living witnesses to the fact that, in all its earlier stages, consumption is a curable disease. Not every case, but a large percentage of cases, and we believe, fully of per cent, are cured by Dr. Pierce's Golden Medical Discovery, even after the disease has progressed so far as to induce repeated bleedings from the lungs, severe lingering cough with copious expectoration (including tubercular matter) great loss of flesh ing tubercular matter), great loss of flesh and extreme emaciation and weakness.

Do you doubt that hundreds of such cases reported to us as cured by "Golden Medical Discovery" were genuine cases of that dread and fatal disease? You need not take our word for it. They have, in nearly every instance, been so pronounced by the best and most experienced home physicians, who have no interest whatever in miswho have no interest whatever in mis-representing them, and who were often strongly prejudiced and advised against a trial of "Golden Medical Discovery," but who have been forced to confess that it surpasses, in curative power over this fatal malady, all other medicines with which they are acquainted. Nasty cod-liver oil and its filthy "emulsions" and mixtures, had been tried in nearly all these cases and had either utterly failed to bene-fit, or had only seemed to benefit a little for a short time. Extract of malt, whiskey, and various preparations of the hypophosand various preparations of the hypophos-phites had also been faithfully tried in vain. SINGULAR CASE IN A LINCOLN COURT

W. D. Crawford, Charged with Forgery Under Peculiar Circumstances, Acquitted by Direction of the Court-Other Notes from the Capital.

LINCOLN, May 17 .- (Special.)-There was morning when Deputy County Attorney Colline asked that the jury be instructed to find a verdict of not guilty in the case of the state against W. D. Crawford. Attorney Shepherd, co-counsel with the prosecution, objected in the strongest terms, and urged that the jury be permitted to pass upon the case on the evidence. Crawford was on trial for forging his brother's name to a note for \$100 It appeared that the brother, James H. Crawford, had signed three notes for W. D., and that his signature was wanted to another to satisfy the claims of Estey & Camp, music Crawford tried to take up the note, Estey & him arrested. With these facts, Mr. Collins

DODGING LANCASTER COURTS. The unfavorable conclusions, for the plainiffs of damage suits filed against the Rock Island Rallway company for loss of life in the wreck of August last, has had the effect of driving litigants out of the county, and away from the jurisdiction of these courts. Delegates of Three Counties Meet at that Place. O'NIELL, Neb., May 17 .- (Special Telegram.)-A meeting was held in this city yesterday which was called for the purpose of discussing the organizing of an irrigation district. Delegates were present from Holt, Brown and Rock counties. The delegates were all of the opinion that a district should be formed and the work of getting water on the fertile lands along the Elkhorn valley be started. A committee was appointed to get petitions to present to the commissioners and supervisors of the three counties calling for a special meeting to fix the boundaries of the district, and also to submit a proposition to the voters to bond the district for the purpose of building the ditch. It was a

From now out a radical and forcible move may be looked for any day on the part of the executive.

The governor today gave out no decision in regard to the course he intends to pursue in the asylum affair. It is understood, however, that while the principal object in making the investigation of Dr. Hay's management of the hospital was for the purpose of establishing a court record, there will be no further proceedings in court if it can possibly be avolded.

The next executive appointment to be looked for is that of a fish commissioner, to take the place which Lou May is about to vacate. His term of office expires shortly, and there are a number of populists who have had their eyes set in the direction of the fish commission since the first of January. But a dozen of these aspirants might be named without hitting upon the lucky individual. But he will be an independent.

The True Worth and Merit of This Great Preparation.

10RSE RAIN WATER MAKER

Recognized as the Acme of Economy.

AN AFSOLUTE NECESSITY.

The question has been asked, why does Rain Water Maker sell so fast? This is a very simple question to answer. In the first place Rain Water Maker is an article that contains no harmfull ingredients and when water of any and all consistancy is prepared with this powder it becomes soft at once and it will not hurt the hands or fabrics of any description. Flannels or woolens washed in water prepared with Rain Water Maker will positively not shrink; while printed goods, such as colicoes, etc., will not run or fade. preparation is to be used in all kinds of washing. For the bath it is exquisite, as it alds the soap in its cleans ing action. Rain Water Maker is not peddled or sold in bulk. Read what it said about it:

A WELL KNOWN DEALER TEST IFIES FOR KIRK.

Hobart Williams, a well known dealer t No. 1407 Douglas street says: though I have not personally given Kirk's Rain Water Maker a test, but from the amount we sell of it and the good words we hear spoken for it. I should say that it has taken the Omaha people by storm. We have a great demand for it and every one who has given Kain Water Maker a test and who are frequenters of this store have only words of praise for the preparation Kirk has undoubtedly a most meritor ous preparation." ITS MERITS ARE HARD TO EX-

PRESS.

Mrs. Meyer, wife of Moritz Meyer, reslding at 2104 Douglas street, and one of the firm of Max Meyer & Bro., says: "We have given Kirk's Rain Water Maker a thorough test in our house and are very well pleased with it. The preparation is an excellent one and it makes the clothes very beautiful, soft and white. Its merits are hard to express in a manner to show how excel-lent it is. It is undoubtedly the finest preparation on the market today and it is a pleasure to recommend it.'

WASHED DELICATE COLORED FABRICS. Mrs. Devreaux, residing at 1421 Dodge

street, and the wife of B. F. Devreaux, the well known advertising solicitor for the World-Herald, said: "Kirk's Rain Water Maker has been given a test in my bouse and it has proven very satisrived this week for an extended visit with her uncle, James Allen.

The Valley Cornet band gave a musical entertainment at the opera house tonight.

Miss Delma Gaffin of Wahoo is visiting it does just what it is represented that it will do. I certainly take pleasure in it does just what it is represented that it will do. I certainly take pleasure in recommending Bhiii Water Maker." SHE IS PLEASED WITH IT.

Mrs. T. F. Hartwell, residing at No. 2108 Douglas street, said to a reporter: "I like Kirk's Rain Water Maker very MORSE

much indeed; it is without doubt the have tried every other kind that I have heard of and none of them are anywhere near equal to this in my estimation. It is just the thing for the people who are compelled to use hard water. as it softens it so nicely. To show that I am pleased with it is only necessary to say that I ordered some more from my grocer as soon as I had given it a Hughes passed away before anything could test from the sample which I was be done for, within fifteen minutes after fortunate in getting. I could not do otherwise but recommend Rain Water Maker to every one."

Does your flanuels shrink, does your printed goods run and fade, are you willing to prevent all this, are you willing to spend 25 cents? If so, ask your grocer or druggist for a two-pound package of Rain Water Maker.

CITY COUNCIL PROCEEDINGS

Epecial Fewien Held to Consider Cleaning of Sixteenth Street Viaduct,

RESPONSIBILITY PLACED ON OTHERS

Loard of Public Works, Engineer and Mayor Must Decide if There is Decision Before Tuesday Night-Engineer Replies to Certain Criticisms.

It is not improbable that the Sixteenth street viaduct will be closed this morning. Last evening a special meeting of the city council was held to consider the question, and the recommendation of the Board of Public Works that the vinduct be closed, to be rebuilt or repaired, was placed before it through a communication by the mayor. The board had reported to the mayor that after an examination it found the defects pointed out some time ago by the city engineer to exist, and fully concurred in his opinion as to the dangerous condition of the bridge.

The city engineer on request described again the defects in the structure, which consist mainly in the rottenness at the core of the trusses at the south end, and Chairman new in Washington, as a similar story came Winspear of the Board of Public Works and Street Commissioner Kaspar made statements to the same effect. While on the floor the city engineer took occasion to reply to criticism from certain quarters, the bur-den of which was that these defects should have been discovered when the viaduct was examined previous to the latest and recent repairing. He stard that this examination repairing. He staffd that this examination was made in 1893, when there was no reason for believing that the trusses might be unsound, since they did not appear on the outside to be so. He also reminded the council that at that time he advised that a new viaduct be built, and had no part in the compromise between the city and the railroad companies. according to which the patching up was done, though after the cry council had agreed that repairs only be made he endersed the plans of these, in confunction with Engineer Pegram of the Union Pacific and Engineer

Weeks of the Burkington.
It was plainly stated to the council as a verbal supplement to the written reports and recommendations that while the viaduct night be used in its present condition for nonths without accident, a truss might give way at any moment, letting a street car load of passengers through the bridge to fall on the tracks thirty or forty feet below.

A great deal of rambling and irregular dis-cussion was had. Mercer, Jacobson and Kment believed that under the circumstances there was but one thing to do, and that was to order the via-Howell, Edwards, Saunders and Back

seemed to think that the mayor and Board of Public Works were trying to shirk the responsibility of closing the viaduct, since it was in their power to do it, and were unwilling that the council should say the word. Rumors of Thurston's Monarchical Lean lugs Originated in the Island of Maul.

WASHINGTON, May 17 .- The story coming from San Francisco as to ex-Minlater Lorin M. Thurston being in favor of restoration of the Hawaiian monarchy, although given as emanating from "private information," is not in the mail advices ten days ago and was regarded as a canard. The Honolulu Advertiser of about a month ago had a letter from the island of Maul, one of the Hawalian group that a report had gotten abroad among the natives that Thurston was for the restoration of the ex-queen. The Advertiser dismissed the report in two lines. When it came to the attention of the officials here they regarded it as a joke and one of them said that the in-telligence and information prevailing among the natives of Maul was such that they would accept as true a report that Thurston had married Queen Victoria. The story now re-appears as "private advices," although efficials recognize the earmarks of the old story from Maul.
