#### CHURCH OF CHRIST WINS IT Gets Title to the Florence Lot Disputed by

the Evangelical Association. The Church of Christ at Florence now owns

a church building and a plot of land in its own name. A decree rendered by Judge Ambrose settles this and at the same time ends what promised to be something of a religious war in the suburbs of Omaha. Pitted against the Church of Christ in the

legal arena was the Evangelical association of Florance. This latter association, together with Robert W. Cowin, its head officer, had been made the defendants to a suit by the Church of Christ, the object being to secure the title to lot 1, block 25, in Florence. The property was originally own d by Victor G. Langtry. Last spring Cowin bought it, but whether he made the purchase for the use of the Church of Christ, of which he was a association, which he and some friends at Florence started as an undenominational corporation, became the burning question of the hour in the religious circles at Florence.

The fight became acrimonious, The mem-

bers of the two churches filed charges of fraud and counter charges of misrepresentation. was claimed that Cowin had subscribed \$50 to the Church of Christ and used this money to make the first payment on the lot, and consequently the land belonged to this church. Cowin affirmed that the subscription list was passed about with the intention of getting people to give toward a union church building, which any sect could use, and consequently the subsequent transfer by him of the title to the land to the Evangelical assoclation was a fraud on no person or corpora-

Judge Ambrose holds that the Church of Christ was in the right and that Cowin, who was its treasurer until he withdrew and started the Evangelical association, must, to gether with the association, transfer the lot back to the first corporation.

McCabe on Trial. The trial of James H. McCabe for arson was proceeded with in the criminal court The state continued to examine a number of The testimony is exceedingly voluminous and is circumstantial in its na-

The cross-examination of Carmichael, the agent of the Withnell block, was interesting, as the defense made a point to ask the witif he had not been a number of times I by McCabe to repair the doors and iron shutters, an effort being made to show that there were avenues for entrance to the that there were avenues for entrance to the burned store if some third party had wanted

to do the incendiary act.

Chief Redell was called as a witness by
the state and testified to having arrived three minutes after the alarm was turned in, when he found excelsior, saturated with kerosene and scattered around the premises. The excelsior was produced and the jury satisfied itself that kerosene had been poured on it. Redell met McCabe just after the fire and McCabe exclaimed, "My God! When did this fire occur!" but refused at first to tell how much insurance he had. Other witnesses went into the details of the

In giving his testimony for the state Bell claimed that he had seen Mc-Cabe walking at Fourteenth and Farnam streets with a bundle under his arm the night before the fire. He thought the bundle contained furs. He could not describe their appearance. It was about 8 o'clock.

Theodors Ringwalt admitted that he had refused McCabe insurance. His reason he said was because Schultz, he understood, had already had two fires during his business

Not Much Show for Creditors.

Receiver John H. Hart yesterday submitted a report of his doings in the partnership quarrel of Richards against LeVeille to Duffle for inspection. The report showed the receiver had on hand about \$3,100. just enough to pay the attorneys and give him his comp neation. The partnership af-fairs, the attorneys stated, were hopelessly

involved and that the liabilities would amount to het less than \$100,000.

In 1891 it will be recalled that the firm of Richards & Co., the largest contractors in the west, went to the wall. James Richards in 1891 began an action against Gibert Le-Veille, his partner, making serious charges of misappropriations of thousands of doitars of the firm's money. It is stated that the firm was then about broken over a failure to realize profits on its heavy contracts. It had contracts for the St. Joseph tracts. It had contracts for the St. Joseph hospital, the Blair court house, the Bartlett hospital, the Blair court house, the Bartlett building at Kearney, the court house at Red Oak, Ia., and in other places, all more or less completed at the time of the failure. The amount of litigation has been enormous and is still traveling through the courts. The supreme court last term decided a small branch of the case, which the receiver hopes will let him out of his job.

Two Years for Embezzling.

EAU CLAIRE, Wis., May 8 .- Judge Balley today sentenced Embezzler Harry B. Mc-Master to two years in state prison at Waupun with hard labor. In his charge he used forcible language. He declared that the only way to suppress such cases of embezzlement was to strike at the root of public gambling. The Chicago Board of Trade, he believed, had caused more distress, ruined more men and ecked more families than the civil war, yet it was endorsed by the public and when such as Senator Washbarn raised his voice HAYDEN BRUS.

TO KEEP YOUTH FROM CRIME

State Convention of Poys and Girls National Home and Employment Association.

OPENS IN OMAHA NEXT THURSDAY

Mayor Bemis Takes a Lively Interest in the Work and Urges Cities to Send Delegates-Subjects to Be Discussed.

Next Thursday the \*fth Nebraska division state convention of the Boys' and Girls' National Home and Employment association will open in this city. An address of welcome will be delivered by Mayor Bemis and will be responded to by Hon. A. J. Sawyer of Lincoln. The subjects to be discussed are: "What is the best plan for providing against boys becoming tramps?"
"Should boys be imprisoned or given a few days in which to leave town for tramping or petty offenses?"
"What is the best plan to prevent gambling among street boys, and prevent either boys or girls from keeping late hours upon the street?"

Plans most practical for assisting widows rians most practical for assisting widows and families of mechanics and others in procuring employment for their children (boys or girls)." Plans for securing homes for orphans in orphans' homes and dependent children generalized.

"Should dependent boys and girls, when, le bodied, he supplied with clothes and od gratuitously without first giving then, chance to earn those articles?" Should each state create agricultural and chanical schools for the tramping boys and within its borders?"

ound within its borders?"

"How best to encourage boys and youths o put a portion of their earnings in the avings banks."

"What is the effect of the association of coys and girls with old and hardened crimnals in jalls and prisons?"

"The necessity of opening correspondence with parents of truant and tramping boys."

"What plans are best adapted for giving ractical advice to the co-called boys and irls?"

"Is it not the imperative duty, and should

Is it not the imperative duty, and should "Is it not the imperative duty, and should of city officials of all cities and towns be impelled by law to apprehend and detain emporarily in some building outside of the ountry sail or city prison or station house il boys and girls tramping or loitering bout the streets or puolic places of resort, ither night or day, when unaccompanied y guardians or parence, and who cannot two a proper excuse for thier absence from ome?"

"Should children be placed in orphans' to should children be placed in orphans' to should they be detained temporarily tenned, clothed and placed in a good to the various counties of the different tates for procuring homes and employment or youths, boys and girls, should there not be a place for temporarily lodging, cleaning and otherwise caring for the said boys and girls, preparatory to being placed in homes among farmers or elsewhere."

"Is it not the duty of this convention to ecommend for the consideration and action of our state legislators a bill for enforcing the vital and practical questions discussed in this convention."

Respecting the convention, the following ircular letter has been sent out by Mayor

Bemis:

OFFICE OF THE MAYOR, OMAHA,
Neb., May 8.—To the Honorable Mayors of
Lincoln, Beatrice, Hastings, Grand Island,
Kearney and Other Cities of Nebraska:
Gentlemen—I take pleasure in calling attention to the state division convention of the
Boys' and Girls' National Home and Employment association, meeting in Omaha on
Thursday, May 16. The city council at the
meeting last night by resolution gave the
work of the association its sanction and
co-operation. It seeks to counteract crimes
among the minors and youth of the country
though wholesome legislation, and the deliberations of its conventions, state and
national, heretofore have been everywhere
throughout the country a theme of commendation. So fully impressed am I with its
great value in the lessening of crime among
our youth that I believe the city councils
of each of the cities and villages in the
state of Nebraska should take special pains
to send at least one delegate to take part
in the discussion of the list of practical
questions. I think it but proper to state
that the time has come in our history as a
nation when we should begin the study of
some plans in dealling with the criminal and
erring youth more humane than that of the
juil, workhouse and reform school.

Trusting that the honorable mayors of our
several cities will give this matter their
personal attention and endeavor to have
their cities represented at this convention,
I am yours truly.

GEORGE P. BEMIS, Mayor, OFFICE OF THE MAYOR, OMAHA

am yours truly, GEORGE P. BEMIS, Mayor, A Free Metherl Book for Met. Under the heading "The Triumph of Love Heppy and Fru ful Marriage," an an-

MENACE TO PUBLIC SAFETY.

ingineer Rosewater's Report on Condition of Sixteenth Street Vinduct. The notification by City Engineer Rose water that the Sixteenth street viaduct was in an unsafe condition for heavy traffic was a surprise to most of the members of the ouncil Tuesday night. After the extensive improvements last year it had been expected that the structure was in condition to remain in service for several years yet. The report of the city engineer was the result of an examination which was made the other day. While the cords on the upper trusses appear to be sound when an augur hole was bored the tool passed through a couple inches of sound timber and then went

down with a rush through the heart, which had rotted entirely out.
With the timbers in this condition Mr. Rosewater said that in his opinion there was no further hope for the safety of the structure. It was never intended for heavy traffic and had been in use nearly nine years. It might last another year and it might collapse at any moment. ny moment. The matter is now with the ommittee on viaducts and railways, but as Chairman Bechel is absent from the city considered doubtful if a report will b submitted next week.

SHANNON-POPPLETON.

The distinguishing feature of the wedding olemnized at Elizabeth Place at 2 o'clock yes terday, the home of Hon. and Mrs. A. J. Poppleton, and parents of the bride, Miss Ellen Elizabeth Poppleton, who was united in mar riage to Major W. C. Shannon of the medical department of the United States army, was beautiful simplicity which prevailed There was no attempt at elaborate floral decorations, the drawing room on the north side, in which the ceremony took place, very Reverend C. H. Gardner, dean of Trinity Cathedral, officiating, being decorated in white roses and immense bunches of snow which gave an exceedingly pretty and spring-

like touch to the apartment.

At 2 o'clock the wedding party descended the stairs, the bride being attended by Miss Della Sears, her cousin, the groom by Mr L. W. V. Kennon, lieutenant of the Sixth infantry, who had former station in Omaha as an aide on General Crook's staff, and now stationed at Washington in connection with A wedding breakfast followed the ceremony nly the very intimate friends of the con

tracting parties being invited. In all its features the wedding took on the colorings of home, it being a desire of the bride to avoid all appearance of estentation, and surely nothing could have been more in keeping with her desires.

Major and Mrs. Shannon left via the Northwestern for New York and sail on a two months' trip of the continent Wednesday, May 15, on the American City of Paris. will take station at Fort Custer, Mont. The bride is one of the intellectual wome of the west, a graduate of Vassar college, and for a number of years has been a member of the Omaha library board, to which she has devoted much time in the perfection of the Omaha public library.

Marriage Licenses. The following marriage licenses were is sued yesterday by the county judge: Name and Address. Radvelski, Omaha.... e Maukavski, Omaha Frank Kunde, South Omaha... Nellie Wyman, Red Oak, Ia. Pete Palmquist, Omaha..... Emma G. Anderson, Boone, la.

PREPARING FOR THE START.

Guards' Gatting Gun Section Making Ready to Move on Memphis. At the armory of the Omaha Guards every thing is bustle and confusion, preparatory to the Gatling section going to Memphis. Bedding is being inspected and packed and accoutrements gotten into shipshape condi-In one corner the cannon lies dismantled, while the painters are busy upon the wheels and carriage. In another a tailor sits busy amidst a confusion of uniforms, as all the white trimmings and chevrons signifying infantry are being re-

placed by a brilliant red, designating artillery. The men are in splendid training and condition, excepting possibly Cannoneer Ewing, who, in returning from the military tournament last Friday night, was thrown from the limber, the gun carriage passing over his body. He is, however, rapidly in

proving and expects to take part in the prize Miss Grace Karns, the daughter of General Karns of Memphis, is the maid of honor, for whom the section is to strive for additional laurels. The detachment leaves over the Burlington Friday morning and includes the fellowing: Captain H. B. Mulford, Quarter-master Sergeant G. W. Sues, Gun Corporal A. A. Arter, Trumpeter E. Wehrner and Cannoneers J. A. C. Kennedy, B. E. Mc-Cague, T. C. Brownice, G. W. Manchester, H. Ewing, G. H. Conant, H. Bennwa, Sam Bush, the porter, and last, but not least, the company's mascot, "Tramp," an aggressive terrier pup that has been making the armory his home for the past six months. The detachment has been provided with all kinds of advertising matter by the Commercial club. This will be distributed en-

route and at Memphis in advertising Omaha. Rats and cockroaches agree that one free lunch of Stearn's Electric Paste is fatal; 25c.

Waiting on General Coppinge : The numerous changes in army circles to occasioned by the removal of General Brooke from Omaha to St. Paul are still in abeyance and will remain so until General ppinger, who is to succeed General Brook Omaha, signifies his readine's to move. General Coppinger is to take the initiative in the movement which sends General Brooke from Omaha to St. Paul, General Merritt from St. Paul to Chicago and General Ruger from Chicago to the east. At the headquarters of the Department of the Platte, no word has as yet been received from General Cop-

Tickets for "Phantasma" 50c, 75c and

Symptoms Are Favorable. James Hazelbaker, the injured cowboy rought to Omaha Monday afternoon from Chadron, is resting easily at the Presbyterian hospital with a fair prospect for recovery He is still unconscious, the cause of the trouble being a clot of blood pressing upon the brain. His right side is completely paralyzed. At first it was thought that an peration would be necessary to save the nan's life but the physicians now believe that the blood clot will pass away by ab-sorption without endangering his life.

THE BUSINESS MAN'S LUNCH.

Hard Work and Indigestion go Hand in Hand.

Concentrated thought, continued in, robs the stomach of necessary blood, and this is also true of hard physical labor. When a five horse-power engine is made to do ten horse-power work something is going to break. Very often the hardworked man coming from the field or the office will "bolt" his food in a few minutes which will take hours to digest. Then too, many foods are about as useful in the stomach as a keg of nails would be in a fire under a boiler. The ill-used stomach refuses to do its work without the proper stimulus which it gets from the blood and nerves. The nerves are weak and "ready to break," because they do not get the nourishment they require from the blood, finally the ill-used brain is morbidly wide awake when the overworked man at-

tempts to find rest in bed.

The application of common sense in the treatment of the stemach and the whole system brings to the busy man the full en-joyment of life and healthy digestion when he takes Dr. Pierce's Pleasant Pellets to relieve a bilious stomach or after a too hearty meal, and iDr. Pierce's Golden Medical Discovery to purify, enrich and vitalize the blood. The "Pellets" are tiny vitalize the blood. The "Pellets" are tiny sugar-coated pills made of highly concentrated vegetable ingredients which relieve the stomach of all offending matters easily and thoroughly. They need only be taken for a short time to cure the biliousness, constipation and slothfulness, or torpor, of the liver; then the "Medical Discovery" should be taken in teaspoonful doses to increase the blood and enrich it. It has a crease the blood and enrich it. It because the blood and enrich it. It because peculiar effect upon the lining membranes of the stomach and bowels, toning up and them for all time. The crease the blood and enrich it. It has a of the stomach and bowels, toning up and strengthening them for all time. The whole system feels the effect of the pure blood coursing through the body and the nerves are vitalized and strengthened, not deadened, or put to sleep, as the so-called celery compounds and nerve mixtures do—but refreshed and fed on the food they need for health. If you suffer from indigestion, dyspepsia, nervousness, and any of the ills which come from impure blood and disordered stomach, you can cure yourself with Dr. Pierce's Golden Medical Discovery which can be obtained at any

drug store in the country.

MAY TRY TO KEEP THEM OUT

Why Bonds of Police Commissioners Brown and Deaver Were Referred.

PART OF A SCHEME TO INDEFINITELY DELAY

Declared that the Judiciary Committee Will Fall to Make a Report Until it is Compelled to Do So-Jacobsen's Significant Remark.

It is believed in some quarters that the reference of the bonds of Charles H. Brown and D. Clem Deaver as members of the Board of Fire and Police Commissioners to the judiciary committee of the city council Tuesday night was preparatory to a stubborn effort to postpone or defeat the approval of the bonds by the council. The minority of the council insisted that there was no reason why the bonds should be referred. The sureties were of unquestioned character and there could be no doubt that the bonds were satisfactory in every particular. The reference was made, however, and it was stated by a member of the council yesterday that the committee would not report the bonds back for approval until it

When questioned as to the motive for delay the councilman stated that it was the purpose of a certain element in the council to keep Commissioners Coburn and Hartman in office by neglecting to approve the bonds of their successors. They expected that the constitutionality of the new law would be tested in the courts before it went into effect and in that case they believed that it would be easier to oust the present commissioners than it would be to get rid of the new ones if they were once inducted into office. They feared that the new commissioners would take hold of the reorganization of the police department and other matters in a manner that would deelop a strong public sentiment avor and thus make it more difficult to sup-plant them by men of the brand which was ontemplated by the framers of the ne-

This matter was incautiously alluded to by Jacobsen in the council Tuesday night in urg-ing the reference of the bonds. Jacobsen said that the bonds should be investigated, as there was liable to be a fight on the new law before August and there were several natters that ought to be considered. The principal anxiety of the majority seemed to ascertain whether the appointments read for three years, or only until the new law went into effect. It is claimed that it he latter had been the case, there would have been no objection to approving the ave been no objection to approving the onds, but otherwise it was feared that it night prove difficult to prevent the new com-nissioners from serving out the full term

## Rain Water Maker

Possesses-

This great preparation will soften the hardest of water, making all water soft and velvety. It will hold colored goods meli as calicos and colored hase running or fading. Woolens and flannels washed in water prepared with Rain Water Maker will positively not shrink, leaving them white and soft and increasing their durability. It will also keep bluing from curdling water. For the bath or tollet it is indispens

able, making the water soft and pliable, accelerating the action of soap and giving the skin a beautiful glow, thereby helping the soap to remove any superfluous excretion that may adhere to

the body. For dishes and general washing pursess it is very essential, as It saves both labor and soap

This preparation is not to be con

founded with soap powders, as it contains no soap, lye, ammonia, lime or any deleterious ingredients. It is not a greasy preparation whatsoever. Rain Water Maker, in the true sense of the word, is for preparing water so that it may have a strong affinity for

### Advantages of Late Purchases-

Here is a fair illustration of the advantages of late purchases.

Quite recently we undertook to explain that which many a man in every avocation were kept a guessing. We explained in part the reason why we can sell clothes so much cheaper than others.

We reasoned the advantages of the second crop, or late purchases, more explicitly expressed-readers will remember, no doubt. We mentioned the fact that the manufacturer plays his trump until all small dealers are satisfied, then they succumb with the remaining stock to the mercy of such as we-large consumers and the ready cash. Then comes our turn and we play the trumps. Here is positive proof: In the month of March we sold 200 suits of one kind at \$6.75, a phe-

nomenal run, indeed. It serves to prove that they were bargains-a better bargain we never before had the pleasure of offering. Our buyer in the eastern market was informed of the fact, and he laid low for more and got 'em-196 more (all they had)-but not at the manufacturers figures but at our bid.

The same thing that every man got at a big bargain for \$6.75 ought to be \$6.75, but they're not. It would be treachery on our part to buy cheaper and not sell it so. We bought for spot cash at \$1.25 less on each suit, and we'll sell 'em at \$1.25 cheaper for your spot cash.

They're here, the price now is but Five Fifty.
