THE OMAHA, DAILY BEE NEWS FROM COUNCIL BLUFFS

Law Strongly in Evidence.

SALOON MEN USE IT TO GET EVEN

Personal Scores and Secure Satisfaction Under the Provisions of the Statutes.

There is no particular danger of an antisaloon war being declared, but it does seem to be a peculiar coincidence that four men should become the victims of mulet law litigation in four days. The first two were Chris Rudio and Billy Whitney, who were arrested for setting up a saloon at the circus grounds. J. W. Pinnell, who was supposed to have instigated proceedings against them, was the next victim, Rudio having him arrested as a means of retaliation, and he is to have a hearing in Justice Vien's court this afternoon at 2 o'clock.

Yesterday Henry Wagner filed a petition i Justice Vien's court charging Ed Sherlock with keeping a saloon. Constable Stevick came down like a wolf on the fold and when he went away took with him half a dozen demijohns, bottles and jugs, not one-tenth part of the stock Sherlock had on hand, but when it was stacked up in the court room it made a respectable showing. Sherlock is still running, and will undoubtedly run right along. The case is the outgrowth of a difficulty Sherlock had with Wagner. He endorsed a note of \$100 to Wagner, without recourse. Wagner evidently did not know what "without recourse" meant. He could not collect the note from the maker, so he called on Sherlock for a settlement. Sherlock, of course, would not settle and Wagner said he would get even.

he would get even.

All talk of a temperance crusade, however, is without any foundation. The saloons are none of them complying strictly with the law in all its provisions, but they are doing better than ever before, and the public generally it satisfied. The events of the past few days only go to show that the mulct law places the saloon keepers entirely at the mercy of their enemies. Whenever any one gets a grudge against a saloon keeper for any cause whatever, all he has to do is to file an information against him under the prohibitory law, and blackmail him out of any amount he may choose to

Wagner himself kept a saloon until a very short time ago. He was in the business under the old prohibitory law, and was ar-rested and fined \$1,000 by Judge Desmer for violating it. He never paid the money, however, for Governor Boles remitted the fine. Chris Rudio, who posed as the temper-nce reformer in Pinnell's case, met with an infortunate accident Thursday night. He was in a saloon in Omaha and got mixed up in a fight. When he reached home at about 11 o'clock at night he had one ear nearly torn off, fully a dozen cuts about the face and head, and he was covered with clotted blood. He does not mention the names of the artists who did the job of face frescoing.

Trouble at Manawa has not exactly broken out afresh, but it keeps up a steady rumbling. Another suit was commenced in the district court yesterday by F. C. against W. H. Beck for the purpose of having Beck restrained from grabbing the office of city treasurer, which the petition alleges that he is about to do. Reed already has proceedings instituted to have the incorporation of the town declared null and void. In the petition which was filed yesterday he alleges that Beck claims Manawa is a duly incorporated town, and that H. Stein-berger at the last election was chosen treasurer. He did not qualify for the position and rather than have the office left vacation. Beck, who already holds the office of mayor of the little community, is about to add the duties of treasurer to the multifarious ones connected with the mayoralty. A writ of njunction is demanded to restrain him from

loing so. Max O'Rell says Rio Janeiro has the fines: harbor in the western hemisphere. He might add that Dr. Price's Baking Powder s without a rival on the globe.

OVERTON, Neb., June 28 - (Special.) - A young couple arrived here two weeks ago upon one of the night trains and were hastily driven to the residence of Mrs. Mulloon, a respectable widow who resides with her sons about four miles from town. The young woman was a daughter of Mrs. Muldoon, the young man her nephew. It was currently reported that they were man and wife, from Canada, visiting relatives and ooking over Nebraska with a view of locating here. A few hours after their arrival at the Muldoon homestead a physician was hastily summoned and ere morning dawned the young woman was a mother. The young man posed as the "good Samaritan" in the case, having brought his cousin here to hide her shame. The father of the child, it was claimed, was another cousin in Canada.

This occurrence was kept a family secret and might have remained so had the young man been possessed of ordinary human instincts or common A few days ago he went to Elm Creek and under a fictitious name pur chased a quantity of strychnine. Returning home and complaining of feeling sick was left alone in the room with the little babe for a few minutes, at which time it is charged he gave the little innocent a dese of the poison, as the woman, coming into the room after an absence of a few minutes. it never rallied, dying with all the well known symptons of strychnine poisoning. The young man volunteered to procure a loctor, and taking a horse and cart, the been heard of since. It seems he threw away what poison he had left and that a number of chickens were killed by eating it. He told the unfortunate young girl, the victim of his lust, that if she ever divulged the fact that he was the father of her child, he would kill her.
Efforts are being made to locate him.

His relatives are estimable people here and are prostrated over the miserable affair. I find Dr. Price's Baking Powder entirely pure and the strongest in teavening power.-E. S. Wayne, M. D., Ph. D., Cincinnati, O.

CLOSING UP THE RELIEF WORK State Commission Waiting for Final Re-

ports from the countles. LINCOLN, June 28 .- (Special.)-There has of late been considerable anxious inquiry throughout the state in relation to the seem ing reluctance of the State Relief commission to close up its business and make its final report. A reporter for The Ree has in vestigated the matter and finds the follow

By the provision of the law under which the commission is acting, each of the county relief commissions must make a final report to the state commission and the latter to the secretary of state. So far as the work of the state commission is concerned, it is kept up to date each day, but counties are backward about reporting, and some of them, a few are still giving out relief to applicants. So soon as all the counties have reported the state commission, as explained by Secretary Ludden, will complete its report to the sec-retary of state and shut up shop. There are five or six clerks now at work at the rooms of the commission, copying the reports of the different counties as they come in, and they appear to have plenty to do at all hours of the day. In view of this state of affairs Secretary Ludden says it is impossible to set a day for a general windup of the work of the state commission.

than an average yield.

BELGRADE, Neb., June 28 .- (Special.)-A steady rain set in this morning about 8 Colock and contined a steady downpour all day. About two and one-fourth inches fell, putting the ground in fine shape. Late oats were beginning to need rain, as it was just heading out, so this will insure a large cro of small grain. Rye has come out beyond al. xpeciations. Corn is very uneven and some if it quite weedy, but will come right or ow, and with a return of warm sunshine will look first rate. The polato crop will be very large in this vicinity. NORTH LOUP, Neb., June 28.—(Special.)

A drizzling rain, amounting to nearly an inch, fell here all day yesterday, putting all crops in excellent growing condition and soaking the surface of the ground to a depth of several inches. This is thought to be sufficient to insure the maturity of the small grain beyond all question and the agricul-tural face hereabouts wears a radiant smile. Potatoes are doing finely and but little trouble s being occasioned by the potato beetle, formerly sufficiently numerous to necessitate frequent poisoning. Its scarcity this season is no doubt due to the great destruction of eggs which occurred from natural causes last summer. The seasonable showers of the past few weeks have given the weeds, especially sunflowers, a great impetus, largely increasing the labor of cultivation. One of the preminent signs of the times in this vicinity is shown in the attempts of farmers to produce crops heretofore scantily planted or entirely neglected, instead of the crops which have been almost exclusively grown. Among several such which might be men-

acres have been planted, and their thrifty

growth promises an abundant yield. Should the market Justify, this crop may be expected to be one of the staple crops of this locality hereafter.

SHELBY, Neb., June 28.-(Special.)-Showers fell at intervals all day yesterday. This will benefit the cats, as they have headed and will now fill in fine shape. Polk county has a large acreage of oats and farmers state that the yield per acre will be the heaviest in ten years. P tatoes are in blessom and the crop will be large. Corn is doing nicely, except small patches which were blown out by the wind. The action of the wind this year has been peculiar. Dust would raise for many hours over portions of a corn field, while the balance would be comparatively calm. This action is broken by plowing

several rows crosswise with the wind.
