FRESH ENTANGLEMENTS ARE HINTED AT

In Spite of This the Government is Disbanding Its Reserves and Reducing the Army Divisions to a Peace Footing -War Bonds at a Discount.

VICTORIA, B. C., June 12 .- (Tokio, Japan, May 31 .- Per Steamer Empress of China.)-No event of striking interest has occurred in the past fortnight and none is expected till after the reunion of the Japanese ministry in Tokio. The people nourish in sullen silence their discontent with the methods by which peace has been secured, and, as a whole, refuse to participate in any display of gratification at the close of the war. In many quarters doubts are expressed as to the durability of the settlement with Russia, Germany and France.

The newspapers are not permitted to speak freely, but a majority of those who escaped apspension hint at the probability that fresh entanglements are presently to be disclosed. Government securities continue depressed and war bonds are selling at lower figures than before peace was declared. The best information that can be gathered from official

M jority from the Italians, LONDON, June 12 .- The Rome correspond ent of the Standard telegraphs that it is announced that the papal nuncios at Paris, Lisbon, Madrid and Vienna will be created cardinals. The news causes much interest in vatican circles because it will disturb the equilibrium of the proponderance of Italian cardinals in the sacred college. The pope, in PRESS ASKS FOR MORE LIBERAL LAW. announcing the fact, said: "We hope thus to create a position more in conformity with panal interests in the world and to furnish the sacred college the means to successfully surmount the difficult and delicate period o

our succession."
The Chronicle's Rome correspondent says with reference to the same subject: "Mgr. Jacobini, the nuncio at Lisbon, is regarded with great interest in connection with the succession. More important, however, is the growing possibility of a non-Italian pope. For cogent reasons this could only be an American, a Swiss or a Belgian. The first, in the person of Cardinal Gibbons, is the least unlikely. The other candidates, with the exception of Cardinal Parocchi and Cardinal Vannutell, are fading away. The proverb will probably again hold good that the cardinal who starts as the favorite in the conclave is generally defeated. The pope is quiet upon the subject of his successor."
