In Acia Minor the Mohammedans are seeking to ward off good, but hiding it for fear f persecution. One bought the scriptures a Spanish and learned the language that he in Spanish and learned the innguing that he might read it in safety. The foreign work is as God's high school of patience, but it is worth all that it costs, teaching us to master time by wearing it out. time by wearing it out. GOD'S CALL TO WOMEN.

Another of the manifestations of divine power is God's call to women into every form of mission work. She, like her mas-ter, has waited long, and now in the full-ness of time, the Lord in his house has ap-pointed her work—a new extended sphere of

In the circle of practical work, the church has always been a loser in not using cheap labor. The Roman Catholic church has been built up and sustained by it. We have more skilled labor going to waste for want of opportunity than any other church. We do not plead for any particular mode of utilizing it, but for its man in the best way that the it, but for its use in the best way that the church can devise. We have thousands of intelligent and Godly women, single and widowed, with wealth and without it, who are looking hopelessly for something to do to take away the ennul of unoccupied exist-ence who would go into homes and institu-tions where they could do mission work. Such inatitutions are numerous in England and Germany, and managed by the most cultured women. The Methodist church was founded and is largely sustained by local preachers. The Presbyterian church, even in its poverty, was distinguished by an educated ministry. The standard ought to be high, but the cost of a highly educated ministry in time, money and vital force must be considered. No church has so many educated ayman rifted with ability to teach and eloquent in speech, who thirst to serve God, ot as bushwhackers, but with the approval and authority of the presbytery. Why not examine them in the scriptures as interpreted by our standards and license them? Shut the door to ordination all the tighter, as toward it there is a dangerous tendency by class which is not qualified for it. If we ad allowed this New Testament example, we should never have had the scism which ted in the Cumberland Presbyterian

One of the great questions then was assembly control of missionary so-leties, as the great question of the assembly the assembly control of theological sem-iaries. The old and new school general assemblies met in Pittsburg for the last time then was assembly control of in November, 1869, twenty-six years ago. When they adjourned a union meeting was held in the Third Presbyterian church. It 1t was at thanksgiving service and the event is commemorated in a beautiful mural tablet in the vestibule of the church. The Third church was delicated in November, 1869, so that the quarter centennial of the dedication may now be celebrated as well as the quar-

may now be celebrated as well as the quar-ter centennial of the reunion mass meeting.

The sermon was closely listened to by the audience. After the sermon the commis-sioners went to the Fourth Avenue Baptist church, where lunch was served. During the meal and the subsequent recess before the assembly reconvened, the question, "Who Shall Be Moderator?" was the only one under discussion. This meeting there had been discussion. This morning there had been several names in the air, but Rev. Booth seemed to be everywhere. General Beaver, a lifelong friend of Rev. Booth, stated during the afternoon that he would nominate his friend and he would be seconded by Prof. Andrew C. Zenas of McCormick seminary, Chicago. Among the others mentioned as candidates were: Dr. John I. Blackburn of Covington, Ky.; Rev. Howard A. Johnson, Chicago; Warren H. Landon, Portland, Ore.; R. N. Adams, Red River, Minn., and Rev. William N. Page, D.D., of Topeka, Kan.
