SAINTS MADE ONE WONDERFUL RALLY

Took Advantage of the Opportunities Offered and Hammered Out Ten Runs in as Nany Minutes-Lincoln Wins from Des Moines.

The first championship game between Omaha and St. Joseph was played at the Charles Street grounds yesterday. It was a tame and featureless contest, omitting the fifth inning, when the Saints made ten runs and Jones was plastered with a \$10 fine and put out of the game. With the exception of Miles' work the Omahas stacked up in very good shape, but the game was too laggy and Brooklyn long drawn out to be interesting. Some means of hurrying these contests through should be adopted at once. The same two teams play

Great Match of the City Tennis Tournament

Haskell and Austin Are Playing a Game that Means Much to the Other Side if it Wins - Details of the Play.

CULLINGHAM AND PARTNER LEADING

The finals in the city lawn tennis tourna ment were scheduled to be played yesterday. both in the singles and the doubles. The former was played in the afternoon, under the rays of a het sun. In the evening on an excellent court and in an atmosphere that had been cooled by the evening breezes, the doubles were begun, but not finished, darkness compelling postponement. The latter match, as far as it went, was one of the most hotly contested ever seen on any grounds in the city. There were not as many people present as there should have been, but the attendance was nevertheless the largest

of any previous evening.

as stated above darkness compelling post-ponement. All of the sets were hard fought, in fact every point was. The first two were in fact every point was. The first two were won by Cullingham and Harte, 8-6, 8-6, while the other was won by Austin and Haskell, 6-1. It is a peculiarity of Cullingham's play that he starts out strongly and weakens, and if he is the stronghold of a team this naturally affects his partner. This was the case last evening. On the other hand, Austin does not weaken, never appears to get discouraged and plays as well whether winning or losing. Haskell is much the same way It was the opinion last night that if th match had been finished Austin and Haskell would have won. By this afternoon, however Cullingham and Harte will have had an opportunity to get rested and consequently the

Cullingham did as well, but Harte was quite frequently caught un awares. There were many pretty rallies awares. There were many pretty rallies some of those about the net being long coninued and brilliant. Harte lost the point in the majority of these, apparently becoming mervous when hard pressed. The lobbing was also remarkable, the honors in this being carried off by both Austin and Haskell, although Cullingham also did exceedingly well. Frequently the balls alighted either on the

There were a large number of points considered absolutely safe that were reached and returned safely by all the players. Harte made one extremely difficult return to the back line. Austin lost quite a number of points at the net by trying to Scientists and expert housekeepers are ablest judges. They have implicit faith in Dr. Price's Baking Powder as the purest neither of his opponents were able to reach them. His placing was very good and his lobbing was a surprise. The only fault that could be found with him was that sometimes he did not get into position to receive returns.

He got some balls at the net that were thought absolutely safe and returned them with some of the pret-tiest strokes of the match. His placing was also frequently perfect and some of his

lobs provoked considerable applause. As has been said above, Harte's play at the net was weak. A number of balls went be him that he should have got. From the back line he did much better. His all-around play, however, was the weakest of the four.

Many superior matches have been seen during the course of the tournament. C. H. I Harte did when he met Callingham, and it was the universal opinion, indiging from Harte's play in the match, that Young's play, rather than Harte's, entitled him to second a place. This, however, simply demonstrates the inequality of a drawing.

The apparent lack of desire on the part of Harte to win, it could not be called anything else, can be attributed to the fact that both players wished to save themselves for the final match in the doubles, which came off in the evening. It can be said that both players trather preferred to be the winners in the doubles than to come out ahead in the selleges, as they both were sure of a prize, and on that account no fight was made. It was probably better than a default, but the playing of the mothing more than a formality. Consequently there would be no advantage in discussing the play, it being sufficient to say that Cullingham won the match in two sets by the second 30 to 11.

ifty-three minutes, breaking all American records for a great relay race. The great race started at Chicago at 9:38 o'clock last Wednesday morning, after months of careful preparation.

The blue riders represent the military, the red the postal service. From almost the first day of the race the riders were ahead of the schedule, and there was a strong rivalry and hard riding between the different colors to distance one another. different colors to distance one another. For the most part the roads was good. It was 1:50 o'cleck this morning when the red message was delivered to General Miles. The message said:

"This leaves Chicago on June 5, in front

"This leaves Chiengo on June 5, in front of my headquarters at 9 a. m. "WESLEY MERRITT, U. S. A., "Commanding the Dep't, of Missouri," This was brought on the last relay and was delivered by L. D. Munger and Price. General Miles and Postmaster Dayton were at the end of the line to receive the message. The blue rided in the relay race arrived at the finishing point in this city at 2:38 a. m.

Church Socials Last Night.

Last night at Immanuel Baptist church the members gathered to attend the seventh annual social session of the organization. It was a sort of stock taking affair, and, after light refreshments and social intercourse had filled an hour, several announcements were

AN INVESTIGATION

DEMANDED.

A general banking business is done by the human system, because the blood de-posits in its vaults whatever wealth we may gain from day to day. This wealth is laid up against "a rainy day" as a reserve fund —we're in a condition of healthy prosperity

if we have laid away sufficient capital to draw upon in the hour of our greatest need.

There is danger in getting thin, because it's a sign of letting down in health. To gain in blood is nearly always to gain in whole-

some flesh. The odds are in favor of the germs of consumption, grip, or pneumonia, if our liver be inactive and our blood impure, or if our flesh be reduced below a healthy standard. What is required is an

increase in our germ-fighting strength. Dr. Pierce's Golden Medical Discovery euriches

the blood and makes it wholesome, stops the waste of tissue and at the same time builds up the strength. A medicine which

will rid the blood of its poisons, cleause and invigorate the great organs of the body, vitalize the system, thrill the whole being

with new energy and make permanent work of it, is surely a remedy of great value. But when we make a positive statement that 98 per cent, of all cases of consumption can, if taken in the carly stages of the disease, be current with the "Discovery," it seems like a bold assertion. All Dr. Pierce asks is that you make a thorough investigation and satisfy yourself of the truth of his assertion. By sending to the World's Dispensary Medical Association, Buffulo, N. Y., you can get
