which England will now follow on the question of Armenian reforms. Lord Salisbury has always held that the maintenance of the integrity of Turkey is necessary to the for-eign policy of Great Britain. The Rosebery ministry, on the other hand, entered into a somewhat perfunctory alliance with France and Russia and made imperative demands upon the sultan for protection to Christians in Asiatic Turkey. The porte has now almost come to the point of conceding every-thing, and many people are doubtless wondering if Lord Salisbury will decide to drop the affair. When Disraeli returned from the Berlin congress, after having outgeneraled Russian diplomats, he was welcomed as if he had been a conqueror, and his declaration, "We have brought back peace with honor," became a household word. But then came the Bulgarian atrocities, and with them as a cam paign cry Gladstone swept the country. is this: It seems that the city officials from the time Omaha had a treasurer, have been allowed to draw their salaries in advance or worse, use money themselves over and above their salaries even, by putting a slip in the drawer saying they had so much cash out.
