dition and acted as though the effects of his

At the conclusion of the conference Mr. Paxton and C. J. Karbach, who were the heaviest bondamen represented, said that they did not believe that the deficiency would exceed the figure given by Belln. They believed that he had told them the exant truth, so far as he know, and they in-tended to stand by him. He would be given a chance to rest up while the investigation was being completed, and then the whole matter would undoubtedly be fixed up. The bondsmen would make good any deficiency and that would be the end of the trouble.

OFFICIAL ACTION POSTPONED. Mayor Bemis said that he expected that the matter would be satisfactorily arranged. He did not intend to take any official action in the matter, as the bondsmen had charge of the office and were willing to be respon-sible for any shortage. He thought that Bolln had gone at too fast a galt, but hoped that matters would be brought to a satisfactory termination.

At 7 o'clock City Comptroller Olsen had completed a hurried checking up of Bolin's accounts. The result indicated that there was a shortage of \$15,288.69, outside of the amount which was said to be lacking in the account at the Midland State bank. blanks indicated that Bolln had \$19,000 deposited there, while the actual de-posit was only \$10,000. Bolin claimed, however, that the difference was covered by a certificate of deposit and this item was not

included in the total. The amount given out as the actual shortage represents the money which has been taken from the cash drawer, and which tallied with the tickets which were deposited as memoranda. There were numerous ad-ditional tickets which represented amounts that had been drawn by various city officials and employes as advances on their warrants, but the comptroller said that these were protected by the assignments which were on file in his office, and the city could not possibly lose anything on this item.

EXTENT OF THE SHORTAGE. The work of agnertaining the extent of the lefalcation was began late in the afternoon Mr. Westberg and two clerks of the treas urer's office started on the books. The in terests of the bondsmen were looked after by John Lauer. The work continued without in termission until 2 o'clock this morning. Noth definite could be determined, because of the banks in which deposits are kept failed to report their balances. All books, how-ever, were found correct. The inaccuracy is between the cash balance as shown by the books and the cash on hand. This will exceed \$10,000, but will not be over \$13,000. The missing funds were accounted for by tickets placed in the cash drawer by the trasurer when the money was removed. From the estimate made last night it is not believed the defalcation will be larger than these figures. This is on the theory that the balances in the banks which failed to report Otherwise the shortage can scarcely be estimated. The checking of the books will be completed

this morning. BOLLN GUARDED AT HOME.

After Bolln had been brought to the office of the city treasurer by Sergeant Whalen his friends held a consultation as to the advisa-bility of watching him, it being feared that he might attempt to put an end to his life. It was at first decided to keep him in the office all night and to obtain an officer to watch him. Then it was suggested that he be sent to his home and that the officer remain there with him. Captain Mostyn was called in and he immediately effered the services of Detective Savage.

By the time the officer arrived at the city hall, however, the pian was changed. It was suggested that if Bolln was kept under surveillance at his home all night by an officer of the law he would imagine that he was being watched in order to prevent escape, and, becoming more despond-on that account, might attempt to com-suicide. It was, therefore, finally decided to dispense with the officer and to send Bolla home with two or three of his friends to rumain with him through the night. In accordance with this plan Bolla was taken to his home, at 1823 Wirt street, shortly after 7 o'clock, two of the office employes accompanying him.

During the course of the evening a reporter

of The Ree visited the residence and saw Bolln's son, Otto. He stated that his father was in the house with several of his employes, but that he could not be interviewed. He was still despondent, but appeared to be The son further said that he had no fear that he would attempt to kill himself. TALKS ABOUT MALICE.

"Of course my father is despondent about the matter," said the son, "but it will all ultimately be cleared up. He will come out of it honorably. It will be discovered that he was not short in his accounts except for a small sum which he advanced to the employes on their salaries. This trouble is the result of the efforts of one of the bandsmen. My father offered to release this man from 'No. I will not tell this man's name now but it will come out in a short time. All the rest of the bondsmen are backing my father. There will be no prosecution, because there is nothing to prosecute him for."

He was asked for a copy of the note which is father had left addressed to him, but efused it. He said that The Bee had practically published its contents, but neverthe less refused to allow it to be read. He finally said that he did not have it and did not know where it was. Some friend had it, he said, but he did not know the name of

The men who are on Bolin's bond have signified their intention not to prosecute him. When Bolln was missing yesterday afternoon they made efforts to find him, but did ot wish to have him arrested. Late in the afternoon three orders of at

tachment were placed in the hands of the sheriff against Bolla. One was in favor of the German Savings bank for the sum of \$6,900, another in tayor of the Midland State bank for \$5,075, and the third in favor of C. B. Havens & Co., for \$710.34. The papers were served last night.

AS TO THE SCHOOL FUNDS. President Akin of the Board of Education is authority for the statement that the board will take no further action until the investi-gation of the accounts of the city treasurer's affice is completed and the comptroller has submitted his statement to the board as required by the resolution of Monday night. In speaking of the matter last evening closel Akin said that the trouble came a a fortunate time as far as the board was concerned. At no other time in the year was there such a small amount in the school fund, and the balance at the beginning of this month was scarcely more than sufficien to pay the interest on their bonds. The en tire amount in the fund was a little ova \$18,000, and that very afternoon he had drawn a warrant for \$15,000, which was to be sent to New York to meet their interest ob-ligations. If this amount could be secured at once the board was not seriously concerned. credit of the board was at stake, and the in-terest must be paid promptly if possible.

KNEW TROUBLE WOULD RESULT. "I was very sorry," continued Colonel Akia, o he compelled to introduce the resolution calling for an examination of the city treas urer's books. I knew that it was likely to precipitate the trouble, but matters had ar rived at that point where I believed it to b my duty to take the necessary measures t see that the interests of the board were protoered. I do not talak there is any doubt on the part of the members of the board as to the ability or intentions of the bondem to make good any shortage that may be di covered, and the matter will be allowed rest, as far as the board is concerned, unt Colonel Akin said that one of the reason that had induced him to present his resolution was the understanding that the funds had not been deposited strictly seconding to law. The law provided that no funds should be deposited in any bank having a capital stock of less than \$200,000, but it had been stated that some part of the city funds had been de-posited in banks which were capitalized for

considerably loss than that amount. VICTIM OF BLACKMAILERS. It is said that Bolin has been persistently and continuously made the victim of black-mail. Some of his alleged friends have been in possession of information that has given them a hold upon him, which, so the story people might turn upon him, and it is sup-posed that considerable of his money has been used in keeping them hushed. Their demands have keep thin in straightened finan-ciral circumstances, and are supposed to have

acted as an incentive to speculation in the hope of winning back sufficient sums to sat-lsty the leeches. They were also an ever present cause of worry and diverted his at-tention from the business of the city, which he was supposed to supervise in person.

Later developments show that when Bolln left his office yesterday morning he apparently went directly to the saloon of Captain Donahue, near Sixteenth street and Capito avenue. He remained there until after 10 o'clock and then went north to Mullen's saoon at Sixteenth and Davenport streets. He remained in this place for some time and then visited a number of other saloons, finally winding up at Degan's place at 516 North Sixteenth street, in the brick block in which Dr. Hertzmann lives. It was after he lef this saloon that he went driving with Hertz mann,

At 4 o'clock in the afternoon Mrs. Hertzman was seen by a reporter. Dr. Hertzmans was not in. She said that he was out collecting. She disclaimed all knowledge, both of his whereabouts and Bolin's, saying that she had not seen the latter during the day nor for some time previous. However this may be, it is a fact that Hertzmann was seen at 2 o'clock driving north on Sixteenth stree in a buggy with Bolin as a companion. Hertz mann does n't own a buggy, but he had obtained one for the occasion.

Loui-ville Interests. LOUISVILLE, Neb., June 18 .- (Special Telegram.)-Sheriff J. C. Eikenbary, together with Attorney Debord of Omaha, arrived in the city this evening and placed attachments on Henry Bolln's property to the amount of \$533.20 in favor of C. B. Havens & Co., coal desiers of Omaha. Among the articles attached were two carloads of coal, over 100,000 brick and the machinery in the tory, appraised at \$3,500. The bill is \$710.34. Bolin owes the Bank of Commerce of this city \$260 and the Missouri Pacific over \$35 for freight, but these accounts are squared by purchase of brick. The Missouri Pacific bought 35,000 paving brick and the bank 30,-000. There is another claim of \$500 and attachments are being run.

RECONSTRUCTING THE TRUST.

Distilling and Cattlefeeding Interests Take tife First Step in that Direction.

CHICAGO, June 18 .- In Judge Showalter's court today the reorganization committee of the Distilling and Cattlefeeding company took the first steps toward recreating and building the Whisky trust, which the supreme court of Illinois last week deprived of charter rights,

judicial sale of the trust property, the reorganization committee summoned to its relef an officer of the United States court, Receiver McNulta. This official, through his attorney, J. J. Herrick, presented a petition rehearsing his appointment to office and the reasons why he considered the sale not alone judicious, but necessary. In this petition Receiver McNulta made admissions contrary to his previous statements concerning the estate. He said he is meeting with ex ceedingly sharp competition in the conduct of the business; that he believed the dis-tilleries should be closed from July 1 to October 1; that the cattle feeding contracts could not be renewed by him to goal profit; that enormous expense for rentals, insurance and service would be incurred in that time, and that the properties would be in-jured during the period named. There were present: Ex-Judge Moran, for

the reorganization committee; John P. Wil-son, Edwin Walker, Otto Gresnam, Noble B. Judah, Mr. Paxton of Cincinnat., John J. Herrick and John McNulta. MOVES OF THE LAWYERS.

For the Central Trust company, Edwin Walker dismissed his bill for foreclosure of the trust property. This removed the original bill, amendments, demurrers, etc., from the case. Mr. Walker, though, filed another the case. Mr. Walker, though, filed another bill praying the appointment of a receiver, which has the same purport. It was filed in behalf of Charles Lindsley, owner of 100 shares of stock. After the "delay" bills were out of the way the petition of the receiver was read. To this Attorney Judah made vigorous objection in behalf of Nelson Morris. He demanded that the receiver make a detailed exhibit of the assets in his possessio Mr. Walker made a protest.

These tactics annoyed the reorganization in-terests, and one of the attorneys with a spec-tacular wave of his arms, said to Mr. Judah: 'We don't care to be bothered by such mos-

Mr. Judah retorted: "Well, the mosquitoes are very much present, and you may be made o feel their bills before you are through."

The answer to the petition for the judicial sale made by Mr. Greenhut was then taken up. Before considering it in detail, comunsel the reorganization committee gave the history of the litigation in which the trust has been involved since the receivership. The point was made that J. B. Greenhut in his first bill for a receiver, asked for the sale to which he is now objecting. The terms of the proposed sale were then discussed, and the reorganization committee stated it desired the property should bring the largest

DISMANTLED DISTILLERIES. Attorney Paxton of Cincinnati, represent-ing the Union and two other distilleries leased to the trust, made a statement of his case to the court and told how his properties had been dismantled and practically destroyed. He asserted, though, that he earnestly desired a judicial sale, and wished to place no obstacle in the way of such a plan. Continuing, the reorganization counsel said: This answer to the petition for a judicial sale is made by a man who was removed from the receivership because he admitted to this court that he had sold 15,000 shares of the company's stock short when he was conniving and preparing the scheme for wrecking the estate. He is today short of stock, and this fight is a 'bear' move—it is a stockjobbing scheme pure and simple and has been such from the beginning."

The conditions and benefits of the sale were discussed at length. It is thought that the decision will be reached before the first of the month.

ST. JOSEPH, Mo., June 18 .- (Special Telegram.)-The Saints' hoodoo is broken at last, They pulled themselves together this afternoon and easily defeated the Omaha team by the score of 18 to 9. The Saints assumed the lead from the start and never allowed the visitors to come within reach. Stultz, the Saints' new pitcher, proved a regular puzzle for the Omaha boys for the first five innings, allowing them only three hits, one of them being a scratch, while Balsz, who occupied the box for the visitors, was dead easy and was very wild at times. It looked like a shutout for Omaha up to the sixth inning, when two costly errors, made by Alberts and Slagle, gave them four runs, none of which were earned. After that Stultz let down and let the visitors bit the ball for four singles, hit two men and gave three bases on The field work of the Omahas was balls. rather yellow, Pace dropping an easy fly and Hutchinson fumbled two slow grounders. HARVARD INCLINED TO HOLD OFF

Thinks Pennsylvania Should Have Been Recognized in the English Challenge, NEW HAVEN, Conn., June 18 .- The full ext of the challenge from Oxford-Cambridge to Yale and Harvard was delivered to Sherman Day, the newly elected president of the Yale association, yesterday afternoon by the Associated press, Oxford and Cambridge having availed themselves of that means of rapid communication.

President Day received it with evident pleasure, and said: "While it is impossible for me to state definitely at this time what TALENT MADE TWO BAD GUESSES

America.

3. That if the Englishmen wish Harvard

America.

1. That if the Englishmen wish Harvard to be represented in the international meeting, Oxford and Cambridge should meet the three leading colleges of America, Harvard thus being included, or, if the challenger so desires, a third college in Engliand may also be represented in the team from the other side.

This feeling is all due to the fact that Oxford and Cambridge ignored the challenge of the frieterollegiate Athletic association. The University of Pennsylvania suggested this challenge, and feels hurt because it has been refused. Other colleges in the association are now much agitated because the counter challenge which has come from the other side ignores them entirely. Harvard is friendly with the University of Pennsylvania, and believes that it would be bad policy and an injustice to accept this challenge. Harvard's answer to the proposition will undoubtedly be transmitted to the Xale authorities within a few days, and if the latter have no suggestion to make it will then go forward to England.

LOUIS, June 18 .- A letter from Erze roum, Turkey in Asia, has been received by Homer A. Canfield from his partner, William L. Sachtleben, the St. Louis wheel man who left here four months ago for Asia Minor to locate and bring to justice, if possible, the murderers of Frank Lenz, the missing cyclist, who lost his life there. Sachtleben writes that he has discovered the identity of the Kurdish chief who planned the killing and the five men who helped him commit the deed. The writer states that he arrived at Erzeroum about May 17, and adds: "Out of quite a number of correspondents who came to Constantinople in an endeavor to reach Erzeroum, if not Bittlis and Moosh, near the Sassoun district, where the horrible atrocities have taken place, only three have succeeded in reaching this city, so strict is the watch kept by the Turkish government." man who left here four months ago for NEW YORK, June 18.—The Johnson-Zim-merman postponed bicycle race for \$10,000— \$5,000 a side-has at last assumed a business \$5,000 a side—has at last assumed a business look. Eck, Johnson's trainer, will not allow his man to race at Asbury Park, as he says Asbury Park people are partisans of Zimmerman, but Johnson is anxious and ready to race the Jersey rider anywhere he names outside Asbury Park. Eck goes to Philadelphia tomorrow to sign articles of agreement with Zimmerman's manager. The following dispatch explains liself: itself:

'NEW YORK, June 18, 1895.—W. H. Beagle, Chairman Race Committee, Asbury Park, N. J.: I had decided to inspect your track today, but your representative, Whitson, in his remarks as reported in the Wheel, and my wish to have the race on neutral ground, has decided me not to allow Johnson to race Zimmerman at Asbury Park. Johnson will meet Zimmerman on any track mutually agreed upon. My original deposit is still in the hands of the American Wheelman. This is final.

Bables Fed on Lactated Food Keep Strong and Well.

This Pest of Fcods is Very Par From Expensive.

PAUL DOHERTY. The baby is sick!

What mother is there that does not know the anguish comprised in that one brief sentence? The old, old, "mother pain," as the writer has named it, rushes over her at the first symptom of disease in her darling, and is never lightened until the wee patient is

once more restored to health. Yet all this tenderness is worthless if not intelligently directed. Mothers cannot be too careful now in June in observing the beginning of illness. The first symptom of stomach or bowel disturbance must be instantly atcended to. It does not take long for such complaints to asume serious proportions. Recourse should be had at once to lactated fed. Thousands of infant lives have been saved by a timely use of lactated food. Its use as a steady diet, especially during the hazardous in the third carriage. The duke and fuchess early summer time insures freedom from of Teck, the duchess of York and Princess sickness, keeps up the child's strength and allows it to grow in weight and size right

through the summer.

During the hot weather strength must be kept up, but without burdening and over-turning the delicate digestive organs. It is here that mothers and physicians find lactated food necessary. The explanation of the unpariled success of this food in keeping bables strong through the summer is that in its composition it is the nearest approach to na-ture's food that modern science can produce. It is pleasant to the taste, and is taken by with relish and is easily digested and assimilated.

It is what physicians call a predigested cod, and is especially valuable in all weak condition of the digestive organs, not only forinfants and but for invalids and aged Mothers may stop worrying about their babies after they have once been put on a diet of lactated food.

Trained nurses keep lactated food on hand even when baby is fed on mother's milk. In cases of failure of the natural milk, or when weaning or during any possible illnes of the mother, lactated food best takes the place of the natural food. Try it. It saves babies And remember of all the babies born in Omaha, one in every five dies before it is a year old, and two-thirds of all the deaths

are due to summer diarrhea, against which a diet of lactated food is the most perfect security. Mrs. E. A. Doherty, 18 Linden-st., Fall River, Mass., whose baby's picture is given

above, writes: "Enclosed I hand you a photograph of my oy, Paul Doherty. He is one and a half years old and has taken the lactated food all his life. It has answered every purpose and kept him healthy and robust every moment of his life, and we are very grateful for its benefits. It is my opinion gained from experience that in the promotion of health and infantile beauty, nature never had such an aid as lactated food. Accept my thanks for the many blessings of rosy health and happiness lactated food has bestowed on my
