fight in which his party has been engaged for more than a quarter of a cen-He is a New Yorker. PREPARING FOR CONVENTION Several of the Catholic Enights Supreme Officers at Work in Omaha.

Several of the supreme officers of the Catholic Knights of America are already in the city preparing for the national convention, which opens next Tuesday. They have quarters at the Dellone, and are Supreme Secretary William S. O'Rourke of Fort PEORIA'S FIRST GAME WON ON A FLUKE Wayne, Ind.; Supreme Treasurer Charles J. Kirschner of Toledo, O.; Supreme Trustees E. D. McGinnia of Providence, R. L. Richard Walsh of St. Louis, and J. C. Carroll of Norfolk, Va. Other Catholic Knights are Dennis Gorman and Thomas F. Golden of Fort Wayne, Ind., and George Weidman of

The supreme officers will this morning begin an examination of the books of the organization, which will require several days.

The committee on laws will meet Friday Last evening President John T. Smith and Vice President M. J. McMahon of the local branch called on the supreme officers at the hotel and discussed matters pertain-

g to the convention. Supreme Secretary O'Rourke stated that the organization, whose chief feature is mutual insurance, was steadily gaining in membership, almost every state and territory now having its branches. "Another thing we have," said he, "that no other kindred society has, is a sinking fund which amounts 000 and is invested in interest bearing bondn.'

Hon. Charles A. Pillsbury, the great flour maker, attests the value of water power

Hon. Charles A. Pilisbury, the great flour maker, attests the value of water power canals in a recent letter to an inquirer at Hamilton, Ill. Mr. Pilibury says:

"There is nothing that will so help to develop any place as much as improvement in water power. Water power companies can furnish power for very much less than steam. At Minneapolis water power is being furnished for about one-half what it would cost for steam. The reason that Minneapolis mills use steam at all is because our manufacturing capacity has been developed away beyond the capacity of our water supply during the winter season, when we have very low water. We sell power here now at about \$25 per horse power, with the privilege of using same sixteen heurs per day, when there is no surplus of water in the river, and twenty-four hours per day when there is a surplus. We never figure that we can get our power by steam for less than \$50 per horse power, I cannot imagine how any one would oppose the development of water power, for there is nothing that so helps build up a place as manufacturing, and most kinds of manufacturers will go where they can get their power the cheapest, as that is a very important element in the cost of manufacturing."

The company drilled and marched and counter marched along Douglas street for forty-live minutes. The entire manual of arms and all the maneuvers were gone through to show that the company is ready to perform whatever is required of it in the contests at Memphis. Neither captain nor private will know what the program in each contest is until an hour before the contest takes place, but by being proficient in the entire manual the company will be ready for anything.

The boys turned out fifty in number. They have been practicing both morning and evening during the past two weeks, and the effect of this practice was plainly shown in the exhibition drill last night. The company marched with a very straight line and went through the drills and marches with great precision. The company will leave for Memphis on Thursday.

That is what the hollybooks from Peoris did to your Uncle David's band out at the Charles Street park yesterday afternoon. It was a shame, but can't be helped; so

let's brace up and at 'em again this afternoon just as if nothing had happened. In the early stages of the game the Omahas thought they had a snap, and there was an abandon about them that was refreshing to behold. On the other hand, the Guzzlers had not yet recovered from the cataleptic fits they aught down at Lincoln, and they were quiet and subdued. Still there was a wicked look in their eyes that boded somebody no good.

They received a most humiliating threshing. The board has decided that a miniature and that, too, when everything looked as

It was Uncle Dave's cherubs.

But let that pass. Uncle will make a rally one of these fine days; then stand from under. Notwithstanding the defeat, the game was by long olds the prettiest that has been muff of Thomas's easy fly in the third Dugdale's Guzzlers would have had but one little pearly tally to nurse to their manly bosoms. Six runs were hammered in after this inexusable piece of work. Before that Eagan had been pitching in masterly style, but that was too much for his tender young heart, and for the balance of the inning he was what is known in the classics as a pud. He braced up, though, after this fatal inning and held the Peorias down to four hits.

While the pitching of Eagan was good, that

of Thomas was gilt-edged. He only allowed Uncle's brawny heroes five hits, scattered brough as many innings, and one of there Outside of the two twirlers there was no one who is entitled to any special mention, unless it is Collins. He made a home run with bases full.

Quite a trick, ch? But nobody wants to know how the runs were made. There was not a single one sarned, and it would only be a waste of space enter into a description. Here are the figures; let them suffice for what is missed in the above: OMAHA.

Contests Are Merely Prize Fights. NE WORLEANS, May 7.-The state sueme court has handed down a decision eversing the decision of the district court which the lower court ruled that prize fighting as recently conducted here might continued. The decision was rendered in the appealed case of the State of Louisiana against the Olympic club. The supreme court rules that the recent alleged boxing exhibitions were nothing more nor less than prize fights, and that as such they are prohibited by the state law. The injunction originally prayed for is granted and prize fighting in New Orleans will hereafter be prohibited. Associate Justice Watkins filed a dissenting opinion.

GOLD SYNDICATE DENIED MUNYON'S

Smelter Men and Treasury Officials Hold Adverse Views on the Question.

BULLION IS SOLD IN THE OPEN MARKET

Ex-Governor Grant Makes Explicit Statements Concerning the Strange Rumors-Some Curious Incidents Concerning the Morgan-Belmont Bonds.

DENVER, May 7.- The rumor that a syndicate is buying up gold in Colorado is denied by smelter men. "The report is erroneous." said ex-Governor Grant of the Omaha & Grant smelter, "We are shipping our bullion to New York and have been doing so for a month or more, as we get 65 cents per 1,000 premium on gold bars in the New York market.

The low express rates are pointed out as you in the hope that you will give pub-one of the agencies that has caused the reformed express agent estimated yesterday that 85 per cent of the sliver produced in Colorado is going to San Francisco on account of the demand occasioned by the war between Thing and Japan. The San Francisco quota-New York quotations for three or four months The express rates have been practically ut in two by the hard times and close com business. One express company in eight days recently shipped \$220,000 in bars out of Denver. The shipment all came from one smelter.

A special to the Rocky Mountain News from Washington, however, says that the treasury authorities admit that the receipts of gold at the mints have sensibly diminished ever sinc he contract for the purchase of gold bonds was awarded to the Belmont-Morgan syndi cate, and adds: "Another feature lies in the fact that the production of gold in the United States has lately increased to such an extent as to make it an object for this foreign syndicate to corner or control the gold market and inaswuch as the Belmont-Morgan syndicate obtained not only the privilege of pur-chasing these bonds at a very low figure, but a monopoly of all bonds to be issued between now and next October at the same rate, it is clear that from the high price they obtain on the sale of the bonds abroad they can afford to pay a premium rate for gold bullion over and above the rate fixed at the mints. In this way the syndicate obtained practically a monopoly of the gold product of the United States and especially the product in Colorado, where the increase in gold production has been so large within the last year or two. The treasury seems to be entirely in the hands of the syndicate. It must have gold to maintain the reserve, even if it practically this remedy will cure neute or muscuhave the gold in the shape of bullion than in coin, to the end that it can be shipped abroad if necessary without loss from abrasion, as requently happens to gold coin exported from of the body. or imported into the United States."

PAYING A PREMIUM FOR GOLD. CHICAGO, May 7 .- A special to the Post from Washington says: The discovery is hip and loins. It seldom falls to give made that there is an actual basis for the relief after one or two doses, and aleport that the Morgan-Rothschild syndicate conspiring to corner the gold market, hough the story has been regarded as a solish canard. It is a fact, however, that rokers representing this syndicate have been paying a premium for the refined gold of the private refineries for the last two months and they are accumulating fine gold at the rate of \$2,400,000 to \$3,000,000 per month, which represents fully two-thirds of the entire gold output of the United States. The attention of officials of the treasury was attracted to this business by the sharp falling off in the deposits of gold at the mints and inquiry soon developed that private parties were buying the products of the refineries. Further inquiries revealed that the metal was purchased and was drifting to New York.

It would not be fair to say the syndicate made that much out of the operation, but it is very safe to estimate its profits at \$8,900,000. The syndicate is hurrying the completion of its present bond deal with the government. It deposited over \$1,000,000 to-day, which will bring the reserve up to very nearly \$93,000,000. It will not have to com-plete these payments until the 1st of August, but the operation may be closed up within a weeks. That will leave the syndicate a

To the editor of the World-Herald: Having discovered a positive and speedy cure for rheumatism, I address ceipts of the Denver mint to fall off 50 per that in making the bold assertion that cent within the last sixty days. A well in- I have discovered a positive cure for rheumatism there will arise a strong doubt in the minds of the public as to the truth of this statement, and that a large majority of the people will class this new discovery with the Koch lymph failure and the Brown-Sequard dixir of life delusion. It is to overcome this prejudice that

layoke the aid of the press. I court the fullest investigation under your direct and personal supervision. I would suggest that the fairest and surest way to test the efficacy of this remedy would be for this company to send 10,000 trial bottles to the World-Herald office, there to be given out absolutely free to all persons afflicted with rheumatism; that the name and address of each person who accepts the remedy be entered in a book, and at the end of one week a reporter be detailed to interview such parties who have taken the medicine as are willing to testify to the merits or demerits of the same, and the result in each case to be published in the press. By this means there can be no deception or fraud, and the value of the remedy will stand or fall upon the testimony of those who have tried it.

Improbable as this statement may seem to you or to those who have doctored for years with the most skilled to maintain the reserve, even to the cripples the purchasing operations of the lar rheumatism in from one to five mint. The syndicate would much prefer to days. It never falls to cure sharp, shooting pains in the arms, legs, sides, back or breast, or soreness in any part It is guaranteed to promptly cure lameness, sciatica, lumbago, stiff and swollen joints, stiff back and all pains in the most invariably cures before one bottle has been used.

We do not claim that this remedy will cure rheumatism where the limbs are twisted out of shape, or where the disease is complicated by a scrofulous diathesis, but by a careful record we find that this remedy fails to cure in only about 5 per cent of the cases in which it has been tried.

One of the strongest recommendations for this remedy is that it is absolutely harmless, and that a person can take the whole contents of a bottle without the slightest ill effects.
