REBELS CONTROL HALF OF CUBA.

Capture of Banes Confirms American Prediction. GIBARA, Cuba, May 15.—It is said the insurgents have complete control over the eastern end of the island, that is, the provinces of Baracoa and Santiago. Last night forty-five Americans and 200 rifles were landed at Nip bay from the yacht Corona. They are guaranteed all the plunder they can lay their hands on, and are expected to have landed from southern states during the past two weeks.

NEW YORK, May 15.—The recent attack and capture of the town of Banes by the Cuban revolutionists was confirmed by one of the passengers of the little fruit steamer Richmond, which arrived yesterday. The insurgents, numbering 300 men, made a bold attack on the town on May 7 and captured it. Little Havana, which was held by Gen. Gonzalez Quesada, secretary of the Cuban revolution party, and Carlos M. Céspedes were slain at once from this city for Jackson, Fla., where they were held. The Spanish consul here asserts that the revolution is abating. He says he has kept a record, and thus far the American press has published 6,000 Spanish articles, but has not heard a word from Cuba.

CADIZ, Spain, May 15.—Persons who arrived here recently have reported that the campaign which is being directed by General Campos against the insurgents will be brief, but generally expected. The military operations, it is added, will be pushed through the rainy season. Campos will remain in Cuba until order is completely restored.

POPE HAS NOT REMOVED THE BAR

Italian Catholics Advised Not to Participate in Political Elections.

ROME, May 15.—The Observatore Roma publishes a letter in which it is asserted that the pope is again enjoining Catholics in Italy from taking part in political elections. The Catholic citizens of Italy and the Jesuits especially have from time to time appealed to the head of the church to remove the interdiction of the participation by Catholics in political elections in this country and it has often been repeated that he contemplated yielding to their petitions, but the publication is an effective denial of the reports. The pope says that while the participation of Catholics in the administrative elections in Italy is both prohibited and reprehensible, even to be commended, it is to be avoided in the case of political elections for worthy reasons, for the conditions imposed in Italy upon the sovereign pontiff are such as to prevent him from assuming again that entire liberty and independence becoming his apostolic ministry.

KAISER SEES HIS SATISFIED.

William and Bismarck Express Themselves on the Defeat of the Bill.

LONDON, May 15.—A dispatch to the Standard from Berlin says that in the course of a conversation with his ministers on Sunday the emperor expressed his great satisfaction with the debates on the anti-revolutionary bill. Herr Von Koeler is reported as saying on Saturday: "The revolution bill is dead; long live the revolution bill."

Prince Bismarck, in receiving a delegation of Silesian women on Monday, said he believed that womanly sympathy is a stronger bulwark for our political institutions against democratic than the anti-revolution bill would have been if it had been accepted by the Reichstag. I am not sorry that the measure has fallen through.

HATCH TO REPLY TO GRESHAM

All the Charges Against Thurston Denied by His Government.

SAN FRANCISCO, May 15.—The steamer ANA from Honolulu May 8, arrived today with the following: Minister Hatch has handed Minister Willis his answer in regard to the recall of Thurston, which will go forward by this mail. It is a lengthy document and makes a general denial of the charges against the Hawaiian minister. The latter's course is upheld in every particular. Gresham is informed that Thurston will not be returned to Washington, but the letter does not name his successor, and mentions only the Hawaiian minister. Gresham is informed that Thurston will not be returned to Washington, but the letter does not name his successor, and mentions only the Hawaiian minister.

Walker and Richard made oaths that when they took the oath of allegiance to Hawaii they were not to be affected by the British citizenship. The British commissioner also coinciding in the statement. While the dispatch of Earl Kimberley simply states that the Hawaiian government will not admit of British subjects, it makes no indication of what steps will be taken. Walker and Richard were not entitled to the protection of the said laws and be no longer amenable to his native country for protection or intervention. He shall be liable to the same laws, penalties and disabilities as are attached to rebellion by the Hawaiian constitution.

Earl Kimberley's decision setting at naught this law has been made without asking for the Hawaiian government's decision. The maintenance of the decision is a matter of much importance to the British subjects in Great Britain in the matter of Nicaragua, it is feared that the British may proceed to extreme measures without submitting the matter to the arbitration of the world. The British subjects should be taken the republic may be asked to release Richard and Walker and pay a large indemnity at once, which will be paid immediately after the occupation of the city. It should be a forcible occupation it would unquestionably be followed by insurrection and bloodshed, as the natives would believe that the British had come to restore the ex-queen.

ORDERS FOR THE CUTTER GRANT

Ready for Sea and Expects to Go North to Protect the Seals.

PORT TOWNSEND, Wash., May 15.—Unexpected orders have been received from Washington for the revenue cutter Grant to immediately prepare for sea. Some days ago the department ordered the cutter and up to the present time necessary repairs. The work had been fairly commenced when orders came to suspend operations and prepare for a cruise to the North Pacific ocean. This movement is thought to have been actuated by the fact that the cutter is now on the coast being sea regulations and the desire of the United States government to communicate with its cutters now patrolling the sea. Under the present arrangement, the cutter should other cutters seize British sealers upon the high seas for violation of the sealing regulations, serious complications might arise between the two governments. As soon as the cutter is ready for sea, it will be ordered to the north in search of Commander Hooper of the steamer Rush, to whom dispatches from the department will be delivered.

Carried Off Into the Mountains and No Trace of Them Has Been Found, Though Their Fate is Absolutely Certain.

GUTHRIE, Okl., May 15.—Friends of Newcombe and Pierce, the territory outlaws who were betrayed by supposed friends and assassinated near Ingalls two weeks ago, have avenged the deaths of their comrades. According to a story of a courier who came in today from Ingalls, Okl., John, Calvin and William Dunn had been kidnaped by a number of the dead outlaws' friends and lynched. At the time of the killing local detectives took upon themselves the glory of the capture of the outlaws, and put in claims for the large rewards that had been offered for their heads. A week ago the Dunns, at whose home the outlaws stopped on the night of the killing, were charged with beguiling them into their home under guise of friendship, and, after getting the two desperadoes drunk, riddled them with bullets as they slept. They had, it is said, been promised large sums of money by the detectives who had claimed the reward. The friends of Newcombe and Pierce openly swore revenge. The Dunns barricaded their place, secured a substantial supply of arms and ammunition and held their ranch a veritable arsenal.

MEADE ON WAITING ORDERS

Leave of Absence Granted Him Has Been Revoked by the Navy Department.

REQUEST TO BE RETIRED ALSO DENIED

All the Result of the Interview Recently Published in a New York Paper—Possibility of Securing Competent Testimony Saves Him Court Martial.

WASHINGTON, May 15.—The secretary of the navy has issued an order revoking the leave of absence granted Rear Admiral Meade several days ago. When Admiral Meade was disatisfied with his command and asked to be detached from the command of the North Atlantic squadron he also asked for a leave of absence of a year with permission to go abroad, saying at the time that he would ask in a day or two to be retired. The request for a detached command was immediately granted, as was the request for the year's leave of absence. Then came the request to be retired, but before any action could be taken the interview was published which has caused so much difficulty. No action has been taken upon the request for retirement, but the action revoking the leave of absence indicates that the request for retirement will not be granted. It is believed now that Admiral Meade is on waiting orders, subject to any duty, at any time, to which the department may desire to assign him.

It is believed now that it is hardly likely that any action will be taken to court martial Rear Admiral Meade for his conduct in the administration, as it is said to be impossible to obtain testimony from competent witnesses. When the letters were shown to the authorities, they were all seized and the gold band ring was returned to its owner. "That guy got a marriage license for us. I sold his gold ring for \$3."

Have Asked the Governor to Send Them Aid.

TOPEKA, May 15.—State Labor Commissioner Bird has just returned from Scranton, Oage county, where he has been sent to investigate reports of suffering among the coal miners on account of enforced idleness. He declares the condition of some of the men and their families is deplorable. On his return he had about 500 men who have had no work for from six weeks to two months and the others are getting from \$3 to \$5.50 a week. The cause of it all is, of course, lack of demand for coal. The idle miners are to get work on the farm, or in other vocations, but the labor market is overstocked and they finally appealed to the governor. Governor Merrill has laid the matter before Receiver Joseph C. Wilson of the Santa Fe, in the hope that the company may do something for the men.
