HAY'S HEARING IS RESUMED

Taking of Testimony in the Investigation of the Lincoln Asylum Management.

WITNESSES FROM NORFOLK TESTIFY

First Evidence Against the Fx-Superintend ent is Given by Two Former Attendants - Some Details of Hospital Treatment Brought Out.

LINCOLN, May 13 .- (Special.)-The investigation of Dr. John T. Hay before Governor Holcomb was resumed this afternoon at o'clock. The injunction case in the district court, restraining Dr. L. J. Abbott from interfering with Dr. Hay in his duties at the Lincoln Insane Hospital, which was set for the 10th inst, has been postponed by stipulation between Attorneys Webster and Holbeck until the 17th inst. Evidence this after noon was quite favorable to the cause of Dr. Abbott, and is practically the first in this line which has been adduced.

J. A. Weart, night watchman at the Norfolk insane asylum, was examined by Governor Holcomb. Weart had been an employe at the Lincoln hospital. He testified that one Sawyer, an attendant, had the reputation of being exceedingly rough in his treatment of patients. This was also the case with Morland, another attendant. Governor Holcomb asked witness what he understood by rough treatment of patients. Weart replied that it was such as was calculated to make patients fear him and remember his ality. Morland had been an employe at the asylum for five or six years. The duties of witness at the Norfolk asylum were to take care of patients in the third ward. When ordered to do so he administered hypothesis in the state of the patients of the state of the s injections. At present Dr. Green prepared all the medicine administered to

Cross-examined by General Webster, witness said the sedatives given to patients were in the form of tablets. Asked if he could prepare the tablets, replied that he could not. out could make the solution in proper form to administer to patients. USED POWERFUL NARCOTICS. Mrs. J. A. Weart, wife of the preceding vitness, testified that she had been a nurse at the Lincoln hospital during a portion of Dr. Hay's incumbency. Was acquainted with the duties of the night watches at the hospital. Was not familiar with the proportions of medicine administered to patients. Knew that bromides were used in some of the violent wards. Knew of the accident in whia patient, Mrs. Brown, had her jaw severely injured. Dr. Hay and Dr. Manary had been called at the time and found that the jaw called at the time and found that the jaw had been dislocated while an attempt was being made to administer medicine. Witness knew Mrs. Seth P. Mobley while the latter was a patient. Said she had queer idas. At the Norfolk asylum, where witness was at present employed, Dr. Green had full charge of the medicines. charge of the medicines. Witness never gave medicine except on the order of Dr. Green. Cross-examined by General Webster, wit-ness said Mrs. Brown had been injured by the use of a tube in her mouth. For two days witness had thought patient was suffer-ing from the toothache. Dr. Lane's attention had been called to the dislocation of Mrs. Brown's jaw. Mrs. Brown had been a vio-lent patient. A patient by the name of Parotte had died from an overdose of paraldehyde. This latter drug she had never seen used in the Norfolk hospital. Dr. Lane had given her night orders verbally whenever

she went on watch. On redirect by Governor Holcomb witness said that the effect of paraldehyde on patients was to cause a stuper which lasted for three or four days, after which they sgain became

No other witnesses were examined at this and it was adjourned until tomorrow. It is expected that a number of Lincoln physicians will be called then to testify as experts regarding the peculiar practice of administering paraldehyde as a medicine. It is claimed by high medical authority that a prescription containing parallehyde has never en put up by any pharmacists in the city. and that its use has been confined exclusively to the asylum by Dr. Hay. It is also stated asylum will be produced who will swear that Bruhl's jaw was broken by a blow of a fist on the higher land at the ends were unindelivered by an attendant, and that the man jured. died from the effects of the blow and lack of prompt medical attendance.

WAS ENTITLED TO HIS MONEY. It has just transpired that William A. Carter of the Omaha insurance firm of Ford & Carter came to this city on Saturday last and sought out D. G. Presgrave at the Boyd hotel, where he demanded an accounting for insurance commissions on policies amounting to some \$70,000, written for Lincoln parties in an accident and life company. He subscquently caused the arrest of Presgrave on a charge of embezzling \$29.75. The latter secured bail and was released for hearing this morning. It appears from his testimony that there was a dispute between the parties as to the amount he was entitled to as an agent and the case was dismissed. Carter claims that under a verbal contract Prea-grave was to remit to his employers every cent he took in as soon as it was collected and that he was to receive his proportion back after the \$6 a week had been deducted. At a meeting held Saturday afternooon at

4. O. U. W. CONFENTION MEETS TODAY Many Members Present and Much Interest-

ing Work Will Be Accomplished. KEARNEY, Neb., May 13 .- (Special Tele gram.)-The sixth annual session of the grand edge of the Ancient Order of United Workmen in Nebraska will meet here tomorrow morning. Grand Master Workman J. G. Tate arrived Saturday, and Past Grand Master H. W. Cole of McCook, Grand Foreman R. W. Laffin, Grand Overseer C. Hayes, Grand Recorder George H. Barber, Grand Receiver E. A. Polley, Grand Guide John Hawley, Grand Watchman James Farrell and Dr. Holyoke grand medical examiner, are now here. F. G. L. Simmons of Seward, editor of the Ne braska Workman, is here looking after his interests as printer for the next two years. When the delegates arrived this evening they were met at the depot by a large delegation with the Midway military band and escorte to the city hall, which is being used as head quarters, and where the delegates are having a social time tonight getting acquainted and

preparing for the work on the morrow. The session proper will be held in Armory hall, but the Odd Fellows hall has also been opened for their use. There was an effort made on the part of some to have this a abort session and adjourn tomorrow night but from present indications that cannot be done, and some interesting developments are

anticipated. Grand Master Workman Tate has held the office for the past eight years, and announces that he is not a candidate for re-election There are several others aspiring for the position, but G. H. Cutting of Kearney is the most prominently mentioned so far. He will have the solid support of his home dele gation, and has a large and strong following from outside the city. Grand Island delegates are here for the purpose of securing the ead offices for that city if possible, and a lively time is looked for when the matter comes up. There are now about 300 delegates here, and more are expected on the morning

An interesting program has been prepared for tomorrow night at the opera house, which will be free to the public. The delegates are being well provided for, many private resi dences being open for their entertainment.

FROST DAMAGE VERY LIMITED

Reports from Over the State Not of an Alarming Character. ASHLAND, Neb., May 13 .- (Special.)-The Ashland correspondent today interviewed several representative farmers on the extent of the damage of the recent frosts. As a rule, the frost was of no material damage. In low places it had nipped the corn down some, but only a small per cent of it will have to be replanted. In some cases, how ever, there were patches of from one to twenty acres that were totally destroyed. As to the fruit, the majority of the farmers thought that most of the apple crop, like the corn, might be destroyed in some places. but they were not by any means lost. HAVE SETTLED HAZELTON'S FATE State Department Officials Say He Will

Not Return to Venezuela. WASHINGTON, May 13 .- A phase of the mportant pending question between Engand and Venezuela, in which the United States has intervened to ask arbitration, is involved in the demand of the State department for the resignation of United States Minister Hazelton of Venezuela on serious charges made by Admiral Meade. Minister Hazelton regards the charges as inspired by eque, and as an evidnece of this he cites olitical representations of a direct and inlirect character, by which he says Admiral Meade sought to impress the Venezuelan government and people with the visit of the inited States squadron as something more than a courtesy and involved political as-surances that the United States was about to lend the strength of its navy to maintain is being put in repair in anticipation of Venezuela against Great Britain. The min-permanent residence here at that time. ster says this impression characterized all

Government officials who were well inaroused a decided feeling of disapproval among government authorities. They did not, he says, care to be patronized when, as they understood the facts, the visit of the fleet was an incident to its being in southern waters, and was not intended as an ey-idence of the position of the United States on the international questions involved. The minister today referred to Admiral Meade's address as something more than an expression of the usual official courtestes, and de-clares it conveyed the general impression that the United States sailors were there as an evidence of the political policy of the United States.

It was stated at the white house today the action taken in the case of Minister Hazel-ton would not be recalled, and that Mr. Hazelton would not return to Venezucia as minister of the United States.

s engaged in missionary work for the pur pose of re-establishing a colony of Shakers on the Pacific coast. It is proposed to erect a church here to be an exact copy of the one now being used by the community at Eas Canterbury, N. H., having a scating capacity of several hundred and apartments sufficient to accommodate at least 100 people. When the work on the coast has progressed a little further a few prominent eastern Shaker lead-ers will come to San Francisco and begin actively the work of establishing the church or community. Several thousand acres of land have been purchased lately in Osceola ounty, Florida, and a building constructed or 150 persons. They will try one of the not summers there before making extensiv improvements. The probabilities are, how ever, that this community will come on account of the excessive heat o Florida.

Assist Nature little now and then, with a gentle, cleansing laxative, thereby removing offending matter from the stomach and bowels, toning up and invigorating the liver and quickening its tardy action, and you thereby remove the cause of a multitude of distressing diseases, such as headaches, indigestion, or dyspepsia, biliousness, pimples, blotches, eruptions, boils, constipation, piles, fistulas and

maladies too numerous to mention. If people would pay more attention to properly regulating the action of their bowels, they would have less fre-quent occasion to call for their doctor's services to subdue attacks of dangerous diseases.

That, of all known agents to accomplish this purpose, Dr. Pierce's Pleasant Pellets are unequaled, is proven by the fact that once used, they are always in favor. Their secondary effect is to keep the bowels open and regular, not to further constipate, as is the case with other Hence, their great popularity, pills. with sufferers from habitual constipation, piles and indigestion.

RAIN WATER MAKER,

The Many Purposes for Which it Was

Mr. Kirk and his representatives are requently asked the question, "Is Rain Water Maker simply a hard water We answer emphatically, 'No." Kirk's new scientific discovery not only softens instantly the hardest water, but is equally valuable in rain or elstern water, as it renders all waters soft and velvety. Clothes washed in this preparation are much sweeter and whiter and will hold colors from running in printed goods; prevents bluing from curdling in water;

prevents flannels from shrinking. For the bath or toilet it is indispensable, accelerating the action of the giving the skin a healthy glow and helping to remove any superfluous excretions that may adhere to the body. For dishes and general washing pur-

poses it is very essential. Kirk's Rain Water Maker is absoutely harmless and must not be confounded with soap powders, as it contains no soap, lye, ammonia, borax, lime or any deleterious ingredients, Hme or any and saves 25 per cent of soap and 60 per cent of labor. Kirk's Rain Water Maker can be had of all druggists and grocers-25 cents for a two-pound packuge.

" THE TRIUMPH OF LOVE IS HAPPY, FRUITFUL MARRIAGE." Every Man Who Would Know the Grand Truths, the Plain Facts, the New Discoveries of Medical Science as Applied to Married Life, Wha Would Atone for Past Errors and Avoid Future Pitfalls, Should Secure the Wonderful Little Book Called "Complete Manhood, and How to At, tain It."

"Here at last is information from a high medical source that must work wonders with this generation of men."
The book fully describes a method by which to attain full vigor and manly power.
A method by which to end all usuatural drains on the system.

To cure nervousness, lack of self-control, da spontency, &c.
To exchange a jaded and worn nature for one of brightness, buoyancy and power.
To cure forever effects of excesses, overwork, werry, &c. To give full strength, development and tons to every portion and organ of the body,
Age no barrier. Failure impossible. Two

Age no harrier. Failure impossible. Two thousand references.

The book is purely medical and scientific, uscless to curiosity seekers, invalvable to mesonly who need it.

A despairing man, who had applied to us, soon after wrote:

"Woll, I tell you that first dad is one I'll never forget. I just bubbled with joy. I wanted to hig overybody and tell them my old self had died yesterday, and my now self was born to-day. Why didn't you tell me when I first wrote that I would find it this way?" S

And another time:

And another thus:
"If you dumped a cart load of gold at my feet it would not bring such gladness into my life as your method has done."
Write to the ERIE MEDICAL COMPANY, Buffalo, N.Y., and ask for the little book called "COMPLETE MANHOOD." Refer to this paper, and the company promises to send the book, in scaled envelope, without any marks, and entirely free, until it is well introduced.
