KIRK'S SAVAGE ATTACK

On the Hard Water of the Western Prairie.

Is a Household Word in Every Town and City in the

Land.

The wonderful fact that this great preparation will hold colors from running in printed goods is of itself a great and wonderful recommendation. Nothing has been invented or intro-duced to the public that ever before boasted of this great virtue. many fine pieces of fine fabrics have been ruined by the use of deleterious washing powders, ammonia, etc.? They are without number.

Rain Water Maker will not hurt the most delicate fabrics, or is it in the least degree harmful for bathing pur-

This preparation breaks the water instantly and will hold colors from running in printed goods. It will also prevent bluing from curdling in water, while flannels or wollens washed in water prepared with Rain Water Maker will positively not shrink, being left soft and white.

Read What is Said About Rain Water Maker.

Read What a Photographer Said to the Assistant Editor of the Kansas City Star.

While conversing as to the merits of the wonderful preparation, Rain Water Maker, with Geo. W. Curtiss, a well known photographer in the western country, W. G. Richardson, assistant of the Kansas City Star says, Mr. Curtiss, the most progressive man in his line here, told me as a matter of experiment he tried the Rain Water Maker in the water in which he washed his plates and prints, and found a wonderful improvement in them. There is something in the Missouri river water that prevents photographic prints and plates from washing properly, and no doubt your Rain Water Maker fills the bill. Yours truly, W. G. RICHARDSON,

Assistant Editor K. C. Star. Rain Water Maker is on sale at all grocers, a large 2-pound package for

YALE'S Hair Tonic

in harmony with nature, forcing the natura channels into active operation and vigor The hair is supplied with its natural oils and coloring matter, which must be kept in active circulation in order to preserve its healthful vigor and youthful color.

When the hair turns gray it shows that the coloring matter has been shut off. Yale's Hair Tonic is the only discovery known to the world to bring the coloring matter back into circulation and restore the color to gray hair. It is absolutely reliable and will do the wor kin 99 cases out of every 100. Like everything else, there are a few impossible cases. It stops hair falling in from twentyfour hous to one week, creates a luxuriant, thick growth, and is a positive cure for a wonderful dressing for the hair and will overcome any tendency to harshness or dryness, contains no grease, is not sticky or offensive to smell. All druggists sell it.

\$1.00 per bottle; 6 for \$5.00.

BECK WILL GET NO TROOPS

Evictions Must Be Carried on by Reservation Forces if at All.

WAR DEPARTMENT DECLINES TO COME IN

Letter Sent to the Interior Department Says that the Indian Police Force Should Be Increased Until Sufficient to Clear the Land.

WASHINGTON, May 21 .- (Special Telegram.)-Captain Beck will have to fight his battles on the Omaha and Winnebago reservation without the assistance of the War department. As was indicated in dispatches to The Bee several days ago, Assistant Secretary of War Doe today directed that communication be sent to the Interior department stating that in the opinion of the War department there is no necessity for a detail of troops to assist Captain Beck in his efforts to evict the illegal tenants. This letter, which was sent this afternoon advises the Interior department that if Captain Beck is allowed an additional force of Indian police there will be no cause for calling on the War department for assist-

Mrs. Beck, the wife of Captain Beck, b in Washington, and will remain until next Monday. She was at the Indian office the greater part of today, conferring with the officials there. She had a long interview with Acting Commissioner of Indian Affairs Smith, during which all the matters affecting the Omaha and Winnebago agency and the Indians located on the reservation were talked over. Mrs. Beck had a confer-ence with Dr. Hailman, the superintendent of Indian schools, this afternoon, and dis-cussed with him the different subjects connected with the education of the Omahas and Winnebagos. On Monday next Mrs. Beck will have an audience with the secre tary of war, when she will explain in detai to that official the pending trouble on the reservation. Mrs. Beck today said:

"It was rumored at one time at Pender and at other places in the vicinity of the reservation that I was dictator of all the movements which took place under the orders of the captain. Such statements are entirely false. I never influenced Captain Beck in his action, and simple captain. tain Beck in his action, and simply acted as any other wife would have done in making suggestions and trying to assist him when he was in danger of getting into trouble. As a matter of fact, we both aided very materially in saving Sheriff Multin's life when he came to the agency and attempted to arrest my husband. Had it not been for the captain's orders to the conbeen for the captain's orders to the con-trary the Indians would have all been on hand, armed, and it is probable that the sheriff would have been killed outright when he demanded the arrest of the agent."

Although Mrs. Beck, during her visit here, intends to look after Indian matters, she made her visit to Washington ostensibly to prese the appointment of her son Paul

urge the appointment of her son, Paul Ward Beck, as a cadet at West Point. Young Beck will be graduated on June 7 from the High school at Sloux City, and it is his ambition to enter the army. His claim for appointment will be the fact that he is the son of an army officer. There are three of these appointments which are made by the president each year. One of the other objects of her visit here will be to join the society of the Daughters of the Revolution. Mrs. Beck comes from stock famous in colonial history, and after looking up more fully her ancestry she intends to make application for membership in the revolutionary society.

SYMPATHY GRACEFULLY EXPRESSED

Diplomatic Corps at Washington Unite in a Letter to Mrs. Gresham. WASHINGTON, May 31 .- Sir Julian in reparate manuals for each branch of the Pauncefote, the British ambassador and dean staff. f the diplomatic corps at Washington, today forwarded to Mrs. Gresham the following letter, expressive of the feelings of the foreign representatives at Washington

eign representatives at Washington:

BRITISH EMBASSY, WASHINGTON,
May 31, 1895.—Madame: I am desired by
the diplomatic corps at Washington to convey to you the expression of their deep
sympathy in the great affliction which has
fallen upon you and your family, by the
loss of your distinguished husband, the
late secretary of state.

The relations which he held in that important and responsible position with the
foreign representatives at this capital were
such as to inspire them with a profound
sense not only of his great abilities, but of
the lofty and unswerving spirit of honor,
justice and conciliation with which he was
animated in the treatment of diplomatic
questions.

They will ever retain a pleasant and grateful remembrance of his courtesy and kindness. kindness.

I beg, madam, to assure you that no member participates more than I do in the sentiments which I am charged to convey to you on this mournful occasion as dean of the diplomatic corps.

I have the honor to be, madam, your obedient servant, JULIAN PAUNCEFOTE.

The letter was approved by all the ambasters and ministers at Washington.

sadors and ministers at Washington. AS TO GRESHAM'S SUCCESSOR.

President Cleveland Need Be in No Hurry in His Selection.

WASHINGTON, May 31.-It has been discovered that the president is not under the necessity of making an appointment to fill the vacancy caused in the office of secreevery ailment of the hair and scalp. It is tary of state by the death of Secretary Gresham within thirty days, as was at first sup posed. While the statute does not provide that no such vacancy can be filled by tem-porary appointments for a period longer than thirty days, a preceding statute, section 177, provides that in case of the death, resignation, absence or sickness of the head of any department, the first assistant thereof shall, unless otherwise directed by the president, as provided by section 179, perform the duties of such head until a successor is appointed or such sickness or absence shall case. Now in this case it is held that Mr. Uhl, the first assistant secretary, becomes acting secretary without any act of the pres ident, and so the latter makes no temporary appointment, and so is not obliged to fil the vacancy in thirty days, as he would be if he did made such an appointment.

> It is false economy to save a few pennies at the cost of health, yet that is what the people do who use alum baking powder. Dr. Price's is perfectly pure. COLOMBIA HAS A CLAIM FOR DAMAGES

Wants the United States to Pay for Tariff

WASHINGTON, May 31.-General Rengifo, the representative here of the Republic of Colombia, expects to be authorized by his government to present a claim against the United States for damages sustained by evening many others were treated, and Colombia by reason of President Harrison's each time the results were the same. proclamation on tariff retaliation. Secretary Blaine effected reciprocity treaties with most of the south and Central American republics, but Celombia and a few other countries refused to make such treaties. They were warned that if they held out against reciprocity they would be retaliated.

This falled to effect an arrangement. Thereupon, at the suggestion of Secretary of State John W. Foster, who had succeeded Mr. Biaire, President Harrison proclaimed discriminating turiff rates against the coffee, sugar and molasses of Colombia This practically ruined the trade of Coombia, as her coffee and hides could not be sent to this country against the competition of Brazil, Mexico and other countries who enjoyed freedom from duties under the reciprocity treatles. The exports to the United States reached about 5,000,000 (a peso being worth about 45 cents), but ediately after the proclamation they

fell to almost nothing.

Colombia protested against the retalia-tion, claiming that the most favored nation self-abuse, excesses, tion, claiming that the most favored nation companies, and and been arranged in parts and was very elaborate.

The program had been arranged in parts and was very elaborate.

Screetary Foater and the Colombian minister, Senor Hurtado, carried on a sharp and very personal correspondence splendid to entertain your friends with.

with the statement that he would not re-turn until a settlement was effected. No settlement was ever made and the submission of Colombia's claim for loss and damage sustained will be the result

COLONEL E. C. MASON IS RETIRED Age Limit Removes Him from Command of the Third Infantry.

WASHINGTON, May 31 .- (Special Telegram.)-Colonel Edwin C. Mason, Third infantry, was retired today on account of the age limit. Colonel Mason is the possessor of an enviable war record. He was brevetted brigadier general for gallant and meritorious service in numerous battles during the war. Colonel Mason's retirement will result in the following promotions: Lieutenant Colonel John H. Page, Twenty-second in-fantry, to be colonel; Major Lloyd Wheaton, Twentieth infantry, to be lieu-tenant colonel; Captain William S. Mc-Caeleas, Twentieth infantry to be major. Caskey, Twentieth infantry, to be major; First Lieutenant Charles H. Muir, Second infantry, to be captain, and Second Lieuten-ant Edwin R. Chrisman, Second infantry, to be first lieutenant.

First Lieutenant George Montgomery, Ordnance department, is relieved at the United States military academy, and will enter upon duty at Sandy Hook proving

First Lieutenant Rowland G. Hill, Twentieth infantry, is detailed recorder of the department and army here. examining board at Fort Leavenworth, vice Captain James S. Rogers, Twentieth infantry, relieved. Captain Frank Baker, Ordnance depart-

ent, will proceed from Watertown arsenal,

Mass., to state camp grounds, Quonsto Point, R. I., on business pertaining to inof a battery at that place for Rhode Island. Major Timothy E. Wilcox, surgeon, is granted leave for one month and fifteen days; Captain James S. Rogers, Twentieth infantry, two months; Captain James Regan, Ninth infantry, ten days extended; Captain J. Rosier Claggett, Twenty-third

twenty days; Second Licutenant Edward D. Anderson, Fourth cavalry, four months. CHANGES IN ARMY REGULATIONS

nfantry, two months and ten days; Captain

Edgar S. Dudley, assistant quartermaster,

Many Important Alterations in Existing Rules Will Be Made. WASHINGTON, May 31 .- Under the superrision of Assistant Secretary Doe the formidable task of revising the regulations of the merous, and while they have been generally directed to a simplification of style and the removal of ambiguitles, in some instances portant amen ments have been made. One interest to the public is the reduction of ne regimental flag. This is now six feet six nches long, by six feet wide on the staff. Consequently it is almost square and very wide of the accepted proportions of a grace-ful standard. In addition, it is very heavy and only stalwart men can carry one in a good breeze for any considerable distance. At the suggestion of the assistant secretary this hap been changed so that the new flag will be five feet six inches long, by four feet four inches on the staff, a much better procortion of width to length. The change has ot met with a single objection

Another change that will be greatly relished by officers was made in the regulation that requires all officers, active and retired, to report by mail every month to the adjutant general, the post commander and the reg-imental commander their address and nature of their duty. The files of the department are fairly burdened with these letters, many of which show no change in address and uty for many years. To get rid of these the future, it is now required that officers shall report to the department only in case of change of address or a material change in the nature of their duties.

Another reform that will largely reduce the

Price's Baking Powder the most economical of leavening agents.

WAS A NIGHT OF HEALING

Human Magnets at Boyd's Send Many Off the Stage Cured of Infirmity. Last night Boyd's theater was packed

from pit to dome, not with the most fashionable audience in the world, though they were good people, all of them. The peculiar feature about the audience was the fact that all of the front seats were occupied by the cripples, the halt, the lame, the deaf and the blind, most of whom were on hand early that they might be close to the The attractions were the two magmusic. netic healers, Forest and Herrman, whose fame had preceded them. Dr. Fletcher was the master of ceremonies, and, after delivering a lecture on animal magnetism, he introduced the two young men and called for subjects.

William R. Butt was among the first to

go upon the stage, and as he passed the footlights Dr. Hall asked: "What's your name." Butt looked stupid and falled to reply, though he shook his head and held is hand to his ear.

"What's your name, young man," once ore asked the doctor. Butt failed to reply. The doctor screamed: "Can't you hear?" Butt shook his head, as in a stage whisper the doctor muttered: "He's deaf as an adder."

Mr. Butt was seated upon a chair and one

the human magnets commenced to stroke his head, sending electric sparks in every direction. Suddenly Butt jumped up and exclaimed: "I can hear, and it is the first

time in ten years." Assisted by his cane and two strong men H. P. Hayes was escorted to the stage where he told the audience that for many years he had suffered with rheumatism and partial paralysis. The magnets went at him and in a remarkably short space of he cast aside his cane and walked from the stage, seeming to be as spry as a school boy.
Mrs. M. A. McDonald, a woman 60 years

of age, said that she had suffered with rheumatism for twenty years and had walked upon crutches for nearly five years. She was assisted to the stage. After being treated by the magnets for a few moments, she left her crutches, and with a smile of satisfaction, she glided down the aisle, ap-

parently as nimble as a dancing master. John F. Sweeney averred that he had a complication of diseases, including epilepsy. rheumatism, paralysis, nervous debility and about all of the other troubles to which flesh and blood might be heir. The magnets laid on their hands, stroking his head, arms and legs, and in five minutes Sweney said that he felt like a new man. As evidence of what he said, he struck up a jig and glided down into the audience, while he was applauded to the echo. During the The doctor explained that he was not able to cure all diseases. As he went upon the

plan of no cure, no pay, there was no harm to try the experiment. During the next thirty days the doctor and these two wonterful boys will have parlors at the Paxton hotel, where they will treat all patients This afternoon the doctor will deliver a

private lecture to women, and this evening he will talk to men only. Admission will

York's May Day Festival.

YORK. Neb., May 31.-(Special.)-The third annual May day festival was given at this place last night. Crowds gathered in the Methodist Episcopal church until standing room was unattainable. The stage had been erected, which sloped from the floor to the ceiling, and on this sat 400 persons, all of whom took part in the en-tertainment. Prof. J. A. Parks acted as director, and Miss Martha Dayton, a child of probably 12 years of age, acted as ac-companist, and did her part to perfection. The program had been arranged in two parts and was very elaborate.

COLLEGE CABET INSPECTION

Gratifying Progress Reported in Military Education in Colleges.

MAKING THEIR STUDIES MORE PRACTICAL

Indian Department Busily Engaged Preparing for Indian tehnol Institutes -One Meets at Sloux City July 1 to 6.

WASHINGTON, May 31,-(Special.)-Just at the present time the very important work of the annual inspection of colleges is being carried on by the army officers detailed for the duty. A number of reports have been received from the officers engaged in these inspections, but in the majority of cases the officers have only commenced the work and have not yet submitted their reports. This question of military instruction at the various colleges scattered over the country is one of a great deal of importance and it is so regarded by the officials of the War One of the most capable of the army of

ficers engaged in college inspection is Colonel R. P. Hughes, one of the inspectors general. Whatever he recommends concern ing the work of inspection is regarded with a great deal of weight by the officials here. In making his inspections Colonel Hughes has conceived a plan of his own which he has carried out with a great deal of success, and in nearly every case his views have received the approval of the department. In a recent letter to the inspector general of the army he says: "When I began the work of this inspection over six began the work of this inspection over six years ago I found that many of the military professors occupied the very unenviable situation of being endured rather than as being a valuable factor in the faculty. In order to secure a better footing for them it was thought best to adopt a progressive system and to insist upon definite improve-ment from year to year in such a way as to secure growth rather than radical changes that might react and check

RESULTS OF SIX YEARS' WORKS. "For six years this has been the idea un-United States army has just been brought to a close, and as soon as the final proofs have passed the scrutiny of the bureau chief the students at practical instruction. The second volume will be printed and distributed to the army. The changes have been very numerous, and while they have been generally tion of instruction to include target practice. The third year I began urging at inspection when it was practicable, the solution of tac-tical problems on the field, the attack and defense of designated positions, etc., and in connection with this insisted upon a course of lectures by the professor to the senior class. The fourth year I began inspecting the result of the lecture course by drawing a rough map on the board and submitting a problem therewith for solution, the solution to be in writing and to be submitted to the be in writing and to be submitted to the professor. The fifth year I carried with ma a series of topographical maps which admitted of presenting various problems. A map and problem were submitted to each member of the senior class for his solution. His work was submitted to the military professor who endorsed his criticisms thereon and forwarded them to me.

and forwarded them to me.

"When possible I take a topographical map of the vicinity which is known to the students and adopt the problems to the surroundings. I have also called for the reading of topographical maps by asking that the students lay out a military road for heavy draft from the contour lines of the map."

DEALLS OF INSPECTORS.

DEAILS OF INSPECTORS.

There are now about 104 of these colleges at which army officers are detailed as in-structors of military science and tactics. Thirty-seven of these colleges are being in-Another reform that will largely reduce the size and complexity of the volume is the exclusion of all matter pertaining solely to one of the staff departments of the army. Hereafter all this class of matter will be included after all this class of matter will be included will have charge of the inspection of the colleges in Nebraska, Colonel Peter D. Minnesota and Captain John Kinzie, Second versity of South Dakota at Vermillion Army officers generally are very much elated over the recent decision of the supreme court nullifying the income tax law. The officers whose incomes are such that it the law had stood they would have been compelled to pay a tax are pleased of course that the law will not be put into effect and that they will not have to pay a tax on their There is another class of officehe incomes.

in the army who are especially gratified that the law has been declared unconstitutional, and this class is composed of army paymasters. The post paymaster and his assistants here have been busy ever since the law went into effect, and before the last de cision of the supreme court was announced in making preparations for the collection of the tax on the incomes of the various army officers. The law provided that the incom-tax to be paid by army officers should be deducted from their salaries by the pay masters in charge. As a consequence a great deal of work fell upon a number of the paymasters who had to make calculations as the amounts to be deducted from the sal-aries of the various officers subject to the law. The work had not been completed when the decision of the court was announced, and now that the law has been declared to be unconstitutional the officers and employes who have been busy on this work will be relieved from further labor in that

Paymaster General Stanton was enter tained at dinner recently by the secretary of war at the latter's residence and spint a pleasant evening with his official superior. The family of General Stanton have not yet reached Washington, but are expected to be here within the next ten days. General Stanton is now stopping at the Ebbit house, but expects to find a house suitable for the purposes of his family and go to housekeeping as soon as they arrive in the

INDIAN SCHOOL INSTITUTE. The employes of the education division the Indian office are just winding up some very important, as well as interesting, work. It is the preparation for the Indian school institutes which are held every year in a number of cities, throughout the west. Three of these institutes are to be held this year where there were five last year. The programs have been almost completed and the only work remaining is to complete the necessary details connected with the gathergs. The following letter was recently sent all Indian agents and superintendents of

ings. The following letter was recently sent to all Indian agents and superintendents of Indian schools throughout the country:

Sirs: It has been decided to hold three summer institutes for Indian school employes during the months of July and August of this year, at Sioux City, Ia., Tacoma, Wash., and El Beno, Oki., provided satisfactory arrangements can be made at these places for the transportation and entertainment of visitora. The dates for holding these institutes will be as follows: Sioux City, July 1 to 6, inclusive: Tacoma, July 21 to 27; El Reno, August 5 to 10. You are hereby kindly requested to send me, at your earliest convenience, the names and addresses of persons of experience in Indian work who can, in jour judgment, present acceptable and profitable papers, together with the topics on which these persons could be invited to speak. It is not essential that these persons should be in the school service, but it is desirable that they should possess the nacessary skill for a fruitful presentation of their subjects.

The department desires to have at each institute a few thoroughly practical subjects well discussed; and also to avoid a multiplicity of papers on trite topies. In range these subjects should embrace not only the school work groper, but the industrial work, the matron's department, the outling system, and every other means by which the Indian schools can be helped in their efforts to assimilate the Indian with American civilization, and to wean him from government support and lift him into complete self-reliance. You will do the cause of Indian education lasting service by interesting yourself personally in the success of these institutes by efforts to secure the attendance of Indian school employes, educated Indians, and persons generally interested in Indian education, and other periodicals published in your vicinity, as well as the names of papers and other periodicals published in your vicinity, as well as the names of papers of the Indian Schools.

EXPECT THEM TO BE PROFITABLE.

I Indian schools throughout the country:

EXPECT THEM TO BE PROFITABLE. EXPECT THEM TO BE PROFITABLE.

It is expected by the officials of the Indian office that these three meetings will have the hearty response from all those interested in the Indian service, and from the encouraging progress which has already been made they are confident that they will each leads to the stage of the stage was decorated in a tasteful manner and the Proceed as directed for rappearry pia.

SPECIAL NOTICE-The management of these Great Magnetic Healers, known throughout the world as "The Human M gnets" has engaged a special suite of parlors, Nos. 2, 3, 4 and 5 at the Paxton Hotel, where all those who are able and willing to pay for private treatment may call for the entire month of June, commencing Saturday, June 1st, and receive consultation, advice and examination of their various condition free of all expense, and if curable may receive the services if they so desire.

Office Paxton Hotel. Office hours from 10 a. m. to 4 p. m. daily except Sunday. ENTRANCE ON 14TH STREET-TAKE ELEVATOR TO PARLOR FOOR-USHERS IN ATTENDANCE.

be a decided success and that much good opera house was filled. This is the last will result. To the first meeting, that which is to be held at Sioux City in July, it is clanned that the teachers shall assemble from all the reservations and schools in the states of Iowa, North and South Da-kota, Minnesota, Wisconsin, and Nebraska and others within a convenient distance.

Dr. Hallman, the superintendent of Indian schools, as well as all the other offi-cials of the Indian office, express them-selves as being confident that large numbers will avail themselves of being present. Unusual inducements will be offered those who desire to make the trips. The department has been able to secure reduced rates on the railroads as well as reduced prices for board and lodgings in the various cities. The department has also consented to grant them leave of absence with pay during the time they are absent on their trips, and this will be in addition to the regular thirty days annual leave.

The meeting at Sioux City will be held

in the Young Men's Christian association building there. NEBRASKA GRADUATING EXERCISES

Blair Class of '95 Closes Its School Days with Honors.

BLAIR, Neb., May 31 .- (Special Telegram.) -The twentieth annual commencement exercises of the Blair High school was held here tonight in the Germania hall. class the exercises were divided into three

WAHOO, Neb., May 31.—(Special Telegram.)—The graduating exercises of the High school were held at the opera house this evening. The class consisted of eight girls and six boys: Anna M. Peterson Florence A. Adams, Alice Merriam, James A. Hoggsett, Fred M. Mielenz, Minnie M. Martin, May I. Phelps, Harry R. Belville. May I. Phelps, Harry R. Belville Myrtie M. Dewey, Fred Lemar, Joseph D. Barry, Alice N. Gibbs, Nevada Dech.

Jail Bires' Plans Discovered. BEATRICE, May 31 - (Special Telegram. -Gage county's old rattle trap of a fail came near having another delivery this morning. There are ten prisoners in the jail, including three insane patients, for whom there is not room in the state hos-pital. An opening had been made in the

pied by one of the insane inmates, and a break for liberty would no doubt have been made this evening before time for going into the cells for the night, but the break was discovered in time to frustrate the plan.

Alleged Murderer on Trial.

SIDNEY, Neb., May 31.-(Special Telegram.)-The preliminary examination of Fernando W. Bozarth as principal and Thomas W. Wolfe as accessory for the murfer of Robert F. Fawcus at Camp Clarke last Sunday was held this morning before Judge Ricker. Both pleaded not guilty and waved examination, and were bound over to the September term of district court without

Work of Fire at Minden.

MINDEN, Neb., May 31.-(Special.)-The dry goods and grocery store of Aabel Bros. burned this morning. Lightning struck the building, and scattered fire all through it. The heat was so intense when discovered that it had ruined the entire stock. is about \$5,000 insurance on the stock, not

nearly enough to cover the loss

Favorable to Irrigation GOTHENBURG, Neb., May 31.-(Special.) -Henry Herman of Milwaukee, president of the Gothenburg Power and Irrigation company, was in the city the first of the week and sold all the water the canal could furnish. The indications are that the farmers expect to irrigate and raise corn and vegetables it west wall of the building in the cell occu- nothing else.

I find the ROYAL BAKING POWDER

superior to all the others in every respect. It is purest and strongest.

WALTER S. HAINES, M. D. Consulting Chemist, Chicago Board of Health.
