

SCHOOL RAIDERS REPELLED

Radicals Routed in the Board of Education by Conservatives.

COMBINATION WENT TO PIECES EARLY

Recommendations for Place Not Acted Upon in the Manner Anticipated by Some Members of the Organization.

The radical A. P. A's were routed horse, foot and dragon at the meeting of the Board of Education last night, and that in the face of a crowded lobby, the members of which had gathered to witness the secret order walk away with some scraps which had promised to bring a change at A. P. A. belts.

Some breaks in the meeting of council 125 passed the word along the line that Miss Fannie Arnold, supervisor of music, must go, and that Prof. Lee G. Kratz should have her place. This word reached the A. P. A. members of the Board of Education last night they arrayed themselves for the fight, deciding that Miss Ethel Evans, supervisor of drawing, should go along with Miss Arnold, in order to take off some of the force.

Mr. Lower, chairman of the committee on special instruction, submitted a report recommending that the teaching of drawing be continued and that Miss Ethel Evans be employed at a salary of \$1,100 per annum.

Mr. Tukey moved that the report be taken up and each portion considered separately. The board voted to continue music in the public schools, and then the election of a supervisor of music was ordered, with Messrs. Anderson and Crambie acting as tellers. The ballot resulted: Miss Arnold, 7; blank, 5; Kelly, 1; Kratz, 1.

Only fourteen votes had been cast and another ballot was ordered, the result of which was: Miss Arnold, 7; Kratz, 3; blank, 3; Miss Rodgers, 1.

Failing to elect, the third ballot was taken; with the result: Miss Arnold, 7; blank, 3; Rodgers, 2; Kratz, 2.

The fourth ballot was taken; Miss Arnold, 7; Kratz, 4; blank, 2; Miss Rodgers, 2. The fifth ballot gave Miss Arnold, 6; Kratz, 4; blank, 2; Kratz, 1; and Miss Rodgers, 1.

The sixth ballot resulted: Miss Arnold, 6; Kratz, 4; blank, 2; Kratz, 1; and Miss Rodgers, 1.

On the seventh ballot the break came and Miss Arnold was elected. The result of the vote was: Miss Arnold, 8; Kratz, 6, and blank, 1.

Mr. Johnson moved that the salary of the supervisor of music be reduced from \$1,400 to \$1,100 per annum. The motion to reduce was defeated by the following vote: Yeas, 10; nays, 10.

The committee on heating and ventilation presented the list of janitors who were recommended for election. The report was unanimously adopted, except so far as it referred to the Forest, Long, Lathrop, Walnut Hill and Windsor schools. In these cases the committee disagreed and two reports were presented. The point of difference consisted in this, that the minority of the committee had failed to recommend Elias Gilmore at the Forest, J. M. Jester at Walnut Hill, J. E. Morse at the Windsor, George Elliott at the Long and Emma James at the Lathrop school.

The minority report, introduced by Mr. L. S. Stover, located Emma James at the Forest, J. M. Jester at the Long, George Elliott at the Lathrop, M. L. Broadbent at the Walnut Hill and J. S. Stover at the Windsor school. Seven members asked for an explanation why the location of certain janitors had been changed, but a call for the previous question shut off debate. A vote was taken, which resulted in the election of the following janitors, all of whom had been recommended by the report of the minority:

LOCATION OF JANITORS. High, Thomas Falconer; Ambler, Mary Barth; Hancock, Thomas W. Shea; Cass, Henry O'Neill; Castell, Frank Sutch; Central, Thomas H. Pittsford; Central Park, J. M. Lammie; Clifton Hill, E. W. Johnson; Columbusian, J. J. Nobes; Columbusian, William Gleason; Davenport, Mary A. Lyons; Dodge, H. O. Taylor; DuPont, Mattie Arnold; Dupont, Henry Fonnar; Eckerman, Frank E. Hart; Farnam, B. F. Manning; Forest, Mrs. Emma James; Fort Omaha, Helena Gimble; Franklin, John N. Case; Gibson, Mrs. B. Terepek; Grand Charles, E. D. Jurenc; Lake, Victor Danielson; Leavenworth, George Kelley; Lincoln, John J. Kalina; Long, A. Tully; Long Annex, D. P. Kroh; Lathrop, George Elliott; Mason, Louis Peterson; Monmouth Park, Mrs. Annie Albert; Omaha View, Frank L. Otis; Pacific, Robert Rose; Park, Robert Baldwin; Pleasant, Frank A. Lewis; Pittsford, Robert M. Monroe; Sherman, John Archibald; Train, George W. Armstrong; Vinton, Mrs. Hannah Farrell; Walnut Hill, M. L. Broadbent; Webster, William Stuart; West Side, A. M. Johnson; Windsor, J. S. Stone; board rooms and depot of supplies, Elmer Matson.

John E. Wigman, without opposition, was elected janitor at the manual training school, in addition to the position of instructor, at a salary of \$20 per month.

Mr. Knodell offered the following resolution, which was referred:

Resolved, That no teacher shall be assigned or elected in any school to whom any school officer, entitled to act upon the question of the assignment or election of a teacher, is related by either blood or marriage. This resolution, however, shall not apply to the election of any motion of teachers employed in schools previous to the election of a school officer who may be related to said teacher.

TRAINING SCHOOL STAYS. The report of the city treasurer indicated a balance of \$18,688.11 in the school fund on June 2.

R. J. Watts placed himself on record as an applicant for J. J. Banker's job as superintendent of buildings. His application was placed on file.

Petitions for the re-election of Lida Scheubert and Margaret J. Lacey as principals of the Vinton and Central Park schools respectively were referred to the committee on teachers and examiners.

The resignation of Miss L. Snyder for the position of supervisor of drawing was referred. Similar action was taken with that of Lucia A. Rogers for the position of supervisor of music.

The resignation of Bossie M. Lacey as a teacher was accepted.

The resolution of Mr. Crambie, to fix the salary of the principal of the teachers' training school at \$125 and assistants at \$90 per month, each, was referred.

The resolution to discontinue the training school at the end of the present year, which was introduced by Mr. Lowe some time ago, came up under the head of unattached business and was the subject of long discussion. Lowe vigorously defended his position, but he was as vigorously opposed by Tukey and Rodgers and the resolution was defeated by 5 to 10.

Mrs. Grace B. Sudborough was then elected as supervisor of the training school for the ensuing year. The adoption of rules for the regulation of the training school was postponed until the next meeting.

NOTHING can be substituted for the ROYAL BAKING POWDER and give as good results. No other leavening agent will make such light, sweet, delicious, wholesome food.

Fish bowler. Cut 2 or 3 slices of salt pork into dice pieces; fry to crisp, and turn the whole into chowder kettle. Pare 6 medium sized potatoes and cut them in two. Peel small onion and chop fine. Put potatoes into kettle with part of onion. Cut fish (which should be fresh and halibut) into convenient pieces, and lay over potatoes; sprinkle over it rest of the onion. Season well with salt and pepper, and just enough water to come to top of fish. Pour over the whole quart of tomatoes; cover closely and allow about as long to cook as takes to boil potatoes; then drain off the water, and let it set up again. Season with Sauce Piquant or tomato catsup and more salt and pepper if required.

To Roast a Strain of Beef. Put 1/2 lb. of an hour to each 1 pound of meat. Make up good fire; spit or hang joint evenly at short distance from it; put a little clarified dripping in pan, baste the joint well soon as it is put down to dress; baste again every 3/4 of an hour till about 20 minutes before it is done; then stir fire and make it clear; sprinkle a little salt, dredge a little flour over the meat, turn again till it is brown and frothy; then put it on a platter with a little fresh butter, and pour it over it. Garnish with fine straggs of horse-radish in little heaps. Serve Yorkshire pudding with it on separate dish.

Hudson and Eggs. Cut bacon in thin slices and fry it. When bacon is done fry eggs in same pan. Break each egg separately in a cup, then throw quickly into pan. Lay fried egg on each slice of bacon.

HOPING FOR A RESTORATION

Eastward Lines Holding Back Regarding the Burlington Packing House Rate.

ONE WEEK MAY SEE THE OLD SITUATION

Missouri Pacific the Only Road that Has Formally Met the Cut—Uncertainty with Regard to Rates to the Southwest.

So far as could be learned yesterday, the Missouri Pacific was the only line stultifying an intention to meet the Burlington rate on packing house product to the Mississippi river, Chicago and Peoria, announced by the Bee exclusively on Saturday. While the local officials have the matter up with their traffic managers, there seems to be a disposition to hold off meeting the rate, with a hope that a restoration of rates will be accomplished as originally intended June 24. But so far as can be seen, the anticipated restoration is farther removed than the date set on account of the ignorance attaching to the rate table to be made by the Fort Scott & Gulf road to the southwest. While a reduction by the Fort Scott road would not affect the rates promulgated by the Burlington, it would change the Texas situation materially, and would naturally make a restoration of rates impossible within the limits of June 24.

It is very much doubted if there ever was a time when rates of the southwest were all at one level, and the same observation might be with truth made relative to the situation in the southeast. Railroads entering either territory have made rates to suit packers and rates that would have been entirely disregarding any general arrangement that might have been made to maintain parity.

Roads in this territory were nonplussed when they read in The Bee Saturday that the Burlington would make the rate on packing house product from South Omaha conform to the rate made by the "Katy" from Kansas City, and assertions were made that the packers of South Omaha were up in arms against this rate. Inquiry, however, from the traffic managers of several firms in South Omaha disclosed a somewhat different situation.

John S. Knox of Cudahy's said that the packers would have seriously objected had the Missouri, Kansas & Texas rate from Kansas City not been met by the railroads doing business in South Omaha, as it would have been an added discredit in favor of Kansas City. The only objection he could see to the making of the rate at the time and without proper notification was that branch houses might have seriously objected had the Missouri, Kansas & Texas rate from Kansas City not been met by the railroads doing business in South Omaha, as it would have been an added discredit in favor of Kansas City. The only objection he could see to the making of the rate at the time and without proper notification was that branch houses might have seriously objected had the Missouri, Kansas & Texas rate from Kansas City not been met by the railroads doing business in South Omaha, as it would have been an added discredit in favor of Kansas City.

Of course all the roads will take packing house product at the rate made by the Burlington, even though tariffs are not issued.

SOUTHWESTERN LINES STURBORN

Missionary Committee Made Little Progress Toward Getting Them in the Fold. CHICAGO, June 17.—Members of the missionary committee which went to St. Louis and Kansas City to labor with the Missouri, Kansas & Texas, Kansas City, Fort Scott & Memphis and other roads with a view to bringing them into the Western Live Passenger association have returned and made on the whole no progress. The Missouri, Kansas & Texas agreed to come into the association when the troubles in the west and southwest were put on a satisfactory basis. It would, it declared, join no passenger association as long as freight rates were outside down. The agreement reached in St. Louis for the restoration of freight rates, effective June 29, may adjust the situation, in which case the Missouri, Kansas & Texas practically made a promise to join. The Kansas City, Fort Scott & Memphis also agreed to join the association as far west on its line as Springfield, Mo., which protects the eastbound Kansas business of the Atchison, and that was why so strong a fight was made to get the Missouri, Kansas & Texas member. Regarding the Colorado roads, it was decided to argue first with the Colorado and for this purpose the Missouri, Kansas & Texas will have a conference with Receiver Christine of the Midland tomorrow morning.

Far West May Not Be Touched.

Whether the rates from Chicago and the Missouri river to Montana and Idaho will be brought down to the basis of the Utah rates is still an unsettled question, with the Union Pacific officials, although Mr. Wood, assistant general freight agent, was engaged in making figures yesterday on the commodity list. Montana common points, such as Idaho, is stated, has not been thought of in the question of reduction, but Montana will probably be affected in the horizontal reduction made by Utah common points. Unless Montana comes in for a share of attention there will be no need for a revision of existing tariffs, so far as the Burlington is concerned, from Montana common points through through billings, but should the Union Pacific decide to extend its cut to the northwest it will necessitate not only the Burlington, but the Northern Pacific and Great Northern, changing their tariffs to accord with the cut. At present things remain in statu quo, but the week may bring about another cut of startling proportions as those which went into effect from Chicago, the Mississippi river, the Missouri river, to Utah common points.

Electricity for Switch Lamps.

The Union Pacific is contemplating introducing the electric light into their switch lamps along the system. Had not the suit for a separate receiver for the Short Line been commenced it is understood that the Huntington yards would have been equipped with the Edison incandescent lamp, but the intention has been abandoned. It is argued that the yards in cities having electric light should be equipped with electric light, but the result of light would be much greater. The yards at Omaha, Council Bluffs, Columbus and North Platte will probably be equipped with the electric light. Should such a departure be made the Union Pacific will be the first road in the United States equipping its switch lamps with electric light.

NEW PAGES ALL ABOUT CHANGING

When I commenced taking your medicine I was very sickly. I had frequent spells of fainting, terrible pain in my head, and life was a burden to me. I was attended by one of the best physicians in our town, but with no good result. At last a neighbor advised me to try Dr. Pierce's Favorite Prescription. I bought a bottle and after taking it a few days I felt greatly benefited. I would advise all ladies suffering from any of the ills mentioned in the "Favorite Prescription," to try it.

ONE FOOD FOR BABY

June Heat Must Not Weaken Baby's Stomach.

Strength an Absolute Necessity During the Summer.

Safety Lies in Lactated Food and Perfect Oil Analyses.

No mother needs to be told of all the babies that die before they reach the age of 5. It is one of the solemn verities that just now is bringing anxiety to so many homes and to mothers an agony of dread that they dare not confess even to themselves.

Yet it is certain that today by the exercise of care in securing the proper nourishing diet and absolute cleanliness, warm weather in countless households is robbed of its perils and made as beautiful for the little ones as for those of maturer years.

In homes where lactated food is used no form of diarrheal disease enters. This is a noteworthy fact. The reason is that this highly nutritious, predigested and palatable food is the most perfect substitute for pure mother's milk. It is easily assimilated by the infant stomach. It keeps up the little one's strength, and as it contains not a particle of impurity, these two great causes of cholera infantum and diarrhoea are absolutely avoided.

The lamentable jump in the infant death rate at the first advent of warm weather is traceable to wholly preventable causes. All diarrheal diseases, whether cholera infantum or cholera, are preventable in infants by a diet of lactated food. Physicians emphatically say so. High temperature, however, cannot breed these disorders. It simply weakens the enteric system and allows diarrhoea to enter as soon as the little one is overfed and its digestive system burdened by a poorly nourished diet. The signs of impurity or apparent loss of strength are critical times in every baby's existence. Lactated food has saved countless little ones in such extremities.

When feeding and during hot weather, when babies are most capricious in their appetite they take lactated food with relish. It is the only food which is not only palatable. Physicians will be found, feed their own children on lactated food. The fact known to physicians from the start, that lactated food was prepared under personal supervision of no less a man than Prof. Dr. Boyton of Vermont University, gave it immediate standing among practitioners.
