## COMMERCIAL AND FINANCIAL

More Crop Damage Reports the Feature of the Day.

WHEAT STARTED FIRM BUT QUIET

Corn Was Fairly Active and Strong, Largely in Sympathy with Wheat -- In Cats a Big Business Was Transacted.

CHICAGO, June 8.-More crop damage reports, renewed country buying and better cables were the features today, July wheat closing Mc higher. The other markets fol-

lowed, corn gaining 195c, cats the and pro-visions closing slightly higher. Whent started firm, but rather quiet, at from 77% to 77% for July, a much nar-rower opening range than has been usual of late. The firmness with which it com-menced soon began to gather force. The weather map was dry as to the winter wheat area and showed more rain in the spring wheat country, where, according to accounts from the south, they already had more than enough. The prediction tonight and for tomorrow was for a continuation of the above conditions. That was one of the helps the bulls received at the opening. Another was the firmness of the foreign markets, and still another came from the fact made known early in the seesion that buying erders more numerous than for several days were in the hunds of commission men from country millers. New York wired when the silvance, which soon commenced, was fairly under way. "Foreigners buying wheat here," and the New York men themselves were among the nerviest buyers here. Armour, Seaverns, Counselman and others among the elevator proprieters were among the prominent buyers. The market got its biggest boost from reports for an indicated shortage in the Russian type crop of 200,000,000 big. The statistical items relating to the day's movement of wheat and flour were also an incentive to buying, but a reawalkening of the speculative interest which had been dormant for a week was perhaps responsible for a good deal of the greater strength and activity displayed, Out of fifty-five cars reported as received forty-four were transferred for private houses. The shipments hence by lake and rail were 23,000 bu, 178,000 bu, of which went to places in the interior west of Buffalo, and the 25,000 bu shipped to the latter port were enroute to mills in Pennsylvania. None of the daily heavy sales of cash wheat here are going in the usual direction. Export were enrouse were 33,000 bu, haif of which is in the form of flour. Minneapolis and Duluth receipts were 188 cars, against 248 a year ago, Canadians were buyers of flour. The price of July rose steadily to 79½c, broke back to 79½c and closed at 79½c. Carn was fairly active and strong, largely in sympathy with wheat, but to a considerable extent, also, because of the indications of reserves in farmers' hands giving signs of running low. The receipts today were 31 cars, and 185 are estimated for tomorrow. July, which closed at 51½c, on the day before, opened at from 61½c, to sit were clevator people. More crop damage fro and for tomorrow was for a continuation of the above conditions. That was one of th helps the built received at the opening. An-

wheat, corn and oats market showing such remarkable strength, provisions responded to the extent of recovering an early slight break in lard and ribs and recovering a loss in pork made at the start, gaining locat the close. t the close. Estimates for Friday: Wheat, 40 cars, orn, 195 cars; oats, 187 cars; hogs, 25,000 corn. 195 cars; oats, 187 cars; hogs, 29, head. PIGEONS-Per deg., \$1.0091.50. VEGETABLES.

PIGEONS—Per dez., \$1.0091.50.

VEGETABLES.

Tomatoes are becoming somewhat more plenty, and it is expected that the receipts will be larger still next week.

The country south appears to be full of peas, string beans and other vegetables and shippers are working hard to unload upon every market that will take them.

The agricultural burcau of Michigan reports that postate raising in that state is largely on the increase and adds that the importance of good soil well supplied with readily available plant food and thorough cultivation is recognized by all successful growers. One thing needful to uniture a good crop which can not be supplied by the farmer is rainfall. Much can be done by thorough preparation of the soil and by indictous and timely cultivation to conserve all molature that comes, and the time of planting can be better selected to use, to best advantage, the rainfall than is the usual practice with many growers. In the southern part of the state it is the general practice to plant portness soon after getting in the corn, or about the 20th of May. Potatoes planted at this time will form tubers in August at the time of the least rainfall and the greatest heat and under the most unfavorable conditions. Would not the conditions be more favorable if the potatoes were planted earlier or later? If planted early in April, as is possible in many soils, the tubers would mature before the time of greatest heat and least rainfall. An early or medium early variety should be used in this case. If planted two or three weeks later than the 20th of May, the warm soil, together with the copious June rains, would give the crop a good start, and the tuber forming period would come late in August and the temperature cooler. For northern Melligan the dromp deal in this than in the southern part of the state, which may, in part, explain why the northern section is so successful in potato growing. Quotations, CAILIFLOWER—Southern stock, per crate, \$2.00.

CAULIFLOWER—Southern stock, per crate, \$2.00.

NEW YORK, June 6.—A dispatch was received in this city from Chicago today saying that the directors of the Chicago & Northwestern Hailroad company met today and declared a dividend of 1½ per cent.

## STOCKS AND BUNDS.

ing Throughout the Day.

NEW YORK, June 6.—The share speculation today was dull and uninteresting. At the open-ing the market was quiet and generally firm, but in the early dealings a drive against Reading and New Jersey Central forced these stocks down % and % per cent respectively. The grangers were in the main firm throughout, but tic movement of prices was at times erratic. clining % per cent, railying P4 per cent, re-acting % per cent. The trading in the indus-trial properties was irregular. Tobacco, Lead, General Electric, Sugar, Chicago Gas and Leather reached a fraction above last night's figures, while the Cordage shares sagged to the

figures, while the Cordage shares sagged to the lowest prices yet reported for both common and preferred, the former 2½ per cent and the latter 4½ per cent, Rubber was conspleuous for marked strength in the early session, opening ½ per cent higher, reacting ½ per cent and selling up 1½ per cent. A full was made on the stock, and it dropped 2 per cent. The preferred moved up 1 per cent, but later gave way ¾ per cent. Among the less active shares material changes were made, Chicago & Eastern II-linois advanced ¼ per cent; Consolidated Gas, 2½ per cent; Oregen Navigation, 2½ per cent; lany State Gas, 1½ per cent, and Alton & Terre Haule, 1 per cent. Starch first preferred declined 5 per cent and Fanhandle preferred 1 per cent. Suguenama & Western was under pressure during the greater part of the day, and the shares receded 2½ and 5 per cent respectively, The other net changes are merely fractional, and in many cases are in the direction of lower figures. The market closed fairly stendy. The chorn for the farmer the direction of lower figures. The market closed fairly stendy. The lond trading was restricted in volume, but with a pronounced downward tendency. The market allowed The Evening Post's London cable says: There downward tendency. The negregate sales were \$1.18,000. The Evening Post's London cable says: There was a decrease of 1580,000 in the com and bullion in the Evening Post's London cable says: There was a decrease of 1580,000 in the com and bullion in the Bank of Engiand this week, although 114,000 in gold not was imported for the week, the cash having gone into home circulation for the Whitsuntide requirements. The details of the Whitsuntide requirements. The details of the gold movement for the week were flat,000 imported from Australia, 1178,000 in bars bought and 66,000 from Paris, while 1100,000 went out to the Cape, £12,000 to South America, and 15,000 to Gibraitar. The speculative markets were dult to flat teday, partly due to the Armenian matters and partly to undigested blocks of mining shares offered by speculators. Americans were flat, but closed above the lowest. The rise in exchange favors the arguments of journalists and private pessimists. The liquidation of a large account of a recent bull operator in Yankoes assisted the dulness and partly accounted for the sharp break in Eries and Readings. The rumor cabled yesterday about a Chinese loan received practical confirmation from the best quarters. Russia lends China about fe,00,000 sterling for twenty years, charging China for the money a small interest, the loan to be issued in 1 aris, bringing 4 per cent interest, and guaranteed by Russia. It is said Russia receives guarantees, but one cannet confirm this. It is expected the loan will be Russin receives guarantees, but one cannot confirm this. It is expected the loan will be

of Indifferent Quality.

Buyers Indifferent and Sales Slow and Hard-Stockers and Feeders ! carce -Hogs of Fair Quality Selling

Ten Cents Lower.

THURSDAY, June 6. 4.462 hogs and 455 sheep, as against 738 cattle, 6,678 hogs and 450 sheep yesterday and South Omaha tle, 6,678 hogs and 450 sheep yesterday and Chicago L216 cattle, 5,146 hogs and 10 sheep on Kansas City St. Louis

For the week thus far there have been received 2,881 cattle, 15,816 hogs and 1,153 sheep, as against 5,344 cattle, 17,011 hogs and 1,480 sheep for the same period last

CATTLE-There were all told thirty-five loads of cattle in the yards, which was only four loads in excess of yesterday's run. There was nothing very good among the offerings, the bulk of the cattle being only fair at the best. The market was slow and dull at a decline of about 10c from yeserday's prices. The buyers were indifferent and the general market upon the whole unand the general market upon the whole unsatisfactory to the selling interests. The best cattle averaged only 1,191 lbs. and brought \$4.90. The lighter and more common cattle soid largely at \$8.8094.55. The holders of grassy stuff found it hard work to close cut, and some pretty fair cattle were left over unsoid. Reports from other markets indicate that the decline was general and that this market was in no worse shape than others.

Cows and heifers were in light supply as usual, but the demand was fair and the offerings were for the most part taken early.

one-lings were for the most part taken carly.

There was only a load or two of stockers and feeders among the fresh receipts. Dealers report some little inquiry for that class of cattle and anything desirable would doubtless meet with ready sale. Representative sales:

HOGS—There were fifty-nine fresh loads of hogs in the yards, as against eighty cars yesterday and sixty-seven on Thursday of last week. The quality of the hogs on an average, was pretty fair, and there were quite a good many right good loads, both light and heavy. The conditions were decidedly against the selling interests. In addition to liberal receipts, Chicago reported a big drop in prices, and, as a result, the market here experienced a 5g to 10c decline. The market copened with the buyers bidding lower but after yesterday's decline salesmen were slow to make another convession today, and the box. ported a big drop in prices, also, he decline. The market here experienced a 5g to 10c decline. The market opened with the buyers bidding lower, but after yesterday's decline salesmen were slow to make another concession today, and the hogs did not change hands very rapidly. In fact, the market was a drag from start to finish. Some of the most desirable lossly sold not over 5c lower, and they changed hands early. Pretty good heavy hogs sold at \$4.4066.45, while hogs weighing 200 to 230 lbs, went largely at \$4.259.

CHICAGO LIVE STOCK.

Fewer Cattle Are Coming Forward Than During Last Week. CHICAGO, June 6.—Fewer cattle are coming

being about 6.000 head. The receipts today were about 5,000 head, and for good fat beeves there was a better demand at strong:r prices, but other kinds continued to show weakness and duliness. Common to extra native species weighing from 1,000 to 1,500 lbs. were stindly at from \$1.50 to 46, but sales above \$5.50 were very few and the buils of the transactions were at from \$4.50 to \$6.25. Nice distillery fed leakite averaging 1,300 lbs. sold at \$5.30, and yearlines weighing from 0.5 to \$30 lbs. were picked up at from \$4.15 to \$4.70, while undesimble westerns sold as low as \$1.25. There was a larger volume of business in stockers and feeders: the former welling at from \$2.25 to \$3.25 and the lister at from \$2.15 to \$3.55. The receipts today of this grade of cattle were about 3,500 head, making 14,000 received 700 far this week. Supplies of these cattle are funch larger than at this time in recent years, and prices have been steadily declining for some time. Today, however, there was an improved demand and prices averaged be better for anget kinds, cattle left over from yesterday selling considerably higher than was bid then. Texas cows and bulls sold freely at from \$2.55 to \$4.25, the offerings consisting mostly of grass fed lotse.

In hogs the receipts show a good increase this week. The prices are gapily declining, there being a further drop today of from 5c to 10c per 100 lbs. The receipts were large buyers. The best sold at \$4.50, or 20c lower than a year ago. Heavy hogs at from \$4.55 to \$4.55, light at from \$4.60 to \$4.55 and pigs at from \$4.50 to \$4.55 for heavy and at from \$4.50 to \$4.55, light at rem \$4.50 to \$4.55 and pigs at from \$4.50 to \$4.55 for heavy and at from \$4.50 to \$4.55, light at rem \$4.50 to \$4.55 for heavy and at from \$4.50 to \$4.55, light at rem \$4.50 to \$4.55 for heavy and at from \$4.50 to \$4.55, light at rem \$4.50 to \$4.55 for heavy and at from \$4.50 to \$4.55, light at rem \$4.50 to \$4.55 for heavy and at from \$4.50 to \$4.55, light at rem \$4.50 to \$4.55 for heavy and at from \$4.50 to \$4.5 was a better demand at strong r prices, but other

system or practical water storage. This, he Lieutenant General Schofield and party will believes, will be actually necessary in the arrive here by special train tomorrow morn-future. Fred Dorrington of Chadron says ing, where he will be met by General Copthat the company at which he is at the head pinger, and will spend the day at Fert Niowill probably complete fifty miles of irrigation ditches in Dawes county this summer.

The 300 copies of the legislative blue book for 1895, voted for in the closing hours of the session, are out, and are being delivered. They were printed by the State Journal company. An examination of the work of compilation shows them to be full of errors. One of them is the statement that Oliver P. Morton was vice president with Harrison during his last term

BISHOP BONACUM'S SCHOOL. For some time since the abandonment of For some time eince the abandonment of the Western Normal by Prof. Croan, there have been rumors in circulation to the effect that Bishop Bonacum had completed arrangements for opening the college as a Catholic institution, with a faculty of instructors from the east. Bishop Bonacum was seen today by a representative of The Bee, and explained the situation. He said that he had worked with this end in yiew but that he had worked with this end in view, but had met with obstacles; not, however, of a pecuniary nature. His idea was to establish a school for boys similar in design to the one in Denver, Iowa and in several other states. With this project in mind he had corresponded with the executive department at Notre Dame, with a college in Pennsylvania and with the order of Bassillion Brothers in Canada. In each of those places the idea was warmly received, but he was told that, owing to illness and a scarcity of educational talent, it would be impossible to immediately supply a full corps of instructors suitable for a school of the magnitude proposed by Bishop Bonacum. The question of finance did not enter into the subject at all, as there was plenty of money available for the purpose, but there was, just at present, a dearth of

instructors. CAMPBELL ESCAPES EASILY.

FREMONT, June 6 .- (Special.) -- John W. Smith, alias Chris Gunderson, is under arrest at the police station. He has in his possession quite a number of checks payable to the order of Heller, Wise & Appleton of Sioux City, endorsed to J. Harris, and the name of Harris also endorsed upon them. He name of Harris also endorsed upon them. He passed one of them upon C. Christensen and was trying to pass one upon L. P. Larson when Larson's suspicions were aroused and the police notified. It has been ascertained that he had tried to pass the checks upon other parties. Smith's story is that a stranger gave him the checks at Missour. Valley. He also had letters which had been opened, and in which the checks had been enclosed. Among the checks was one payable opened, and in which the checks had been checked and the closed. Among the checks was one payable to Iron Hawk, a Sioux Indian of the Cheyenne agency, endorsed by him to F. L. Horton, and end seed to Heller, Wise & Appleton. The police are of the opinion that Smith of Gunderson had robbed the United States mail and notified the postal author-States mail, and notified the postal authorities at Sloux City by wire. An answer was received that a postoffice inspector would be here this afternoon to investigate.
