folders of July Wheat Were Auxious to Dispose of it Yesterday.

OTHER MARKETS TUMBLED WITH WHEAT

Corn Was Weak but luactive with Speculative Business in the Way of Transferring Trades for July Delivery Into September.

CHICAGO, June 28 .- Holders of July wheat were seized with a burning desire to dis-pose of it today, and their endeavors to do so left that option 1%c lower at the close.
September lost 1%c. The other markets tumbled with wheat, corn finishing %c lower,

Staple and Fance Produce. outs be lower and provisions at declines. The wheat market opened weak, regard-less of the light frosts which the weather map showed had visited portions of the northwestern wheat regions last night. Too

light do to do any harm was the general verdict with regard to the frost, and the light do to do any harm was the general light do to do any harm was the general verdict with regard to the frost, and the dispatches from the country supported that opinion. So little faith the local crowd have in the power for harm of the frost that in less than an hour from the opening the price of July and September wheat had declined to be per bu, below the closing figures of the day before, and that loss was virtually held for an hour, for at 11:30 of clock September wheat was being traded in at about 72c, after having been down ures of the day before, and that loss was virtually held for an hour, for at 11:30 o'clock September wheat was being traded in at about 72c, after having been down twice to 71%c and reacted as often to 72%c. It opened with sellers from 72%c to 72%c and some buyers at those prices. It worked up gradually inside of the first fifteen minutes until it touched 73c, and then commenced the decline Indicated by the previous quotations. The elevator speculators were the busiest of the local operators, and their trading was altogether in the way of buying July and selling September. The failure of frost damage to spring wheat should not, of course, of itself be a reason for lower prices. There were other reasons for weakness, however, which were pushed into view and made to count for more than usual from the fact that there was a great deal of July wheat held by parties who had no use for it, and no money to pay for it if delivered. Liquidation of July was a prominent feature of the day's business, and its effect, besides weakening the market generally, was to make that month relatively heavier than September, the latter generally was to make that month relatively heavier than September, the latter generally was to make that month relatively heavier than September, the latter being the equivalent of 2%c per bu. The cablegrams brought lower quotations. Liverpool was given as from 3d to 3d lower, Parls from 25 to 35 centimes lower, and Berlin from 12% to 2% marks lower, the latter being the equivalent of 2%c per bu. Exports from the Atlantic seaboard consisted of 500,000 bu, of which 25,000 bils, was flour. The receipts were light. St. Louis wired that 10,000 bu, of which 25,000 bils, was flour. The receipts were light. St. Louis wired that 10,000 bu, of which 25,000 bils, was flour. The receipts were light. St. Louis wired that good but of No. 2 yellow at 4c over the July wheat carried that future down to 8pc and it dragged September at 10%c. The local shipments were 345,676 bu, and a sale of 100.000 bu, of No. 2 yellow a at about 72c, after having been down

landing futures ranged as follows:

The market on vegetables did not present any especially new features. Watermelons are in liberal supply. The acreage throughout all sections of the south this year has been larger than usual, and from now on the market is expected to be liberally supplied with this fruit. Probably the largest number of watermelons grown in any one of the states are produced in Georgia, it ranking first in the watermelon industry, though South Carolina and Jersey grow very liberal quantities, and also Florida. The probable acreage of watermelons in Georgia during an average season is about 30,000 acres, which net in the neighborhood of \$500,000 to the growers, with the transportation companies getting over \$1,000,000. The acreage of melons this year has been much larger than last, as prices realized during the last two or three seasons have been so low that farmers gave other products more attention, but this season will doubtless be one of the heaviest melon seasons or record. Georgia growers thought their cropwoid be ruined by insects this year, and the Department of Agriculture made an investigation and discovered that the black bug which was thought to be damaging the plants was nothing more than an ordinary beetle attracted to the plant by the fertilising material and was deign on material damage, though some damage was found being done by cut worms and wire worms, and the department suggested to growers to plow in the fall and leave the land bare during the winter. Then in the early spring, as soon as grass begins to come up in adjoining fields, the fields which are to be devoted to melons should be planted with grass, or any other green vegetation which has previously been poisoned by being sprinkled with grass, or any other green vegetation which has previously been poisoned by being sprinkled with grass, or any other green vegetation which has previously been poisoned by being sprinkled with grass, or any other green vegetation which has previously been poi

WHEAT PRICES ARE TOO LOW

Estimated Decrease of the Surp'us for Ex-

spite of reports of serious injury by rains in Texas and Louisiana. A light buying by northern spinners surprises the market, for their tak-ings have been more than enough for the year's

consumption and returns show a great decrease in exports of cotton goods.

Speculation has even spread to the wool market, and with an advance of about 1 cent in prices the sales at Boston have been the largest ever known for the week-14,067,900 pounds, against 3,836,000 pounds in 1892. In four weeks of June sales have been 16,222,465 pounds domestic and 17,451,500 pounds of foreign, but in 1802 they were 13,840,750 pounds of demestic and 10,427,500 pounds of foreign. A growing belief that the domestic clip is short and an idea that the coming London cllp is short and an idea that the coming London sales, beginning July 2, will show higher prices, have been more petent than a little increase in the manufacturing demand, and the price has risen at all markets. Light weights and mixed goods hesitate and some are lower than a year ago, but since the Washington mills opened clay worsteds at a slight advance other medium and batter grades have been stronger in tone. The labor troubles are passing with frequent advances in wares.

better grades have been stronger in tone. The labor troubles are passing with frequent advances in wages.

Copper has been strengthened by a large sale of Calumet & Hecha for export at 10% cents, which is now quoted, while tim is slow at \$14.0, and lead at \$2.70k. Iron still advances, Besemer selling for \$12.80 at Pattsburg and grey forge at \$11.80; a further advance in structural forms is expected; the western demand for steel rails at the advance of \$2 per ton is quite good; the rise in bar is maintained, and plate and sheet mills are crowded, so it is difficult to place orders at current prices.

The half yearly report of failures next week will include about 6,200, against 7,600 for the first half of last year, with seets of about \$8,000,000, against \$10,578,152 last year. But for the condange concern, the aggregate would be nearly \$2 per cent less than last year, and the manufacturing liabilities \$2 per cent less, but including it the manufacturing liabilities will be about \$40,000,000, against \$41,376,120 last year, and the trading \$4,000,000, against \$41,376,120 last year, and t

BRADSTREET'S REVIEW OF TRADE Continued Advance in Iron Prices Surprises Even the Trade.

NEW YORK, June 28 .- Bradstreet's temorrov will say: Dominating business conditions of the week are the continuation of the large demand for and further increase in prices for iron and steel, further increase in prices for iron and steet, which have surprised even the trade. The jump in rail prices and scarcity of, and higher quotations for plates and mails have tended to produce temporary scarcity.

Improving wheat conditions have finally convinced many in the trade that there is likely to be fully 425,069.00 bushels harvested in the United States this year, which, with the probable "available" surplus of 56,069.00 bushels being carried over at this time, points to only 10,099.00 bushels, and possibly 119,099.00 bushels or more, available for export during the next twelve months, which is less than in any year since 1890. With short crops abroad in some instances this can hardly fall to bring a higher range of prices. It will doubtless prove disappeinting to learn that the exports of wheat and flour as whent), both coasts, from the United States and Montreal, have only amounted to 1.946.422 bushels, against 2.87.690 bushels last week. The decrease is largely of flour shipments from Newport News. Boston, New York and San Francisco. The exports in the corresponding week a year ago were only 1.17.000 bushels, 1.571.090 bushels two years ago and \$215,000 bushels in the fourth week in June. 1892.

There are a few evidences of revival of general trade at the south, but merchanics at almost all leading cities in that region report that demand continues very moderate and collections are slow. General business on the Pactific coast continues in contrast to that elsewhere. Increases are reported in several lines from Seattle, where a glass factory is to be built, and importations of British in plate have been received. Relatively less activity is reported at Tacoma. Portund asmounces the Oregon fruit crop will be a large one, but there is no change in the general business of the many form the mills at Vailejo, after the suspension of one year. The only changes west and northwest are continued which have surprised even the trade. The jump in

Better Class of Woolen Goods Strouger and Prices Higher - Steel Rails Taken Liberality at the Advance of \$2 Per Ton.

NEW YORK, June 28.—R, G. Dun & Co.'s Weekly Review of Trade, which issues to morrow, will say:

Business is better, although the crop outlook affecting prospects beyond the near future is a little less distinct. There is more ground for doubt about winter wheat are correct. Receipts for the week are relatively small, but for four weeks have been 5.168,614 bushels, against 5.784. 528 bushels last year, while Atlantic exports, four included, have been for four weeks 4,912,729 bushels, last year, while Atlantic exports, four included, have been for four weeks 4,912,729 bushels for four weeks 4,912,729 bushels, recent, and red for the downer of the speculation on 'Change Was the Break in Long Strake, Includent in the disturbing the feature of the speculation on the Stock were through an the market and bears sold freely. On the way down stop orders were uncovered, which affect to the volume of sales, and the speculation became almost panicky. In the middied of the affermoon the decline was cheeked by a covering movement, which anded to the closing dealings. The posting of a notice on the Stock exchange explaning that the United States Rubber company stock would be stilled. There is more ground for doubt about winter wheat are correct beyond the near future is a little less distinct. There is more ground for doubt about winter wheat and cotton than a week ago, and threshing receipts are comparatively low, though the prospects for spring wheat are exceedingly good. The price, a quarter of a cent lower for the week, is beyond mistake too low, if the latest impressions of injury to winter wheat are correct. Receipts for the week are relatively small, but for four weeks have been 5.168,644 bushels, against 5.794. 528 bushels last year, while Atlantic exports, flour included, have been for four weeks 4,912,729 bushels. per cent net; General Electric, rose a per cent to M, receded to Mh, closing at a raily of 1% per cent.

The general market was of course affected by the break in the industrials, but only to a limited extent, except in a few instances. In the early trading prices rise from ¼ to 2½ per cent. The improvement was ascribed to the feeling of confidence inspired by the trunk line agreement. Then came the great collapse, in which the grangers receded from 1 to 2½ per cent, the latter Burlington; Tennessee Caal, 2 per cent, the latter Burlington; Tennessee Caal, 2 per cent, and the general list from ¼ to 1¼ per cent. During the afternson there was a taily of, 1½ per cent in Burlington, 1½ per cent in Rock Island, 1½ per cent in Tennessee, 1¼ per cent in Wheeling & Lake Erie, and from ¼ to 1 per cent in other stocks. The market was irregular in the final trading and closed unsettled in tone. The bond-speculation was strong in tone during the early dealings, but the subsequent demosalization of the stock market led to a shattering of values of mirgages. The sales were 11430.00.

Feature of : peculation on 'Change was the Cattle Receipts for Five Days Show a Slight

Fat Cattle Scarce but the Demand Strong for the Few on Sale-Few Hogs on Sale Taken at Higher

Prices. FRIDAY, June 28.

packers, which cut down the number on sale to twenty loads, or 523 head. Small as the offerings were, they were still in excess of the receipts of a week ago.

The offerings of fat cattle were very light, and there was nothing very choice in the yards. There was, however, a fair demand, and such cattle as were to be had commanded good, strong prices. A load of handy 1,192-ib, steers sold at \$4.75 and some less desirable loads at \$4.25 and \$4.0. It was a dark, rainy morning and every one appeared anxious to get under shelter, and the trade was soon over. was soon over.

There was about the usual light supply of cows and helfers in the yards, hardly enough to go around among the buyers. The prices paid did not show any material change from

paid did not show any material change from yesterday.

The stocker and feeder trade was dull owing to the few cattle on sale. Dealers claim that there are orders here for quite a good many good weight feeders. Desirable feeders have been picked up very quickly at strong prices during the past two or three days. Light stockers, even those of good quality, are not in so good demand, and the feeling on that class of cattle is weak. Representative sales:

HOGS—There were only thirty-five loads of hogs in the yards, a considerable decrease from the fifty-four here yesterday. At the same time there were a few more hogs here than on Friday of last week. The offerings did not show much change from yesterday in the matter of quality though there was a better top today.

Under the influence of favorable reports from other market points and a good demand on the part of the local packers, the trade here was fully 5c higher on an average. In some instances hogs may have been sold that did not show that much of an advance, but on the other hand, some of the medium weights experienced more than a 5c advance. Everything was sold, and an earl clearance was effected. One prime load of heavy hogs sold at \$4.55, as against \$4.75, the top yesterday, but today's load averaged seventy-nine loss more. Medium weight to heavy hogs seld largely at from \$4.70 to \$4.5, and the lighter loads at from \$4.55 to \$4.5. Representative sales.

CHICAGO LIVE STOCK.

In Cattle There Was a Dull, Dragging Mar

ket All Day, CHICAGO, June 28.—In cattle there was a dull, dragging market, such as is usually witnessed on Friday. The receipts were estimated at not over 4,000 head, but the supply was enough to satisfy the light demand that existed and fat cattle were the only ones that sold without any difficulty at the light demand that existed and fat cattle were the only ones that sold without any difficulty at steady prices. Light handy cattle were the favorites, and heavy steers that showed any coarseness were hard to dispose of. Texas cattle were weak, with receipts of about 1550 head. Steers sold at from \$3.50 to \$1, cows and buils at from \$3.50 to \$5, cows and buils at from \$3.50 to \$5, cows and buils at from \$3.50 to \$5, 60 and Texans at from \$2.5 to \$5.55.

About 13,000 hogs were offered on the market today, including \$0.00 left over from yesterday. That was not a very large supply at a time when the demand is so good as at the present time, and trade started in brisk at further advances, the crack sale of the day consisting of an extra fine lot of big 318-10. hogs at \$5.19. That was loc bigher than any hogs brought yesterday, and is the top price of the season. Aside from fancy hogs there was not much change, other kinds being active at firm prices. The supply was pretty well sold at from \$4.50 to \$5.65 for heavy, at from \$4.55 to \$4.85 for mixed, and at from \$4.45 to \$4.80 for common to choice assorted light weights. The buik sold at from \$4.50 to \$5.

Great numbers of sheep and lambs have been coming here from various parts of the west and Texas, and a large part of the daily offerings consisted of spring lambs, for which the demand was so lively that the best lots advanced fully 25c per 100 lbs. Eales were made from \$3 for common lambs up to \$6.15 for the best, while sheep sold all the way from \$1.50 to \$5.00 interior up to from \$4.50 to \$3. for interior up to from \$4.50 to \$3. for interior up to from \$4.50 to \$3. for westerns, and at from \$2.10 to \$5 for Texans.

Receipts—Cattle, 4.000 head; calves, 500 head; or Texans. Receipts Cattle, 4,000 head; calves, 500 head; logs, 20,000 head; sheep, 6,000 head, Ransas City Live stock.

WOOL MARKET,

Sales of Domestic and Foreign Product at Boston Very Heavy, BOSTON, June 28.—The Beston Commercial

Builtein will say tomorrow: The sales of do-mestic weel this week have been frequently ex-creded in Boston, but the combined sales of domestic and foreign have been exceeded only once. Territory delaths has advanced he for the second time this week, to 35c. Kentucky quarter-bled combines has advanced. FRIDAY, June 28.

Today's receipts of live stock were 1,006 cattle, 2,819 hogs, 943 sheep and no horses, as against 1,329 cattle, 4,675 hogs, 1,278 sheep and 25 horses yesterday, and 380 cattle, 2,515 hogs and no sheep on Friday of last week. The receipts for the week so far are 6,160 cattle, 14,715 hogs and 4,398 sheep, as against 4,199 cattle, 16,877 hogs and 2,872 sheep for the same period last week. It will be noted that there has been a large gain in cattle and sheep receipts, while there has been a decrease in the receipts of hogs.

CATTLE—The receipts of cattle of all kinds were thirty-six loads, as against fortyeight yesterday. As usual of late there were a number of loads consigned direct to the packers, which cut down the number on sale to twenty loads, or 528 head. Small as the offerings were, they were still in excess of the receipts of a week ago.

The offerings of fat cattle were very light, and there was nothing very choice in the yards. There was however, a fair demand, and such cattle is week to be had commanded good, strong prices. A load of handy 1,192-1b, steers sold at \$4.75 and some less derivative to the dark, rainy morning and every one appeared anxious to get under shelter, and the rade was soon over.

There was about the usual light supply of

FIVE MEN CRUSHED TO DEATH

Brick Wall Fell Without Warning and Caught a Large Number of Firemen.

SEVERAL PERSONS CUT BY FALLING GLASS

Many Others Seriously Injured in One of the Most Disastrous Fires Ever Reported from the Northwest-Dead Rodies Recovered.

MINNEAPOLIS, June 28 .- Last night's fire in the wholesale crockery establishment of McDonald Bros. on First avenue south near Third street is the most disastrous in the loss of firemen's lives in the history of the Minneapolis fire department. Five brave fellows lie mangled and lifeless and six of their comrades are writhing in agony at various hospitals. Of these six one at least seems doomed to die, while in another case the issue is in doubt. The great five-story brick building, with its enormous stock of crockery, is in utter ruin, and the blackened walls, broken windows and drenched floors of the adjoining buildings bear mute evidence to the victory won by the department against great olds in confining the flames to the place of their origin. The list of the killed is as follows:

FRANK EUHLEIN, Heutenant. WALTER RICHARDSON.

JOSEPH W. HOY. JOHN HORNER.

CHRISTIAN SANDE. The seriously injured are:

John Gray, broken knee cap and other Sight injuries.

Ernest C. Caldwell, captain, back badly strained and internal injuries; may die.

Henry Gau, back and kidneys badly inared: will die

W. H. McDonald, lieutenant, badly crushed. Ed Thieland, captain, badly bruised about ead and body. Besides the firemen who were injured were

he following private citizens: Theodore Velt of Anoka, Minn., cut by falling glass,
William Breitenstein, Minneapolis, cut by

falling glass.
Paul Johnson, Minneapolls, cut by falling

glass.

The heavy brick wall which wrought the injury fell almost without warning. The flames had been ke, t well within the building by iron shutters until the interior was a blazing furnace. The newly dug cellar of a proposed building permitted access on one side, and this point of vantage was occupied by a score of firemen, who were directing a half dozen streams into the building. Sudhalf dozen streams into the building. Sud-denly the roof fell with a roar. The crash carried down the girders, the side wall wavered for an instant and then toppled over on the heads of the firemen beneath. The multitude that stood watching were breath-less and silent. The vast cloud of dust and smoke that arose from the debris choked out smoke that arose from the debris choked out the flames momentarily and there was no sound save the breathing of the engines. Then the police and willing helpers rushed forward and pulled the mangled forms of the dead and hiving from under the hot bricks. The dead were so mangled that it was some time before all could be identified. The loss is \$40,000 on the building and \$60,000 on the stock and is total. The insurance is ample to cover this.

resorts of the east are now on sale. Com-plete list of routes and rates, with any fur-ther information desired, will be promptly furnished on application. B. P. Humphrey, T. P. A., Kansas City, Mo. C. K. Wilber, West. Pass. Agt., Chicago.
