

RATE CUTTING THAT COUNTS

Union Pacific Receivers Take Another Turn at the Western Freight Tariff.

Extension of the Reduction Eastward to Chicago by the Overland Marks a New Departure in Its Administrative Policy.

Not content with having mortally slashed the Omaha-Utah rate on the ten classes quoted in rate sheets, the Union Pacific, late yesterday afternoon, decided to go into a wholesale butchery of westbound rates to make a Union Pacific holiday.

It was evident that something was brewing yesterday, for all the morning Managing Receiver Clark, General Manager Jackson and Freight Traffic Manager Munroe were in close conference. The result of that conference was kept an absolute secret until 6 o'clock last night, when it was officially given out that, effective June 17, the low rates in effect from the Missouri river to Utah common points Saturday would be extended to Chicago.

The Bee last night predicted a wholesale reduction in the freight rate, but rather looked for a final line making the Chicago rate conform to Union Pacific reductions. Instead, however, of allowing a competitor to reap somewhat of the benefit accruing to the initial road making such radical, even revolutionary, reductions, the Union Pacific decided to reap whatever there was of interest in a position.

Will Lead the Dance. This is absolutely true, as was announced in the Bee yesterday, that, tired of playing second fiddle to competing lines, the Union Pacific will hereafter pursue an aggressive policy, and look to lead the dance to its local interests that it has been suspected of doing in the past.

The action taken Wednesday by the Union Pacific equalizing rates from the Missouri river to Utah common points as prevailed from the Missouri river and St. Paul to Montana common points will on and after Monday extend to Chicago.

Bringing Chicago into the cut necessitates a further change from the Missouri river, as the Missouri river and St. Paul to Montana rates applied to a maximum to intermediate points create a basis much more favorable to the Utah jobber by enabling him to better his position in Omaha, and favored by him in car lots from the east. This applies with equal force to goods produced at Missouri river points and marketed in Utah by Missouri river jobbers.

The rates from Chicago to Utah under the new tariff effective June 17 will be as follows:

Table with 2 columns: Rate, and 2 columns of destinations. Includes rates for Chicago to Omaha, Omaha to Utah, etc.

HOW IT HELPS OMAHA.

Taking the old example of glucose syrup, an important commodity produced in Omaha, to show what radical reduction is ordered, it takes a rate of \$1.25 per hundred under existing tariffs, and under the new tariff it will take a rate of 75 cents, a reduction of 50 cents per hundred, or a saving to the jobber of \$208 on a car of 40,000 pounds, and a car of 40,000 pounds of glucose syrup is worth \$124.50. On plate glass, canned fruits, iron articles, the reduction is on a corresponding scale.

Applying the principle to Chicago makes the Missouri river rate to Utah common points as follows:

SOME MISSIONARY WORK NEEDED

No Use of Forming an Association Unless All Lines Come In.

CHICAGO, June 13.—The western lines have finally concluded that it will be impossible for them to form a passenger association unless they succeed in bringing to the fold a number of the lines which are now standing out. This was the conclusion arrived at today, and it was decided to send out a committee of five to do missionary work with the reluctant lines.

The Burlington has given notice to its connections and all lines interested in Utah division business that it will meet the rates from the Missouri river to Utah common points made by the Union Pacific, effective June 15, but it is not satisfied with these rates and if it receives favorable support from the Denver & Rio Grande officials now in session in Denver, it will make a rate at least satisfactory to itself, if not to the Union Pacific.

Change in the Burlington East Bound Mail Service is Coming. Apropos of better mail service and train service for Omaha, under the present arrangement the eastbound fast mail via the Chicago, Burlington and Quincy leaves Omaha at 4:20 p. m., the mail for this train, consisting of 400 passengers, is packed at 3 o'clock, thus accommodating practically such correspondents of Omaha business men as can be gotten out at 3 o'clock p. m.

Cannot Purchase Parallel Lines. Kentucky Supreme Court So Decides in an Important Commercial Case. A suit filed in the court of appeals this morning affirmed the opinion of Judge Fields of Louisville in the case of the Commonwealth against the Louisville & Nashville railroad. The suit was brought under a section of the constitution prohibiting the purchase of parallel lines of railway, and was brought by the Louisville & Nashville against the Chesapeake, Ohio & Southwestern.

Portland, June 13.—Instructions have been received here to take an appeal from so much of Judge Gilbert's order in the Oregon Short Line receivership case as provides for the issuance of receivers' certificates to the Missouri Pacific, and the circuit court of appeals by the Ames estate and the Oregon Short Line and Utah Northern company.

LATE THE LINCOLN HOODOO

Omaha Finally Wins a Championship Game at the State Capital.

Everybody in the Game, but Ulrich and Hutch Led in the Fine Work that Resulted in Buck's Everlasting Discomfiture.

Lincoln, June 13.—(Special Telegram.)—It transpires that the Omaha club was the one destined to relate the Lincoln to second place. Today it did it. But it was not a walkover. Buck's men played a great game, but Omaha played better. Lincoln made few errors and Omaha less, but of the three scored against the state capital boys two of them were costly. In the first half of the first Ulrich, Slagle and Shaffer were retired in sequence and Lincoln's ardent fans went at once to the Cole hit to O'Brien. Hill hit safely, Van Buren got his base on balls and Hill scored. But Buck Ebright flew out to Pace, while Van ran in. Kennedy made a hit and stole second, but Kid Speed fell a victim to Hutch and O'Brien. It was two to nothing. Hutch and O'Brien tied the score in the second and Lincoln did no more home playing till the fifth, when Hill stole two bases and ran in before Van Buren was caught out at second. In the fifth Ulrich hit a tanglefoot grounder, stole third, and then he, Slagle, Shaffer and O'Brien did the run getting on errors by Sullivan, Hollingsworth and Van Buren, while the rest of the Lincoln coterie were putting out Eagan, Hutch and Pace. This completed the home plate play for Omaha, but it was enough. Kennedy brought in one more little run in the first of the sixth, and that ended it. The field and stick play of the Indians was all right, but it was not enough. The best and cleanest work seen on the Lincoln grounds this season. The day was perfect and the attendance good.

DID SOME GREAT SHOOTING

Asspicious Opening of the State Sportsman's Association Tournament.

IDEAL DAY FOR SCATTERGUN WORK Scores Made Demonstrate that the Shooters Were Feeling Fully as Good as the Weather—Many Outside Cracks Present.

The nineteenth annual tournament of the Nebraska State Sportsman's association, now in progress on the grounds of the Omaha Gun club, is certainly the banner affair of this old and honored organization. The attendance from abroad is much larger than any that has ever marked a previous meeting, and the first day's shooting was remarkably good. This, in a measure, was attributable to the very auspicious weather, clear skies, and a breath of breeze to render the flight of birds erratic and uncertain. All were dead easy, and the crack shots competing took advantage of the auspicious conditions to fatten their averages.

J. C. Reed, who is managing the shoot, has exercised the best judgment in all his arrangements, and nothing but ennumiums for his studies and attention are heard from the shooters on all sides. The shooting grounds were never in better condition, the traps in ship shape and working beautifully, the club house cleaned up and supplied with modern conveniences, and everything arranged in order best calculated for the convenience and comfort of the shooters. Major General and Colonel Frank Parmelee fill the referees' position, and their work is giving the fullest satisfaction.

Among the prominent visiting sportsmen are Charlie Budd, the ex-American champion, of Des Moines, Ia.; W. H. Skinner of the new American gunners' club, of Omaha, Neb.; New York City, Ted Sherman, one of Nebraska's finest wing shots; Stanton; J. W. Den, a crack from Arapahoe; George Nicolai, a crack from Lincoln; J. C. Reed, a crack from Lincoln; George Rogers; U. G. Powell, Fred W. Sharp, F. M. Miller, C. L. Lathrop, C. D. Linderman, A. H. Hallett, and A. J. Powell, all of Lincoln; E. W. Bexton, W. S. Duer, W. S. McKinney, Hastings; E. E. Halgrove, Sutton; J. M. Crabb, one of the old vets, of Lincoln; J. C. Harkins, of Lincoln; O. Trotter, Kinglake; J. Fred Gilbert, Spirit Lake; D. W. Palmer, Lake Park, Ia.; George Slocum, Primiglar, Ia.; Tag Wilson, R. Planz, Longview, Ia.; Chairman Jim Den, Arapahoe, and the champion of western Nebraska, W. D. Pruitt and J. W. Evans, also of Arapahoe; G. L. Becker, J. M. Brown, J. G. Hilberry, W. J. Organ, Beaver Crossing; A. A. Glade, W. W. Harlan, Grand Island; H. S. Westfield, M. D. Will, Taylor, Colomes, Hoffman, Major Hardin, A. W. Riekman, Council Bluffs; Judge Barnes, another of the old days, of Norfolk; C. Smith, Kearney; W. J. Den alias "Uncle Den," the best known sportsman west of the Mississippi, and the man who first introduced the scattergun into Nebraska; J. S. Hoffman, Atlantic.

There were sixteen shoots yesterday, fifteen at targets and one live bird shoot, of which the following are the results: Events Nos. 1 to 15 were fifteen targets, entrance \$1.00 and \$2, with \$5 added in each. The scores: 1, Gilbert; 2, Palmer; 3, Harkins; 4, Glade; 5, Nicolai; 6, Bigelow; 7, Hallett; 8, Wilson; 9, Flinders; 10, Kernerly; 11, Becker; 12, Trotter; 13, Hill; 14, Small; 15, Organ; 16, West; 17, Payer;
