est-Shippers Hit Up the

Bears in Wheat Were Unable to Follow the Government Crop Report.

THAT CEREAL WAS WEAK AT THE CP. NING

Bulletin on Grain's Condition Was the Dominating Influence in Corn for a Short Time, But that Was Forgotten Early.

CHICAGO, July 11 .- The bears in wheat today were unable to follow up the government crop report by a smash in the price. September is 1%c above yesterday's close. Damage to spring wheat, small receipts and some revival of inquiry for eastern consumers were the reasons for the advance. Corn rose 1c, cats closed the higher and provisions made most gains. Wheat started weak, and for half an hour it looked as if the bears had renewed their lease of the market. At the end of that time, however, the crowd had come around to look more critically at the bears' presentment of the position, and did not for very long accept the bearish construction which was at first being based upon yesterday's government re port. It was soon recognized that the knowledge now possessed of damage to considerable extent of spring wheat in the northwest since July 10 was an additional inducement to embrace the long side, and majority soon began to embrace it. damage reports were again numerous, and were, many of them, somewhat sensational Duluth dispatches reported an immense bus iness done there yesterday in each wheat to go to a miller in a good wheat raising to go to a miller in a good wheat raising county in this state. Under such stimulating news, the market became quite buoyant. No attention was bestowed upon the foreign market quantitions or the export clearances, or anything else which on ordinary days influence the prices. Liverpool opened weak and 4d lower, and declined another penny per cental, but the one fact of damage to the spring wheat crop dominated everything and prices continued soaring until about half an hour from the close. September wheat had risen from 6th, the lowest price it sold at near the opening, to 5th, and a few minutes from the close it was bringing 6th, c. Chicago received forty-one cars, and the total receipts at Chicago, St. Louis, Toledo, Detroit and Kansas City were only 72,000 bu, and Duluth receipts were 119 cars, compared with 16t cars a year ago. Exports of flour and wheat from Atlantic ports were 20,000 bu.

The government report was the dominating influence in corn for a short time near the opening, but that was all forgoven in half an hour. The fact that the present commercial stocks are rapidly disappearing and that the prospect of replacing again from the old crop is very slight, became the ruling factor, although the hew crop futures were also slightly affected in sympathy. Today's receipts were 170 cars and the shipments 470,000 bu. The total receipts

futures were also slightly affected in sympathy. Today's receipts were 170 cars and the shipments 470,000 bu. The total receipts at the primary markets were 117,000 bu, and the shipments from the same 507,000 bu. Estimated recipts for tomorrow, 190 cars. At the opening from 4k down to 42% were current for a second, and thence an advance began which took the price up to 44% and from 44% to 44%, and was current at the close.

from 4%c to 4%c, and was current at the close.

The early market for onts was fairly active and prices lower, selling off ic on a steady decline. The weakness was caused mainly by free selling, in which Cudaby and Shirley Martin figured prominently. Later the market railied and recovered the early loss. Shorts partook freely of the liberal offerings, and created the upturn. The influence of wheat and corn was also felt in the advance. September started at from 13%c to 23%c, fell off to 22%c, sold up to 23%c again, and closed with that price bid. Provisions benefited somewhat from the small run of the grain markets, and closed with an addition of about 7%c to yesterday's quotations for pork, while lard and ribs gained 10c each.

Estimated receipts for Friday: Wheat, 30 cars; corn. 190 cars; oats, 155 cars; hogs, 16,000 head.

IRON TRADE CONTINUES TO IMPROVE Heavy Inroad on Unsold Stocks Made Last

Month. CLEVELAND, July 11.-The Iron Trade Review his week will say: A further heavy inroad in unsold stocks of pig iron was made in June, according to Western Pig Iron association return and while another month will show quite an in-crease in production the recent resumptions have cot yet told strongly on the column of active capacity. The fact that even under the latest dvances buyers of foundry iron are still trying o make purchases beyond time limits set by nest producers would indicate that the advance most producers would indicate that the advance has not yet expended its force, and that foundries are getting work that are making them more ready to fill at current prices than they were to buy in 100-ten lots four months ago. The eastern Pennsylvania advance of close to \$1 a ton, bringing the Lehigh Valley iron to a basis of \$12.50 for No. 2 X foundry and gray forge to \$11.50, was an index of actual conditions—the withdrawal of southern competition through the taking up of product for several months ahead and the engagement of the capacity of all eastern furnuce for from sixty to ninety days, ahead. Hessemer iron, taking the average of the week a sales, is fully 50 per cent higher than in the preceding week. Several blocks of metal were sold in the latter portion of last week at \$13.25 in the valley. A later sale is reported at \$13.50. Consumption is still plainly in excess of production and the tonnage of finished steel in all forms shows no signs of relaxing. The billet market is becoming more conspicuous by the absence of sales. There are few buyers and fewer sellers.

GRAIN SPECULATORS HAVE A KICK Information Concerning the Crop Report Given Favorites in Advance.

NEW YORK, July 11.-There was much kicking among the grain men on the Produce ex-change today over the leakage of the crop re-port. Insiders, it is alleged, are about twentyour hours ahead of the rank and file tuders in getting the report, or at least figured so closely that they work on a practically sure basis. A prominent broker who is indignant at the alleged tips from Washington came into possession yesterday noon of figures on the conpossession yesterday noon of figures on the condition of spiring and winter wheat, said to have come direct from Washington. He had received them through a friend, and refused to give the names or figures, but to assure the doubters that he had a sure tip the figures were placed in an envelope, signed with the signatures of two brokers and put away. This meaning the figures were compared with the edited conditions sent out in the crop report. On spring wheat the tip was 101, against 102, government figures, and the winter 65, against 65,8 efficial. The significance and importance of this will be apparent when it is stated that the best local guessers yearerday were for conditions of 98.8 and 75.5 for spring and winter, it was said the northwest also had a straight tip on the government report, for they were heavy sellers in this market yesterday.

STOCKS AND BONDS.

Crops Were the Chief Factor in the Specula-

tion in Rallway Securities. NEW YORK, July fi.-The crops were the st on the Stock exchange today. Private adces from the west were directly contrary to the erms of the government report, which foreshadowed an unusually heavy corn crop and a good spring wheat crop. The bears used the un-favorable reports to depress prices and suc-ceeded in forcing down the grangers and other stocks of the railway group, despite the fact that the pessimistic views received no confirmastocks of the railway group, despite the fact that the pressimilate views received no confirmation from uninterested sources. This industrial section was marined by cliques of professionals, who are in the control of these stocks for the present. The speculation was in the main in the names of traders who are now chiefly bears. The foreigners bought early and became sellers later, but the operations did not affect the market to any appreciable extent.

At the operations did not affect the market to any appreciable extent.

At the opening a firm tone pervaded with Chicago Gas seiling up 1% per cent, and the other stocks traited in a fraction, except New England, which broke 2% per cent. The grangers were son attacked and gave way 5 to 4 per cent. Chicago Gas seiling off 1% per cent; Missouri Pacific 1% per cent, and Sugar and Tobacco, 1 per cent, and traily took a downward turn, Leather, preferred, receding 2% per cent; Sugar, 2% per cent, Chicago Gas and Tobacco, 1 per cent. At the lower figures there was covering of short contracts, and a general improvement in prices followed, which extended to only a fraction. The market closed firm, but at a general decline of 1% to 2% per cent on the general last. The sum total of the sales in the bond market was but \$1,080,090, the smales they was firm, but there are few changes of hote in prices.

The Evening Post's London cabbegram says: tion was firm, but there are few changes of note in prices.

The Evening Post's London cablegram says: There was no diminution of the activity in Kaffirs, but the other markets were quister. Americans were very steady in tone, and the variations in prices were sight. Atchison was exceptionally good. Canadian Pacific relapsed nearly a dollar on realizations. The coin and buillon in the Bank of England decreased 166-1690 this week, although only 17,000 was the net efflux of gold for the week, viz. Two hundred thougands lbs. to the Cape, 160,000 to Constantinople and 110,009 received from Australia and 113,000 in burs bought.

He left no letters or papers, except a memo-randa giving his wife's address and some

small debts. At the last term of district court Judge commissioners cut the amounts when they audited the bills to \$100 each. The attorneys have appealed from the award of the commissioners to the district court.

B. & M. System Preparing to Conform to the Uniform Automatic Coupler Law.

CHANGE WILL INVOLVE MILLION Cars on Most Roads Will Have to Be En-

larged or Lowered in Order to Meet the New Situation.

LINCOLN, July 11 .- (Special.) - David Hawksworth, general superintendent of the mechanical department of the B. & M. rallroad, is in town. He has given orders to have all freight cars of that line prepared for the era of uniform automatic couplers to conform to the new federal law, which goes into effect next year. This law fixes uniformity in the height of all cars above the tracks run in the United States. By this uniformity cars on one line can be coupled to those of another without endangering the lives of switchmen or brakemen making the connections. The Burlington has about 40,-000 freight cars which are all too low. The work of raising them to the height prescribed by the law will be one of considerable magnitude. The Jenny automatic coupler is the one adopted by this company. By railroad men it is considered one of the best and safest for the men.

NOTES FROM THE STATE HOUSE Lincoln County People Ask Aid to Avert

Starvation-Militia Inspection, LINCOLN, July 11 .- (Special.) -- Governor Holcomb has received the following petition from a number of citizens of Lincoln county. dated Moorfield, Neb.: "We, the undersigned citizens of Lincoln

county, state of Nebraska, do hereby petition

your honor to provide some means of relief for the destitute of this part of Lincoln county. As we have had no kind of aid since about the 1st of May, many are now destitute of the necessaries of life and must have help immediately or starvation is in-evitable, having no possible means of obtain-ing food for ourselves and families until we can harvest a crop and dispose of the same."
The Deer Creek relief committee signs the petition with the added statement that it be-lieves the contents to be true. Accompanying the petition is a private letter from E. E. Smith, giving examples of cases of destitu tion. The governor referred the communica tions to Secretary Ludden, who says that there is sufficient in the treasury for their relief and will immediately send out a ton of flour. Deputy Secretary of State Evans says that the signers of this petition are all good people and reliable. But he does not believe there is any destitution in Lincoln county that the authorities cannot relieve if the peo-ple will only let their wants be known. He is of the opinion that they would prefer to receive aid from the state and from a dis-tance than from the county in which they

yet sent in their abstracts of assessment to the state auditor. They are due on the 19th nst, and the Board of Equalization meets of the 15th: Boyd, Brown, Davis, Douglas, Fur-nas, Gage, Hooker, Keith, Keya Paha, Lanaster, Nance, Saunders and Sheridan Adjutant General Barry and Major Feche will tomorrow inspect company A, First regi-ment, Nebraska National Guards, at York. George W. Martin, orderly sergeant company A, has been elected captain of the compan to succeed Captain Lundsen, promoted to b inspector general. From York General Barry and Major Fechet will proceed to Stroms-burg to inspect company D. Second regiment. Second Lieutenant W. R. Fitch, company H Second regiment, Tekamah, has resigned, the resignation being accepted, and an election will be ordered. In regard to the increasing number of resignations, one reason ascribed is the rigidity of inspection under the present regime in the state. Major Fechet seems to be one who believes in strict discipline and also that soldiering, even in the state militia

CHASE COUNTY CROPS ARE GOOD Prospects in that Section of the Country Are Excellent.

IMPERIAL, Neb., July 11.-(Special.)-A drizzling rain began falling in Chase cunty early yesterday morning and has continued all day, fully one inch of water having ing fallen. The rain was most timely, as the ground was becoming quite dry again and crops were beginning to suffer for want of moisture. The crop outlook for this county is daily improving. There will be a quarter of a crop of small grain, and with a late fall fully half a crop of corn. While the corn was late in planting it has made good and steady growth. Had the spring rains been two weeks earlier the crops of this county would have equalled those of 1891. is there have been ample rains since. state and vegetable crop will be abundant, and more than supply all wants of the county. All kinds of vegetation making most wonderful growth. grass on the prairies and ranges is rank and as fine and good as ever known in the county. Stock of all kind is in splendid condition. The people feel very much encouraged, and those farmers who remained here and went to work in the spring and put out crops will raise an ample sufficency to acet all their needs during the winter and start themselves out with plenty for next pring's work. From present prospects there

will be enough raised in the county to fully supply all home wants. Denial from Oscar Bring.

EMERSON, Neb., July 11 .- To the Editor f The Bee: My attention has been called o a special dispatch from Pender, published in The Bee on July 4, in which the following statement appears;

"An incident in connection with the Win-ebago land leases came to light today. It is o the effect that bribes have been given and sken at the agency for the procuring and securing of leases on favorable terms. Oscar Bring, a man of excellent reputation, made an affidavit to Inspector McLaughlin to the effect that in order to secure a lease at the agency on favorable terms he had to pay \$150 the clerk in charge; that he gave his note for this amount to the clerk in addition to the amount he paid the Indians."

I desire to state that the above is not true. never made any such affidavit to Inspector McLaughlin, and never gave \$150 in money a note for that amount for any such purose. Neither am I aware of any bribes aving been given for the purposes of securng leases. Your correspondent should be should confine himself to facts.
