### MEETING OF COUNTY TEACHERS Change in Course of Study in Country

Schools Discussed-Other Topics. The Douglas County Teachers' association held a meeting yesterday afternoon in the pourt house with about seventy-five teachers in attendance, Courses of study for the country schools was the main topic of discussion. The teachers who spoke agreed that in the near future some change in the course would be necessary.

A paper was read by Henry Eby on the "What Our Schools Most Need." He took the position that teachers should be such by profession. S. R. Thompson read a paper on "Course of Study." In discussing the topic he maintained that there is danger. some course of study is mapped out, of different teachers favoring special branches. Superintendent Marble made some remarks upon this topic also. In determining the line of study to be laid out for the student he said it is necessary first, to see that the studies are properly correlated; second, to consider the environment of the pupil. Some course is necessary in all schools, as teachers are all the while being changed. In speaking of the needs of schools, he called attention to the fact that impure air is a constant source of danger, and asserted that in the Omaha High school many pupils are under-mining their health on account of impure air in the school rooms. Others participated

Board of Education Now Laboring with

This Problem. The report of the committee on teachers and examinations, recommending the list of teachers and principals to be elected for the nsuing year will be presented to the Board of Education at the first meeting in June. The committee is now engaged on the list of principals and this has been practically decided on. Another meeting will be held Thursday night, at which the list will be

nce more revised and then the committee

will take up the selection of the subordinate

teachers.

One matter that has been a bone of conention in the committee is the selection of principal for the Farnam sencel to succeed Miss Trueland, resigned. There are a dozen candidates for the position, but it is undercandidates for the position, but it is understood that the choice lies between Miss Margaret McCarthy, principal of the Pacific
school, and W. H. Allen, who occuplet a similar position at Dodge.
About a year ago four rooms were

that time Miss McCarthy was assured that

While the Farnam is the only school without a principal at present, it is not unlikely that several vacancies will be created before the committee concludes its labors. Chairman Rhodes of the committee consultive cave that there is Rhodes of the committee says that there is no question but that there are half a dozen principals who are weak and should be displaced. It was a disagreeable matter to take up, but he believed that it was the duty of the committee to alm at the greatest possible efficiency in the schools, and this demanded

a reorganization of principals, by which the weak timber would be replaced with better material. Mr. Rhodes said that the committee had practically decided on the report, so far as the principals were concerned, but that on no account would any hint be given as to its contents until after the close of the school year. If it was known which principals were be dismissed it would have a tendency to disorganize the schools for the balance of the While it is understood that the committee will report in favor of the reorganization the report will not be adopted without opposi-tion. It is claimed by one or two members

of the board that the report of the commit-tee will be modeled upon a religious basis and that the character of the church which a teacher attends will have much to do with her treatment at the hands of the committee On the other hand, this is most emphatically denied by the members of the committee, who assert that merit and efficiency constitute the only standard which has been or will be considered.

Fell from the Hor zontal Bar.

A center of attraction on the Leavenworth school grounds is a horizontal bar, upon which the boys vie with one another in athletic exercises. Friday afternoon the

10-year-old boy of J. F. Brown, who resides at Seventeenth and Mason streets, sought to display his agility while a larger bay was also performing on the bar. In some way Master Brown lost his grip and fell to the ground, suffering a compound fracture of the arm. He was carried to his home and a doctor called at once. Mr. Brown is em-phatic in his denunciation of the school board for permitting the horizontal bar on the school grounds. DIED.

### WOULD NOT HEAR HIM.

Boy Burried Off to Reform School with Father's Request for Trial Denied,

A distressing case arose in criminal court vesterday in which, by a peremptory order of the judge, a father was separated from his child. The boy was ordered to be taken to the state reform school at 2 o'clock under a charge of burglary. His father was present, represented by T. J. Mahoney, and pleaded earnestly to have his boy given a trial in order that he might demonstrate the fact that his son was not guilty of the crime, and that he was not incorrigible. The court refused to modify the order, or hold the boy in the sheriff's custody until a trial of the case could be had.

He has given it out for six months past that he had a "pull" with the board that would land him in set, and so did not himself appear. Yester-day he emphatically denied that Irvine had any authority or show of authority to appear for his lad, and said if the other side of the case was heard he could show that his boy had not entered the school house, but called loudly to the other lads not to do so. Mr. Mahoney suggested that only an ex parte hearing had been had on an information which he declared would not hold a man for a crime. The judge said that he supposed that the information was faulty, but he had heard one side of the case and was natisfied. The father has filed papers to give his son a trial to at least demonstrate he is his son a trial, to at least demonstrate he is

SISTERS OF ST. MONICA GO ELSEWHERE

Mother Caroline, Who Urges that the Work Itself is the Strongest Appeal for Its Continuance.

The Mission of Our Merciful Saviour at 2508 Davenport street is to be closed for a ime, until some other sisterhood can be found to take it in charge. The sisters of the Order of St. Monica, who have had it in charge, are about to leave this city and will take charge of an orphanage at Springfield, Ill. At the last meeting of the associates of the mission Mother Caroline, who has been at the head of the work here, read a report summarizing the results so far obtained. The report, however, fails to men-Caroline has engaged, such as the industrial school, a pleasant hour club for young working girls and much work in connection with St. Paul's mission. Their departure is desply regretted by all who have been associated with them. The report is: In making this, my last report of the work of the Mission of Our Merciful Sa-

viour, I have thought best to make a statement of the number admitted to the house. Since its opening in July, 1893, there have been seventy-two admitted for a longer or shorter time. Two have come for protection while passing through town. Nine have come for protection while seeking service. Three who had come seeking work had fallen, but wished their past history kept secret that they might procure respectable places and live respectable lives.

Two girls came to us who had run away from home, one of them of sufficient social standing to be visited by one of the most respected men of Omaha to ascertain if she was made comfortable until her father came for her. Both these were restored. Three girls were places here for disobedient, willful conduct at home, all of whom stayed with us some months and then went to nice places for service.

WORK FOR THE CHILDREN. ome for protection while seeking service.

WORK FOR THE CHILDREN.

Four children have been placed with us for protection until homes could be procured for them, all of whom have since been adopted into good homes. Three of these have been rescued from most abandoned parents, the other one from a home and influences unsuitable to raising any girl properly, if not absolutely vicious.

The remainder have been failen women of all degree, from the lowest in physical and mental condition to the unfortunate girls who have been betrayed under promise of marriage, but who have been, or feared they would be, disowned by their parents or guardians.

There have been five infants and one adult baptized in the house oratory. One of the infants was baptized as it was dying by Sister Anna Hobart, who was visiting us at the time. The baby was buried from the house, Rev. Mr. Williams taking charge of it. Two infants and four adults have been baptized at the cathedral, making a total of eleven, and one confirmed. Eight adults and two children have returned after going away, showing their confidence and desire for further protection against themselves.

We have been obliged to refuse admis-WORK FOR THE CHILDREN

We have been obliged to refuse admis-We have been obliged to refuse admission to five persons because we had no place to care for them physically. We can do nothing for a woman morally without first cleansing the body. We have had to refuse two who would have come to us to be cured for drunkenness. Last summer we knew of nine children who needed care and protection, but we could do nothing for them for lack of room. This makes a total of eighty-nine who have sought the protection of the mission.

of eighty-nine who have sought the protection of the mission.

We do not claim that all of these were reformed, but we know the three lowest in physical condition are now striving to live good lives. Two who came to us from the cast are, I fear, living hopelessly irregular, if not absolutely abandoned, lives. One of the youngest, and in some ways a beautiful and sweet girl, I fear has returned to an abandoned life. With these exceptions all who have gone from us for service are filling respectable places, and some are very lovable, fine women in their station in life.

MEANING OF THE FACTS. MEANING OF THE FACTS.

With such a record of facts can any one doubt the usefulness of the mission or the faithfulness of those interested in the If such results have been accomplished under the pressure of the financial crisis that came just as we opened the house. If such results have been accomplished under the pressure of the financial crisis that came just as we opened the house, can any one for an instant hesitate as to the necessity of enlarged accommodation and better equipment for the future? From the smallness of the accommodations we have been unable to keep the girls with us as long as we desired, and here has been a great drawback. We needed to keep them long enough to have the impressions and desires for a virtuous life confirmed and strengthened by long tests. The time of their stay, while it should have been years, has been curtailed to a few months. Can any one doubt that it grieves us to know that the house is to be closed, even for a few months, when any day some poor soul may be waiting to be saved from utter destruction? Would not some of the rectors, of small parishes at least, be encouraged by having such a record in the same space of time? What can I say that will appeal to you more

sarnestly than the simple statement of these facts?

In closing this report I will only allude to the work of Sister Sarah among the poor of the city. How many will arise up and call her blessed none of us can know. Her charifies have been unselfish, unpretentious and almost unnumbered.

at 2 o'clock p. m. Rev. Luther M. Kuhns of Omaha will deliver an address. Rev. John N. Zimmer of McArdle precinct will also be present. There will be singing by the choir. All schools are invited to attend in a body.

One of the distinguished visitors in Omaha at present is Rev. Thomas H. Malone of Denver. Father Malone combines journalism length by the board, and members are unaniwith his sacred calling, being editor and publisher of the Colorado Catholic. As priest and editor his reputation is not ounded by state lines. He is a writer of great force and an orator of impressive presence and the eloquence and wit that bespeaks his Celtic origin. A champion of the Catholic school of liberalism of which Archbishop Ireland of St. Paul is the distinguished leader, Father Malone has been the means of uprooting many evils of church government in Colorado and bringing it into harmony with church and national The contest brought him into sharp conflict with his bishop, with the result of two dis-tinct triumphs on appeal to Mgr. Board of Public Works Considers Such Action Probable.

It is probable that the Sixteenth street viaduct will be permanently closed by the Board of Public Works Inside of another week. The matter has been considered at mously of the opinion that in case it is shown that the continuance of travel on the structure menaces public safety, it is the duty of the board to close it up entirely. The street commissioner has been instructed to make a thorough investigation and report to the board at the next meeting, and if his report confirms the present impression a resolution will then be passed declaring the viaduct unsafe and prohibiting travel over In discussing the probable action of the

had been sent to the city council, had been officially communicated to the board the members would undoubtedly have ordered the viaduct closed without delay. But they had had no official notification of the condition of the structure and were dependent on the city engineer for information on which to base their action. According to the terms of the charter the coard, Chairman Winspear said, was invested
