

COMMERCIAL AND FINANCIAL

Wheat Was Very Weak, but Became Firm Toward the Close.

OPENED AT MONDAY'S FINAL FIGURES

Corn Was Extremely Heavy Until After the Estimated Receipts for Today Came to Hand—Stocks and Bonds.

CHICAGO, July 2.—Wheat was very weak during the forenoon today, but became firm on liberal cash business, winding up with a gain of 5c per bu. in September and 3c in July. Corn was very heavy today, and it was only toward the close of the day that it was firm. Corn traded with a net decline of 5c. Oats are 5c lower for September and provisions a shade under yesterday's values.

Oats are 5c lower for September and provisions a shade under yesterday's values.

OMAHA GENERAL MARKET.

Condition of Trade and Quotations on Staple and General Groceries.

The demand for eggs is built and dealers are not willing to sell at the price in order to move any number of cases.oultry is not quite so strong as it was at the close of last week. Today's receipts were lower.

The latter market is rather uninteresting so far as local conditions are concerned. The prospects for profitable holding of butter this year are not especially bright, and taken into consideration the rather high prices for butter in the market, it is difficult to get a close estimate of the old stock of all grades and classes will approach the market at a price which will be a good one and may possibly reach \$20.00. This low price is certainly a heavy one, and it is probable that there must be added to it other heavy losses sustained by those who accepted the market price for their butter.

There did not appear to be much doing in the local market for butter. The market is very quiet and the price is not high. The market is very quiet and the price is not high.

STOCKS AND BONDS

Renewed Efforts Were Made to Depress Renewed Values on Change.

NEW YORK, July 2.—Renewed efforts were made today to depress values on the stock market by circulating rumors of prospective shipments. It is true that a banking house which does business with Cuba expects to send some French gold to Havana, which has been received here in transit from Havana, but this transaction is a purely commercial affair in the ordinary course of business, entirely unconnected with the gold export movement. There is no reason to believe that the rumors are connected with the gold export movement, and the market is not likely to be affected by the strength of them. The short interest, which took alarm at the confident tone of yesterday's trading, went to the market at the opening today in excess of \$100,000,000.

The market opened at a high level, but soon fell under the weight of the short interest. The market is not likely to be affected by the strength of them. The short interest, which took alarm at the confident tone of yesterday's trading, went to the market at the opening today in excess of \$100,000,000.

The market opened at a high level, but soon fell under the weight of the short interest. The market is not likely to be affected by the strength of them. The short interest, which took alarm at the confident tone of yesterday's trading, went to the market at the opening today in excess of \$100,000,000.

OMAHA LIVESTOCK MARKET

Largest Run of Cattle Seen in the Yards for Some Time.

DEMAND GOOD AND PRICES STEADY

Offerings of Hogs Liberal and on Unfavorable Eastern Advance Prices Fell Off 5 Cents—Yards Were Cleared at Close of Business.

TUESDAY, July 2.—Today's receipts of stock consisted of 1,948 cattle, 3,637 hogs and 76 sheep, as against 1,652 cattle, 3,458 hogs and 1,230 sheep on Tuesday of last week.

Receipts for the week thus far are 2,200 cattle, 4,572 hogs and 1,384 sheep, as against 2,456 cattle, 4,283 hogs and 2,172 sheep Monday and Tuesday of last week.

CATTLE—There were more cattle in the yards today than have been here in a long time, the total run of 1,948 being over 100 head in excess of the weekly average. The market was very quiet, and prices were very steady. The market is not likely to be affected by the strength of them.

When it comes to the matter of offerings the market the showing is not so good. Thirty loads out of seventy-five received were consigned direct to the packers, leaving the number of cattle on sale 1,130 head.

As usual of late, there was nothing firm in the yards in the way of beef steers. All the same, the market was somewhat better than it has been for some time. The market is not likely to be affected by the strength of them.

The market on butchers' stock, cows, heifers, etc., was in about the same condition as on previous days, the market being steady, with no new features of importance. The market is not likely to be affected by the strength of them.

Small bunches of stockers and feeders were offered in the yards today, but were not taken at steady prices. Representative rates: No. 1, 100 to 150; No. 2, 100 to 150; No. 3, 100 to 150.

WEATHER CROP BULLETIN

Last Weather Rather Too Cool for the Best Possible Conditions.

RAINFALL ALMOST UP TO NORMAL

Wet Ground and Cloudy Skies Give the Weeds a Chance to Catch Up the Corn—Rain Delays the Harvest.

Weekly weather crop bulletin No. 13 of the Nebraska weather service, cooperating with the United States bureau, issued from the central office at the University of Nebraska, Lincoln, under direction of G. D. Swezey, meteorologist of the Nebraska experiment station, for the week ending July 1, 1895:

Normal rainfall for the week ending July 1, 1895: 1.30 inches. Actual rainfall: 1.25 inches. The rainfall for the week ending July 1, 1895, is 1.25 inches, or 0.05 inches below normal.

The weather for the week ending July 1, 1895, was generally cloudy with occasional showers of rain. The temperature was moderate, and the ground was wet.

The crops are in good condition, but the wet ground and cloudy skies have given the weeds a chance to catch up with the corn. The harvest is delayed by the rain.

The weather for the week ending July 1, 1895, was generally cloudy with occasional showers of rain. The temperature was moderate, and the ground was wet.
