Hayman of Grand Island, another scratch man, came in third, with two others closely following.

This ended the racing, and the wheelmen and wheelwomen were tendered a reception and ball at the city hall this evening. The high terms of their treatment while in the Midway city, and Omaha has reason to be proud of her wheelmen. Eber-sole gave universal satisfaction as referee and there was no kicking on Daxon, who was Ru the official starter. Plyley covered himself with glory, and the Googlers showed that were proud of him. An effort is being made by Lincoln to have the next meet there, but they can never get a better track than the Kearney track has been this year, nor will the meet have any better manage-

It was an ideal day for a trial of light weather sailing on the part of Valkyrie. At the start Alisa crossed the line a dozen lengths ahead of her opponent, and on the startourd tack, off Weinys castle, four miles from the start Valkyrie had weathered Alisa. In tacking off she seemed to saidenly wake up, was perfectly sailed by the wind, and both weathered and head-reached Alisa. As Valkyrie squared around for the run home she set a big tow-footed bowsprit spinnaker, the first time this kite was ever hoisted. It pulled her along famously. Her balloon spinnaker was holsted shortly afterward, and in spite of all this head weight, she did not tip by the head, and ran hardlike from Alisa and finished a mile and a hulf ahead.
