COMMERCIAL AND FINANCIAL

After a Sharp Break Yesterday Wheat Went Up with a Bounce.

BUYING ORDERS WERE HEAVY EARLY

Born Was Very Tame and Featureless Until Wheat Began to Recover from Its Early Bearishuess-Stocks and Bonds.

CHICAGO, May 7 .- After a sharp break today wheat went up with a bounce, en-couraged by a big world's visible decrease, and July closed to higher. July corn gained 1%c; July onts %c, and provisions closed un-

There were a great many buying orders for wheat at the start. The cables brought lower quotations from abroad; the country was still being wet down in an irregular way by the numerous thunder storms and primary market receipts continued to belie the theory of any much greater scarcity behind the visible than is usual at this season of the year. About the only bullish feature in the carry news was the official That reported 11 per cent smaller acreage sown last fall than on the year before, and of the reduced acrenge the report said that \$3 per cent would be rendered practically uncless. The receipts at Minneapolis and Duluth were 23 cars, compared with 323 a year ago. Primary market receipts were 271,000 bu., against 250,000 bu. on Tueday of last week, and 167,000 but on the corresponding day of the year before. Extwenty-four hours from the Atlantic seaboard amounted to \$42,000 bu. By special cable to the Board of Trade, the Argentine 600 but, and those of Russia at 3,760,0.0 but The temper of the crowd was very builtsh

shipments for the week were given as 18,401,600 bu., and those of Russia at 3,750,00 bu. The temper of the crowd was very builish until after the receipt of Bradstreet's statement of the week's changes in the world's visible, and that proving to be a decrease of 4,100,000 bu. instead of only 2,500,000 bu. decrease, as had been calculated upon, it turned the general sentiment and the eyes of traders from their previously too exclusive contemplation of the hearth features of the situation. Then it became known that it had been arranged to ship two cargoes from bers to Tolado and that still further increased a desire to buy, which the Bradstreet's statement had started. New York reported about the same time that nearly 20,000 bu, had been sold there, destined for a German port, and that, coming at the same time with an advance of from 1 mark to 14 marks, quoted from Berlin, there was a repetition on an enlarged scale of the builishness which characterized the market at the opening. July opened at from 62%c up to 62%c, as compared with 63%c sellers at the close yesterday. During the most of the forencon the tendency was to get rid of the advance. It soid off to 61%c in an irregular manner, but gradually recovered to around 62%c, making a further advance of 1c per bu, in a much more rapid style, 63%c being paid at the close.

The corn market was very tame and characterless until wheat began to recover from its good, and the speculative crowd expressmuch confidence in purchases at present prices. Receipts were 147 cars, and only 105 cars are expected tomorrow. Primary market receipts were 147 cars, and only 105 cars are expected tomorrow. Primary market receipts were 147 cars, and only 105 cars are expected tomorrow. Primary market receipts were 147 cars, and only 105 cars are expected tomorrow. Primary market receipts were 147 cars, and only 105 cars are expected tomorrow. Primary market receipts were 147 cars, and only 105 cars are expected tomorrow. Primary market receipts were 147 cars, and only 105 cars market w

there.

Provisions were dull and rather weak, but as on the day before closed without any material changes in prices since yesterday.

Hog receipts were 16,000 head, and the market from 5c to 10c decline. The market later declined with wheat and corn.

Vessel room was in fair demand, with large charters at 11sc for wheat and 1c for corn and oats to Buffalo. The Brie canal took a lot of wheat from Buffalo for New York at 24sc.

Estimated receipts for tomorrow: Wheat, The leading futures ranged as follows: Articles. | Open. | High. | Low. | Closs.

STOCKS AND BONDS.

Share Speculition Was Characterized by NEW YORK, May 7.—The share speculation today was characterized by a degree of buoyancy upward movement went into operation and transactions reached a total which has not been touched in many months. The distribution of was mainly for the home account, but the fer-cign bouses were also in the market as heavy eign bouses were also in the market in heavy purchasers and helped the market in its up-ward march. The shorts again continued the covering more, especially in the grangers, with iterlination as the leader. An advancing tendency was manifested at the opening of the exchange, and while there were occasional reactions, due to taking of profits, the lesses were merely fractional and were quickly recovered and a higher range of values was promptly estab-lished.

frictional and were quickly recovered and a higher range of values was promptly established.

There was a little flurry in Reading, which is a sold down the percent but recovered a percent. The sales were made by an interest which has been opposing the recognization plas. In the final dealings the market was at its best and closed decidedly strong in time.

The tew losses made, compared with yesterday's close, ranged between is and a percent, and are mainly confined to the specialities. The bend market was very strong and animated. The dealings starcented fixed 99.

Hound amounts of the speculative issues were this in fer the European account. The most substantial galas are: Mineapolis & St. Louis list, is a per cent; Mineapolis & St. Louis first, is a per cent; Mineapolis & St. Louis first, is a per cent; Mineapolis & St. Louis first, is a per cent; Mineapolis & St. Louis first, is per cent; Southern Pacific of Arizona firsts and St. Joseph & Grand Island lirsts, Tip per cent; Southern Pacific of Arizona firsts and Oregon Short line collareal trust fives, 2 per cent. The only recession of note is 2 per cent in Milwaukee, Lake Shore & Western firsts. The stock markets were buoyant, although the settlement begins tomorrow. The yielding of Japan to Russia's designs and the improved political outlook were the main factors. The time here is very buillish. American railroad bonds which have been steadily absorbed for some time past are now bought with some eagencess, and brokers get many inquiries from the public concerning onlinary stocks. The general list throughout was chiefly on continential buying. The closing was at about the best, except for canada Pacifics, which, after touching 55 on bears closing, relapsed to bibe. Mexican railway is shares and bonds were strong with silver. South Americans were firm except Brazils, which have feating was at about the best, except for canada Pacifics, which, after touching 55 on bears closing, relapsed to bibe. Mexican railway is thore and the first of city of New York ben The following were the closing quotations

OMAHA LIVE STOCK MARKET

Seventy Fresh Loads of Cattle in the Pens Yesterday.

BIG RUN DID NOT WEAKEN PRICES

and the Bunches Went Readily at Five Cents Decline for the Day.

TUESDAY, May 7. The receipts today were 1,524 cattle, 3,000 hogs, 250 sheep and 19 horses, as against 731 cattle, 1,566 hogs, 198 sheep and 33 horses yesterday, and 1.968 cattle, 4,704 hogs and 431

sheep on Tuesday of last week.

The receipts for the week thus far amount to 2,250 cattle, 4,600 hogs and 448 sheep, as against 3,471 cattle, 5,816 hogs and 1,116 sheep Monday and Tuesday of last week. CATTLE-There were seventy fresh loads

of cattle in the yards, or double yesterday's run. In fact, the receipts were the largest of any day since April 30; when 1,998 head were counted in the yards. The supply of beef steers was larger than on a good many days, there being quite a good many very fair loads of cornfed natives, besides quite a string of westerns. The market did not show any material change from yesterday. Desirable fat cattle were steady and the demand was reasonably active. The half fat cattle were not in as good request and were slow sale at the best. Some of the best cattle in the yards brought \$5.15865.25, with the bulk of the sales at \$4.4694.85, etc.

Cows and heifers soid quite readily, as usual, and at firm prices. There were not always and the supply was soon exhausted. A piece of a load of western cows brought \$5.50. There was not a single full load bunch of either cows or heifers in the yards. Veals were in good demand and rough stock, bulls, stags, etc., commanded good prices.

The demand for stockers and feeders was good and the market was a little stronger. The offerings were picked up quite readily at very satisfactory prices. Representative sales: quite a string of westerns. The market did

but it was consigned to a packer and was not offered for sale. The market was nominally steady. A piece of a load of holdovers changed hands. Fair to choice natives are quotable at \$1.2544.00; fair to good westerns, \$3.0063.80; common and stock sheep, \$2.0063.00; good to choice 40 to 100-lb. lambs, \$3.2564.50. Representative

CHICAGO LIVE STOCK.

Light Run of Cattle Results in Stronger CHICAGO, May 7.—Only about 3,000 head of cattle arrived here today. Prices were stronger and in numerous instances a little higher, and the general market was about 15c per 106 lbs. higher than at the close of last week. Common to strictly choice native steers weighing 550 to 1,250 its. found buyers at \$4.5006.00, a

mon to strictly choice mative steers weighing 550 to 1,250 lbs. found buyers at \$4,5050.00, a carload of fine 1,492-lb. Hinois steers bringing the top price. Hayfed Montana and Idaho cattle, weighing 1,940 to 1,240 lbs., sold at \$4,0054,70, and a carload of native steers and yearlings averaging 911 lbs. brought \$4,90. There were very few choice besves here, and the larger part of the trading was done at \$4,0054,75, with a good many sales below \$5. Butchers' and cannars' cattle were again in excellent demand at strong prices, cows selling at \$1,5254,80, largely at \$2,3054,25. Bulls sold at \$2,254,50, largely at \$2,3054,25. Bulls sold at \$2,254,50, largely at \$2,3054,25. Bulls sold at \$2,254,50. Texas cattle numbered about 1,600 head, and good loss were 19515c higher than vesterday and 5c higher than Saturday, choice being worth \$5.25. A drive of 304 head of Texas cows that averaged 1,962 lbs. sold at \$4,95, and a lot of 257 head that averaged 1,966 lbs. brought \$4.75.

Hage sold atout 10c per 100 lbs. lower today in spine of the fact that the arrivals for Monday and Tuesday aggregated but \$1,990 head, or \$1,090 less than came in during the same days last week. At the decline trade was fairly active, city backers and shippers taking hold rather freely. Some hogs sold early at \$4.80, hut, subsequent sales were at \$4.2564,75. for heavy, and at \$4.2564,00 for light and mixed, with sales of plas at \$1,004,25. The larger part of the logs were disposed of at \$4.5664,55. the average quality showing up very well.

The samply of sheep shows a remarkable fall-king off this week, only about 15,300 head having arrived so far, or \$2,900 less than came in during the same time last week. Today's receipts were estimated at \$5.00 head, and a good demand enabled sellers to obtain an advance of about 10c per 100 lbs. lower at \$4.005,25. The larger part of the logs were disposed of at \$4.5062,50. head: hogs, 17,000 head; sheep, \$5.50 head.

THIN HIGH GRADE BONDS

The week has been warm and showery and unusually favorable for the growth of all crops, which are now more than two weeks in advance of the season.

The temperature has been from 9 degrees above the average in the western part of the state to 13 degrees above in the eastern. The rainfall has been very irregularly distributed. Over some small areas it has been too scanty for the best growth of crops but generally the ground is in excellent condition and all vegetation has made remarkable growth.

Rye in some of the southern counties is already beginning to head and small grain generally never looked better at this season of the year.

Corn planting has made rapid progress during the week and much of the early planted is coming up.

Fruit trees are setting unusually full and planted is coming up.

Fruit trees are setting unusually full and as there have been no frosts during the week fruit prospects generally remain unusually promising except that there are some complaints of small fruits, especially

raspberries and strawberries, winter killing considerably. Report by counties:

a Most Flattering One.

MORMAL OR

FOR THE WEEK

AVERAGE COMMITTEE

deed Most Favorable.

SOUTHEASTERN SECTION.
Butler—Good week for small grain. Ground in the condition, Gardens and vegetation generally two weeks earlier than last year. Much corn planted and a good deal up. Some large enough to blow O plow.

Case Small grain and grass have made remarkable growth and never looked better on far-ber advanced at this season. Planting well-leng, considerable up. A good stand and looks Clay-Crops of all kinds have made great adancement during the week. Prospects excellent or fruit of all kinds. Pasturage excellent. Crops arther advanced than for ten years past at ils season.
Fillmore-Half the corn planted All crops rowing well. Prospects for fruit good.
Gages-A warm, showery week. Crops well adanced and in line condition.
Hamilton-Weather good for all crops. Some amage to fruits and small grain from ball. lamings to fraits and small grain from ball-freund in time condition.

Inflers in Some bars in the wheat, but the rains have stopped them.

Johnson-Week very warm. Ground has been too wet to do much planting. Prespect for a log crop of frait. A large acreage of com-planted, which is coming up well. Rye is head-ing out. Walnut trees beginning to leaf earlier than the average. Oaks do not show so much ifference. Lancaster-Crops are doing finely, especially chent. Corn about half planted, but interrupted omowhat by rain. Rye joining, Potatoes up not learner out.

nd learing out.

Nomaba—Heavy rains have interrupted farm york, Red maple seeds rip; Small grain is ooking well. Corn planting unusually well advanced.

Nuckells—Crops of all kinds growing splendidly.

Corn mostly planted and much of it up and
growing finely. Some large enough to cultivate.

Alfalfa making phenomenal growth. Oats in extra condition.
Once—Cloudy and warm, with copious rains, which have washed out some crops. Rye beginning to head.
Pawner—Some wheat and oats rather thin, but coming on finely. Hye and bine grass are heading. Corn planting nearly done. All kinds of fruit promise well.
Polk—A good wiek. Oats never looked better at this senson. Early coin coming up nicely. Horses standing work well, considering the lack of feed during the winter.
Richardson—Corn coming up nicely, nearly every day and some corn washed out-Pastures excellent.
Saline—Grass and rye suffered from dry

nearly every day and some corn washed out-Pastures excellent.
Saline—Grass and rye suffered from dry scather early in the week. Rye heading shart Corn mostly plainted and much of it up. A larger acreage last year.
Saunders—The most propitious week for years. Early planted corn coming up fine and some is being cultivated. Small grain and pastures never looked better at this season.
Seward—Small grain much improved. Some chinch bugs in the spring wheat. Large acre-age of corn planted in fine shape, and some is up.

Thayer-Rather a dry week. Early planted orn coming up, but rain is needed. Wheat making slow progress. Stock about all in pasture. Some potatoes up and cultivated. York-Crops have made a fair growth, but more rain needed. High winds and bail have done some dimage to fruit. Large acreage of corn put in, much of it with the lister.

NORTHEASTERN SECTION.

NORTHEASTERN SECTION.

Antelope—Large acreage of corn planted and coming up nicely. Pastures good. Fruit especially promising. Considerable damage to late seeding done by hall.

Boyd—Corn planting delayed by wet weather. Small grain growing line. Some corn washed out by heavy rain.

Cedar—Good rains early in the week have put the ground in best possible condition. Small grain doing splendidly. Corn planting has begun in earnest. Alfalfa sown last year is a failure. grain doing spiendaily. Corn planting has begun in earnest. Alfalfa sown last year is a failure.

Cuming—Condition of the ground could not be better. About half the corn planted and coming up very fast. Cut worms very numerous.

Dodge—All crops in fine condition. Fastures three weeks earlier than last year. Fruit in unusually good condition.

Holt—Small grain looks fine. Corn planting well along. Lowlands too wet to plow.

Knox. Early corn being planted. Vegetables, small grain and grass booking fine.

Madison—Rain in abundance and everything is growing with unprecedented rapidity. Small grain washed out some by heavy rains, but the molesure is of incalculable beanch. Corn about half planted. Boots are being planted and some coming up.

Platte—Fine growing weather, Corn planting well under way, with a large acreage. Some corn up. Fruit doing well.

Sariy—Corn about half planted. Rye and timothy heading out. Strawberries in full bloom. Mushington—Corn coming up and a good stand, ruit bles fair for a large crop. Small fruit artly killed. Plenty of rain and small grain in rung condition. sions City, Ia.-A fine growing week, with timely rains.

Yankton, S. D.—Temperature and rainfall above average. Many fields of corn planted and some up two inches above ground. Grass an abundant crop. Finall grain looking very well and growing rapidly.

and growing rapidly.

CENTRAL SECTION,

Home-Heavy rains over the county. Corn planting and listing of which there will be a good deal done here, in full blast. A large acreage of corn. Some corn up.

Buffalo-Cleudy and warm, with good showers Grass and grain have made good growth. Early corn is coming up. Early planted potatoes are looking well. Hisearass heading out. Fruit trees of all kinds setting very full of fruit. Custer-Hains came in time to help out wheat and rive wonderfully. Corn being planted and some is up.

Dawson-All spring sown grain is a good stand and looks well. Whiler wheat not more than haif a stand. Filet planting of erral is coming up. Grass the best for many years.

Groeley-All crops away ahead of the sonson. Pastures are good. Corn hearly planted. For those coming on well.

Hall-Corn planting under full head. Small grain burt by high winds. Hall also injured small grain and fruit. Grass nover looked better at this time of the year.

Howard-Rain shough to make everything grow. Some corn planted. Some pitatoes and oren coming up. Grass growing well. A good area of alfalfa sown.

Morrick-Wind and rain have done some damage to gardens. Rye, spring wheat and outs are donn well. Pastures and grass land improving. Pontoes from four to five inches high. Beets look well.

Nance-Rain cough for the present. Crops of CENTRAL SECTION.

well, but the rain of this week will be of up. Valley-Rains have greatly improved emp pro-SOUTHWESTERN SECTION.

country has had plenty of rain. Heavy rain with hall in the southeast part of the country, out no damage from hall. Half the corn planted and coming up well.

Frontier—Good showers in scattered localities were the country, but els—where dry and crops prowing slowly and some waiting for rain before dancing. WEATHER CROP BULLETIN Weekly Showing of Conditions in Nebraska

Franklin-Small grain looking well, but needs ain. Corn coming nicety.
Gosper-Wheat in fine shape. Corn planting cell advanced and some corn up. Unusually well advanced and some corn up. Unusually early apring.

Harian—Good local rains all over the county. Some damage from hall and high winds in northwestern part of the county. Small grain and garden stuff fine.

Hitchcock—Very little rain has fallen in the eastern part of the county and is badly needed. Corn planting in progress, Wheat and oats have made a fair growth.

Kearney—Continued drouth. Field crops, gardens and small fruits begin to show the lack of rain. Twenty per cent of the corn planted. Some of it up.

Lincoln—Atundant rains have relieved spring wheat and prospects are now good for a crop.

of rain. Twenty per cent of the corn planted. Some of it up.
Lincoln—Abundant rains have relieved spring wheat and prospects are now good for a crop. Pastures in excellent condition.

Perkins—About one such of rain in castern end of county; in center and west grain looks sick. Grass good and ahead of the season. But little corn planted yet.

Webster-Good rains and everything is booming. Corn is coming up in good shape.

Red Willow—Some planting being done, but the ground is too dry. Stock is living on the grass, and is improving in condition.

NORTHWESTERN SECTION.

grass, and is improving in condition.

NORTHWESTERN SECTION.

Box Butte-Cloudy and cool with showers, Crops and grass look well since the rains. Chevenne-Small grain fooking fice. Corn about all in. Potatoes coming up. Local showers throughout the county.

Tawes-Local showers all the week, with some half, but did not do much damage. A large crop being rut and. Fruit, in blossom two works sattler than usual. A large acreage of broom even, and also an increased acreage of small grain. rain.
Kimbell—Much small grain planted and a large arreage of even will be put in.
Keya Faha-Small grain looking well, but asmaged some by likh wind. Some corn planted bratoes coming up. Stock boks well. Grained a fine condition, but a little more rain would refer to Souts Buff-Crops are doing well under to rightion. None sewn except under the disch. Sheridan-Some damage from hall, but the work was one of good growing weather generally, with sufficient mosture.

Julesburg, Colo-General condition remains very unfavorable for planing of crops. Grass on prairie is green in spots only.

MISSOURI'S FAVORABLE REPORT Rain is Sufficient in Most Sections and Corn

is Doing Well. COLUMBIA, Mo., May 7.—The Missouri weekly crop bulletin says: The past week was unusually warm in all sections, the excessive temperature averaging from 10 to li degrees per day, except over the sauthwestern counties, where it was about 7 degrees. The drouth in the central and northwest sections has been broken by good rains and from one to two inches has failen over most of the southwestern counties, greatly improving the condition of all crops. In a number if northoustern counties the rainfall for the week exceeded three inches, but over most of the southeast section the weather continued dry and at hie close of the week wheat, oats and grass were still suffering for want of rain in a number of the southern counties.

Chinch bugs are doing much damage to wheat in a number of the central and western counties and a few fields have been plowed up. Considerable damage by Hessian fly is reported from some of the southenstern counties. Oats are now generally doing well, except in those districts where drouth still prevails.

Corn, as a rule, is coming up well and in the central and southern sections many fields have been plowed over the first time. Planting has been retarded by rain in a few counties, but is nearing completion. Cutworms are doing much damage in some counties, especially on sod ground.

Meadows and pastures have been greatly improved by the rains.

Severe hail and wind storms in the western portion of the state did great damage to fruit. 14 degrees per day, except over the southwestern counties, where it was about

CROP CONDITIONS ARE FAVORABLE Corn Planting is Progressing in the North

with Grand in Good Condition.

WASHINGTON, May 7.—The weather bureau in its review of the weather crop conditions for the week, ended May 6, says: Generally the week has been very favorable. Generally the week has been very favorable. In the northwe tern stat s much needed, and for the present, ample rains have fallen, which, with unusually high temperature, has been favorable for the germination of seeds and rapid growth of all vegetation. For planting has progressed rapidly during the week in the northern Jates, and is generally reported as in a promising condition in the central and southern states, although considerable damage has been done by cut worms in some sections.

Winter wheat has been unfavorably affected by warm, dry weather in Missouri by cut worms in some sections.

Winter wheat has been unfavorably affected by warm, dry weather in Missouri and Ohio; Illinois reports the crop in excellent condition where rains have fallen. In Tennessee it is beginning to head. Fruit prospects continue excellent.

Illinois is Short of Rain. CHICAGO, May 7.-The Illinois weather rop bulletin issued today says: The past week has been characterized by abnormally high temperatures, with rainfall lacking except in the west, central and northern sections; the northern section had heavy showers which effectually relieved the drouth. The general average rainfall of the northern section was about 1.75 inches, central section about 1.00, and southern section about 1.00 and southern section about 1.5 of an inch, with temperatures for the state about 15 degrees daily above the normal. All northern and west central counties report the general excellent condition of wheat, rye, oats, sprouting corn, clover, timothy and other grasses' and meadows, potatoes, gardens and fruits. In the southern and east central counties the conditions are not so promising, rain is needed and vegetation is growing slowly, with noxious insects numerous, especially chinch bugs and cut worms. Corn planting is well along over the entire state, although slightly further advanced in central and northern counties than in southern, where dryness has retarded the preparation of the ground Fruit setting is unusually heavy; small fruits are advancing rapidly, and strawberries will probably be gin to ripen in southern counties by the last of the week.
